**FHLBank
Chicago**

Federal Home Loan Bank of Chicago

(Exact name of registrant as specified in its charter)

Federally chartered corporation

36-6001019

(State or other jurisdiction of incorporation or organization)

(I.R.S. Employer Identification No.)

**433 West Van Buren Street, Suite 501S
Chicago, IL**

60607

(Address of principal executive offices)

(Zip Code)

Registrant's telephone number, including area code: **(312) 565-5700**

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
---------------------	-------------------	---

Securities registered pursuant to Section 12(g) of the Act: **Class B Capital Stock, par value \$100 per share**

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.

Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filings requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer", "accelerated filer", "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one)

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Emerging growth company

If emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standard provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report.

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements.

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b).

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

Registrant's stock is not publicly traded and is only issued to members of the registrant. Such stock is issued and redeemed at par value, \$100 per share, subject to applicable regulatory and statutory limits. At June 30, 2023, the aggregate par value of the stock held by current and former members was \$3,781,928,480. As of January 31, 2024, registrant had 32,562,704 total outstanding shares of Class B Capital Stock, including mandatorily redeemable capital stock.

Where to Find More Information

The Federal Home Loan Bank of Chicago^a maintains a website located at <http://www.fhlbc.com> where we make available our financial statements and other information regarding us and our products free of charge. We are required to file with the Securities and Exchange Commission (SEC) an annual report on Form 10-K, quarterly reports on Form 10-Q, and current reports on Form 8-K. The SEC maintains a website that contains these reports and other information regarding our electronic filings located at <http://www.sec.gov>. Information on these websites, or that can be accessed through these websites, does not constitute a part of this annual report.

A **Glossary of Terms** can be found on page 124.

Introduction

We are a federally chartered corporation and one of 11 Federal Home Loan Banks (the FHLBs) that, with the Office of Finance, comprise the Federal Home Loan Bank System (the FHLB System or the System). The FHLBs are government-sponsored enterprises (GSE) of the United States of America and were organized under the Federal Home Loan Bank Act of 1932, as amended (FHLB Act), in order to improve the availability of funds to support home ownership. The mission of the FHLBs is (a) to provide financial products and services to their members and housing associates, including, but not limited to, secured loans known as advances, that assist and enhance such members' and housing associates' financing of: (1) housing, including single-family and multi-family housing serving consumers at all income levels; and (2) community lending; and (b) to serve as a reliable source of liquidity to their members through all economic cycles.

Each FHLB operates as a separate entity with its own management, employees, and board of directors. Each FHLB is a member-owned cooperative with members from a specifically defined geographic district. Our defined geographic district consists of the states of Illinois and Wisconsin. We are supervised and regulated by the Federal Housing Finance Agency (FHFA), an independent federal agency in the executive branch of the United States (U.S.) government.

As a cooperative, we do business with our members and, under limited circumstances, our former members, as well as providing support for the members of other FHLBs through our role operating the Mortgage Partnership Finance[®] (MPF[®]) Program. All federally insured depository institutions, insurance companies engaged in residential housing finance, credit unions and community development financial institutions (CDFIs) located in Illinois and Wisconsin are eligible to apply for membership. All members are required to purchase our capital stock as a condition of membership; our capital stock is not publicly traded.

"Mortgage Partnership Finance", "MPF", "eMPF", "MPF Xtra", "Downpayment Plus", "DPP", "Downpayment Plus Advantage", "DPP Advantage", and "Community First" are federally registered trademarks of the Federal Home Loan Bank of Chicago.

Mission Statement

Our mission is to partner with our member shareholders in Illinois and Wisconsin to provide them competitively priced funding, a reasonable return on their investment in the Bank, and support for community investment activities.

^a Unless otherwise specified, references to we, us, our and the Bank are to the Federal Home Loan Bank of Chicago.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Membership Trends

The following table presents the geographic locations of our members by type of institution:

	December 31, 2023				December 31, 2022			
	Number of Institutions				Number of Institutions			
	Illinois	Wisconsin	Total	Percent	Illinois	Wisconsin	Total	Percent
Commercial banks	283	135	418	64 %	290	144	434	65 %
Savings institutions	39	18	57	9 %	43	18	61	9 %
Credit unions	51	53	104	16 %	49	53	102	15 %
Insurance companies	47	21	68	10 %	48	19	67	10 %
Community Development Financial Institutions	5	2	7	1 %	5	2	7	1 %
Total	425	229	654	100 %	435	236	671	100 %

The following table presents our FDIC-insured depository institution members by asset size. Community Financial Institution (CFI) is defined by our regulator, the FHFA, as FDIC-insured institutions with no more than \$1.417 billion (the limit during 2023) in average total assets over three years. This limit is adjusted annually for inflation. See the **Glossary of Terms** for "CFI" on page 124 for further details.

As of December 31,	2023	2022
FDIC-insured depository institution member asset size:		
Community Financial Institutions	87.79 %	89.09 %
Larger non-community financial institutions	12.21 %	10.91 %
Total	100.00 %	100.00 %

In 2023, our total membership declined by 17 institutions.

We lost 26 members due to mergers and acquisitions and one member to a voluntary withdrawal. Although 21 of these members were acquired by other members in our district, five were acquired by out-of-district institutions.

We gained 10 new members by adding three credit unions, four banks, and three insurance companies during 2023, as we continue to work toward our goal of building a stronger cooperative by adding new members.

In 2023, 90% of our member institutions used at least one of our core product offerings - advances, letters of credit, or MPF Program products - or Community Investment (as further described below) products.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Business Overview

Our mission-focused business is different from that of a typical financial services firm. As a cooperative, we use our resources to support member utilization of the cooperative, and to support the communities in which members operate.

Our mission is to partner with our members in Illinois and Wisconsin to provide them with competitively priced funding, a reasonable return on their investment in the Bank, and support for their community investment activities. Our vision is to develop and deliver solutions that engage members and Participating Financial Institutions (PFIs), support housing, and create stronger communities.

Our strategy focuses on four primary pillars:

- 1. Engaged Membership:** Highly engaged membership utilizing our solutions to support their liquidity and promote homeownership and community development.
- 2. Housing Leadership:** Remaining a recognized leader in our district leveraging our financial strength, expertise, and the power of our members and sponsors to support housing and community development.
- 3. Operations Enabled by Technology:** Maintaining a technology infrastructure and operating model that is modern, effective, and efficient, allowing for data driven solutions, seamless member interfaces, and nimble execution of products, programs, and services.
- 4. High Performing Workforce:** Developing a highly engaged, mission-focused, and high performing workforce across all levels of our organization that: represents and supports their community, is committed to working within teams, and is dedicated to fulfilling our vision.

Mission Asset Ratio

The following table represents our view of the mission-focused business we do as a cooperative bank.

	2023	2022
Average par value for the year ended December 31,		
Advances	\$ 83,500	\$ 61,924
Mortgage assets (Acquired Member Assets - AMA)	10,533	9,857
Primary mission assets	\$ 94,033	\$ 71,781
Consolidated obligations	\$ 130,429	\$ 101,177
U.S. Treasuries	1,247	1,482
Consolidated obligations less U.S. Treasuries	\$ 129,182	\$ 99,695
Primary mission asset ratio	72.8 %	72.0 %
Supplemental mission assets and activities as of December 31,		
MPF Program Loans held by other third party investors	\$ 23,633	\$ 25,100
Member standby letters of credit	12,601	10,750
Mission related liquidity	13,681	25,006
Small Business Administration investments	2,426	2,355
Housing authority standby bonds purchased and commitments outstanding	539	549
MPF Loan delivery commitments	155	93
Advance commitments	6	81
Member derivatives	2	2
Community First Fund loans and commitments	47	47
Supplemental mission assets and activities	\$ 53,090	\$ 63,983

We provide credit to members principally in the form of secured loans called advances (inclusive of forward starting advances), as well as through standby letters of credit. We provide liquidity for home mortgage loans to members approved as PFIs through the MPF Program. We also serve as a critical source of standby liquidity for our members.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Our primary funding source is proceeds from the sale to the public of FHLB debt instruments (consolidated obligations) which are, under the FHLB Act, the joint and several liability of all the FHLBs. Consolidated obligations are not obligations of the U.S. government, and the U.S. government does not guarantee them. Additional funds are provided by deposits, other borrowings, and the issuance of capital stock. We also provide members and non-members with correspondent services such as safekeeping, wire transfers, and cash management.

The FHFA issued an advisory bulletin which provides guidance relating to how the FHFA will assess each FHLB's core mission achievement. The FHFA will assess core mission achievement by using a ratio of primary mission assets, which includes advances and mortgage loans acquired from members (also referred to as acquired member assets), to consolidated obligations, less U.S. Treasuries held for liquidity purposes in our trading or available-for-sale accounts. The primary mission asset ratio will be calculated annually at year-end as part of the FHFA's examination process, using annual average par values. When the ratio is at least 70% or higher, the FHLB's strategic plan should include an assessment of the FHLB's prospects for maintaining this level and when the ratio is less than 70%, the FHFA expects certain actions with respect to an FHLB's strategic plan to increase the ratio.

Our primary mission asset ratio for the year ended December 31, 2023 was 72.8%.

For a discussion on how the change in business activities with significant members and the loss of such members may negatively impact our primary mission asset ratio, see **Risk Factors** on page 21.

Member-Focused Business

Member credit products, which include advances, standby letters of credit, and other extensions of credit to borrowers, are discussed in detail below.

Advances

We provide credit to members principally in the form of secured loans, called advances. Our advances to members:

- support residential mortgages held in member portfolios;
- support important housing markets, including those focused on very low-, low-, and moderate-income households;
- provide funds to member community financial institutions (CFI) for secured loans to businesses, farms, agribusinesses, and community development activities;
- serve as a reliable source of funding and liquidity;
- provide members with enhanced tools for asset-liability management; and
- provide interim funding for those members that choose to sell or securitize their mortgages.

We make secured, fixed- or floating-rate advances to our members. Advances are secured by mortgages and other collateral that our members pledge. We determine the maximum amount and term of advances we will lend to a member as follows:

- we value the types of collateral eligible to be pledged to us and apply a margin to secure our advances to members, based on our assessment of the member's creditworthiness and financial condition; and
- we conduct periodic collateral reviews with members to establish the amount we will lend against each collateral type.

We are required to obtain and maintain a security interest in eligible collateral at the time we originate or renew an advance. For further detail on our underwriting and collateral guidelines, see **Establishing Credit Limits** on page 65.

We offer a variety of fixed- and adjustable-rate advances, with maturities ranging from one day to 30 years. Examples of standard advance structures include the following:

- Fixed-Rate Advances: Fixed-rate advances have maturities from one day to 30 years.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

- Variable-Rate Advances: Variable-rate advances include advances that have interest rates that reset periodically at a fixed spread to an FHLB discount note rate-based index, federal funds, or some other index (such as the Secured Overnight Financing Rate (SOFR)). Depending upon the type of advance selected, the member may have an interest-rate cap embedded in the advance to limit the rate of interest the member would have to pay.
- Putable Advances: We issue putable, fixed- and floating-rate advances in which we maintain the right to terminate the advance at predetermined exercise dates at par.
- Callable Advances: We issue callable advances in which members have the right to prepay the advance on predetermined dates without incurring prepayment or termination fees.
- Other Advances: (1) Open-line advances are designed to provide flexible funding to meet our members' daily liquidity needs and may be drawn for one day. These advances are automatically renewed. Rates are set daily at the close of business. (2) Fixed amortizing advances have maturities that range from one year to 30 years, with the principal repaid over the term of the advances monthly, quarterly, or semi-annually.

We also offer features designed to meet our members' business needs such as the following:

- Symmetrical prepayment feature where the member would either pay a prepayment fee or prepay the advance below par upon termination, depending on the structure of the advance at the time of termination.
- Commitment feature, called "forward-starting advances", to fund an advance on a negotiated funding date at a predetermined interest rate.

As the market of SOFR-linked products develops, the Bank may consider additional products to meet our members' business needs.

The FHLB Act authorizes us to make advances to non-member housing associates that meet regulatory eligibility requirements including that the housing associate is approved under Title II of the National Housing Act. We currently have approved four non-member housing associates that are eligible to borrow from the Bank. We had \$90 million in advances outstanding to non-member housing associates at December 31, 2023, and \$50 million at December 31, 2022.

For disclosure relating to our five largest advance borrowers as of December 31, 2023, see page 49.

Competition

Demand for our advances is affected by, among other things, the availability and cost of other sources of funding to our members, including our members' customer deposits. We compete with suppliers of both secured and unsecured wholesale funding. These competitors may include investment banks, commercial banks, and other FHLBs when our members' affiliated institutions are members of other FHLBs. Under the FHLB Act and FHFA regulations, affiliated institutions in different FHLB districts may be members of different FHLBs.

Some members may have limited access to alternative funding sources while other members may have access to a wider range of funding sources, such as repurchase agreements, brokered deposits, commercial paper, covered bonds collateralized with residential mortgage loans, and other funding sources. Some members, particularly larger members, may have independent access to the national and global credit markets.

The availability of alternative funding sources influences the demand and pricing for our advances and can vary as a result of a number of factors, such as the regulatory environment, market conditions, products offered, members' creditworthiness, and availability of collateral. Changes to legislation or regulations affecting our members or their use of our products or requiring them to use other products (such as the Federal Reserve discount window), or changes to our members' business models may impact demand for our advances. We compete for advances on the basis of the total cost of our products to our members (which include the rates we charge, required capital stock purchases, and any dividends we pay), credit and collateral terms, prepayment terms, product features such as embedded options, and the ability to meet members' specific requests on a timely basis.

In addition, our competitive environment continues to be impacted by the changes in the interest-rate environment and the extent to which our members use our advances primarily as a back-up source of liquidity as opposed to part of their primary funding strategies. For further discussion of the impact of these and other factors on demand for our advances, see **Risk Factors** on page 21.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Standby Letters of Credit

We may provide members and housing associates with standby letters of credit (also referred to herein as letters of credit) to support obligations to third parties to facilitate residential housing finance, community lending, to achieve liquidity, and for asset-liability management purposes. In particular, members often use our public unit deposit letters of credit as collateral for deposits from federal and state governmental agencies. Letters of credit are generally available for terms of up to 20 years or for a one year term renewable annually. If we are required to make payment for a beneficiary's draw, these amounts either must be reimbursed by the member immediately or may be converted to an advance. Our underwriting and collateral requirements for letters of credit are the same as the underwriting and collateral requirements for advances. Letters of credit are subject to an activity capital stock requirement. If any advances were to be made in connection with these standby letters of credit, they would be made under the same standards and terms as any other advance. For more details on our letters of credit see **Note 16 - Commitments and Contingencies** to the financial statements.

Mortgage Partnership Finance Program

MPF Program Overview

We developed the MPF Program to provide an additional source of liquidity to our members and to allow us to invest in mortgages to help fulfill our housing mission. The MPF Program is a secondary mortgage market business under which we purchase mortgage loans from our members and housing associates and members and housing associates of other FHLBs (together with us, the MPF Banks) that participate in the MPF Program (collectively, PFIs). These mortgage loans are conventional and government mortgage loans secured by one-to-four family residential properties with maturities ranging from 5 to 30 years (MPF Loans).

We purchase MPF Loans to retain in our portfolio for investment, to sell to third parties, or to securitize Government Loans into Ginnie Mae MBS. Our regulatory limit for our investment in MPF Loans held in our portfolio is the lesser of eight times retained earnings or 20% of total assets. Our MPF Loan products are outlined in the chart below.

MPF Product	Mortgage Type	Loan Balance	Held in our Portfolio for Investment?
MPF Original^a, MPF 35^a, MPF 100^{a,b}, MPF 125^a and MPF Plus^{a,b}	Conventional	Conforming	Yes
MPF Government^c	Government	Determined by the applicable government agency eligibility guidelines	Yes
MPF Xtra[®]	Conventional	Conforming	MPF Loans are concurrently sold to the Federal National Mortgage Association (Fannie Mae).
MPF Government MBS	Government	Determined by the applicable government agency eligibility guidelines	Government Loans are held in our portfolio for a short period of time until such loans are pooled into Ginnie Mae MBS.

^a PFIs share in the associated credit risk of these MPF Loan products in accordance with the FHFA Acquired Member Assets (AMA) regulation requirements.

^b MPF 100 and MPF Plus are not currently offered.

^c Government Loans are insured or guaranteed by one of the following government agencies: the Federal Housing Administration (FHA); the Department of Veterans Affairs (VA); Rural Housing Service of the Department of Agriculture (RHS); or Department of Housing and Urban Development (HUD) (collectively, Government Loans).

We provide programmatic and operational support in our role as the administrator of the MPF Program on behalf of the other MPF Banks for a fee. MPF Banks may acquire whole loans from their PFIs to retain on their balance sheet. Other MPF Banks' PFIs that participate in off-balance sheet products sell MPF Loans directly to us.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Member PFIs

Members and eligible housing associates become PFIs of their respective MPF Bank by executing a PFI Agreement that provides the MPF Loan selling and servicing terms and conditions. The MPF Guides supplement the PFI Agreement and provides additional requirements for PFI eligibility including maintenance of anti-predatory lending policies, errors and omissions insurance and a fidelity bond. All of the PFI's obligations under the PFI Agreement are secured under its advances agreement with the MPF Bank. A PFI is required to deliver collateral for its CE Amount (as further discussed below) and an MPF Bank can request additional collateral to secure the PFI's other obligations under the PFI Agreement, if necessary.

Mortgage Standards

For conventional MPF Loans held in our portfolio, PFIs are required to deliver mortgage loans that meet the underwriting and eligibility requirements in the PFI Agreement and the MPF Guides, unless a PFI is granted a waiver exempting a requirement. MPF Loan requirements include:

- A maximum loan-to-value (LTV) ratio of 95%;
- Mortgage loans with LTVs greater than 80% must be insured by primary mortgage insurance (PMI);
- Compliance with all applicable laws documented using standard Fannie Mae/Freddie Mac Uniform Instruments; and
- Meeting the definition of a Qualified Mortgage under the Truth in Lending Act (TILA).

Mortgage loans that are classified as high cost, high rate, Home Ownership and Equity Protection Act loans, or loans in similar categories defined under predatory lending or abusive lending laws are not eligible under the MPF Program. We perform a quality assurance review of a selected sample of MPF Loans for each PFI in order to determine that the loans complied with the MPF Program requirements at the time of acquisition.

For our off-balance sheet and Government Loan products, PFIs are required to deliver mortgage loans that meet the applicable investor or government agency eligibility and underwriting requirements outlined in the MPF Guides.

We make customary representations and warranties regarding the eligibility of the off-balance sheet MPF Loans to third party investors. If a loan eligibility requirement or other warranty is breached, these third parties could require us to repurchase the MPF Loan or provide an indemnity. PFIs make the same representations and warranties to us with respect to the MPF Loans. When a PFI sells a mortgage loan under any MPF Loan product that fails to comply with the representations and warranties, the PFI may be required to provide an indemnification covering related losses or to repurchase the MPF Loans if the failure cannot be cured. See **Mortgage Repurchase Risk** on page 69 for further information about MPF Loans repurchases.

Loss Structure for Credit Risk Sharing Products

For conventional MPF Loan products held in our portfolio, PFIs are required to share in the credit risk associated with the mortgage loans. Each MPF Loan delivered by a PFI is linked to a Master Commitment (MC) and any losses arising from a mortgage loan are allocated to the appropriate loss layer in that MC. Credit losses not absorbed by the borrower's equity in the property and any primary mortgage insurance (if available) are allocated between a PFI and their MPF Bank in the following order:

- The PFI's performance based CE Income. The PFI is paid monthly credit enhancement income for sharing the credit risk associated with these mortgage loans (CE Income) and some of this income may be performance based. CE Income varies between 6 and 14 basis points depending on the product. We will withhold the PFI's scheduled performance based CE Income payment in order to reimburse ourselves for any losses allocated to the First Loss Account (FLA) and the amount of such withholding is a component of the overall credit enhancement provided by the PFI.
- The MPF Bank's First Loss Account (FLA). The FLA functions as a tracking mechanism for our first layer of credit loss exposure before the PFI's credit enhancement obligation (CE Amount) would cover the next layer of losses. The amount of the FLA is agreed upon when a PFI begins to sell loans into an MC depending on the product. Our FLA exposure varies by MPF Loan product type and it can build over the life of the MC by 3 to 6 basis points annually or it can be fixed at 35 or 100 basis points.
- The PFI's CE Amount. The PFI's CE Amount is a direct liability of the PFI to pay credit losses up to a specified amount, which may include proceeds from a provider of supplemental mortgage guaranty insurance (SMI). The CE Amount is determined by the MPF Bank consistent with the FHFA's AMA regulation. For further details, see **Setting Credit Enhancement Levels** on page 67.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

- The MPF Bank. After the CE Amount has been exhausted, the MPF Bank will absorb any further losses.

MPF Servicing

PFI's can retain the rights and responsibilities for servicing MPF Loans sold under the MPF Program or choose a servicing released option. If PFI's chose to retain servicing rights for MPF Loans sold under the MPF Xtra and MPF Government MBS products, we are contractually obligated to Fannie Mae and Ginnie Mae, respectively, with respect to servicing those loans.

We monitor servicers that service (1) MPF Loans held in our portfolio and (2) MPF Loans that are sold under MPF Xtra and MPF Government MBS when we are contractually responsible to Fannie Mae or Ginnie Mae, respectively, for the loan servicing. If a servicer fails to comply with the servicing requirements, we can charge fees, require mortgage loan repurchase, request indemnification or terminate the servicer's right to service the MPF Loans.

Competition

We face competition in the markets for conventional loans, Government Loans, and loans with credit risk sharing arrangements from secondary market participants. Secondary market participants include, but are not limited to, dealers, banks, hedge funds, money managers, insurance companies, large mortgage aggregators (including non-bank mortgage companies), private investors, and other GSEs such as Fannie Mae and Freddie Mac. Some of these competitors have greater resources, larger volumes of business, and longer operating histories. As a result, our ongoing revenue derived from MPF Loan products may be affected by the volume of business done by our competitors. For further discussion of risks relating to competition and the MPF Program, see **Risk Factors** on page 21.

Other Activities

Investments

We maintain a portfolio of investments for liquidity purposes and to provide additional earnings. To ensure the availability of funds to meet member credit needs, we maintain a portfolio of short-term liquid assets, principally overnight federal funds sold, and securities purchased under agreements to resell, entered into with or issued by highly rated institutions and other eligible counterparties. For further discussion of unsecured credit exposures related to our short-term investment portfolio, see **Unsecured Short-Term Investments** on page 73.

Our longer-term investment debt securities portfolio includes securities issued by the U.S. government, U.S. government agencies, and GSEs, as well as investments in Federal Family Education Loan Program (FFELP) student loan asset-backed securities (ABS), and mortgage-backed securities (MBS) that are issued by GSEs. For a discussion of the carrying values and ratings of these securities, see **Investment Debt Securities** on page 71. For this purpose, GSE includes Fannie Mae and Freddie Mac. Securities issued by GSEs are not guaranteed by the U.S. government.

Under FHFA regulations, we are prohibited from trading debt securities for speculative purposes or engaging in market-making activities. Additionally, we are prohibited from investing in certain types of securities or loans, including:

- instruments, such as common stock, that represent an ownership in an entity, other than common stock in small business investment companies (where one or more members or housing associates of the Bank also make a material investment in the same activity) or certain investments targeted to low-income households or communities;
- instruments issued by non-U.S. entities, other than those issued by U.S. branches and agency offices of foreign commercial banks;
- non-investment grade debt instruments, other than certain investments targeted to low-income households or communities, or instruments that were downgraded after purchase;
- whole mortgages or other whole loans, other than, (1) those acquired under our MPF Program, (2) certain investments targeted to low-income households or communities, (3) certain marketable direct obligations of state, local, or tribal government units or agencies, that are investment quality, (4) certain MBS or asset-backed securities backed by manufactured housing loans or home equity loans; and, (5) certain foreign housing loans authorized under the FHLB Act;
- interest-only or principal-only stripped securities;

(Dollars in tables in millions except per share amounts unless otherwise indicated)

- residual-interest or interest-accrual classes of securities;
- fixed-rate MBS or eligible ABS, or floating-rate MBS or eligible ABS, that on the trade date are at rates equal to their contractual cap and that have average lives that vary by more than six years under an assumed instantaneous interest rate change of 300 basis points, unless the instrument qualifies as AMA; and
- non-U.S. dollar-denominated securities.

FHFA regulations further limit our investment in MBS and ABS by requiring that these investments may not exceed 300% of our previous month-end regulatory capital on the day we purchase the securities and we may not exceed our holdings of such securities in any one calendar quarter by more than 50% of our total regulatory capital at the beginning of that quarter. For purposes of calculating the limit on our MBS/ABS portfolio, we value our investments in accordance with FHFA regulations based on amortized cost for securities classified as held-to-maturity or available-for-sale and on fair value for trading debt securities. Regulatory capital consists of our total capital stock (including the mandatorily redeemable capital stock) plus our retained earnings. This limitation does not apply to instruments qualifying as AMA, like newly issued Ginnie Mae securities that have been created through the MPF Government MBS product that are temporarily owned by the Bank.

Derivative Activities

We engage in most of our derivative transactions with major broker-dealers as part of our interest rate risk management and hedging strategies. As of January 2024, we no longer enter into interest rate derivatives with our members, and we have an immaterial amount outstanding from prior transactions.

The FHFA's regulations and our internal derivatives and hedging policies all establish guidelines for our use of interest rate derivatives. These regulations prohibit the speculative use of financial instruments authorized for hedging purposes. They also limit the amount of counterparty credit risk allowed. See **Item 7A. Quantitative and Qualitative Disclosures About Market Risk** on page 75.

Community Investment Activities

We provide financing and direct funding tools that support the affordable housing and community lending initiatives of our members that benefit very low-, low-, and moderate-income individuals, households, businesses and neighborhoods. Outlined below is a more detailed description of the programs that we currently administer and fund.

Affordable Housing Program (AHP) - We offer AHP subsidies in the form of direct grants to members to stimulate affordable rental and homeownership opportunities for households with incomes at or below 80% of the area's median income. By regulation, we are required to contribute 10% of our income before assessments to fund AHP. Of that required contribution, we may allocate up to the greater of \$4.5 million or 35% to provide funds to members participating in our homeownership set-aside programs.

Direct grants are available under our competitive AHP General Fund to members in partnership with community sponsors and may be used to fund the acquisition, rehabilitation, and new construction of affordable rental or owner-occupied housing. We awarded competitive AHP subsidies of \$33 million for the year ended December 31, 2023 and \$24 million for the year ended December 31, 2022.

In addition, direct grants are available to members under our Downpayment Plus[®] (DPP[®]) homeownership set-aside programs and may be provided to eligible homebuyers to assist with down payment, closing, counseling, or rehabilitation costs in conjunction with an acquisition. During the years ended December 31, 2023 and 2022, we disbursed \$33 million and \$18 million, respectively, through our DPP programs.

During 2024, we anticipate having \$75 million set aside by regulation for our AHP General Fund and DPP Programs.

In addition to our AHP General Fund and DPP programs, the Bank also administers additional voluntary community investment grant programs. For further discussion on our voluntary community investment grant programs, see **Environmental, Social, and Governance** starting on page 14.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Community Advances Programs and related letters of credit - We offer programs where members may apply for advances or letters of credit to support affordable housing or community economic development lending (called our Community Advances programs). These programs provide advance funding at interest rates below regular advance rates for terms typically up to 10 years. Our Community Advances programs may be used to finance affordable homeownership units, multi-family rental projects, industrial and manufacturing facilities, agricultural businesses, healthcare, educational centers, public or private infrastructure projects, or commercial businesses. As of December 31, 2023, and 2022, we had approximately \$820 million and \$520 million in advances outstanding under the Community Advances programs and related letters of credit outstanding of \$46 million and \$53 million.

Community First[®] Fund - Our Board of Directors approved \$50 million in 2011 to supplement our current affordable housing and community investment programs, which became the foundation for the Community First Fund (the Fund). The Fund is an innovative revolving credit facility designed to provide low cost, longer term financing to CDFIs, community development loan funds, and state housing finance authorities promoting affordable housing and economic development in our district. We approved our first loans under the Fund in 2014 and as of December 31, 2023, had \$47 million in principal outstanding.

In total, the Bank has funded \$2.4 billion in community lending advances and loans in 2023. For further discussion on our community investment activities, see **Environmental, Social, and Governance** starting on page 14.

Deposits

We accept deposits from our members, institutions eligible to become members, any institution for which we are providing correspondent services, other FHLBs, and other government instrumentalities. We offer several types of deposits to our deposit customers including demand, overnight, and term deposits. For a description of our liquidity requirements with respect to member deposits see **Liquidity** on page 51.

Funding

Consolidated Obligations

Our primary source of funds is the sale to the public of FHLB debt instruments, called consolidated obligations, in the capital markets. Additional funds are provided by deposits, other borrowings, and the issuance of capital stock. Consolidated obligations, which consist of bonds and discount notes, are the joint and several liability of the FHLBs, although the primary obligation is with the individual FHLB that receives the proceeds from issuance. Consolidated obligations are issued to the public through the Office of Finance using authorized securities dealers. Consolidated obligations are backed only by the financial resources of the FHLBs and are not guaranteed by the U.S. government. See **Funding** on page 53 for further discussion.

Competition

We compete with the U.S. government, Fannie Mae, Freddie Mac, and other GSEs, as well as corporate, sovereign, and supranational entities, including the World Bank, for funds raised through the issuance of unsecured debt in the domestic and global debt markets. Increases in the supply of competing debt products may, in the absence of increases in demand, result in higher debt costs or lesser amounts of debt issued at the same cost than otherwise would be the case. For example, a change in the types or an increase in the amounts of U.S. Treasury issuance may affect our ability to raise funds because it provides alternative investment options. Furthermore, to the extent that investors perceive Fannie Mae and Freddie Mac or other issuers as having a higher level of government support, their debt securities may be more attractive to investors than FHLB System debt.

The FHLBs have traditionally had a diversified funding base of domestic and foreign investors, although investor demand for our debt depends in part on prevailing conditions in the financial markets. For further discussion of market conditions and their potential impact on us, see **Risk Factors** on page 21 and **Funding** on page 53.

Although the available supply of funds from the FHLBs' debt issuances has kept pace with the funding requirements of our members, there can be no assurance that this will continue to be the case.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Business Environment

Our financial condition and results of operations are influenced by the interest rate environment, global and national economies, local economies within our district of Illinois and Wisconsin, and the conditions in the financial, housing, and credit markets. In particular, our net interest income is affected by several external factors, including market interest rate levels and volatility, credit spreads and the general state of the economy. We endeavor to manage our interest rate risk by entering into fair value hedge relationships utilizing interest rate derivative agreements to hedge a portion of our advances, available-for-sale debt securities, and debt. We are exposed to the variability in the total net proceeds received from forecasted zero-coupon discount note issuances, which is attributable to changes in the benchmark interest rate. Our cash flow hedge objective/strategy is to hedge the total net proceeds received from our "rolling" forecasted zero-coupon discount note issuances attributable to changes in the benchmark interest rate by entering into interest rate swap(s) to mitigate such risk. We did not use the cash flow hedge strategy for new transactions in 2023, but may elect to do so in the future. Additionally, we enter into economic hedges using derivative agreements to hedge our mortgage-related assets, which are sensitive to changes in mortgage rates.

Our profitability is significantly affected by the interest rate environment. We earn relatively narrow spreads between yields on assets and the rates paid on corresponding liabilities. A large portion of our advance business is based on our funding costs plus a narrow spread. We also expect our ability to generate significant earnings on capital and short-term investments will be affected by the Federal Reserve's policy of setting the short-term federal funds rate. Income and spreads can also be affected by changes in regulations or accounting rules, which can change the funding, hedging, and the liquidity profile of our balance sheet. Short-term interest rates also directly affect our earnings on invested capital. The size of our balance sheet and amount of our earnings are also affected by the level of advances outstanding, the demand for which is affected by the amount of liquidity in the financial system, which in turn depends in part on the level of monetary stimulus from the Federal Reserve and fiscal stimulus from the government, as well as the demand for loans in the economy and the relative attractiveness of investments. For further discussion of the risk we face relating to the interest rate environment and government monetary policies, see **Risk Factors** on page 21.

Our operating results are affected not only by rising or falling interest rates, but also by the particular path and volatility of changes in market interest rates and the prevailing shape of the yield curve. A flattening of the yield curve tends to compress our net interest margin, while steepening of the curve offers better opportunities to purchase assets with wider net interest spreads. The Federal Reserve's purchase or sale of securities in the open market and the issuance of treasury securities by the U.S. Treasury impacts market spreads generally, including the spreads we earn on our investment portfolio and the spreads we pay on our debt issuance. The performance of our MPF Loans held for investment portfolio is particularly affected by shifts in the 10-year maturity range of the yield curve, which heavily influences mortgage rates and potential refinancings. Yield curve shape can also influence the pace at which borrowers refinance or prepay their existing loans, as borrowers may select shorter-duration mortgage products in a refinancing. As higher coupon MPF Loans mature, the return of principal may not be invested in assets with a comparable yield, resulting in a potential decline in the aggregate yield on the remaining MPF Loans held for investment portfolio and investment debt securities and a possible decrease in our net interest margin.

Lastly, the volume related to our MPF Xtra and our Ginnie Mae MBS issuances also are influenced by the interest rate environment, global and national economies, local economies within our districts of Illinois and Wisconsin, and the conditions in the financial, housing and credit markets.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Environmental, Social, and Governance

As a cooperative, our goal is to provide reliable, low-cost liquidity to our member banks, credit unions, insurance companies, and CDFIs located in Illinois and Wisconsin. We also provide members and housing associates with financial products and services to support and enhance mortgage lending and community investment in their communities. These products and services help our members fund loans and investments held in portfolio, manage liquidity, fund mortgages into the secondary market, secure third party agreements, and achieve asset liability management goals. Through our community investment grants, products, and programs, we also help our members provide affordable housing and economic development in the diverse communities they serve.

Environmental

Climate Change

Climate change, weather-related events, other natural or environmental disasters, or other disruptive events could have a material adverse impact on our members and, ultimately, on, our business and results of operations. We have a climate change team that endeavors to identify, monitor, and manage the climate change risks that may have an impact on our business, financial condition, and results of operation. For a discussion of these risks, see **Risk Factors** on page 21.

Physical and transition risks related to climate change that may affect our business, financial condition, and results of operations, such as policy and regulatory changes, market trends, credit risks, or technological changes are rapidly evolving, often in ways that disrupt business, the economy, and peoples' lives. Following an extreme weather event, our members and PFIs may grant forbearances to borrowers to provide short-term relief. In the past, we have temporarily adjusted our eligibility with respect to member collateral or MPF loans to help impacted communities.

Sustainability at the Old Post Office (OPO)

Our office is located at the Old Post Office at 433 West Van Buren Street in Chicago, Illinois. The OPO is both LEED Gold and WELL building certified, with a 3.5-acre green space on the rooftop; and it offers a variety of green and eco-friendly programs in which we participate to help create a more sustainable environment. These amenities include recycling and e-cycling programs, which help extend the life of current landfill areas.

Social

Community Investment Activities

A focus on community investment continues to be core to our mission and a primary component of the value delivered to our members. The Bank provides financing and direct funding tools that support the affordable housing and local community lending initiatives of our members and the community. By using one or more of our products, our members and their community partners create solutions that benefit the communities they serve. Outlined below are details on our community investment activities and additional information is also provided in **Community Investment Activities** on page 11 and **Note 11- Affordable Housing Program** to the financial statements.

Our community investment strategy is informed by continuous assessment of the district's affordable housing and community development needs, and programming is designed to address gaps in resources for critical needs. To better understand the needs of the communities we serve, the Bank consults with the Community Investment Advisory Council, which consists of representatives from community and nonprofit organizations actively involved in providing or promoting affordable housing and/or community lending in Illinois or Wisconsin. The Community Investment Advisory Council meets quarterly with the Affordable Housing Committee of the Board and Bank staff to advise the Bank on ways we can meet the district's affordable housing and community development needs.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Grant Programs

We provide grant funding to support affordable housing and economic development initiatives. The grant programs we offered in 2023 were:

- **AHP General Fund:** A grant program that provides gap financing to support the acquisition, new construction, and/or rehabilitation of affordable rental or owner-occupied housing.
- **DPP Program and Downpayment Plus Advantage[®]:** Grant programs that provide easy-to-access down payment and closing cost assistance to income-eligible homebuyers through our members.
- **Community First Accelerate Grants for Small Business:** A grant program that provides grant funds to strengthen small businesses located in Illinois and Wisconsin.
- **Community First Housing Counseling Resource Program:** A grant program to support housing counseling agencies in expanding their service to minority and low- and moderate-income homebuyers.
- **Community First Diverse Developer Initiative:** A grant program to fund career development initiatives that support diverse developers of affordable housing.

By regulation, we allocate 10% of income before assessments to fund affordable housing grants through the AHP General Fund and the DPP Programs. Assessments for our Affordable Housing Program are included in affordable housing program assessments in our **Statements of Income**. During the year ended December 31, 2023, we recognized an assessment of \$75 million to fund our AHP General Fund and DPP Programs. For additional information on our AHP General Fund and DPP Programs, see **Note 11- Affordable Housing Program** to the financial statements.

We recognize that additional funding above the regulatory allocation is beneficial in meeting community needs in affordable housing, as well as business and community development. For the year ended December 31, 2023, we recognized an additional voluntary expense totaling 6% of our prior year income before assessments, in addition to the regulatory required 10%. For 2024, in addition to the 10% regulatory allocation, the Bank plans to continue to commit at least 5% of prior year income before assessments to discretionary funds to support our community needs.

We recognize that additional funding is beneficial in meeting community needs in affordable housing, as well as business and community development, so our Board of Directors allocated additional discretionary funds for 2023. For the year ended December 31, 2023, the Bank recognized a voluntary expense of \$28 million for our contributions in excess of the amounts allocated by regulation for our DPP Program as well as for additional grant programs that were created specifically by the Bank. In 2023, these additional voluntary grant programs consisted of the Community First Accelerate Grants for Small Business, Community First Housing Counseling Resource Program, and Community First Diverse Developer Initiative. Expenses for these voluntary contributions are included in voluntary community investment contributions in our **Statements of Income**.

In total, for the year ended December 31, 2023, we recognized an assessment or expense of \$103 million through these grant programs in our **Statements of Income**.

Community Lending

We offer discounted credit products to lower the cost of financing to support our community lending activities. The credit products we offered in 2023 were:

- **Community Development Advances:** Supports our members' efforts to promote economic development in their communities through small business, agricultural, commercial, and infrastructure lending.
- **Community Housing Advances:** Supports our members' affordable housing lending.
- **Community Small Business Advances:** Supports the local economy and community revitalization efforts in members' communities.
- **Community First Fund:** Provides low cost, longer term financing to support community and economic development activities.

By regulation, the Bank may provide advance funding at interest rates below regular advance rates for lending that supports affordable housing or community economic development. Pursuant to the regulation, the Bank offers the Community Development Advance, the Community Housing Advance, and the Community Small Business Advance. Our Community Small Business Advance is permitted by regulation but is a voluntary program created by the Bank.

For more information on our Community Advance programs and the Community First Fund, see the **Community Investment Activities** section on page 11.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

MPF Program Activities

Supporting affordable housing and homeownership in our district is a key part of our MPF Program, which is described in more detail in **Mortgage Partnership Finance Program** starting on page 8. Our MPF Program gives access to the secondary mortgage market for our members, and other PFIs, including many smaller financial institutions. For the year ended December 31, 2023, more than 80% of our Bank's PFIs were CFIs with no more than \$1.417 billion (the limit during 2023) in average total assets over three years. In addition, for the year ended December 31, 2023, more than one third of the mortgages purchased for investment or securitized through our MPF products were made to low-income borrowers or made to borrowers in a low-income area.

Our Commitment to Diversity, Equity, and Inclusion (DEI)

Diversity, equity, and inclusion are strategic business priorities for us. As part of our ongoing commitment to create positive change in our Bank and in the diverse communities our members serve, we continue to listen and learn through conversations focused on different dimensions of diversity, access to housing and capital, and allyship. The Bank provides opportunities to learn about different cultures, including visits to our members' communities. Through these engagements, we gain new perspectives and insights on how to enrich our culture, deepen our support for our members' communities, and become more intentional in our commitment to DEI.

We recognize that diversity increases capacity for innovation and creativity, equity ensures employees get what they need to be successful, and inclusion allows us to leverage the unique perspectives of our employees and strengthens our retention efforts. Our commitment to these principles is developed and executed through our DEI strategic plan that includes metrics to measure our success and we report regularly on our performance to management and the Board of Directors. In addition, the FHFA has issued regulations, and through its Office of Minority and Women Inclusion, provides ongoing guidance, including through their examination, with respect to our incorporation of DEI in our business practices. In 2023, participation in voluntary DEI training was a performance goal in our incentive compensation plans, highlighting our commitment to the importance of DEI.

Within Our Team

Our Office of Diversity, Equity, and Inclusion (ODEI) encourages a workplace of conscious inclusion and a culture that promotes feedback and diverse representation across our organization. In addition to dozens of annual employee-driven events and training sessions, ways we encourage DEI within the Bank include:

- **Diversity, Equity, and Inclusion Committee:** A diverse group of employees who meet quarterly to develop strategies that will garner support for our DEI initiatives. The group also monitors the Bank's progress against the goals established in our DEI strategy.
- **Employee Resource Groups (ERGs):** Employees with shared experiences and goals who volunteer to bring greater representation across the Bank through five ERGs, including African American, Latino, Women's, Global Diversity and Baby Boomer, all of which aim to enhance DEI at the Bank.
- **Engagement Teams:** Our Book Club, Sustainability Group, Wellness Group, Financial Literacy Group, and Culture Collective Group make up our Engagement Teams. They allow us to learn and connect with each other.
- **Working Groups:** Employees from all backgrounds, experiences, and job levels who collaborate to offer their perspectives and creative strategies around DEI. We currently have three working groups, including Workforce, Supplier Diversity, and Capital Markets. Capital Markets promotes and supports the use of qualified diverse/minority-owned dealers in our capital markets transactions.
- **DEI Ambassadors:** Employees who demonstrate commitment to the Bank's DEI mission and values through their engagement and leadership of DEI efforts. They elevate the Bank's approach to DEI both internally and externally to help raise awareness to support our business strategy.
- **Cultural Explorations:** A bi-annual, immersive experience where our Board of Directors, Executive Team, and select employees learn together about a subsector of the district and what is needed to address barriers that may impact access to equitable opportunities.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Governance

Board of Directors

Our Board of Directors is responsible for the overall management and oversight of the Bank. Our Board of Directors is composed of two types of directors: member directors and independent directors. As discussed in **Item 10. Directors, Executive Officers and Corporate Governance** on page 85, our member directors are nominated and elected by our member institutions, while our independent directors are nominated by our Board and elected by our member institutions. Our Board values diversity across a number of categories, including diversity of gender, race, and ethnicity, as well as professional backgrounds and geography, and considers these attributes when nominating independent director candidates. Of the 18 directors serving on our Board in 2024, nine are in gender and/or racially diverse categories. Our directors are located throughout Illinois and Wisconsin and have experience with both urban centers and small towns. We believe the diverse nature of our directors enhances the oversight and governance of our Bank. For more details on our Board of Directors, please see **Item 10. Directors, Executive Officers and Corporate Governance** on page 85.

Code of Ethics and Reporting

We are committed to the highest possible standards of honesty, integrity, impartiality, and conduct. These standards are essential to our business and foster confidence in our Bank and the FHLB System. To promote these ethical standards with our employees and our vendors, we maintain a Whistleblower Policy and Procedure and the FHLBank Chicago Code of Ethics. Copies of our Whistleblower Policy and Procedures and Code of Ethics are published on our public website.

Human Capital Resources

Our human capital is a major contributor to the success of our strategic business objectives. In managing our human capital, the Bank focuses on its workforce profile, including the promotion of DEI as discussed above, as well as the various programs and philosophies described below.

Workforce Profile

Our workforce is primarily comprised of permanent employees, with our principal operations in one location. We also use consultants, independent contractors, and temporary employees in the normal course of our business. As of December 31, 2023, we had 478 full-time and 8 part-time employees. As of December 31, 2023, 45% of our permanent workforce is female, 55% male, 57% White, and 43% People of Color. Our workforce historically has included a number of longer-tenured employees. We strive to both develop talent from within the organization and supplement with external hires. We believe that developing talent internally results in institutional strength and continuity and promotes loyalty and commitment in our employee base, which furthers our success, while adding new employees contributes to new ideas, continuous improvement, and our goals of a diverse and inclusive workforce. As of December 31, 2023, the average tenure of our employees was 8 years.

There are no collective bargaining agreements with our employees.

Total Rewards

We seek to attract, develop and retain talented employees to achieve our strategic business initiatives, enhance business performance and provide members a reasonable return on their investment in the Bank. We support this objective through a combination of development programs, benefits and employee well-being programs, and recognizing and rewarding performance. Specifically, our programs include:

- Cash compensation that includes competitive salary and performance based incentives
- Benefits, including health insurance, life and AD&D insurance, supplemental life insurance, 401(k) retirement savings plans with employer match, and pension benefits
- Well-being programs, including an employee assistance program
- Time away from work, including time off for vacation, illness, personal, holiday, and volunteer opportunities
- Culture programs, including employee resource groups, philanthropic volunteer groups, and various DEI initiatives
- Work/Life balance, including 100% paid salary continuation for short-term disability, family leave, new child leave, military leave, bereavement, jury duty and court appearances, flexible scheduling, and a hybrid work environment
- Development programs and training, including leadership development, educational assistance programs, internal educational and development opportunities, access to Udemy for Business, McKinsey Academy, and Speak by Design training, and fee reimbursement for external educational and development programs

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Our performance management framework includes annual goal setting as well as mid-year and year-end performance reviews. Merit and incentive payments are differentiated for the Bank's highest performers.

Oversight, Audits, and Legislative and Regulatory Developments

Regulatory Oversight

We are supervised and regulated by the FHFA, an independent federal agency in the executive branch of the U.S. government. The FHFA's operating and capital expenditures are funded by assessments on the FHLBs; no tax dollars or other appropriations support the operations of our regulator. To assess our safety and soundness, the FHFA conducts annual, on-site examinations as well as periodic on-site reviews. Additionally, we are required to submit monthly financial information on our condition and results of operations to the FHFA.

The Government Corporations Control Act, to which we are subject, provides that before a government corporation issues and offers obligations to the public, the Secretary of the Treasury (Secretary) shall prescribe the form, denomination, maturity, interest rate, and conditions of the obligations, the method and time issued, and the selling price. The FHLB Act also authorizes the Secretary discretion to purchase consolidated obligations up to an aggregate principal amount of \$4.0 billion. No borrowings under this authority have been outstanding since 1977.

We must submit annual management reports to Congress, the President, the Office of Management and Budget, and the Comptroller General. These reports include a statement of financial condition, a statement of operations, a statement of cash flows, a statement of internal accounting and administrative control systems, and the report of the independent public accounting firm on our financial statements.

Our business is subject to extensive regulation and supervision. As discussed throughout this Form 10-K, the laws, regulations, and regulatory guidance to which we are subject cover all key aspects of our business, and directly and indirectly affect our product and service offerings, collateral practices, pricing, competitive position and strategic plan, relationship with members and third parties, capital structure, cash needs and uses, and information security. As a result, such laws and regulations have a significant effect on key drivers of our results of operations, including, for example, our capital and liquidity, product and service offerings, risk management, and costs of compliance. For a discussion of risks relating to the complex body of laws and regulations to which we are subject, see **Risk Factors** on page 21. For a discussion of the impacts of recent regulatory and legislative developments, see **Legislative and Regulatory Developments** below.

Regulatory Audits

The Comptroller General has authority under the FHLB Act to audit or examine us and to decide the extent to which we are fairly and effectively fulfilling the purposes of the FHLB Act. Furthermore, the Government Corporations Control Act provides that the Comptroller General may review any audit of the financial statements conducted by an independent registered public accounting firm. If the Comptroller General conducts such a review, then the results and any recommendations must be reported to the Congress, the Office of Management and Budget, and the FHLB in question. The Comptroller General may also conduct a separate audit of any of our financial statements.

Legislative and Regulatory Developments

FHFA's Review of and Analysis on the Federal Home Loan Bank System.

Commencing in the fall of 2022, and over a period of several months, the FHFA undertook a review and analysis of the FHLB System, in part through a series of public listening sessions, regional roundtable discussions, and receipt of comments from stakeholders and the public. This review covered such areas as the FHLBs' mission and purpose in a changing marketplace; their organization, operational efficiency, and effectiveness; their role in promoting affordable, sustainable, equitable, and resilient housing and community investment; their role in addressing the unique needs of rural and financially vulnerable communities; member products, services, collateral requirements; and membership eligibility and requirements.

On November 7, 2023, the FHFA issued a written report titled "FHLBank System at 100: Focusing on the Future", presenting its review and analysis of the FHLB System and the actions and recommendations that it plans to pursue in service of its vision for the future of the FHLB System. The report focused on four broad themes: (1) the mission of the FHLB System; (2) the FHLB System as a stable and reliable source of liquidity; (3) housing and community development; and (4) FHLB System operational efficiency, structure, and governance. The FHFA expects its initiative to continue as a multi-year, collaborative effort with the FHLBs, their member institutions, and other stakeholders to address the recommended actions in the report and has stated that it can implement some of the recommendations from the report through ongoing supervision, guidance, or rulemaking, as well as through statutory changes by proposing specific requests for Congressional action.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Among other things, the FHFA has indicated that it plans to:

- Update and clarify its regulatory statement of the FHLBs' mission to explicitly incorporate its view of the core objectives of the FHLBs' mission, which are (1) providing stable and reliable liquidity to members, and (2) supporting housing and community development;
- Clarify the FHLBs' liquidity role and take steps that the FHFA believes will better position the FHLBs to perform their liquidity function, including enhancing FHFA oversight of FHLB credit risk evaluation of their members and improving protocols for large depository members to borrow from the Federal Reserve discount window;
- Expand the FHLBs' housing and community development focus by requiring the establishment of mission-oriented collateral programs, re-evaluating the definition of long-term advances, exploring revisions to the Community Support Requirements, and reviewing the AHP, Community Investment Programs, and Community Investment Cash Advance Programs to encourage greater use in a safe and sound manner. The FHFA will also recommend that Congress consider amending the FHLB Act to at least double the statutory minimum required annual AHP contributions by the FHLBs; and
- Review the FHLBs' operational efficiencies through encouraging collaboration among the FHLBs, evaluating the size and structure of FHLB boards, considering the structure of FHLB districts and composition of their membership, and studying whether realignment or consolidation are necessary for the efficiency of the FHLB System.

The Bank is continuing to evaluate the report and is not able to predict what actions will ultimately result from the FHFA's recommendations in the report, the timing of these actions, the extent of any changes to the Bank or the FHLB System, or the ultimate effect on the Bank or the FHLB System in the future. We plan to continue to engage with the FHFA and other stakeholders to ensure that the FHLB System remains well positioned to serve our members and their communities. For a further discussion of related risks, see **Risk Factors** starting on page 21.

Federal Reserve Bank Term Funding Program.

On March 12, 2023, in response to prevailing concerns about the ability of banks to meet the needs of all their depositors, the Federal Reserve announced the implementation of a Bank Term Funding Program (BTFP), as an additional source of liquidity for eligible borrowers, including any U.S. federally insured depository institution or U.S. branch or agency of a foreign bank that is eligible for primary credit with the Federal Reserve. The BTFP offers up to one-year term loans to be secured by eligible collateral owned by eligible borrowers as of March 12, 2023. Such loans can be requested until March 11, 2024. The BTFP is subject to \$25 billion in credit protection by the U.S. Department of Treasury. On January 24, 2024, the Federal Reserve announced that the BTFP will cease making new loans as scheduled on March 11, 2024.

Consumer Financial Protection Bureau (CFPB) Final Rule.

On March 30, 2023, the CFPB issued a final rule requiring certain covered financial institutions to collect and report small business lending data. Small businesses are businesses with \$5 million or less in gross annual revenue in the preceding fiscal year. An FHLB will be subject to data collection and reporting obligations if the FHLB has originated a minimum of 100 "covered credit transactions" to small businesses in each of the two preceding calendar years. The final rule implements phased-in compliance dates, beginning on October 1, 2024, based on the number of originations the covered financial institution makes to small businesses within a specified timeframe. The Bank is assessing to which extent the obligations will be triggered for the Bank and what operational changes will be necessary for compliance. While the Bank is still analyzing the impact of the final rule, it does not believe these changes will have a material effect on its financial condition or results of operations. Under a federal court order in a related litigation, the CFPB has been enjoined from implementing and enforcing the final rule against covered financial institutions nationwide and all deadlines for compliance with the final rule have been stayed.

FHFA Proposed Rule on Fair Lending, Fair Housing, and Equitable Housing Finance Plans.

On April 26, 2023, the FHFA published a proposed rule that specifies requirements related to FHLB compliance with fair housing and fair lending laws and prohibitions on unfair or deceptive acts or practices. The fair housing and fair lending laws would be the Fair Housing Act, the Equal Credit Opportunity Act, and those acts' implementing regulations. Further, the proposed rule would outline the FHFA's enforcement authority. The Bank is evaluating the potential impact of the proposed rule on the Bank and its operations.

Office of the Comptroller of the Currency, Federal Reserve, and Federal Deposit Insurance Corporation Joint Proposed Rule to Revise Capital Requirements for Certain Large Banking Organizations.

On September 18, 2023, the Office of the Comptroller of the Currency, the Board of Governors of the Federal Reserve, and the Federal Deposit Insurance Corporation published a joint notice of proposed rulemaking that would substantially revise the regulatory capital requirements applicable to certain large banking organizations and banking organizations with significant trading activity (Covered Banks). The proposed changes are generally consistent with changes to international capital standards issued by the Basel Committee on Banking Supervision, known as Basel III, by amending the calculation of risk-based capital requirements to better reflect the risks of these banking organizations' exposures; reducing the complexity of the framework; enhancing the consistency of requirements across these banking organizations; and facilitating more effective supervisory and market assessments of capital adequacy. Among other things, for certain collateralized transactions, while debt securities issued by a government-sponsored enterprise (GSE) such as the FHLBs are afforded a lower market price volatility haircut than higher

FHLBank
Chicago Federal Home Loan Bank of Chicago

(Dollars in tables in millions except per share amounts unless otherwise indicated)

risk non-GSE investment-grade securities under existing capital requirements, the proposed rules would increase the market price volatility haircuts applicable to debt securities of the GSEs (including the FHLBs) by applying to these debt securities the same haircuts as non-GSE investment-grade securities. The Bank continues to evaluate the potential impact of the proposed rulemaking on its financial condition or results of operation. The proposed change to market price volatility haircuts applicable to debt securities of the FHLBs may harm liquidity for FHLB debt securities in the market, impact general demand for FHLB debt securities, and increase the FHLBs' cost of funding due to potential higher interest rates as a result of the foregoing. The proposal was open for public comment through January 16, 2024, and the FHLB System submitted a comment letter.

Taxation and AHP Assessments

We are exempt, by statute, from all federal, state, and local taxation except for real estate property taxes, which are a component of our lease payments for office space or on real estate we own as a result of foreclosure on MPF Loans. In lieu of taxes, we set aside funds for our AHP at a calculated rate of 10% of income before assessments. For details on our assessments, see **Note 11 - Affordable Housing Program** to the financial statements.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Item 1A. Risk Factors.

Business Risks

The Bank and our members are subject to and affected by a complex body of laws and regulations, which could change or be applied in a manner detrimental to our business operations and adversely affect our financial condition.

We are a GSE created by the FHLB Act of 1932 and we are governed by Federal laws and the regulations of the FHFA. From time to time, Congress has amended the FHLB Act and other laws affecting the FHLBs. These changes, as well as modifications to regulations or guidance adopted by the FHFA or other agencies could have a negative effect on our net income or our ability to conduct business (including our ability to adapt to changing conditions) or may change our business operations.

The FHFA's extensive regulatory authority over the FHLBs includes the authority to liquidate, merge, consolidate, or redistrict the FHLBs. With respect to an FHLB merger or consolidation, members will be subject to the terms and conditions of any plan of merger and/or terms established or approved by the FHFA. Likewise, members' rights in a liquidation will be subject to approval of the FHFA and may be inconsistent with our capital plan. The FHFA also has authority over FHLB liquidity and capital requirements, and authority over the scope of permissible FHLB products and activities (including the authority to impose limits on, or restrict member access to, those products and activities). Additionally, the FHFA's Office of Fair Lending Oversight (OFLO) has authority over the FHLBs concerning fair, equitable and nondiscriminatory access to credit and housing and policy-related oversight. We cannot predict the extent to which future FHFA, including OFLO, rule changes or guidance could impact our business or our members. Changes in our statutory or regulatory requirements or policies, or changes in their application, could result in changes in or impacts to, among other things: our membership base and membership eligibility; our members' access to our products and services; our cost of funds; liquidity requirements; retained earnings and capital requirements; accounting policies; debt issuance limits; dividend payments; capital redemption and repurchase practices; permissible business activities; product pricing and structure; collateral practices; compliance requirements; operational processes; demand for our products; the size, scope, or nature of our lending, investment and MPF Program activities; how we manage our balance sheet; or, all and any of which could be detrimental to our business operations and financial condition.

Following a comprehensive review that began in the fall of 2022, the FHFA issued the "FHLBank System at 100: Focusing on the Future" report on November 7, 2023, presenting its review and analysis of the FHLB System and the actions and recommendations that it plans to pursue over a multi-year effort, in service of its vision for the FHLB System. The report focused on four broad themes: (1) the mission of the FHLB System; (2) the FHLB System as a stable and reliable source of liquidity; (3) housing and community development; and (4) FHLB System operational efficiency, structure, and governance. Many of the recommendations from the report may be implemented by the FHFA through ongoing supervision, guidance, or rulemaking within its existing statutory authority, while other recommendations may require legislative action or further study. We are not able to predict what actions will ultimately result from the FHFA's recommendations, the timing of any actions, the extent of any changes to the Bank or the FHLB System, or the ultimate effect on the Bank or the FHLB System in the future. Potential changes resulting from the FHFA's recommendations (including changes relating to the FHLBs' mission, liquidity role, membership and lending requirements, affordable housing contributions and support for community investment, or operations, structure, and governance) could increase our operational costs and expenses, result in heightened scrutiny of the FHLBs and their mission and activities, and impact our business, which may ultimately impact our financial condition, results of operations, and reputation, as well as the value of membership in the FHLBs. The extent to which the report ultimately results in changes to regulatory requirements or supervisory expectations that impact or limit the use of our advances by members or our ability to lend to members may have a significant negative impact on our financial condition, results of operations, and business operations. For more details on this FHFA report, see **Legislative and Regulatory Developments** on page 18.

Moreover, it is difficult to predict any Congressional proposals or administrative actions that could directly or indirectly impact GSEs that support the U.S. housing market, including the FHLBs. Increasingly, regulators, investors, other stakeholders are focusing on environmental, social and governance ("ESG") matters and related disclosures. These changing rules and stakeholder expectations have resulted in, and are likely to continue to result in, increased expenses and increased management time spent complying with or meeting such regulations and expectations, and may alter the environment in which we and our members operate. Other political changes, trends, government actions or inaction, including as a result of any future change in Administration and Congress and increased focus on the FHLBs as a result of the FHLBank System at 100: Focusing on the Future report, new or modified legislation, or regulations governing or impacting our members and counterparties may also adversely affect our ability to conduct business or cost of doing business.

Our business and results of operations may be adversely affected by changing economic conditions, including the condition of the U.S housing and mortgage markets, and related U.S. government policies.

Our business and results of operations are sensitive to changing economic conditions, including the conditions of the domestic and district-specific markets, international markets, and the U.S. housing and mortgage markets. An economic downturn or recession, adverse trends in employment levels, a slowdown in regional or national economic activity, prolonged inflation, geopolitical instability, tension, or conflicts, trade and supply chain disruptions, economic or other sanctions, or a sustained capital market correction could adversely affect overall economic conditions and could result in market volatility and disruptions, which in turn may result in adverse consequences in our or our members' or counterparties' businesses and their respective credit obligations to us.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Additionally, adverse trends in the mortgage lending sector and residential, farm, and commercial real estate sector, including declines in housing prices or deterioration in loan performance trends, could reduce the value of collateral pledged to secure member credit. A downturn in the condition of the U.S housing market, whether as a result of rising interest rates or otherwise, could result in decreases in mortgage loan production volume, which in turn could result in a decline in our MPF Program volume. These trends could also lead to a reduction in the fair value of the Bank's investments and MPF Loan portfolio, could adversely affect demand for Bank products, and could cause members to default on their credit obligations to us. If economic and market conditions deteriorate, the Bank's financial condition, results of operation, ability to pay dividends, meet dividend guidance, provide meaningful community support, achieve affordable housing objectives, or redeem or repurchase capital stock could be adversely impacted.

Our business and results of operations are also affected by the fiscal and monetary policies and actions of the federal government and its agencies in response to changing economic conditions, including the Federal Reserve, which regulates the supply of money and credit in the United States. During 2022 and 2023, the Federal Reserve Board made efforts to ease inflation, including making increases in interest rates, which contributed to significant volatility in the financial markets and uncertainties about the economic outlook. Other federal government actions and policies, including rate cuts/hikes, stimulus measures, or quantitative tightening/easing programs, may directly and indirectly influence the level of rates and shape of the yield curve, impacting interest rates on the Bank's assets and liabilities, the demand for FHLB debt or advances, or prepayment on our MPF Loans and investments with associated reinvestment risks, all of which could adversely affect our financial condition, results of operations, and ability to pay dividends. Moreover, our member's access to our credit products, including our advances, is directly related to the value of the eligible collateral they can pledge to us. Where a member's collateral is comprised of fixed income instruments, the value of that collateral is negatively impacted by increasing interest rates, which in turn may decrease their capacity to do business with us. Any such decrease in business could adversely affect our financial condition and results of operation.

We face competition for advances, which could adversely affect our business.

We are able to achieve balance sheet scale to maintain desired levels of community support primarily through making advances to members. In making advances to members, we compete with other suppliers of wholesale funding, both secured and unsecured, including investment banks, commercial banks, the Federal Reserve, and, in certain circumstances, other FHLBs with which members have a relationship through affiliates. Changes to legislation or regulations affecting our members or their use of our products (such as requiring the use of the Federal Reserve discount window), changes to our members' business models, or the availability of alternative funding sources, may negatively affect our advance levels. Moreover, if we are unable to structure our advance products, collateral requirements, and pricing to satisfy the specific funding requirements of all members, our members may turn to other sources of liquidity and our advance levels could decrease.

We may make changes in policies, programs, and agreements affecting members' access to advances and other credit products, the MPF Program, the AHP, and other programs, products, and services. As a result, some of our members may choose to obtain financing from alternative sources. Further, many competitors are not subject to the same regulations as we are, which may give those businesses a competitive advantage, such as the ability to offer different and potentially more attractive products and terms. Any change made in pricing our advances to compete with these alternative funding sources may decrease our profitability. Additionally, as we manage our refunding risk and maintain compliance with our liquidity requirements and other regulatory guidance, any resulting increase in advance pricing may decrease demand for our advances. State and federal regulators' perception of the stability, suitability, and reliability of our advances can also directly impact the amount of advances used by our members. A decrease in advance demand or a decrease in profitability on advances could adversely impact our balance sheet scale and financial condition and results of operations.

The loss of key personnel or difficulties recruiting and retaining qualified personnel could adversely impact our business and financial results.

Much of our future success depends on the continued availability and service of senior management and other qualified personnel, the loss of whom could harm our business. Additionally, we must continue to recruit, retain and motivate a qualified and diverse pool of employees to maintain our current business and to execute our organizational and other strategic initiatives. Within the financial services industry and from businesses of varying sizes outside the financial services industry, there is competition for qualified personnel, and often with specialized skill sets. Also, our ability to attract and retain employees could be impacted by changing workforce concerns and expectations, remote working arrangements, and increased wages and costs of other benefits necessary to attract and retain high-quality employees with the right skill sets. If we are unable to recruit, retain and motivate high-caliber employees to maintain our current business, transform our operations, and support our projected growth, our business and financial performance may be adversely affected.

Our and our members' inability to adapt to a rapidly evolving financial services industry amid a highly competitive and regulated landscape, while managing expenditures, could harm our business.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Our and our members' success depends on the ability to adapt to evolving industry standards and to meet customer needs and demographic changes, particularly amid a highly competitive and regulated landscape that may impact our and our members' ability to effectively respond to changing market and regulatory conditions. If we or our members are unable to adopt new technologies or improve our technological capabilities, including managing costs and retaining key technology personnel, we and our members may not be able to remain competitive and our businesses, financial conditions, and results of operations may be significantly compromised. We and our members may not be successful in developing or introducing new products, technologies, systems, and services to keep pace with larger competitors, in integrating new products, systems, or services into existing platforms, in responding or adapting to changes in customer behavior or preferences, or in reducing costs, any of which may harm our business and results of operations.

Reduced business activities with significant members or the loss of such members could result in lower demand for our products and services, and negatively impact our financial condition and results of operation.

Due to the nature of our charter, membership in our Bank is generally limited to federally-insured depository institutions, insurance companies, credit unions and CDFIs located in Illinois and Wisconsin. Given this limitation in membership eligibility, decreased business activities with large members or the loss of such members could negatively impact our financial condition and results of operation.

At December 31, 2023, our five largest advance borrowers held 44.0% of total advances outstanding. Advance balances with our largest members and our other members could change due to factors such as a change in member demand or borrowing capacity, regulatory changes, market conditions, or the competitive factors discussed herein or otherwise. If, for any reason, we experience sustained decreases in business with our largest members, including as a result of prepayments, or if we lose such members, our financial condition and results of operations could be negatively impacted. For example, at December 31, 2023, a former captive insurance company member still held 6.1% of our outstanding advances, which mature as discussed further at **Note 6 - Advances** to the financial statements. Unless these advances are replaced by additional business from other members, our advance and capital stock levels would decrease, which would decrease the scale of our balance sheet and our capacity for investments.

Additionally, various factors, including regulatory requirements, have contributed to increased consolidation in the financial services industry, and could reduce the number of current and potential Bank members. For example, depository institutions continue to experience consolidation due to, among other things, increased regulatory burden, greater competition from non-bank "Fintech" companies, lower interest margin, and/or higher technology costs that incentivize increased scale. Moreover, future events affecting the financial services industry (such as an event similar to the March 2023 disruptions) could impact the markets and result in financial difficulties for our members, which could ultimately result in further consolidation of their businesses. If for any reason, we were to lose a member or members whose business and capital stock investments are significant to our business, our financial condition and results of operations could be negatively impacted. And to the extent that reduced demand as a result of further industry consolidation is not replaced by demand from our other or new members, our results of operations, primary mission asset ratio and supplemental mission asset ratio may be negatively impacted.

Failure to meet minimum regulatory capital requirements and guidance could adversely affect our ability to conduct business and our earnings.

We are subject to certain minimum capital requirements under the FHLB Act, and the FHFA rules and regulations that include total capital, leverage capital, and risk-based capital requirements. If we are unable to satisfy our minimum capital requirements, we could be subject to certain capital restoration requirements and prohibited from paying dividends and redeeming or repurchasing capital stock without the prior approval of the FHFA, which could adversely affect members' investment in our capital stock. Furthermore, any suspension of dividends and/or capital stock repurchases and redemptions could decrease member confidence, which in turn could reduce advance demand and net income should members elect to use alternative sources of wholesale funding. For further discussion of our minimum regulatory capital requirements, see **Note 12 - Capital and Mandatorily Redeemable Capital Stock (MRCS)** to the financial statements.

Additionally, FHFA guidance regarding our capital stock levels relative to total assets and our retained earnings and dividend policy has impacted how we manage our balance sheet, which could adversely affect our business and members' investment in our stock. For a discussion of our retained earnings and dividend policy, see **Retained Earnings and Dividend Policy** on page 62.

Changes in the perception, status or regulation of GSEs and the related effect on debt issuance could reduce demand or increase the cost of the FHLBs' debt issuance and adversely affect our earnings.

The FHLBs are GSEs organized under the authority of the FHLB Act. Negative news articles, industry reports, and other announcements relating to any GSE could create pressure on debt pricing for all GSEs, as investors could perceive such

(Dollars in tables in millions except per share amounts unless otherwise indicated)

instruments as bearing increased risk. Moreover, the scope, timing, and effect of any regulatory reform affecting the GSEs (including the Basel III reforms as further discussed in **Legislative and Regulatory Developments** on page 18 and the ultimate resolution to the conservatorship of Fannie Mae and Freddie Mac or any intermediate steps prior to final resolution) could have a significant effect on the FHLB system and could negatively change the perception of the risks associated with the GSEs and their debt securities. Any such negative information or other factors could result in the FHLBs having to pay a higher rate of interest on consolidated obligations to make them attractive to investors, which could negatively affect the FHLBs' results of operations or access to funding.

How successfully we are able to manage our balance sheet in the face of factors such as changes in the economic environment, changes in member demand, or new guidance from our regulator may have a material adverse effect on our results of operations and financial condition.

If the composition of our balance sheet significantly changes, whether as a result of the economic environment, regulatory limitations or other factors like member demand, we could be presented with challenges.

The following are examples of regulatory guidance that may constrain our balance sheet management and operations and limit our ability to effectively adapt to changing conditions:

- We are subject to a mission asset ratio requirement, as further described on page 5, which may impact our ability to make new investments through various advance demand cycles.
- We are subject to guidance providing for each FHLB to maintain a ratio of at least two percent of capital stock to total assets, which may impact how we manage our capital and investments.
- As further discussed in **Liquidity Measures** on page 51, we are subject to the Liquidity AB. Under certain market conditions, the Liquidity AB may require us to hold additional liquid assets, adjust pricing for our short-term advances and letters of credit, and fund overnight or shorter-term investments and advances with discount notes that have maturities that extend beyond the maturities of the related investments or advances, all of which may ultimately result in a reduction in our net income.

If we are unable to successfully maintain our balance sheet and cost infrastructure at an appropriate composition and size scaled to member demand, including as a result of the regulatory limitations described above, our results of operations, financial condition, and level of ongoing community support may be negatively impacted.

Any reduction in dividend levels, failure to meet our dividend guidance or the cessation of dividend guidance in the future, limitations on the payment of dividends and repurchase of excess capital stock, or future changes to our capital stock requirements may adversely affect our business.

Our business model is based on the goal of maintaining a balance between our housing mission and our objective to provide a reasonable return on our members' investment in the cooperative. We work to achieve this balance through our community investment programs and by delivering low-cost credit to help our members meet the credit needs of their communities while striving to pay a reasonable dividend on our Class B2 membership stock and a higher dividend on Class B1 activity stock in order to recognize those members that are using our products. See **Dividend Payments** on page 62.

The Bank's board of directors may declare dividends from the Bank's previously retained earnings and/or current net income. We have a retained earnings and dividend policy, as further described under **Retained Earnings and Dividend Policy** on page 62, which guides our Board in setting dividend levels. Events such as changes in interest rates, changes in spreads, changes in collateral value and/or credit quality of members, changes to regulatory capital requirements, and any future credit losses may result in the Bank reducing its dividend and dividend guidance levels relative to market rates, failing to maintain a higher dividend on Class B1 activity stock, or suspending dividends altogether. Relatedly, our ability to meet or provide any dividend guidance may be impacted by a change in financial or economic conditions, or regulatory or statutory limitations, and any other relevant factors. Moreover, the Bank's ability to pay dividends and to repurchase or redeem capital stock is subject to statutory and regulatory restrictions and dependent on the Bank's ability to generate income.

To the extent that current and prospective members determine that our dividend and/or dividend guidance are insufficient or our ability to pay future dividends or repurchase excess capital stock becomes limited, we may be unable to expand our membership, or lose members, or we may experience decreased member demand for products requiring capital stock purchases, which may in turn adversely affect our results of operations and financial condition.

Changes in our current capital stock requirements, the extent to which we are able to continue to offer the Reduced Capitalization Advance Program ("RCAP") (which reduces a member's activity stock requirement for certain advances), or the extent to which we effect future changes to our Capital Plan (including our capital stock requirements or caps), may adversely impact member utilization of the Bank, which in turn may adversely affect our results of operations and financial condition.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Our MPF Program relies on the participation of other FHLBs and their PFIs, and the loss of any such participants may adversely impact our results and operation and business. The continued decline and shift in national mortgage originations and the competitive and highly regulated landscape may also negatively impact our MPF Program and the related business.

The MPF Program is a secondary mortgage market business under which we purchase mortgage loans from our PFIs and PFIs of other FHLBs for on- and off-balance sheet products (together with us, the MPF Banks). We also provide programmatic and operational support for a fee in our role as the administrator of the MPF Program on behalf of the other MPF Banks. Accordingly, the success of the program depends not only on the participation of our PFIs, but also on the participation of other MPF Banks as well as their PFIs. To the extent an insufficient number of FHLBs and their PFIs choose to participate in the MPF Program, net revenues may decline and ultimately negatively impact our results of operation and business.

During 2023, our top five PFIs, in the aggregate, accounted for 41% of our MPF on balance sheet purchases held in portfolio. To the extent we lose our business with these PFIs and cannot attract comparable replacements, our business may be adversely affected.

Total market mortgage originations have declined substantially since mortgage rates began to rise in late 2021. To the extent that national mortgage originations continue to be lower, we may experience a decrease in volume available to purchase from our PFIs. There has also been a shift from a mortgage loan refinancing market, in which our PFIs are more active, to a purchase market, in which our PFIs have been historically less active, and accordingly, we may incur a decrease in volume available to purchase from our PFIs. In addition, PFIs may stop selling loans into the MPF Program due to mergers with or into other organizations, or as a result of market competition, including from non-bank originators who are not eligible to be members of the FHLBs and therefore not eligible to participate in our MPF Program. To the extent a sufficient number of our PFIs experience a decline in new mortgage originations or discontinue selling into the MPF Program, and we do not gain a sufficient number of new PFIs to offset such decline or departures, or experience increased loan volume purchased from current PFIs, we may incur a decrease in volume available to purchase, resulting in a decline in MPF Program volume.

Further, to the extent FHFA regulation or guidance necessitates changes to MPF Traditional loan products, this could have a negative impact on the volume of loans sold into the MPF Program.

Investors in off-balance sheet MPF products may change or institute new requirements that could negatively impact our MPF Program and the related business.

Investors in our off-balance sheet MPF products could institute product or pricing changes, limit the volume of loans we can sell, or require operational enhancements, any of which could have a negative impact on the MPF Program. For example, Fannie Mae may institute volume caps on the dollar value of MPF Xtra loans the MPF Program can sell to Fannie Mae through Fannie Mae's cash window. To the extent we cannot offset the effects of these limitations with increased loan purchases from other PFIs, product enhancements, or development of new channels, our business may be negatively impacted.

Restrictions on the redemption, repurchase, or transfer of our capital stock could result in an illiquid investment for the holder.

Under the GLB Act, FHFA regulations, and our Capital Plan, our capital stock is subject to redemption upon the expiration of a five-year redemption period. Only capital stock in excess of a member's or former member's minimum investment requirement that was subject to a redemption request, capital stock of a member that has submitted a notice to withdraw from membership, or capital stock held by a member whose membership has been terminated may be redeemed at the end of the applicable redemption period. Further, we may elect to repurchase excess stock from time to time at our sole discretion without regard to the five-year redemption period.

There is no guarantee that we will be able to redeem capital stock held by a shareholder even at the end of the redemption period or to repurchase excess capital stock. FHFA regulations and our Capital Plan restrict us from redeeming or repurchasing capital stock under certain scenarios, including in instances where the redemption or repurchase would cause us to fail to meet our minimum capital requirements. For additional information on limitations on our ability to repurchase or redeem capital stock, see **Statutory and Regulatory Restrictions on Capital Stock Repurchase and Redemption** on page 60.

In addition, since our capital stock may only be owned by our members (or, under certain circumstances, former members and successors), and our Capital Plan requires Bank approval before any transfer of capital stock, we cannot provide assurance that members would be allowed to transfer excess capital stock at any time.

For further discussion of our minimum capital requirements, see **Note 12 - Capital and Mandatorily Redeemable Capital**

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Stock (MRCS) to the financial statements.

Market Risks

Changes in interest rates or an inability to successfully manage interest-rate risk could have a material adverse effect on our net interest income.

We realize net interest income primarily from the spread between interest earned on our outstanding advances, MPF Loans, and investments less the interest paid on our consolidated obligations and other liabilities and our corresponding derivative hedging instruments. When interest rates increase, we may experience extension risk, which is the risk that our mortgage-based assets will remain outstanding longer than expected at below-market yields or refunding risk, to the extent our liabilities are rolling over faster than our fixed rate assets, especially if costs are higher. Therefore, any rapid change in interest rates or more costly debt refunding could adversely affect our net interest income. Conversely, a very low interest-rate environment could adversely impact us in various ways, including lower market yields on investments and faster prepayments on our MPF Loans and investments with associated premium write-offs, debt overhang, and reinvestment risk. These risks are increased to the extent we have concentrations of high mortgage interest rate loans, concentrations of loan vintages, funding mismatches between assets and liabilities, or geographic concentrations. Our investment income and, in turn, our financial condition and results of operations, could be adversely impacted as a result. See **Item 7A. Quantitative and Qualitative Disclosures About Market Risk** on page 75 for additional discussion and analysis regarding our sensitivity to interest rate changes and the use of derivatives to manage our exposure to interest-rate risk.

As previously discussed, our business and results of operations are affected significantly by the fiscal and monetary policies of the U.S. government and its agencies, including the Federal Reserve Board's policies, which are difficult to predict. Therefore, our ability to manage or hedge interest rate exposure due to direction and speed of interest rate changes significantly affects the success of our asset and liability management activities and our level of net interest income. We use a number of measures in our efforts to monitor and manage interest rate risk, including income simulations, value at risk and market value sensitivity analysis, duration and convexity measurements and scenario analysis. Given the unpredictability of the financial markets, capturing all potential outcomes in these analyses is difficult. Key assumptions include, but are not limited to, advance portfolio size, loan volumes and pricing, market conditions for our consolidated obligations, investment interest rate spreads and prepayment speeds, implied volatility of interest rates and options contracts, cash flows on mortgage-related assets, and other model and model related assumptions. These assumptions are inherently uncertain and they cannot precisely estimate net interest income and the market value of equity. Actual results will differ from simulated results due to the timing, magnitude, and frequency of interest rate changes and changes in market conditions, management strategies, and regulatory changes, among other factors. Volatility and disruption in the markets may result in a higher level of volatility in our interest-rate risk profile and could negatively affect our ability to manage interest-rate risk effectively.

We depend on the FHLBs' ability to access the capital markets in order to fund our business.

Our primary source of funds is the sale of FHLB consolidated obligations in the capital markets, including the short-term capital markets due to our continued reliance on discount note funding. Our ability to obtain funds through the sale of consolidated obligations depends in part on prevailing market conditions, such as investor demand and liquidity in the financial markets, which are beyond the control of the FHLBs. Additionally, Congressional failure to raise the U.S. Treasury debt ceiling could raise the potential for defaults on U.S. Treasury debt, which, in turn, would lead to disorderly markets and impact the demand for, and pricing of, our consolidated obligations for an unknown time period. Our ability to operate our business, meet our obligations, and generate net interest income depends primarily on the ability of the FHLB System to issue debt in sufficient amounts to meet member demand and to refinance our existing outstanding consolidated obligations at attractive rates, maturities, indices, and call features, when needed. A significant portion of our advances renew near-term or are issued at interest rates that reset periodically at a fixed spread to an FHLB discount note rate-based index, so member demand for such advances may decrease to the extent that the FHLB System is unable to continue to issue debt at attractive rates.

The sale of FHLB consolidated obligations can also be influenced by factors other than conditions in the capital markets, including legislative and regulatory developments, civil unrest, geopolitical instability or conflicts, government actions (including U.S. government's financial or economic measures), and the impact of government shutdowns that affect the relative attractiveness of FHLB consolidated obligations. As policymakers examine measures intended to improve the resilience of money market funds and broader short-term funding markets, any resulting regulatory changes could decrease money market demand for FHLB consolidated obligations, and in turn could have a negative effect on our financial condition and results of operations. The FHLB System currently plays a predominant role as lenders in the federal funds market; therefore any disruption in the federal funds market or any related regulatory or policy change may have an adverse effect on our cash management activities, results of operation, and reputation. In addition, a decrease in the level of dealer participation and support may also adversely affect liquidity in the agency debt markets and have an adverse effect on our results of operations.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Additionally, we have a significant amount of discount notes outstanding with maturities of one year or less. We are exposed to liquidity risk if there is any significant disruption in the short-term debt markets. If a disruption were prolonged, we may not be able to obtain funding on acceptable terms, or at all. Without access to the short-term debt markets, the alternative longer-term funding, if available, would increase funding costs and could cause us to increase advance rates, potentially adversely affecting demand for advances. If we cannot access funding when needed on acceptable terms, our ability to support and continue operations could be adversely affected. As a result, our inability to manage our liquidity position or our contingency liquidity plan to meet our obligations, as well as the credit and liquidity needs of our members, could adversely affect our financial condition and results of operations, and the value of FHLB membership.

The FHLBs also compete with the U.S. government, Fannie Mae, Freddie Mac, and other GSEs, as well as corporate, sovereign, and supranational entities, including the World Bank, for funds raised through the issuance of unsecured debt in the domestic and global debt markets. Increases in the supply of competing debt products, such as an increase in the supply of Treasury securities in response to the U.S. government's fiscal budgeting process or statutory debt limits, could result in higher debt costs and negatively affect demand for consolidated obligations. This could adversely affect our financial condition, results of operations, or ability to pay dividends, meet dividend guidance, or redeem or repurchase capital stock.

Our funding costs and/or access to the capital markets and demand for certain of our products could be adversely impacted by changes in the credit ratings for FHLB System consolidated obligations or our individual credit ratings.

FHLB System consolidated obligations are rated Aaa/P-1 with a negative outlook by Moody's and AA+/A-1+ with a stable outlook by S&P. Rating agencies may from time to time change a rating or outlook or issue negative reports. Because all of the FHLBs have joint and several liability for all FHLB consolidated obligations, negative developments at any FHLB may adversely affect these credit ratings or result in the issuance of a negative report regardless of the financial condition and results of operations of the other FHLBs. In addition, because of the FHLBs' GSE status, the credit ratings of the FHLB System, the FHLBs, and consolidated obligations are directly influenced by the long-term sovereign credit rating of the U.S. government, which has been downgraded recently and may be downgraded again for reasons such as failure to address its fiscal budget deficit or statutory debt limits. In August 2023, Fitch downgraded the ratings of the United States government and, in November 2023, Moody's changed the outlook on the ratings of the United States government to negative from stable, which also caused the respective rating agencies to take similar ratings actions with respect to certain GSEs (in particular, Moody's affirmed our Bank's Aaa long-term deposit rating, and changed the outlook on this rating to negative from stable). If the U.S. sovereign credit ratings or outlooks are further downgraded, similar downgrades in the credit ratings or outlook of the FHLBs and FHLB System consolidated obligations would mostly likely occur even though they are not obligations of, or guaranteed by, the United States.

Future downgrades in credit ratings or outlook may result in higher FHLB funding costs, rate volatilities, and/or other disruptions in access to the capital markets; disrupt our ability to maintain adequate liquidity; trigger additional collateral posting requirements; impact our ability to enter into derivative instruments with acceptable terms; or weaken demand for products like letters of credit. Any such events may adversely affect our financial condition and results of operations.

Credit Risks

Our financial condition and results of operations, and the value of Bank membership, could be adversely affected by our exposure to credit risk.

We are exposed to credit risk principally through advances or commitments to our members, MPF Loans and related exposures, derivatives counterparties, unsecured counterparties, repurchase agreement transactions, and issuers of investment securities or the collateral underlying them. We assume secured and unsecured credit risk exposure associated with the risk that a borrower or counterparty could default, and we could suffer a loss if we are unable to fully recover amounts owed on a timely basis. In addition, we have exposure to credit risk because of the financial condition of the borrower, including the borrower's ability to meet outstanding obligations; the fair value of collateral may decline as a result of deterioration in the creditworthiness of the obligor or the credit quality of a security instrument (whether due to economic conditions or otherwise); or because the value of the collateral may not be what we assigned to it (whether as a result of misrepresentation or inaccurate valuation). We have a high concentration of credit risk exposure to financial institutions and mortgage assets. If we have insufficient collateral before or after an event of default, or we are unable to liquidate the collateral for the value assigned to it in the event of default, we could experience a credit loss, which could adversely affect our financial condition and results of operations.

We follow guidelines established by our Board of Directors and the FHFA on unsecured extensions of credit, which only permit us to have unsecured credit exposure to highly rated counterparties, the U.S. government, other FHLBs, and partners of our Community First Fund, and limits the amounts and terms of such exposure. However, there can be no assurance that following these guidelines will prevent losses due to defaults on these assets.

Advances. To the extent our members are under financial stress, we are exposed to the risk that they may default on their outstanding obligations to us, including the repayment of advances. If a member defaults on its obligations, or the FDIC, or any

(Dollars in tables in millions except per share amounts unless otherwise indicated)

other applicable receiver, fails either to promptly repay all of that failed institution's obligations or to assume the outstanding advances, then we may be required to liquidate the collateral pledged by the failed institution. The volatility of market prices and interest rates could affect the value of the collateral. The proceeds realized from the liquidation of pledged collateral may not be sufficient to fully satisfy the amount of the failed institution's obligations or the operational cost of liquidating the collateral. Default by a member with significant outstanding obligations to us could adversely affect our results of operations and financial condition. Although we will closely monitor our credit and collateral agreement processes, we may experience credit losses and our business may be adversely affected if we are unable to sufficiently collateralize our risk exposures in the event of potential default by or resolution of members.

As our membership grows to include more non-federally insured members and as we increase credit outstanding to such members, we face uncertainties surrounding the possible resolution of those members, in part due to not having experience with any non-federally insured members placed into receivership in the past and uncertainty with how their regulators and any receivers or other liquidators will handle such receiverships. Also, as we update our collateral loan eligibility criteria to accept more complex loan structures and additional commercial loan property types, we face risks relating to valuing and liquidating collateral with these characteristics.

Derivatives Counterparties. Our hedging strategies are highly dependent on our ability to enter into cleared and uncleared (over-the-counter) derivative instrument transactions with counterparties on acceptable terms to reduce interest-rate risk and funding costs.

If we experience disruptions in the credit markets, it may increase the likelihood that one or more of our derivatives counterparties will fail to meet their obligations to us. If a counterparty defaults on payments due to us, we may need to enter into a replacement derivative contract with a different counterparty, which may be at a higher cost, or we may be unable to obtain a replacement contract on acceptable terms or at all. Additionally, the insolvency of one or more of our counterparties representing a relatively large portion of our derivatives portfolio, combined with an adverse change in the market before we are able to transfer or replace the affected derivative transaction could adversely affect our financial condition and results of operations. We may also be exposed to collateral losses to the extent that we have pledged collateral and its value declines, or could experience losses if the counterparty fails to return the collateral. These losses may be greater to the extent we have high-volumes of derivatives with counterparties with more exposure to market swings or that are concentrated in option-based products, e.g. SOFR. Losses from any of the foregoing could negatively affect our financial condition and results of operations and the value of FHLB membership.

Federal Funds and Interest-Bearing Deposits. We invest in Federal Funds sold and deposits with banks in order to ensure the availability of funds to meet members' credit and liquidity needs and for income. Because these investments are unsecured, our credit policies and FHFA regulations restrict these investments to short-term maturities and certain eligible counterparties. If the credit markets experience disruptions, it may increase the likelihood that one of our Federal Funds or deposit counterparties could experience liquidity or financial constraints that may cause them to become insolvent or otherwise default on their obligations to us. For further discussion on our Federal Funds and deposit investments, see **Unsecured Short-Term Investments** on page 73.

Securities Purchased Under Agreements to Resell. We also invest in securities purchased under agreements to resell in order to ensure the availability of funds to meet members' liquidity and credit needs and for income. These investments are secured by marketable securities held by a third party custodian. If the credit markets experience disruptions, it may increase the likelihood that one or more of our counterparties could experience liquidity or financial constraints that may cause them to become insolvent or otherwise default on their obligations to us. If the collateral pledged to secure those obligations has decreased in value, we may suffer a credit loss. See the table in **Investment Debt Securities** on page 71 for a summary of counterparty credit ratings for these investments.

Our MPF Program products have different risks than those related to our traditional advances products, which could adversely impact our results of operations.

The MPF Program, as compared to our advances products, is more susceptible to credit losses. If economic conditions weaken and regional or national home prices decline, we could experience higher delinquency levels and loss severities on our MPF Loan portfolio in the future.

We are exposed to losses on our conventional MPF Loans held in our portfolio through our obligation to absorb losses up to the FLA (to the extent those losses are not recoverable from PFIs from withholding performance-based CE Income (Recoverable CE Income)) and losses that exceed the PFI's CE Amount. Our FLA exposure as of December 31, 2023 is \$167 million. The next layer of losses after the FLA is the CE Amount and is allocated to the PFI, or SMI purchased by the PFI, as applicable. If losses accelerate in the overall mortgage market, we may experience increased losses that are allocated to us through the FLA and also exceed the PFI's CE Amount and Recoverable CE Income. Further, the PFIs may experience credit deterioration and

(Dollars in tables in millions except per share amounts unless otherwise indicated)

default on their CE Amount, which, to the extent not offset against collateral provided by the PFIs, could cause us to incur additional losses and have an adverse effect on our results of operations.

Under the MPF Government product, we absorb any associated credit losses if we are unable to recover from the servicer or the insuring or guarantying government agency. We have the same risk with respect to the MPF Government MBS loans we acquire from our PFIs.

We also have geographic concentrations of MPF Loans secured by properties in certain states. To the extent that any of these geographic areas experience significant declines in the local housing markets, regional economic conditions, a natural or man-made disaster, or gaps in insurance coverage, we could experience increased losses. For further information on these concentrations, see **Geographic Concentration** on page 68. For a description of the MPF Program, our obligations with respect to credit losses and the PFI's obligation to provide credit enhancement and comply with anti-predatory lending laws, see **Mortgage Partnership Finance Program** on page 8.

We are jointly and severally liable for the consolidated obligations of other FHLBs.

Under the FHLB Act, we are jointly and severally liable with the other FHLBs for consolidated obligations issued through the Office of Finance. If another FHLB defaults on its obligation to pay principal or interest on any consolidated obligation, the FHFA has the ability to allocate the outstanding liability among one or more of the remaining FHLBs on a pro rata basis or on any other basis that the FHFA may determine. The likelihood of triggering our joint and several liability obligation depends on many factors, including the financial condition and financial performance of the other FHLBs. If we were required by the FHFA to make payment on consolidated obligations, beyond our primary obligation, our financial condition and results of operations could be negatively affected.

The occurrence of weather-related events, other natural or environmental disasters, health emergencies, or other disruptive events, especially ones affecting our district and/or members in our district, could negatively impact our business and results of operations. Climate change could have a material adverse impact on our members and our business operations.

The occurrence of weather-related events, other natural or environmental disasters, terrorist attacks, civil unrest, health emergencies, pandemics, geopolitical instability or conflicts, or other disruptive events (any such event, a "major disruptive event"), especially ones affecting our district, could negatively impact our business and results of operations. A major disruptive event that damages or destroys real estate securing mortgage loans, or negatively impacts the ability of borrowers to continue to make principal and interest payments on mortgage loans, or negatively impacts our members' business, could increase delinquency rates and default rates, and negatively impact our collateral, MPF Loan portfolio, MBS or other investment portfolios, community investment programs, or cause our members to become delinquent or to default on their advances and other credit obligations to us. A decline in the local economies in which our members operate resulting from a major disruptive event could reduce members' needs for funding, which could reduce demand for our advances. The nature and level of these major disruptive events and the impact of global climate change upon their frequency and severity cannot be predicted. If major disruptive events occur, they may have a material effect on our financial condition or results of operations.

Relatedly, the Bank's business, and the activities of its members, could be disrupted by climate change. Potential physical risks from climate change may include adverse weather-related events and environmental disasters. In addition, these physical changes may prompt changes in regulations or consumer preferences, which in turn could have negative consequences for the business models of the Bank and its members. The Bank and its members will need to respond to any new laws and regulations, as well as consumer and business preferences, resulting from climate change concerns. The Bank and its members may face cost increases, asset value reductions, gaps in insurance coverage, operating and modeling process changes, and the like. The Bank could experience a drop in demand for its products and services. In addition, the Bank could face reductions in creditworthiness on the part of some members or counterparties or in the value of Bank investments or loans pledged as collateral or acquired through our MPF Program.

Operational Risks

A cyberattack, information or security breach, or a technology failure of ours or a third or fourth party could adversely affect our ability to conduct our business, result in the disclosure or misuse of confidential or proprietary information, and adversely impact our results of operations and financial condition, as well as cause legal or reputational harm.

Our operations are highly dependent on the security, controls and efficacy of our infrastructure, computer, communications, and internet and data management systems, as well as those of our counterparties and other third parties, including their downstream service providers. Our business relies on effective access management and the secure collection, processing, transmission, storage and retrieval of confidential, proprietary, personally identifiable, and other information in our computer and

(Dollars in tables in millions except per share amounts unless otherwise indicated)

data management systems and networks, and in the computer and data management systems and networks of third or fourth parties. Cyber-attacks and information and security breaches, in particular those on financial institutions and financial market infrastructures, have become more frequent, sophisticated, and difficult to detect and prevent. They are pervasive and evolving and include computer viruses, malicious or destructive code (such as ransomware), phishing attacks, denial of service or information or other security breach tactics that could result in: the unauthorized release, gathering, monitoring, misuse, loss or destruction or theft of confidential, proprietary, personally identifiable, and other information; damages to systems, or other material disruptions to our or our members' or other third or fourth parties' network access or business operations; and the loss of funds, including from attempts to defraud us and/or our members. Additionally, threats of cyber terrorism, external extremist parties, and state-sponsored actors or campaigns result in heightened risk exposure. The techniques used in cyberattacks and information and security breaches change frequently and have grown increasingly sophisticated, and these attacks and potentially ensuing security breaches could persist for an extended period of time before being detected. The proliferation of emerging technologies, such as artificial intelligence (AI) may increase our cybersecurity risks and exposure. It could take considerable additional time for us to determine the scope, extent, amount, and type of information compromised, at which time the impact on the Bank and measures to recover and restore to a business as usual state may be difficult to assess.

The materiality of these risks depends on the nature, extent, and potential magnitude of a potential incident or attack. We engage in ongoing monitoring of the effectiveness of our security controls, engage in testing of our security controls and responses, and implement changes to mitigate security vulnerabilities and bolster operational resilience. Regardless of the measures we have taken or may take in the future, our ability to conduct business may be adversely affected by any: significant improper access to, or disclosure of, personally identifiable information or other confidential information; or significant cyberattacks; or other significant disruptions or incidents. A failure or breach of our operational or security systems or infrastructure resulting in significant disruption or harm to our business could expose us to regulatory, market, privacy and liquidity risk, and adversely impact our results of operations and financial condition, as well as cause legal or reputational harm. Moreover, expanded government scrutiny of practices relating to the safekeeping of personally identifiable information or other confidential information may result in the adoption of stricter laws or regulations that could impede our business or increase compliance costs. Our cyber risk and other insurance might not be sufficient to cover us against claims related to security incidents, breaches, cyberattacks and other related events and increased coverage may require significant additional expenditures.

We rely on quantitative models to manage risk, to make business decisions, and to value our assets and liabilities. Our business could be adversely affected if those models fail to produce reliable results.

We make significant use of both internal and external business and financial models to measure and monitor our risk exposures; including interest rate, prepayment, and other market risks, as well as credit risk. We also use models in determining the fair value of financial instruments when independent price quotations are not available or reliable. The information provided by these models is also used in making business decisions relating to strategies, initiatives, risk management, transactions, and products, and for financial reporting and dividend guidance. Models are inherently imperfect predictors of actual results. We use assumptions to predict interest rates, prepayment speeds, default rates, severity rates, and other factors that may overstate or understate future experience. When market conditions change rapidly and dramatically, the assumptions used for our models may not keep pace with changing conditions. Inaccurate or incomplete data or assumptions in these models are likely to produce unreliable results. For example, uncertainty in the housing and mortgage markets may increase our exposure to the inherent risks associated with the reliance on internal models that use key assumptions to project future trends and performance. Although we regularly adjust our internal models in response to changes in economic conditions and the housing market and rely on our vendors to adjust our external models, the risk remains that our models could produce unreliable results or estimates that vary considerably from actual results.

If these models fail to produce reliable results, we may not make appropriate risk management or business decisions (including decisions relating to our dividend guidance), which could adversely affect our earnings, liquidity, capital position, reputation, and financial condition. Additionally, to the extent our models incorporate or are assisted by AI features that are or are alleged to be deficient, inaccurate, or biased, our financial condition and results of operations may be adversely affected. Any strategies that we employ to attempt to manage the risks associated with the use of models may not be effective.

Failures or interruptions in our information systems and other technology, our controls, or our operating processes generally, may harm our business, financial condition, results of operations, and reputation.

Our business is dependent upon our ability to interface effectively with other FHLBs, members, PFIs, and other third parties. Our products and services involve a complex and sophisticated operating environment supported by operating systems and technologies, which may be purchased, custom-developed, or hosted by third parties. Maintaining the availability, effectiveness, and efficiency of the technology used in our operations, including our information systems, is dependent on the continued timely implementation of technology solutions and improvements (including software updates and security patches) and systems necessary to effectively manage the Bank and mitigate risks, which may require significant capital expenditures. If we are unable to maintain or improve these technological capabilities, including retention of key technology personnel and the development of necessary operating and management processes, we may not be able to remain competitive and our business, financial

(Dollars in tables in millions except per share amounts unless otherwise indicated)

condition, and results of operations may be significantly compromised.

Additionally, failures in our controls, including internal controls over financial reporting, could result from a number of causes and conditions, including human error, fraud, design flaws, breakdowns in information and computer systems, or natural or man-made disasters. Moreover, lapses in, and inadequacies with respect to, our operating processes, including manual processes and data management, as a result of organizational restructuring, human error, or any other factors, could adversely affect our overall operations, including collateral maintenance. We also rely on our employees and third parties in our day-to-day and ongoing operations, who may, as a result of human error, misconduct, malfeasance or a failure or breach of systems or infrastructure, expose us to risk and adverse effects resulting from such risk. A significant control failure, or a lapse in certain operating processes, could materially impact our financial condition and results of operations. We may not be able to foresee, prevent, mitigate, reverse, or repair some or all the negative effects of such failures. If we are unable to correct material weaknesses or deficiencies in internal controls in a timely manner, our ability to record, process, summarize and report information accurately and within the time periods specified in the rules and forms of the SEC and Financial Crimes Enforcement Network (FINCEN) could be adversely affected. A failure in our internal control over financial reporting or a lapse in our operating processes could cause our members to lose confidence in our reported financial information, in our processes, or in us as a whole, subject us to government enforcement actions, and generally, materially, and adversely impact our business and financial condition.

A significant portion of our business support services are hosted by third party vendors and if our vendors fail to adequately perform the contracted services in the manner necessary to meet our needs or if they become subject to any information or security breach or technological failures, our business, financial condition, and results of operations may be harmed. Additionally any failure in the operating systems related to the Office of Finance could disrupt our ability to conduct and manage our business.

We have engaged various vendors to provide us with data center and hosted services that may include hardware, software support, connectivity, and other technology services, including vendors for which there are few substitutes or would be difficult to replace in a timely manner. Any significant failure, interruption, or breach in security of these systems or services, including relating to the downstream service providers of our vendors, could result in significant disruptions in our ability to conduct business, negatively impact the ability of our personnel to work on other Bank business while handling such disruptions, result in significant improper access to, or disclosure of, confidential information, or cause harm to our business or our members. There is no assurance that if or when such incidents do occur, that they will be adequately addressed by us or the third or fourth party vendors on whom we rely. Further, any such event may not be disclosed to us in a timely manner. Additionally, to the extent we use AI tools provided by vendors, these tools may fail, or may produce inaccurate, biased or deficient data. The occurrence of any failures, data issues, or interruptions could have a material adverse effect on our business, financial condition, and results of operations.

Additionally, we rely on the Office of Finance to facilitate the issuance and servicing of our consolidated obligations. A failure, interruption, or breach in the security of the Office of Finance's or their critical vendors' or third parties' (including the Federal Reserve Banks') operating systems could disrupt our access to funds, and may harm our business. For instance, the Federal Reserve Banks suffered a widespread outage on February 24, 2021, which resulted in disruptions to the Federal Reserve Banks' payment services and other financial services across the U.S., including services used by the FHLBs and the Office of Finance. Moreover, any operational failure of the Office of Finance or their critical vendors or third parties could also expose us to the risk of loss of data or confidential information, or other harm, including reputational damage.

Defaults by, or loss of, the vendor for certain of our master servicing activities for the MPF Program could adversely affect our business, results of operations or financial condition.

We act as master servicer for the MPF Program. In this regard, we have engaged a vendor for certain master servicing activities, and this vendor monitors the servicers' adherence to certain MPF Program requirements and issues periodic reports to us. While we manage MPF Program cash flows, if our vendor should refuse or be unable to provide the necessary service, or if we should decide to terminate our relationship with the vendor, we may be required to engage another vendor which could result in delays in reconciling MPF Loan payments to be made to us or increased expenses to retain a new master servicing vendor. Any of these events could adversely affect our business, results of operation, or financial condition.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Item 1B. Unresolved Staff Comments.

Not applicable.

Item 1C. Cybersecurity.

Cybersecurity Risk Management and Strategy

We are subject to cybersecurity risks, which include intentional and unintentional acts that may jeopardize the confidentiality, integrity, or availability of our information technology assets and data under our control. Cybersecurity risks can take the form of a variety of circumstances to cause harm to us, our members, our service providers, and the economy in general. These circumstances include, but are not limited to, malicious software or exploited vulnerabilities, social engineering such as phishing, denial-of-service attacks, viruses, malware, and natural disasters. For a discussion of cybersecurity and related risks impacting our Bank, see **Risk Factors** starting on page 21.

In alignment with industry standards, such as the National Institute of Standards of Technology (NIST) Cybersecurity Framework, and FHFA regulatory guidance, we have implemented processes for assessing, identifying, and managing cybersecurity risks through a layered approach throughout our environment and in our service provider arrangements, including software-as-a-service and infrastructure-as-a-service engagements. We look to continuously improve our policies and practices to mitigate our exposure to cybersecurity risks given, among other things, the evolving natures of these risks, the involvement of uncontrollable circumstances, such as fires or flooding, and our role in the financial services industry and the broader economy. Our cybersecurity risk management program, which works in tandem with the Bank's Enterprise Risk Management program, includes risk management practices, procedures, and technology solutions aimed at addressing potential cybersecurity threats faced by the Bank in alignment with the Bank's strategic plans, risks tolerance, and enterprise operational risk policy. Cybersecurity risk-mitigation processes include, but are not limited to, performing regular risk assessments to identify, understand and prioritize risks from cybersecurity threats; the implementation of firewalls, anti-virus software, real-time network monitoring; on-going employee training to educate employees on how to identify and avoid various forms of social engineering; performing routine threat monitoring (including use of a third party service provider monitoring) and controls testing; and maintaining a vulnerability management program to timely identify and remediate cybersecurity risks. The Bank also maintains a Cyber Security Incident Response Plan (CSIRP) to determine how cybersecurity threats and incidents are identified, classified, escalated, mitigated and remedied. The CSIRP is implemented and maintained by the Bank's threat and incident response team and overseen by our Chief Information Security Officer (CISO). Additionally, the Bank maintains a business resiliency management program to mitigate and respond to critical disruptive events (such as fire, cybersecurity incidents, and power loss). Our business resiliency management program (as further discussed below) includes, but is not limited to, testing our disaster recovery plans and reviewing department level business continuity procedures.

We regularly engage with third parties, including cybersecurity experts, to test, maintain, and enhance our cybersecurity risk management practices and threat monitoring. These engagements include, among other things, penetration testing, constant managed detection and response services, and intrusion prevention and detection applications. Our vendor risk management program includes regular reviews and oversight of these third parties, including performance and technological reviews and escalation of any unsatisfactory reviews. Additionally, the Bank seeks to identify, monitor and prioritize substantial risks from cybersecurity threats associated with our use of critical third parties. As part of its risk assessment, the Bank endeavors to use the information obtained from these efforts to reach a reasonable conclusion as to that third party's cyber risk management protocols.

During the period covered by this report, the risk from cybersecurity threats or incidents did not have a material impact on our strategy, results of operations, or financial condition. It is inevitable that cybersecurity incidents will occur in the future and any such cybersecurity incident may result in significantly harmful consequences to us, our members, and their customers. We assess the materiality of any such cybersecurity incident from several perspectives including, but not limited to, our ability to continue to service our members and protect the privacy of data, as well as the likely extent and effect of lost revenue, increased operating costs, litigation, and reputational harm.

Cybersecurity Governance

Our CISO provides reporting to the Risk Management Committee and Operations and Technology Committee of our Board of Directors on topics such as threat intelligence, major cybersecurity risk areas and threats, technologies and best practices, and any cybersecurity incidents that may have impacted us, as needed when there are status updates or changes. Our CISO reports annually (or more often as needed) to the full Board of Directors on the Bank's cybersecurity risk management program. The Bank's Enterprise Risk Management team, which is part of the Bank's risk management function, provides quarterly reports to the Risk Management Committee (and ultimately, the Board of Directors) on the Bank's risk tolerance conditions, including reports on any cybersecurity matters that may fall outside of the Bank's risk tolerance conditions. Our Board of Directors provides oversight for information security and cyber security risk management activities and approval of the overall cybersecurity risk management program, and the Bank's overall risk management program at large. In addition to full Board oversight, the Risk Management Committee oversees the Bank's cybersecurity risks in accordance with the Bank's risks tolerance. Additionally, the Operations and Technology Committee oversees the Bank's cybersecurity risk management program, and reviews and validates that the direction of the program is in support the Bank's objectives. The Audit Committee of the Board is also involved with ensuring that the internal audit team has an audit plan and resources adequate to evaluate the Bank's cybersecurity risks and

(Dollars in tables in millions except per share amounts unless otherwise indicated)

controls.

Our Bank Operational Risk Oversight Committee (OROC) (a management level committee, consisting of members of our senior leadership) and its subcommittee, the Technology Risk Sub-Committee (TRSC) (consisting of representatives across the Bank, including from the Risk Management and Information Technology groups), are responsible for reviewing our cybersecurity risk management program's efforts and activities to track the progress of the program's support of the Bank's objectives. TRSC (and to the extent necessary, OROC) receives regular reporting from our CISO including information security metrics, material technology changes and cybersecurity threats being monitored. The Bank's Executive Team is the primary management committee for the Bank across all functions and receives reports from the OROC, Technology Risk Sub-Committee, and the CISO as appropriate on matters impacting cybersecurity risks.

Our CISO, who reports both to our Chief Risk Officer and our Chief Information Officer, manages the Bank's information security and cybersecurity risk management program designed to protect the confidentiality, integrity, and availability of the Bank's information technology assets and data under our control. Our CISO has more than 15 years of experience in cyber security matters, including over 13 years in information technology with the Bank in roles of increased responsibilities. Our information security department executes our cybersecurity risk management program, and is responsible for developing, documenting, and approving our information security control standards, guidelines, and procedures, in line with the policies and standards set forth by our Board of Directors. Our threat and incident response team, a subset of our information security department, is responsible for responding to potential threats that may require a system change, modifications and other methods to maintain business continuity to minimize cybersecurity threats. Personnel in the security program hold a variety of technical certifications relevant to their job functions and engage in continuing education.

Our business resiliency management program is overseen by our Board of Directors and its Operations and Technology Committee, which provides oversight of the Bank's implementation of the program and maintenance of the plans that reflect the Bank's current operating environment and risk tolerance. The implementation of our business resiliency management program is delegated to our Executive Team and their designees, and the Bank's OROC is responsible for the direct governance, oversight and monitoring of the program.

Item 2. Properties.

As of February 29, 2024, we occupy 129,065 square feet of leased office space at 433 West Van Buren Street, Chicago, Illinois 60607 (the "OPO Location"). We also maintain 5,518 square feet of leased space for an off-site facility 15 miles northwest of our main facility, which is on a separate electrical distribution grid.

Item 3. Legal Proceedings.

The Bank may be subject to various legal proceedings arising in the normal course of business. After consultation with legal counsel, management is not aware of any legal proceedings that might have a material effect on the Bank's financial condition or results of operations.

Item 4. Mine Safety Disclosures.

Not applicable.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

PART II
Item 5. Market for Registrant's Common Equity, Related Stockholder Matters, and Issuer Purchases of Equity Securities.

Our members, and under limited circumstances former members (including their successors), own our capital stock. Former members may continue to hold our capital stock when they have withdrawn from membership or have merged with out-of-district institutions. Our members elect our directors. We conduct our business almost exclusively with our members. Our stock can only be acquired and redeemed or repurchased at a par value of \$100 per share. Our stock is not publicly traded and no market mechanism exists for the exchange of stock outside our cooperative structure.

We issue only one class of capital stock, Class B stock, consisting of two sub-classes of stock, Class B1 stock and Class B2 stock which, under our Capital Plan has a par value of \$100 per share. As of January 31, 2024, we had 32,562,704 shares of capital stock outstanding, including mandatorily redeemable capital stock recorded as a liability, and we had 664 stockholders of record. For details on our Capital Plan, on member withdrawals and other terminations, and related amounts classified as mandatorily redeemable capital stock, see **Note 12 - Capital and Mandatorily Redeemable Capital Stock (MRCS)** to the financial statements and **Capital Resources** on page 58.

Information regarding our cash dividends declared in each quarter in 2022 and 2023, and information regarding regulatory requirements and restrictions on dividends, is set forth in the **Retained Earnings & Dividends Policy** section on page 62.

The following table presents, by type of institution, the outstanding capital stock holdings of our members and former members. Our capital stock may be redeemed upon five years' notice from the member to the Bank, subject to applicable conditions. For a description of our policies and related restrictions regarding capital stock redemptions and repurchases, see **Capital Resources** on page 58.

As of	December 31, 2023	December 31, 2022
Commercial banks	\$ 1,871	\$ 1,589
Savings institutions	109	84
Credit unions	682	757
Insurance companies	613	557
Community Development Financial Institutions	2	2
Total GAAP capital stock	3,277	2,989
Stock reclassified as mandatorily redeemable capital stock (liability)	83	248
Total regulatory capital stock outstanding	\$ 3,360	\$ 3,237

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Item 6. [Reserved]

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Below are selected financial data for the last five fiscal years.

As of or for the years ended December 31,	2023	2022	2021	2020	2019
Other selected data at period end					
Member standby letters of credit outstanding	\$ 12,601	\$ 10,750	\$ 11,317	\$ 16,395	\$ 23,851
MPF Loans par value outstanding - FHLB System ^a	68,300	65,562	66,297	70,326	68,759
MPF Loans par value outstanding - FHLB Chicago PFIs ^a	19,060	18,331	18,600	18,934	17,364
Number of members	654	671	676	686	689

Forward-Looking Information

Statements contained in this report, including statements describing the plans, objectives, projections, estimates, strategies, or future predictions of management, statements of belief, any projections or guidance on dividends or other financial items, or any statements of assumptions underlying the foregoing, may be “forward-looking statements.” These statements may use forward-looking terminology, such as “anticipates,” “believes,” “expects,” “could,” “plans,” “estimates,” “may,” “should,” “will,” their negatives, or other variations of these terms. We caution that, by their nature, forward-looking statements involve risks and uncertainties related to our operations and business environment, all of which are difficult to predict and many of which are beyond our control. These risks and uncertainties could cause actual results to differ materially from those expressed or implied in these forward-looking statements and could affect the extent to which a particular objective, projection, estimate, or prediction is realized. As a result, undue reliance should not be placed on such statements.

These forward-looking statements involve risks and uncertainties including, but not limited to, the following:

- political events, including legislative, regulatory, judicial, or other developments that affect us, our members, our counterparties and/or investors in consolidated obligations, including, among other things, changes in perception, guidance, regulation, and/or legislation relating to the FHFA’s *Review and Analysis of the Federal Home Loan Bank System “FHLBank System at 100: Focusing on the Future”* report, housing finance, the FHLBs, or GSE reform; changes in the Presidential Administration and the Congress; changes in our regulator or changes affecting our regulator and changes in the FHLB Act or applicable regulations as a result of the Housing and Economic Recovery Act of 2008 or as may otherwise be issued by our regulator; the potential designation of us as a nonbank financial company for supervision by the Federal Reserve;
- general economic and market conditions, including the timing and volume of market activity, recession, prolonged inflation, unemployment rates, housing prices, the condition of the mortgage and housing markets, increased delinquencies and/or loss rates on mortgages, prolonged or delayed foreclosure processes, and the effects on, among other things, mortgage-backed securities; volatility resulting from the effects of, and changes in, various monetary or fiscal policies and regulations, such as those determined by the Federal Reserve Board and Federal Deposit Insurance Corporation; impacts from various measures to stimulate the economy and help borrowers refinance home mortgages; disruptions in the credit and debt markets and the effect on our members, future funding costs, sources, and availability of funds; the impact of the occurrence of a major natural or other disaster, a pandemic or other disruptive event; the impact of climate change; the impact of geopolitical uncertainties or conflicts;
- the loss or changes in business activities with significant members; changes in the demand by our members for advances, the impact of pricing increases, and the availability of other sources of funding for our members, such as deposits;
- regulatory limits on our investments;
- the impact of new business strategies, including our ability to develop and implement business strategies focused on maintaining net interest income; our ability to successfully maintain our balance sheet and cost infrastructure at an appropriate composition and size scaled to member demand; our ability to execute our business model, implement business process improvements and scale our size to our members’ borrowing needs; the extent to which our members use our advances as part of their core financing rather than just as a back-up source of liquidity; and our ability to implement product enhancements and new products and generate enough volume in new products to cover our costs related to developing such products;
- the extent to which changes in our current capital stock requirements and/or our ability to continue to offer the Reduced Capitalization Advance Program (RCAP) for certain future advance borrowings, our ability to continue to pay enhanced dividends on our activity stock, our ability to maintain current levels of dividends, our ability to meet dividend guidance, and any amendments to our capital plan, impact Bank product usage and activity with members;
- our ability to meet required conditions to repurchase and redeem capital stock from our members (including maintaining compliance with our minimum regulatory capital requirements and determining that our financial condition is sound enough to support such repurchases), the amount and timing of such repurchases or redemptions, any changes in our repurchase processes, and our ability to maintain compliance with regulatory and statutory requirements relating to our dividend payments;
- volatility of market prices, rates, and indices, or other factors, such as natural disasters, that could affect the value of our investments or collateral; changes in the value or liquidity of collateral securing advances to our members;

(Dollars in tables in millions except per share amounts unless otherwise indicated)

- changes in the value of and risks associated with our investments in mortgage loans, mortgage-backed securities, and the related credit enhancement protections;
- changes in our ability or intent to hold mortgage-backed securities to maturity;
- changes in mortgage interest rates and prepayment speeds on mortgage assets;
- membership changes, including the loss of members through mergers and consolidations or as a consequence of regulatory requirements; changes in the financial health of our members, including the resolution of some members; risks related to expanding our membership to include more institutions with regulators and resolution processes with which we have less experience;
- increased reliance on short-term funding and changes in investor demand and capacity for consolidated obligations and/or the terms of interest rate derivatives and similar agreements, including changes in the relative attractiveness of consolidated obligations as compared to other investment opportunities; changes in our cost of funds due to concerns over U.S. fiscal policy, and any related rating agency actions impacting FHLB consolidated obligations;
- regulatory changes to FHLB membership requirements, capital requirements, MPF Program requirements, and liquidity requirements by the FHFA, and increased guidance from the FHFA impacting our balance sheet management, product structures, and collateral practices;
- the ability of each of the other FHLBs to repay the principal and interest on consolidated obligations for which it is the primary obligor and with respect to which we have joint and several liability;
- the pace of technological change and our ability to develop and support technology and information systems, including our ability to protect the security of our information systems and manage any failures, interruptions or breaches in our information systems or technology services provided to us through third party vendors;
- our ability to recruit and retain qualified personnel;
- the impact of new material accounting standards and the application of accounting rules, including the impact of regulatory guidance on our application of such standards and rules;
- the volatility of reported results due to changes in the fair value of certain assets and liabilities;
- our ability to identify, manage, mitigate, and/or remedy internal control weaknesses and other operational risks; and
- the reliability of our projections, assumptions, and models on our future financial performance and condition, including dividend projections.

For a more detailed discussion of the risk factors applicable to us, see **Risk Factors** on page 21.

These forward-looking statements are representative only as of the date they are made, and we undertake no obligation to update any forward-looking statement as a result of new information, future events, changed circumstances, or any other reason.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Executive Summary

2023 Financial Highlights

- **Net income** for 2023 was \$660 million, compared to \$415 million in 2022, with the year-over-year increase primarily driven by increased returns on the Bank's advances portfolio and liquidity portfolio (i.e., cash and due from banks, interest bearing deposits, federal funds sold, and securities purchased under agreement to resell) as interest rates rose during the year.
- **Net interest income** for 2023 was \$1.1 billion, compared to \$677 million in 2022, driven by the factors discussed above.
- **Noninterest income (loss)** decreased by \$70 million to \$(38) million in 2023, compared to \$32 million in 2022, primarily driven by losses from derivatives used to hedge the Bank's market risk exposure.
- **Noninterest expense** was \$286 million for 2023, compared to \$244 million in 2022, with the change primarily driven by increases in compensation and benefits expenses, non-payroll operating expenses, and expenses related to the Bank's voluntary Community Investment commitments. In 2023, the Bank's voluntary Community Investment expenses were \$28 million, compared to \$11 million in 2022, as our Board of Directors allocated additional discretionary funds in 2023 recognizing that additional funding would be beneficial in meeting community needs in affordable housing, as well as business and community development.
- **Total assets** were \$118.4 billion at year-end 2023, compared to \$126.9 billion at year-end 2022, with the change primarily attributable to a reduction in the Bank's liquidity portfolio.
- **Advances** outstanding were \$65.3 billion at year-end 2023, compared to \$66.3 billion at year-end 2022, with the change primarily attributable to advances maturing with a former captive insurance company member, offset by increased advance borrowing by the Bank's depository members.
- **MPF loans held in portfolio** increased to \$11.4 billion at year-end 2023, compared to \$10.2 billion at year-end 2022, primarily attributable to new acquisition volume that outpaced paydown and maturity activity. This new acquisition volume was primarily attributable to loans sold into the Bank's MPF program due to competitive pricing offered on our products and, to a lesser extent, increased loan origination due to homebuyer demand.
- **Total investment securities** were \$26.4 billion at year-end 2023, compared to \$22.1 billion at year-end 2022, with the change primarily attributable to an increase in investment in GSE mortgage-backed securities and U.S. Treasuries.
- **Retained earnings** were \$5.0 billion at year-end 2023, up from \$4.6 billion at year-end 2022.
- **Letters of credit** commitments increased to \$12.6 billion at year-end 2023, up from \$10.8 billion at year-end 2022, primarily due to increased usage from Bank members for public unit deposits.
- The Bank remained in compliance with all of its regulatory capital requirements as of year-end 2023.

Summary and Outlook

In a challenging year for the financial industry, the Bank reached new heights in supporting our members and the communities our members serve. We are focused on being a reliable source of funding and liquidity and providing meaningful community investment support across our district into the future. We believe our success in 2023 can be attributed to our members' strong engagement with the Bank, our products and community investment programs.

Fourth Quarter 2023 Dividends and Dividend Guidance

Based on our preliminary fourth quarter 2023 results, the Board of Directors declared our dividend on January 26, 2024 – 8.75% (annualized) for Class B1 activity stock and 5.125% (annualized) for Class B2 membership stock. Dividends were paid February 15, 2024.

We expect to maintain at least a 8.75% (annualized) dividend for Class B1 activity stock for the first and second quarters of 2024, based on current projections and assumptions regarding our financial condition. We are providing this information to assist members in planning their activity with us. Any future dividend payments remain subject to determination and declaration by our Board of Directors and may be impacted by changes in financial or economic conditions, regulatory and statutory limitations, and any other relevant factors.

Investing in Communities Through Strong Member Engagement

In 2023, 90% of Bank members and housing associates used at least one of our core product offerings—advances, letters of credit, MPF products, and Community Investment products. The Bank also welcomed ten new members in 2023. Additionally, three Community First Community Investment products entered their second year after being created in response to critical needs of members and communities across Illinois and Wisconsin. These programs target affordable housing development, access to financial education, and funding for small businesses.

- **Advance products:** At year-end 2023, 447 members had outstanding advances totaling \$65.3 billion, down 1% from year-end 2022. In 2023, we funded \$2.4 billion in below market rate advances through our Community Advances

(Dollars in tables in millions except per share amounts unless otherwise indicated)

- program, designed to help our members fund affordable housing and economic development needs.
- **MPF Program:** During 2023, 185 PFIs funded our MPF on- and off-balance sheet products. At year-end 2023, MPF Loans outstanding on our balance sheet were \$11.4 billion, a 12% increase from year-end 2022, showcasing the stability of the MPF Program through a volatile market. Additionally, more than one third of mortgages purchased for investment or securitized through our MPF products were made to low-income borrowers or made to borrowers in a low-income area.
- **Affordable Housing Program:** In 2023, the Bank awarded over \$33 million in AHP funds to help finance 44 affordable housing projects in Illinois and Wisconsin. These funds will support the acquisition, rehabilitation, and new construction of approximately 1,900 housing units.
- **Downpayment Plus Programs:** By year-end 2023, 207 members provided over \$33 million in down payment assistance grants to more than 3,500 homebuyers in member communities. We opened our 2024 DPP programs on January 16, 2024, making grants up to \$10,000 available to members' income-eligible homebuying customers.
- **Community First Diverse Developer Initiative:** This program supports career development for diverse developers of affordable housing in Illinois and Wisconsin. The Bank doubled its annual support to \$2 million in 2023, the second year of the program. This round funded more than 30 fellowships and internships for ten beneficiary organizations.
- **Community First Housing Counseling Resource Program:** In partnership with two Bank housing associates, Illinois Housing Development Authority (IHDA) and Wisconsin Housing and Economic Development Authority (WHEDA), this program provides grants to housing counseling agencies to support expanded service to minority and low- and moderate-income homebuyers. Through these grants, awarded agencies in our district provide financial counseling and education to help homebuyers in underserved communities rebuild credit, manage debt, and establish savings. In 2023, IHDA and WHEDA administered the program, and 30 organizations were awarded \$2 million.
- **Community First Accelerate Grants for Small Business:** This program provides grants up to \$25,000 to support the growth and development of small businesses in communities served by member financial institutions. In 2023, the Bank awarded more than \$4 million in total grants to approximately 170 small businesses – more than quadrupling our program investment year-over-year.

FHLBank System at 100: Focusing on the Future Report

The FHFA released its FHLBank System at 100: Focusing on the Future Report in November 2023. For a discussion of the report and potential impacts see **Legislative and Regulatory Developments** starting on page 18 and **Risk Factors** starting on page 21.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Critical Accounting Estimates

See **Note 2 - Summary of Significant Accounting Policies** to the financial statements for further details on our accounting policies.

The preparation of financial statements in accordance with GAAP requires management to make a number of judgments, estimates, and assumptions that affect the reported amounts of assets, liabilities, income and expense. To understand the Bank's financial position and results of operations, it is important to understand the Bank's most significant accounting estimates and the extent to which management uses judgment and assumptions in applying those estimates. The Bank's critical accounting estimates include the following:

- Derivatives and hedging activities; and
- Fair value.

Derivatives and Hedging Activities

We transact most of our derivatives with large banks and major broker-dealers. Some of these banks and broker-dealers or their affiliates buy, sell, and distribute consolidated obligations. We are not a derivatives dealer and do not trade derivatives for speculative purposes. We enter into derivative transactions through either of the following:

- A bilateral agreement with an individual counterparty for over-the-counter derivative transactions.
- Clearinghouses classified as DCOs through FCMs, which are clearing members of the DCOs, for cleared derivative transactions.

Managing Interest Rate Risk

We carry all derivatives at fair value in our **Statements of Condition**. We use fair value hedges to manage our exposure to changes in the fair value of (1) a recognized asset or liability or (2) an unrecognized firm commitment, attributable to changes in a benchmark interest rate. Our cash flow hedge strategy is to hedge the variability in the total net proceeds received from rolling forecasted zero-coupon discount note issuance, attributable to changes in the benchmark interest rate, by entering into pay-fixed interest rate swaps. We did not use the cash flow hedge strategy for new transactions in 2023, but may elect to do so in the future.

We may elect the fair value option for financial instruments, such as advances, MPF Loans held for sale, and consolidated obligation discount notes and bonds, in cases where hedge accounting treatment may not be achieved due to the inability to meet the hedge effectiveness testing criteria, or in certain cases where we wish to mitigate the risk associated with selecting the fair value option for other instruments. We may also use economic hedges when hedge accounting is not permitted or hedge effectiveness is not achievable.

Derivative Hedge Accounting (Refer to **Note 2 - Summary of Significant Accounting Policies** and **Note 9 - Derivatives and Hedging Activities** for further details).

We apply hedge accounting to qualifying hedge relationships. A qualifying hedge relationship exists when a derivative hedging instrument is expected to effectively offset changes in fair values, cash flows, or underlying risk of the hedged item during the term of the hedge relationship. We prepare formal contemporaneous documentation at inception of the hedge relationship to support that the hedge relationship qualifies for hedge accounting treatment and assess hedge effectiveness on an ongoing basis. On a quantitative basis hedge effectiveness is considered to exist when correlation between the hedged item and hedging instrument is between 80% and 125%. When correlation between the hedged item and hedging instrument is between 90% and 110%, a qualitative analysis is performed. The hedge documentation formally documents the hedge relationship and its risk management objective and strategy for undertaking the hedge, including identification of the hedging instrument, the hedged item, the nature of the risk being hedged, and an assessment of the hedging instrument's effectiveness in offsetting the exposure to changes in the hedged item's fair value attributable to the hedged risk.

As of December 31, 2023, we held \$134.7 billion notional of interest-rate derivatives with a total, net asset (liability) fair market value of \$122 million, excluding posted collateral. These derivatives hedge mostly our fixed rate interest-earning assets and interest-bearing liabilities. The following table shows the estimated changes in the fair market value of our interest-rate derivatives under parallel interest-rate shifts allowing interest rates to go negative under the current rate environment (for example the same change to interest rates on short-, intermediate-, and long-term fixed income maturities):

(Dollars in tables in millions except per share amounts unless otherwise indicated)

	As of December 31, 2023							
Change from base case in bps	-200	-100	-50	-25	+25	+50	+100	+200
Net change in fair market value	\$ (3,172)	\$ (1,401)	\$ (653)	\$ (314)	\$ 288	\$ 552	\$ 1,015	\$ 1,767

The above table includes total derivatives entered into by the Bank, which includes interest-rate derivatives related to fair value hedges, cash flow hedges, and economic hedges.

In addition to performing the above sensitivity analysis, we also compare our fair value estimates of our outstanding derivatives to the estimates of our counterparties. At December 31, 2023 the difference between our total, net estimated fair market value of derivatives versus that of the counterparties' estimated values was \$(39) million or 31.8%.

Fair Value Estimates

Details of the Bank's processes for determining fair value, including discussion on the fair value hierarchy are set out in **Note 15 - Fair Value**. Estimating fair value requires the application of judgment. We believe our estimated fair value amounts are reasonable; however, as outlined below, there are inherent limitations in any valuation technique.

- Our estimated fair value amounts are highly subjective in nature. We select assumptions and inputs from a market participant's perspective to use with any of our valuation techniques. Such assumptions and inputs include, but are not limited to, the amount and timing of future cash flows, prepayment speed, expected interest rate volatility, possible distributions of future interest rates used to value options, and the selection of discount rates that appropriately reflect the market, liquidity, and credit risks. Significant judgment is required when selecting such assumptions and inputs. Using different assumptions and inputs could have a material effect on our estimated fair value amounts. Further, the estimated fair value amounts presented in our **Statements of Condition** and disclosed in our notes to financial statements are not necessarily indicative of the amounts that would be realized in current market transactions.
- Our estimated fair value amounts are made as of the **Statements of Condition** date; and accordingly, such estimated fair value amounts are susceptible to material changes thereafter.

Fair value represents the exit price that we would receive to sell an asset or pay to transfer a liability in an orderly transaction with a market participant at the measurement date.

Valuation Techniques and Significant Inputs

We utilize the fair value hierarchy when selecting valuation techniques and significant inputs to measure the fair value of our assets and liabilities. Our valuation techniques may utilize market, cost, and/or income models to estimate fair values. Under the fair value hierarchy, valuation techniques and significant inputs are prioritized from the most objective, such as quoted market prices in external active markets, to the least objective, such as valuation approaches that utilize unobservable inputs. The fair value hierarchy requires us to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Refer to **Note 15 - Fair Value** for further details on our valuation techniques and significant inputs.

Valuation of Derivatives and Hedged Items. For purposes of estimating the fair value of derivatives and items for which we are hedging changes in the benchmark fair value, we employ a valuation model that uses market data from the U.S. Treasury obligations, Effective federal funds rates (EFFR), overnight indexed swap rates, Secured Overnight Financing Rate (SOFR), SOFR Futures, and the U.S. dollar interest-rate-swap markets to construct discount and forward-yield curves using standard financial market techniques.

For the valuation of derivatives, we use OIS based on the federal funds effective rate as the discount rate for our interest-rate derivatives which are not cleared through a DCO or our cancelable OIS swaps, while the SOFR discounting curve is used for the valuation of derivatives cleared through a DCO or our cancelable SOFR swaps. For derivatives, we compare the fair values obtained from our valuation model to clearinghouse valuations (in the case of cleared derivatives) and non-binding dealer estimates (in the case of bilateral derivatives) or other valuation models, and may also compare derivative fair values to those of similar instruments, to ensure such fair values are reasonable.

For the valuation of hedged assets or liabilities in fair-value hedging relationships where the hedged risk is the change in the fair value of the benchmark interest rate, we use OIS or SOFR as the discount rate, depending on which interest-rate index was designated as the benchmark rate at inception of the hedge relationship. These valuations are calculated using the same valuation model that calculates the fair values of the associated hedging derivatives. This valuation model is subject to a model validation approximately every four years by either an external party or an internal validation group. We periodically review and refine, as appropriate, the assumptions and valuation methodologies to reflect market indications as closely as possible.

We use benchmark coupon and/or partial term hedging strategies for a portion of our hedged portfolio.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Results of Operations

Net Interest Income

Net interest income is the difference between the amount we recognize into interest income on our interest-earning assets and the amount we recognize into interest expense on our interest-bearing liabilities. These amounts were determined in accordance with GAAP and were based on the underlying contractual interest rate terms of our interest-earning assets and interest-bearing liabilities as well as the following items:

- Amortization of premiums;
- Accretion of discounts;
- Hedge ineffectiveness, which represents the difference between changes in the fair value of the derivative and the hedged item attributable to the hedged risk, is recognized into either interest income or interest expense, whichever is appropriate. For cash flow hedges, recognition occurs only when amounts are reclassified out of accumulated other comprehensive income (loss) (AOCI). Such recognition occurs when earnings are affected by the hedged item;
- Net interest paid or received on interest rate swaps that are accounted for as fair value or cash flow hedges;
- Amortization of fair value and cash flow closed hedge adjustments;
- Advance and investment prepayment fees; and
- MPF credit enhancement income payments.

The following table presents the increase or decrease in interest income and expense due to volume or rate variances. The calculation of these components includes the following considerations:

- *Average Balance:* Average balances are calculated using daily balances. Amortized cost is used to compute the average balances for most of our financial instruments, including MPF Loans held in portfolio (including those that are on nonaccrual status) and available-for-sale debt securities. Fair value is used to compute average balances for our trading debt securities and financial instruments carried at fair value under the fair value option.
- *Total Interest:* Total interest includes the net interest income components, as discussed above, applicable to our interest-earning assets and interest-bearing liabilities.
- *Yield/Rate:* Effective yields/rates are based on total interest and average balances as defined above. Yields/rates are calculated on an annualized basis. The calculation of the yield on our available-for-sale securities does not give effect to changes in fair value that are reflected as a component of AOCI.
- The change in volume is calculated as the change in average balance multiplied by the current year yield. The change in rate is calculated as the change in yield multiplied by the prior year average balance. Any changes due to the combined volume/rate variance have been allocated to volume.

FHLBank Chicago Federal Home Loan Bank of Chicago

(Dollars in tables in millions except per share amounts unless otherwise indicated)

2023 compared to 2022

	2023			2022			Increase (decrease) due to

	\$138,626	\$ 1,060	0.76 %	\$109,138	\$ 677	0.62 %	\$ 189	\$ 194	\$ 383

- Interest income from investment debt securities increased primarily due to higher market interest rates in 2023 compared to 2022.
- Interest income from advances increased primarily due to higher market interest rates in 2023 compared to 2022. In addition, increased borrowing from our depository members contributed to the increase in interest income.
- Interest income from MPF Loans held in portfolio increased primarily due to the higher mortgage rate environment increasing the yield earned on new loan originations in 2023 compared to 2022. Secondly, new acquisition volume that outpaced paydown and maturity activity also contributed to this increase in interest income.
- Interest income from overnight federal funds sold, securities purchased under agreements to resell, and interest-bearing deposits increased primarily due to higher market interest rates in 2023 compared to 2022. To a lesser extent, increased volume also contributed to this increase in interest income.
- Interest expense on our shorter-termed consolidated obligation discount notes and longer-termed consolidated obligation bonds increased primarily due to higher market interest rates in 2023 compared to 2022. To a lesser extent, increased volume also contributed to this increase in interest expense.
- For details of the effect our fair value and cash flow hedge activities had on our net interest income see the **Trading Securities, Derivatives and Hedging Activities, and Instruments Held Under the Fair Value Option** table on page 45.

- Interest income from investment debt securities increased primarily due to higher market interest rates in 2022 compared to 2021.
- Interest income from advances increased primarily due to higher market interest rates in 2022 compared to 2021. In addition, increased borrowing from our depository members contributed to the increase in interest income.
- Interest income from MPF Loans held in portfolio increased primarily due to a reduction in premium amortization expense in 2022 compared to 2021 as loan prepayments slowed in 2022.
- Interest income from overnight federal funds sold, securities purchased under agreements to resell, and interest-bearing deposits increased primarily due to higher market interest rates in 2022 compared to 2021. To a lesser extent, increased volume also contributed to this increase in interest income.
- Interest expense on our shorter-termed consolidated obligation discount notes increased due to higher market interest rates in 2022 compared to 2021, despite a decline in volume.
- Interest expense on our longer-termed consolidated obligation bonds increased primarily due to higher market interest rates in 2022 compared to 2021. To a lesser extent, increased volume also contributed to this increase in interest expense.
- For details of the effect our 2021 fair value and cash flow hedge activities had on our net interest income see the **Trading Securities, Derivatives and Hedging Activities, and Instruments Held Under the Fair Value Option** table on page 45 in our Form 10-K for the year ended December 31, 2022 (2022 Form 10-K).

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Other, net	13	3
Noninterest income (loss)	\$ (38)	\$ 32

Trading Securities, Derivatives and Hedging Activities, and Instruments Held Under the Fair Value Option

Unrealized losses from our derivatives were the primary driver of the decrease in noninterest income. The unrealized losses in our derivatives were primarily attributable to higher market interest rates in 2023 compared to 2022.

The following table details the net income effect of all of our hedging related transactions, which were recorded in the following lines in our **Statements of Income**.

	Advances	Investments	MPF Loans	Discount Notes	Bonds	Other	Total

MPF fees (including from other FHLBs)

A majority of MPF fees are from other FHLBs that pay us a fixed membership fee to participate in the MPF Program and a volume-based administration fee for us to provide services related to MPF Loans carried on their balance sheets. MPF fees also include income from other third party off-balance sheet MPF Loan products and other related administration fees. These administration and membership fees are designed to compensate us for the expenses we incur to administer the program. MPF fees for 2023 decreased compared to the prior period in 2022, primarily driven by a decrease in volume in off-balance sheet MPF Loan products contributing to a decline in fee income.

Other, net

Other, net includes fee income we earn from member standby letters of credit products.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Noninterest Expense

For comparisons to 2021 see **Noninterest Expense** on page 46 in our 2022 Form 10-K.

For the years ended December 31,	2023	2022
Compensation and benefits	\$ 129	\$ 117
Nonpayroll operating expenses	108	93
Voluntary Community Investment contributions	28	11
Federal Housing Finance Agency and Office of Finance	18	19
Other, net	3	4
Noninterest expense	\$ 286	\$ 244

The following analysis and comparisons apply to the periods presented in the above table.

Compensation and benefits increased primarily due to increases in salaries, severance-related expenses and pension related-expenses. We had 486 employees as of December 31, 2023, compared to 495 employees as of December 31, 2022.

Nonpayroll operating expenses increased primarily due to our planned investment in information technology, specifically applications, infrastructure, and resiliency. In addition, an impairment write-down of certain internal use software contributed to the increase in expenses.

Voluntary Community Investment contributions increased as our Board of Directors allocated additional discretionary funds in 2023 recognizing that additional funding would be beneficial in meeting community needs in affordable housing, as well as business and community development. For more information on these voluntary contributions, see **Environmental, Social, and Governance** on page 14.

Federal Housing Finance Agency and Office of Finance expenses consist of our share of the funding for the FHFA, our regulator, and the Office of Finance, which manages the consolidated obligation debt issuances of the FHLBs.

Other, net expenses includes net benefit costs associated with our non-qualified deferred compensation plan.

As noted in **Noninterest Income** on page 45, we earn MPF fees from the MPF Program, a majority of which are from other FHLBs but also include income from other third party investors. These fees are designed to compensate us for the expenses we incur to administer the program. Our expenses relating to the MPF fees earned are included in the relevant line items in the noninterest expense table shown above. Expenses related to MPF fees earned increased primarily due to an impairment write-down of certain internal use software. The following table summarizes MPF related fees and expenses.

For the years ended December 31,	2023	2022
MPF fees earned	\$ 33	\$ 36
Expenses related to MPF fees earned	41	35

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Assessments

We record the AHP assessment expense at a rate of 10% of income before assessments, excluding interest expense on MRCS. See **Note 11 - Affordable Housing Program** to the financial statements for further details.

Other Comprehensive Income (Loss)

For comparisons to 2021 see **Other Comprehensive Income (Loss)** on page 47 in our 2022 Form 10-K.

For the years ended December 31,	For the years ended December 31,		Balance remaining
	2023	2022	in AOCI as of
			December 31, 2023
Net unrealized gain (loss) available-for-sale debt securities	\$ (19)	\$ (545)	\$ (198)
Net unrealized gain (loss) cash flow hedges	(30)	113	72
Postretirement plans	21	2	10
Other comprehensive income (loss)	\$ (28)	\$ (430)	\$ (116)

Net unrealized gain (loss) on available-for-sale debt securities

The net unrealized loss on our AFS portfolio for 2023 was primarily due to rising market interest rates and widening spreads to SOFR, partially offset by gains on our hedges driven by rising market interest rates. As these securities approach maturity, we expect the net unrealized losses in our AOCI as of December 31, 2023 to reverse over the remaining life of these securities (since we expect to receive par value at maturity).

Net unrealized gain (loss) on cash flow hedges

The net unrealized loss on cash flow hedges for 2023 was primarily driven by the change in market interest rates in 2023.

Postretirement plans

The gain recorded in 2023 was primarily due to an actuarial adjustment resulting from an increase in the discount rate used to calculate postretirement benefits.

We did not recognize any instrument-specific credit risk in our **Statements of Comprehensive Income** as of December 31, 2023 due to our credit standing. For further details on the activity in our Other Comprehensive Income (Loss) see **Note 13 - Accumulated Other Comprehensive Income (Loss)** to the financial statements.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Statements of Condition

As of	December 31, 2023	December 31, 2022
Cash and due from banks, interest-bearing deposits, federal funds sold, and securities purchased under agreement to resell	\$ 14,472	\$ 27,548
Investment debt securities	26,405	22,134
Advances	65,306	66,288
MPF Loans held in portfolio, net of allowance for credit losses	11,410	10,160
Other, net of allowance for credit losses	791	723
Assets	\$ 118,384	\$ 126,853
Consolidated obligation discount notes	\$ 28,109	\$ 59,531
Consolidated obligation bonds	80,389	58,116
Other	1,746	1,741
Liabilities	110,244	119,388
Capital stock	3,277	2,989
Retained earnings	4,979	4,564
Accumulated other comprehensive income (loss)	(116)	(88)
Capital	8,140	7,465
Total liabilities and capital	\$ 118,384	\$ 126,853

Cash and due from banks, interest-bearing deposits, federal funds sold, and securities purchased under agreements to resell

Amounts held in these typically overnight accounts will vary each day based on the following:

- Interest rate spreads between federal funds sold and securities purchased under agreements to resell and our debt;
- Liquidity requirements;
- Counterparties available; and
- Collateral availability on securities purchased under agreements to resell.

As of December 31, 2023, we maintained a sufficient pool of liquidity to support anticipated member demand for advances and letters of credit.

Investment Debt Securities

Investment debt securities increased in 2023 with the change primarily attributable to an increase in investment in GSE mortgage-backed securities and U.S. Treasuries.

Advances

Advance balances decreased at year end 2023 compared to year end 2022, with the change primarily attributable to advances maturing with a former captive insurance company member, offset by increased advance borrowing from our depository members. Advance balances will vary based primarily on member demand or need for wholesale funding and the underlying cost of the advance to the member. It is possible that member demand for our advances could decline in future periods should their funding needs change, or to the extent they elect alternative funding resources. In addition, as our remaining advances with our former captive insurance company members continue to mature, our total advance levels may decrease. For a discussion of risks relating to our former captive insurance company members see **Risk Factors** on page 21. For details on our advances with our former captive insurance company members, see **Note 6 - Advances** to the financial statements.

FHLBank Chicago Federal Home Loan Bank of Chicago

(Dollars in tables in millions except per share amounts unless otherwise indicated)

The following table sets forth the current period par amount of advances outstanding for the five largest advance borrowers.

As of	December 31, 2023	
BMO Bank, NA	\$ 11,066	16.8 %
The Northern Trust Company	8,505	12.9 %
JPMorgan Chase Bank, NA ^a	4,000	6.1 %
The Northwestern Mutual Life Insurance Company	3,011	4.6 %
Reliance Standard Life Insurance Company	2,376	3.6 %
All other borrowers	37,003	56.0 %
Total par value	\$ 65,961	100.0 %

^a Effective February 19, 2021, we terminated One Mortgage Partners Corp.'s (OMP) membership in connection with the FHFA rule that made captive insurance companies ineligible for FHLB membership. In December 2021, OMP merged with and into its parent company, JPMorgan Chase Bank, NA (JPM). For details on the contractual maturity terms of JPM's advances, see **Note 6 - Advances** to the financial statements.

The following table presents outstanding advances by type of institution. Former members may withdraw from membership or merge with out-of-district institutions but continue to hold advances.

As of	December 31, 2023	December 31, 2022
Members		
Commercial banks	\$ 37,993	\$ 32,367

Members total	61,832	56,361
Former members and Housing Associates	4,129	11,096
Total at par	65,961	67,457
Fair value hedging and other adjustments	(655)	(1,169)
Balance on the Statements of Condition	\$ 65,306	\$ 66,288

(Dollars in tables in millions except per share amounts unless otherwise indicated)

MPF Loans Held in Portfolio, Net of Allowance for Credit Losses

MPF Loans held in portfolio increased at year end 2023 compared to year end 2022. This was primarily attributable to new acquisition volume that outpaced paydown and maturity activity. This new acquisition volume was primarily attributable to loans sold into our MPF Program due to competitive pricing offered on our products and, to a lesser extent, increased loan origination due to homebuyer demand. In addition to our MPF Loans held in portfolio, we have MPF off-balance sheet products, where we buy and concurrently resell MPF Loans to Fannie Mae or pool and securitize them into Ginnie Mae MBS.

The following table presents an aging of our fixed-rate MPF Loans held in portfolio by terms of contractual maturity. Contractual maturity is determined based on the MPF Loan's amortization schedule.

As of	December 31, 2023	December 31, 2022
Due in 1 year or less	\$ 389	\$ 369
Due after 1 year through 5 years	1,681	1,566
Due after 5 years through 15 years	4,226	3,990
Thereafter	4,974	4,104
Total unpaid principal balance	11,270	10,029
Other adjustments, net ^a	145	136
Total mortgage loans held in portfolio	11,415	10,165
Allowance for credit losses on mortgage loans	(5)	(5)
Mortgage loans held in portfolio, net	\$ 11,410	\$ 10,160

^a Consists of net premiums, credit enhancement, fair value hedging, delivery commitment basis adjustments, and/or deferred loan fees. This also includes loan charge offs of \$6 million at December 31, 2022.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Liquidity, Funding, & Capital Resources

Liquidity

We establish our liquidity position primarily based on the factors outlined below.

- FHFA regulations and guidance.
- Policies established by our Board of Directors.
- Member demand for short- and long-term funds.
- Maturing consolidated obligations as well as obligations arising from our normal operating activities.

We seek to be in a position to meet our members' credit and liquidity needs without maintaining excessive holdings of low-yielding liquid investments or being forced to incur unnecessarily high borrowing costs.

Liquidity from Investments

Our sources of liquidity from investments are short-term liquid assets, primarily overnight federal funds sold and securities purchased under agreements to resell. Our ability to utilize these investments for liquidity purposes may be affected if the credit markets experience disruptions, as discussed below.

- Our ability to use federal funds sold is restricted under our current policy and FHFA regulations. Specifically, we restrict these investments to short maturities and eligible counterparties as discussed in **Unsecured Short-Term Investments** on page 73 because such investments are unsecured. If the credit markets experience disruptions, and as a result one of our counterparties became insolvent or otherwise defaulted on their obligation to us, these investments would not satisfy our liquidity needs and we may incur a credit loss.
- Securities purchased under agreements to resell are secured by marketable securities held by a third party custodian. If the credit markets experience disruptions, and as a result one of our counterparties became insolvent or otherwise defaulted on their obligations to us, these investments would not satisfy our liquidity needs if the collateral pledged to secure those obligations has decreased in value. In such cases, we also may suffer a credit loss. A further explanation of our credit loss methodology with respect to these agreements is set forth in **Note 8 – Allowance for Credit Losses** to the financial statements and see **Investment Debt Securities** on page 71 for further discussion and a summary of counterparty credit ratings for these investments.

Other sources of liquidity from investing activities include interest-bearing deposits, trading debt securities, maturing advances, and maturing MPF Loans.

Liquidity from Debt

Our source of liquidity from debt is the issuance of new consolidated obligation bonds and discount notes.

Liquidity Measures

We use different measures of liquidity as follows:

Overnight Liquidity - Our overnight liquidity requirement is established by our Asset/Liability Committee. Currently, our Asset/Liability Management Policy (ALM Policy) requires us to maintain overnight liquid assets at least equal to 3.5% of total assets. Under our ALM Policy, overnight liquidity includes money market assets, reverse repurchase agreements, federal funds sold, deposits, paydowns of advances, MPF Loans with one day to maturity, and inter FHLB loans with one day to maturity. As of December 31, 2023, our overnight liquidity was \$19.0 billion or 16.0% of total assets. This amount represents excess overnight liquidity of \$14.9 billion over the minimum threshold of 3.5% of total assets.

Deposit Coverage - To support our member deposits, FHFA regulations require us to have an amount equal to the current deposits received from our members invested in obligations of the U.S. Government, deposits in eligible banks or trust companies, or advances with maturities not exceeding five years. As of December 31, 2023, we had excess liquidity of \$61.3 billion to support member deposits.

Liquidity Reserves - The FHFA advisory bulletin on FHLB liquidity (the "Liquidity AB") requires that: (i) we hold positive cash flow assuming no access to the capital markets for a period of between ten to thirty calendar days and assuming renewal of all maturing advances, and (ii) we maintain liquidity reserves between one and 20 percent of our outstanding letter of credit commitments. In connection with the Liquidity AB, the FHFA also issued a supervisory letter that identifies initial applicable

(Dollars in tables in millions except per share amounts unless otherwise indicated)

thresholds for certain measures identified in the Liquidity AB. As market conditions warrant, the FHFA may update its supervisory letter to identify new thresholds within the ranges set forth in the Liquidity AB.

In an effort to satisfy our current liquidity requirements, we generally maintain increased balances in short-term or liquid investments. Depending on market conditions, the Liquidity AB may require the Bank to hold an additional amount of liquid assets, which could reduce the Bank's ability to invest in higher-yielding assets, and may in turn negatively impact net interest income. To the extent that the Bank adjusts pricing for its short-term advances and letters of credit, these products may become less competitive, which may adversely affect advance and capital stock levels as well as letters of credit levels. For additional discussion of how our liquidity requirements may impact our earnings, see **Risk Factors** on page 21.

In addition, we fund certain shorter-term or overnight investments and advances with debt that has a maturity that extends beyond the maturities of the related investments or advances. The Liquidity AB provides guidance on maintaining appropriate funding gaps for three-month (-10% to -20%) and one-year (-25% to -35%) maturity horizons. Subject to market conditions, our cost of funding may increase if we are required to achieve the appropriate funding gap by using longer term funding, on which we generally pay higher interest than on our short-term funding.

We are sensitive to maintaining an appropriate liquidity and funding balance between our financial assets and liabilities, and we measure and monitor the risk of refunding such assets as liabilities mature (refunding risk). In measuring the level of assets requiring refunding, we take into account their contractual maturities, as further described in the notes to the financial statements. In addition, we make certain assumptions about their expected cash flows. These assumptions include: calls for assets with such features, projected prepayments and scheduled amortizations for our MPF Loans held in portfolio, MBS and ABS investments.

The following table presents the unpaid principal balance (UPB) of (1) MPF Loans held in portfolio, (2) AFS securities, and (3) HTM securities (including ABS and MBS investments), by expected principal cash flows. The table is illustrative of our assumptions about the expected cash flows of our assets, including prepayments made in advance of maturity.

As of December 31, 2023	MPF Loans Held in Portfolio	Investment Debt Securities	
		Available-for Sale	Held-to- Maturity
Year of Expected Principal Cash Flows			
One year or less	\$ 1,636	\$ 763	\$ 1,287
After one year through five years	4,446	6,262	198
After five years through ten years	2,836	15,237	72
After ten years	2,352	2,504	4
Total	\$ 11,270	\$ 24,766	\$ 1,561

We consider our liabilities available to fund assets until their contractual maturity. For further discussion of the liquidity risks related to our access to funding, see **Risk Factors** on page 21.

FHLB P&I Funding and Contingency Plan Agreement. We have entered into an agreement with the other FHLBs and the Office of Finance regarding the Federal Reserve's intraday funding process to provide a mechanism for the FHLBs to provide liquidity to avert a shortfall in the timely payment of principal and interest on any consolidated obligations by one or more FHLBs. We may increase our liquidity ratio for a designated month out of an 11 month rotation to mitigate the risk that we are required to fund under the FHLB P&I Funding and Contingency Plan Agreement. Through the date of this report, no FHLB has been required to fund under this contingency agreement.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Funding

Conditions in Financial Markets

At both its November 2023 and December 2023 meetings, the Federal Open Market Committee (FOMC) kept the target fed funds rate unchanged at a rate of 5.25-5.50%, as expected. At its January 2024 meeting, the FOMC again kept the target fed funds rate unchanged but, as expected, removed statements indicating that the committee was biased to further hikes. The FOMC also stated it would not expect to cut rates until it was confident that inflation had slowed sufficiently. In general, U.S. Treasury yields peaked in October 2023, only to fall significantly throughout the rest of 2023. According to the Department of Commerce, U.S. Gross Domestic Product increased in the third quarter of 2023, as a result of increases in consumer spending, private inventory investment, exports, state and local government spending, federal government spending, residential fixed investment and nonresidential fixed investment. The U.S. stock market was higher at the end of the fourth quarter of 2023 relative to the third quarter of 2023; the Dow Jones Industrial Average stood at 37,690 points on December 31, 2023, versus 33,508 points on September 30, 2023.

Despite passage of a stopgap funding bill to fund the government to March 2024, the U.S. continues to face a possible shutdown of the government in the future. However, historically, the threat of a government shutdown has not had a significant impact on the FHLBs' ability to issue debt at attractive levels.

We maintained ready access to funding throughout 2023.

LIBOR and Other Benchmark Rates

In connection with LIBOR cessation on June 30, 2023, the Bank adopted SOFR as its preferred primary replacement rate for investments and advances, and updated our processes and information technology systems to support the transition from LIBOR to SOFR. Immediately after LIBOR cessation, the Bank transitioned all outstanding LIBOR-indexed instruments to reference SOFR, with the implementation of such fallback effective either immediately following June 30, 2023, or at the beginning of the instrument's next reset period following LIBOR cessation. As of December 31, 2023, all LIBOR-indexed instruments with reset dates after June 30, 2023 reset in accordance with their terms and transitioned to a SOFR-indexed rate. As of December 31, 2023, the Bank had no variable-rate LIBOR exposure related to advances, investment securities, and derivatives.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Liquidity Analysis - Statements of Cash Flows

Our assets and liabilities support our mission to provide our member shareholders competitively priced funding, a reasonable return on their investment in our capital stock, and support for their community investment activities. Our assets and liabilities can vary significantly in the normal course of business due to the amount and timing of cash flows, which are affected by member-driven activities and market conditions. We believe the cash flows from our operating and financing activities are sufficient to fund both our operating and investing liquidity needs. The following tables compare our significant cash flow activities in 2023 and 2022.

For comparisons to 2021 see **Liquidity Analysis - Statements of Cash Flows** on page 56 in our 2022 Form 10-K.

Net cash flows from operating activities with significant activity

For the years ended December 31,	2023	2022
Net cash provided by (used in) operating activities -		
Net income	\$ 660	\$ 415
Net amortization (accretion)	82	350
Change in net fair value on derivatives and hedging activities	245	1,018
Change in accrued interest payable	355	124
Other	4	(133)
Net cash provided by (used in) operating activities	\$ 1,346	\$ 1,774

The majority of our operating cash inflows in 2023 were related to cash received from net income and clearinghouses to settle mark-to-market positions, as well as the impact of increased interest accrued on our consolidated obligation bond issuances. The majority of our operating cash inflows in 2022 were related to cash received from clearinghouses to settle mark-to-market positions and net income. In 2022 net amortization (accretion) also represents a significant adjustment to operating cash flows for noncash expense (income).

Net cash flows from investing activities with significant activity

For the years ended December 31,	2023	2022
Net cash provided by (used in) investing activities -		
Liquid assets consisting of interest-bearing deposits, federal funds sold, and securities purchased under agreements to resell	\$ 13,075	\$ (14,391)
Investment debt securities	(4,206)	103
Advances	1,496	(19,750)
MPF Loans held in portfolio	(1,274)	(358)
Other	(14)	(18)
Net cash provided by (used in) investing activities	\$ 9,077	\$ (34,414)

Our investing activities consist predominantly of investments in liquid assets, investment debt securities, advances, and MPF Loans held in portfolio. The reasons for the changes in net cash provided by (used in) investing activities and changes in allocation within investing activities are discussed below.

- The cash flows relating to our liquid assets fluctuate depending on the needs of our members, our investing strategy, the economic environment, and/or regulatory requirements. We maintain a sufficient pool of liquidity to support anticipated member demand for advances and letters of credit.
- In 2023 our net cash outflows from investment debt securities was attributable to purchases of GSE MBS and U.S. Treasuries. In 2022 our net cash inflows from investment debt securities was attributable to a reduction in investment in U.S. Treasuries in our trading portfolio.
- In 2023 our net cash inflows for advances was attributable to advances maturing with a former captive insurance company member, offset by increased advance borrowing from our depository members. In 2022 our net cash outflows for advances was attributable to increased borrowing from our depository members.
- In 2023 and 2022 our net cash outflows for MPF Loans held in portfolio was due to new-acquisition volume that outpaced paydown and maturity activity.

FHLBank
Chicago Federal Home Loan Bank of Chicago

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Net cash flows from financing activities with significant activity

For the years ended December 31,	2023	2022
Net cash provided by (used in) financing activities -		
Consolidated obligation discount notes	\$ (35,722)	\$ 34,696
Net proceeds on discount note transfers with other FHLBs	4,266	—
Consolidated obligation bonds	21,097	(2,332)
Other	(65)	266
Net cash provided by (used in) financing activities	\$ (10,424)	\$ 32,630

Our financing activities primarily reflect cash flows related to issuing and repaying consolidated obligation bonds and discount notes. The change in net cash provided by (used in) financing activities and change in funding allocations are discussed below.

- In 2023 we paid down our discount notes and increased our use of bonds to align with advantageous funding opportunities. The increased borrowing on our bonds reflects an increase in debt financing to match the overall increase in assets outstanding as discussed in investing activities above. In 2022 we paid down our bonds and increased our use of discount notes to align with advantageous funding opportunities. The increased borrowing on our discount notes reflects an increase in debt financing to match the overall increase in assets outstanding as discussed in investing activities above.
- We assumed consolidated obligation discount notes from another FHLB due to an advantageous funding opportunity in the second quarter of 2023. In 2022 we had no such discount note transfers.
- In 2023 our net cash outflows for Other was primarily due to cash dividends paid and the redemption of MRCS. In 2022 our net cash inflows for Other was primarily due to proceeds from issuance of our capital stock.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Sources of Funding

We fund our assets principally with consolidated obligations (bonds and discount notes) issued through the Office of Finance, deposits, and capital stock. As of December 31, 2023, our consolidated obligations were rated Aaa/P-1 with a negative outlook by Moody's and AA+/A-1+ with a stable outlook by S&P. Consolidated obligations have GSE status although they are not obligations of the United States and the United States does not guarantee them.

Use of short-term debt offers us certain advantages which are weighed against the increased risk of using short-term debt. Prior to LIBOR cessation on June 30, 2023 we benefited from interest rates below LIBOR rates for our short-term debt which resulted in a positive impact on net interest income when used to fund LIBOR-indexed assets. With the transition to SOFR, to date we have seen, and we expect to continue to see, this favorable relationship continue.

We comply with FHFA regulations that require we maintain the following types of assets free from any lien or pledge in an amount at least equal to the amount of our consolidated obligations outstanding:

- cash;
- obligations of, or fully guaranteed by, the United States;
- secured advances;
- mortgages, which have any guaranty, insurance, or commitment from the United States or any agency of the U.S. government; and
- investments described in Section 16(a) of the FHLB Act, which, among other items, includes securities that a fiduciary or trust fund may purchase under the laws of the state in which the FHLB is located.

At December 31, 2023, we had eligible assets free from pledges of \$117.2 billion, compared to our outstanding consolidated obligations of \$108.5 billion.

The Office of Finance has responsibility for the issuance of consolidated obligations. It also services all outstanding debt, provides us with information on capital market developments, manages our relationship with ratings agencies with respect to consolidated obligations, and prepares the FHLBs' combined quarterly and annual financial statements. The Office of Finance will allocate the proceeds from the issuance of consolidated obligations that cannot be issued in sufficient amounts to satisfy all FHLB demand for funding during periods of financial distress and when its existing allocation processes are deemed insufficient. In general, the proceeds in such circumstances will be allocated among the FHLBs pro-rata, based on the amount of each FHLB's funding needs in four hierarchical categories, including principal and interest on payments on consolidation obligations. If funding needs in all four categories are fully satisfied, and there is additional funding available, the additional funding will be allocated based on the relative regulatory capital of each FHLB. As is the case during any instance of disruption in our ability to access the capital market, market conditions or this allocation could adversely impact our ability to finance our operations, which could thereby adversely impact our financial condition and results of operations.

Consolidated Obligation Bonds

Consolidated obligation bonds (bonds) satisfy term funding requirements and are issued under various programs. The maturities of these securities may range from less than one year to over 20 years, but they are not subject to any statutory or regulatory limits on maturity. The bonds can be fixed- or adjustable-rate, and callable or non-callable. We also offer fixed-rate, non-callable (bullet) bonds via the FHLBs' Tap issue program. This program uses specific maturities that may be reopened daily during a three month period through competitive auctions. The goal of the Tap program is to aggregate frequent smaller issues into a larger bond issue that may have greater market liquidity. See **Note 10 - Consolidated Obligations** to the financial statements for information on the remaining life of our consolidated obligation bonds by contractual maturity.

Although we issue fixed-rate bullet and callable bonds, we may also issue bonds that have adjustable rates, step-up rates that step-up or increase at fixed amounts on predetermined dates, zero-coupons, and other types of rates. See **Note 10 - Consolidated Obligations** to the financial statements for details. Bonds are issued and distributed daily through negotiated or competitively bid transactions with approved underwriters or selling groups.

We receive 100% of the net proceeds of a bond issued via direct negotiation with underwriters of FHLB debt when we are the only FHLB involved in the negotiation; we are the sole FHLB that is primary obligor on the bond in those cases. When we and one or more other FHLBs jointly negotiate the issuance of a bond directly with underwriters, we receive the portion of the proceeds of the bond agreed upon with the other FHLBs; in those cases, we are primary obligor for the pro rata portion of the bond based on proceeds received. The majority of our bond issuance is conducted via direct negotiation with underwriters of the FHLB bonds, some with, and some without, participation by other FHLBs.

We may also request specific bonds to be offered by the Office of Finance for sale via competitive auction conducted with underwriters in a bond selling group. One or more other FHLBs may request amounts of the same bonds to be offered for sale

(Dollars in tables in millions except per share amounts unless otherwise indicated)

for their benefit via the same auction. We may receive from 0% to 100% of the proceeds of the bonds issued via competitive auction depending on:

- the amount and cost for the bonds bid by underwriters;
- the maximum cost we or other FHLBs participating in the same issue, if any, are willing to pay for the bonds; and
- guidelines for allocation of the bond proceeds among multiple participating FHLBs administered by the Office of Finance.

We also participate in the Global Issuances Program, under which the FHLB System, through the Office of Finance, maintains a process for scheduled issuance of global fixed-rate consolidated bonds. As part of this process, management from each FHLB determines and communicates a firm commitment to the Office of Finance for an amount of scheduled global debt to be issued on its behalf. If the FHLBs' orders do not meet the minimum debt issuance size, each FHLB receives an allocation of proceeds equal to the larger of the FHLB's commitment or the ratio of the individual FHLB's capital to total capital of all of the FHLBs. If the FHLBs' commitments exceed the minimum debt issuance size, then the proceeds are allocated based on actual commitment amount. The FHLBs can, however, pass on any scheduled calendar slot and decline to issue any global consolidated obligations under this program upon agreement of at least eight of the 11 FHLBs.

Consolidated Obligation Discount Notes

The FHLBs sell consolidated obligation discount notes (discount notes) in the capital markets to provide short-term funds for advances to members, for seasonal and cyclical fluctuations in savings flows, and for mortgage financing and investments. Discount notes have maturities up to 365 days and are sold through a selling group and through other authorized securities dealers. Discount notes are sold at a discount and mature at par.

On a daily basis, we may request specific amounts of discount notes with specific maturity dates to be offered by the Office of Finance at a specific cost for sale to underwriters in the selling group. One or more other FHLBs may also request an amount of discount notes with the same maturity to be offered for sale for their benefit on the same day. The Office of Finance commits to issue discount notes on behalf of the participating FHLBs when underwriters in the selling group submit orders for the specific discount notes offered for sale. We may receive from zero to 100% of the requested proceeds depending on: the maximum costs we or other FHLBs participating in the same discount notes, if any, are willing to pay for the discount notes; the amount of orders for the discount notes submitted by underwriters; and guidelines for allocation of discount note proceeds among multiple participating FHLBs administered by the Office of Finance.

Twice weekly, we may also request specific amounts of discount notes with fixed maturity dates ranging from four weeks to 26 weeks to be offered by the Office of Finance for sale via competitive auction conducted with underwriters in the selling group. The bi-weekly discount note auction uses a single-price (Dutch) award method to determine winning bids. One or more FHLBs may also request amounts of those same discount notes to be offered for sale for their benefit via the same auction. We may receive from zero to 100% of the requested proceeds depending on the amounts and costs for the discount notes bid by the underwriters and guidelines for allocation of discount note proceeds among multiple participating FHLBs administered by the Office of Finance. The majority of our issuances are conducted via the twice weekly auctions.

Deposits

We accept deposits from our members, institutions eligible to become our members, institutions for which we are providing correspondent services, other FHLBs, and other government instrumentalities such as the FDIC. We offer several types of deposits to our deposit customers including demand, overnight, and term deposits. Deposits are not a significant source of funding for our operations and are primarily offered for the convenience of our members doing business with us.

Deposits totaled \$0.6 billion at December 31, 2023, compared to \$0.6 billion at December 31, 2022. All deposits are uninsured and the balance of deposits varies depending on market factors, such as the attractiveness of our deposit pricing relative to the rates available on alternative money market instruments, our members' investment preferences with respect to the maturity of their investments, and our members' liquidity. Interest-bearing demand and overnight deposits represented 80.4% and 83.5% of our deposits at December 31, 2023 and 2022, with the remaining deposits being term deposits and noninterest-bearing deposits.

Interest-bearing demand and overnight deposits pay interest based on a daily interest rate. The average balances of demand and overnight deposits and the weighted-average interest rates paid on demand and overnight deposits are detailed in the below table. Term deposits pay interest based on a fixed rate determined at the issuance of the deposit. The average balances of term deposits and the weighted-average interest rates paid on term deposits are also detailed in the below table.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

For the years ended December 31,	2023	2022	2021
Average balances of demand and overnight deposits	\$ 689	\$ 712	\$ 911
Weighted-average interest rates paid on demand and overnight deposits	4.97 %	2.01 %	— % ^a
Average balances of term deposits	\$ —	\$ —	\$ 1
Weighted-average interest rates paid on term deposits	— %	— %	0.11 %

^a Less than 1 bp (basis point).

Capital Resources

Capital Rules

Under our amended and restated Capital Plan, effective May 3, 2021 (the Capital Plan), our stock consists of two sub-classes of stock, Class B1 stock and Class B2 stock (together, Class B stock), both with a par value of \$100 per share and redeemable on five years' written notice, subject to certain conditions. Under the Capital Plan, each member is required to own capital stock in an amount equal to the greater of a membership stock requirement or an activity stock requirement. All stock that supports a member's activity stock requirement with the Bank is classified as Class B1 activity stock. Any additional amount of stock necessary for the total amount of Class B stock held to equal a member's minimum investment amount will be classified as Class B2 membership stock. Members purchase Class B2 membership stock to satisfy their membership stock requirement with the Bank. Stock held in excess of a member's minimum investment requirement is classified as Class B2 excess capital stock.

The Capital Plan reflects the Bank's commitment to provide members a reasonable return on their investment by allowing members who engage in advance, letter of credit, or MPF on-balance sheet product activity to hold more Class B1 activity stock.

The following table reflects the ranges of capital stock requirements permitted under our Capital Plan and requirements at year-end 2023.

Capital Plan Requirement	December 31, 2023	Ranges Permitted Under Capital Plan
% of Mortgage Assets ^a	0.40%	0.20% - 1%
Membership Stock Floor	\$10,000	None
Membership Stock Cap	\$5 million	\$1 million - \$25 million
Advances Activity Stock Requirement ^b	4.50%	4%-5%
MPF Activity Stock Requirement	2% ^c	0%-5%
Letters of Credit Activity Stock Requirement	0.10% ^d	0.10%-2%

^a The percentage of mortgage assets is used to calculate a member's membership stock requirement.

^b The Board of Directors may adjust this percentage to as low as 2% for certain advances and has currently authorized a pool of funds available for advances that can be capitalized at 2% under the Bank's RCAP.

^c For MPF on-balance sheet products (which includes MPF Original, MPF 125, MPF 35, and MPF Government loans), the activity stock requirement is 2% of the principal loan amount sold into the MC.

^d For letters of credit, the activity stock requirement is 0.10% of the notional amount of all letters of credit outstanding on behalf of a member.

Membership stock requirements are recalculated annually, whereas the activity stock requirement and any automatic conversion of Class B2 stock to Class B1 stock will apply on a daily basis.

We may only redeem or repurchase capital stock from a member if, following the redemption or repurchase, the member continues to meet its minimum investment requirement and we remain in compliance with our regulatory capital requirements discussed below.

Members that withdraw from membership must wait at least five years after their membership was terminated and all of their capital stock was redeemed or repurchased before being readmitted to membership in any FHLB.

Under the terms of our Capital Plan, our Board of Directors is authorized to amend the Capital Plan, and the FHFA must approve all such amendments before they become effective.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Reduced Capitalization Advance Program

During 2023, we continued to offer our RCAP, which allows members to borrow one or more advances with an activity stock requirement of only 2% for the life of the advance instead of the current 4.5% requirement under our Capital Plan's general provisions. As of December 31, 2023, RCAP advances outstanding totaled \$14.2 billion to 98 members and former members. We may implement future programs for advances with a reduced activity stock requirement that may or may not have the same characteristics as current RCAP offerings.

Minimum Capital Requirements

We are subject by regulation to the following three capital requirements:

- total regulatory capital ratio;
- leverage capital ratio; and
- risk-based capital.

For tables showing our compliance with the total capital ratio and leverage capital ratio as well as further details on all of our capital requirements, see **Note 12 - Capital and Mandatorily Redeemable Capital Stock (MRCS)** to the financial statements.

Under the risk-based capital requirement we must maintain permanent capital equal to the sum of our (i) credit risk capital requirement, (ii) market risk capital requirement, and (iii) operational risk capital requirement, as outlined below:

- **Credit Risk Capital Requirement.** The credit risk capital requirement is the sum of our individual capital charges for all advances, residential mortgage assets, CMOs, non-mortgage assets, non-rated assets, off-balance sheet items, and derivatives contracts. These capital charges are calculated using the methodologies and percentages assigned by the FHFA regulations to each class of assets.
- **Market Risk Capital Requirement.** The market risk capital requirement is the market value of our portfolio at risk from movements in interest rates, foreign exchange rates, commodity prices, and equity prices that could occur during periods of market stress, where the market value of our portfolio at risk is determined using an FHFA approved internal market-risk model pursuant to FHFA regulations.
- **Operational Risk Capital Requirement.** The operational risk capital requirement is 30% of the sum of our (a) credit risk capital requirement and (b) market risk capital requirement.

The following table summarizes our risk-based capital amounts. Under the FHFA regulation on capital classifications and critical capital levels for the FHLBs, as of December 31, 2023, we were adequately capitalized.

As of	December 31, 2023	December 31, 2022
Capital stock	\$ 3,277	\$ 2,989
Mandatorily redeemable capital stock (MRCS) recorded as a liability	83	248
Retained earnings	4,979	4,564
Total permanent capital	\$ 8,339	\$ 7,801
Credit risk capital	\$ 318	\$ 343
Market risk capital	1,374	1,030
Operational risk capital	507	413
Total risk based capital requirement	\$ 2,199	\$ 1,786
Excess permanent capital stock over risk based capital requirement	\$ 6,140	\$ 6,015

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Additionally, the FHFA considers the proportion of capital stock to assets, measured on a daily average basis at month end, when assessing each FHLB's capital management practices. To maintain the recommended level of capital stock under this FHFA guidance, we may reduce investments as necessary, which may have a negative impact on our financial condition and results of operation. If our balance sheet composition changes in the future, we may consider other capital management measures to maintain the recommended ratio of at least two percent of capital stock to total assets. This capital stock ratio does not include other components of regulatory capital, such as retained earnings.

Statutory and Regulatory Restrictions on Capital Stock Repurchase and Redemption

In accordance with the FHLB Act, our capital stock is considered putable with restrictions given the significant restrictions on the obligation/right to redeem.

We cannot redeem shares of stock from any member if:

- the principal or interest on any consolidated obligation is not paid in full when due;
- we fail to certify in writing to the FHFA that we will remain in compliance with our liquidity requirements and will remain capable of making full and timely payment of all of our current obligations;
- we notify the FHFA that we cannot provide the required quarterly certification, or project that we will fail to comply with statutory or regulatory liquidity requirements, or will be unable to timely and fully meet all of our current obligations; or
- we actually fail to comply with statutory or regulatory liquidity requirements or to timely and fully meet all of our current obligations, or enter or negotiate to enter into an agreement with one or more other FHLBs to obtain financial assistance to meet our current obligations.

Additional statutory and regulatory restrictions on the redemption and repurchase of our capital stock include the following:

- In no case may we redeem or repurchase capital stock if, following such redemption, we would fail to satisfy our minimum regulatory capital requirements established by the GLB Act or the FHFA.
- In no case may we redeem or repurchase capital stock if either our Board of Directors or the FHFA determines that we have incurred, or are likely to incur, losses resulting or expected to result in a charge against capital stock. In addition to being able to prohibit capital stock redemptions and repurchases, our Board has a right to call for additional capital stock purchases by members, as a condition of continuing membership, as needed for us to satisfy our statutory and regulatory capital requirements.

The FHLB Act provides that, in accordance with rules, regulations, and orders that may be prescribed by the FHFA, we may be liquidated or reorganized and our capital stock paid off and retired, in whole or in part, after paying or making a provision for payment of our liabilities. The FHLB Act further provides that, in connection with any such liquidation or reorganization, any other FHLB may, with the approval of the FHFA, acquire our assets and assume our liabilities, in whole or in part.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Capital Amounts

The following tables, respectively, presents our five largest holders of regulatory capital stock and reconciles our capital reported in our **Statements of Condition** to the amount of capital stock reported for regulatory purposes. MRCS is included in the calculation of the regulatory capital and leverage ratios but is recorded as a liability in the **Statements of Condition**.

As of December 31, 2023	Regulatory Capital Stock Outstanding	% of Total Outstanding	Amount of Which is Classified as a Liability (MRCS)
BMO Bank, NA	\$ 501	14.9 %	\$ —
The Northern Trust Company	305	9.1 %	—
Alliant Credit Union	158	4.7 %	—
Associated Bank, NA	143	4.2 %	—
The Northwestern Mutual Life Insurance Company	135	4.0 %	—
All other members	2,118	63.1 %	83
Regulatory capital stock	\$ 3,360	100.0 %	\$ 83

	December 31, 2023	December 31, 2022
Capital Stock	\$ 3,277	\$ 2,989
MRCS	83	248
Regulatory capital stock	\$ 3,360	\$ 3,237

Capital stock	\$ 3,277	\$ 2,989
Retained earnings	4,979	4,564
Accumulated other comprehensive income (loss)	(116)	(88)
GAAP capital	\$ 8,140	\$ 7,465

Accumulated other comprehensive income (loss) in the above table consists of changes in market value of various balance sheet accounts where the change is not recorded in earnings but is instead recorded in equity capital as the income (loss) is not yet realized. For details on these changes please see **Note 13 - Accumulated Other Comprehensive Income (Loss)** to the financial statements.

Components of total GAAP capital changed for the following reasons:

- The increase in capital stock corresponds to our members' increased use of our advances to support their borrowings.
- Total retained earnings increased due to our net income less dividends paid; see **Statements of Capital** to the financial statements for details.

Repurchase of Excess Capital Stock

Members may request repurchase of excess stock on any business day. Additionally, on a monthly basis, the Bank will repurchase excess stock held by each member or former member that exceeds certain thresholds set by the Bank. All repurchases of excess capital stock, including any future monthly repurchases, will continue until otherwise announced, but remain subject to our regulatory requirements, certain financial and capital thresholds, and prudent business practices.

Repurchase of excess capital stock held by members is subject to compliance with the following financial and capital thresholds both before and after repurchase:

- The ratio of our total capital to total assets is greater than or equal to 4.25%;
- Our ratio of the Bank's market value of equity to book value of equity is at least 85% on a U.S. GAAP basis;
- Our risk-based capital is greater than or equal to 125% of the minimum amount required, as discussed in **Capital Resources** on page 58;
- Compliance with all of our minimum regulatory capital requirements;
- Projected compliance with each of our minimum regulatory capital requirements for the next four quarters using the most

(Dollars in tables in millions except per share amounts unless otherwise indicated)

- recent expected case income projections; and
- Compliance with our contractual obligations under the Joint Capital Enhancement Agreement, as discussed in **Joint Capital Enhancement Agreement with other FHLBs** on page 63.

For further information on amounts of excess stock repurchased, see **Statements of Capital** to the financial statements.

Retained Earnings & Dividends

Dividend Payments

FHFA rules state that FHLBs may declare and pay dividends only from previously retained earnings or current net earnings, and may not declare or pay dividends based on projected or anticipated earnings. Under our Capital Plan, any dividend declared on Class B1 shares must be greater than or equal to the dividend declared on Class B2 shares for the same period, and dividends may be paid in the form of cash or stock, or a combination of both. All dividends we have paid since 2011 have been in cash rather than stock. We have paid an enhanced dividend on Class B1 activity stock since the fourth quarter of 2013.

Although we continue to work to maintain our financial strength to support a reasonable dividend, any future dividend payment remains subject to declaration by our Board and will depend on future operating results, our Retained Earnings and Dividend Policy, and any other factors the Board determines to be relevant.

We may not pay dividends if we fail to satisfy our minimum capital and liquidity requirements under the FHLB Act and FHFA regulations. Further, under FHFA regulations, we may not pay any dividends in the form of capital stock if excess stock held by our shareholders is greater than 1% of our total assets or if, after the issuance of such shares, excess stock held by our shareholders would be greater than 1% of our total assets.

Retained Earnings and Dividend Policy

Our Board of Directors has adopted a Retained Earnings and Dividend Policy (Policy) which was last updated in December 2023. The Bank reviews the level and adequacy of its retained earnings at least annually in accordance with the Policy and the guidelines established by the FHFA. Each quarter, the Bank monitors its retained earnings compared to the retained earnings target established by the Policy when determining dividend payments.

Under the Policy, the retained earnings target has two components:

- Risk and Regulatory Retained Earnings Requirements, which determines the amount of retained earnings the Bank needs to manage risk, maintain shareholder value, and meet regulatory requirements. This requirement is the sum of credit risk, market risk, operational risk, additional exposures, and the amount necessary to maintain compliance with the Bank's total capital requirements as set forth in FHFA regulations; and
- Desired Corridor of Retained Earnings, which determines the amount of retained earnings the Bank desires to have to maintain the scale of its services during economic downturns.

Under the Policy, we may, but are not required, to pay a dividend out of our net income (with certain adjustments as described below) and/or retained earnings, after consideration of the retained earnings target on a quarterly basis, the Board and management's assessment of the current adequacy of retained earnings, operating results, and any other factors the Board deems relevant. For these purposes, adjusted net income is net income resulting directly from certain business activities, excluding income from such activities as advance prepayments, transfers of debt to other FHLBs, voluntary contributions to affordable housing and community development, and gains or losses resulting from certain hedge practices.

Our Board of Directors declared quarterly cash dividends at annualized percentage rates per \$100 of par value as presented in the below table (based on the previous quarter's earnings).

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Quarter in which dividend was declared (recorded) and paid	B1 Activity Stock		B2 Membership Stock	
	Dividends	Annualized Rate	Dividends	Annualized Rate
2023				
1st quarter	\$ 45	7.13 %	\$ 3	3.06 %
2nd quarter	52	7.38 %	3	3.19 %
3rd quarter	66	8.00 %	4	5.00 %
4th quarter	67	8.25 %	5	5.13 %
Total	\$ 230	7.69 %	\$ 15	4.09 %
2022				
1st quarter	\$ 20	5.00 %	\$ 2	2.00 %
2nd quarter	22	5.13 %	2	2.13 %
3rd quarter	26	5.75 %	3	2.38 %
4th quarter	35	6.50 %	2	2.75 %
Total	\$ 103	5.60 %	\$ 9	2.32 %

On January 26, 2024 our Board of Directors declared an 8.75% cash dividend (annualized) for Class B1 activity stock and a 5.125% cash dividend (annualized) for Class B2 membership stock based on our preliminary financial results for the fourth quarter of 2023. This dividend totaled \$78 million (recorded as \$75 million dividends on capital stock and \$3 million interest expense on mandatorily redeemable capital stock) and was paid on February 15, 2024. As further discussed in **Executive Summary** on page 38, on January 26, 2024, the Bank also provided dividend guidance for the next two quarters.

Joint Capital Enhancement Agreement with other FHLBs

The FHLBs, including us, entered into a Joint Capital Enhancement Agreement (JCE Agreement) intended to enhance the capital position of each FHLB. The intent of the JCE Agreement is to allocate that portion of each FHLB's earnings to a separate retained earnings account at that FHLB. For more information on the JCE Agreement, see **Note 12 - Capital and Mandatorily Redeemable Capital Stock (MRCS)** to the financial statements.

Although restricted retained earnings under the JCE Agreement are included in determining whether we have attained the retained earnings target under the Bank's Retained Earnings and Dividend Policy discussed above, these restricted retained earnings will not be available to pay dividends. We do not believe that the requirement to contribute 20% of our future net income to a restricted retained earnings account under the JCE Agreement will have an impact on our ability to pay dividends except in the most extreme circumstances. There is a provision in the JCE Agreement that if, at any time, our restricted retained earnings were to fall below the required level, we would only be permitted to pay dividends out of (1) current net income not required to be added to our restricted retained earnings and (2) retained earnings that are not restricted.

Off-balance Sheet Arrangements

We provide members with letters of credit for a fee. If a beneficiary draws under a letter of credit, our member either reimburses us for the amount drawn or the drawn amount is converted into a collateralized advance to the member. If any advances were to be issued under these letters of credit, they would be made under the same standards and terms of collateral as any other advance issued to that member at that point of time.

We have entered into standby bond purchase agreements with the Illinois and Wisconsin state housing authorities. Upon request of the applicable authority, we enter into an agreement with them to purchase and hold the authority's bonds for a fee until the designated remarketing agent can find a suitable investor.

Refer to **Note 16 - Commitments and Contingencies** to the financial statements for further disclosures related to our commercial commitments, such as letters of credit and standby bond purchase agreements.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Risk Management

Operational Risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. Fraud, legal, compliance, financial reporting, model and technology risks are components within the definition of operational risk. We have established programs to identify, assess, measure, monitor, manage, and report operational risks such as comprehensive risk assessments, establishing policies and procedures, loss incident reporting and others while obtaining appropriate insurance coverage to mitigate the likelihood of, and potential losses from, such occurrences.

Governance and Control Activities

The Board of Directors has established Bank-wide policies governing operational risk, which include Enterprise Risk Management Policy, Enterprise Operational Risk Management Policy, Cyber Risk Management Policy, and others. Primary oversight responsibility for operational risk is vested with our management level Operational Risk Oversight Committee. Responsibilities of this committee include, but are not limited to, oversight and review of Bank-wide operational risks such as the management of business continuity, technology (including information security) risks, reviews of operational risk decisions that may include risk acceptances, operational issues or updates, operational aspects of new business activities, analysis and mitigation of any operational loss, vendor management, oversight and direction to our compliance activities, and oversight to internal controls and procedures in compliance with the Sarbanes-Oxley Act of 2002. This committee monitors the performance of these operational activities by reviewing management reports prepared by the responsible business manager on a periodic basis. Also, the committee monitors the effectiveness of operational controls through the reporting of critical operational losses, events, risk assessments, operational risk metrics, and a quarterly certification of operational and internal controls over financial reporting.

Our executive officers or their delegates provide periodic reports, as appropriate, to the following Board committees: Risk Management Committee, Operations and Technology Committee, and the Audit Committee.

Business Resiliency

In order to ensure our ability to provide liquidity and service to our members and PFIs, we have business resumption plans designed to restore critical business processes and systems in the event of a variety of business interruptions. We maintain key information systems infrastructure with vendors that have reliable and consistent data recovery capabilities as well as more optimal geographic diversity to provide a more resilient technology infrastructure. We are party to a reciprocal arrangement with the FHLB Dallas to allow members to access their deposits as well as have access to overnight advances to the extent they have collateral already in place. Our business resiliency plans are subject to periodic testing. For additional discussion of our business resiliency management program, see **Item 1C. Cybersecurity**, starting on page 32.

Credit Risk Management

The Bank regularly monitors its credit exposure for potential impacts related to economic or financial disruptions.

We define credit risk as the risk to our earnings or capital due to an obligor's failure to meet the terms of any contract with us, or to otherwise perform as agreed. We are exposed to credit risk principally through:

- Member credit products, such as advances, letters of credit, and other extensions of credit to borrowers;
- MPF Loans and related exposures;
- investment debt securities;
- securities purchased under agreements to resell;
- unsecured short-term investments;
- Community First Fund loans; and
- derivatives.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Managing Our Credit Risk Exposure Related to Member Credit Products

Our member credit products credit risk exposure includes our secured credit extensions, such as advances, letters of credit, and related extensions of credit to members. See **Note 6 - Advances** and **Note 16 - Commitments and Contingencies** to the financial statements for further details on member credit products. We lend to our members in accordance with federal statutes and FHFA regulations. We manage our credit exposure to our member credit products using a risk-based integrated approach as discussed below. We utilize conservative collateral/lending policies to limit risk of loss while balancing members' needs for a reliable source of funding.

Establishing Credit Limits - Under our credit policy, a member's initial credit limit is set up to 35% of their total assets, subject to modifications up or down based primarily on the following factors:

- The collateral value of eligible collateral a member has pledged. Collateral value represents the borrowing capacity assigned to the types of collateral we accept for member credit products. Collateral value does not imply fair value.
- A member's risk rating, which is determined by assessing their creditworthiness and financial condition utilizing financial information available to us, including the quarterly financial statement reports members file with their regulators. Additionally, we conduct an ongoing review of each borrower's financial condition.
- For increases to the initial credit limit, approval by the Credit and Collateral Committee, our Chief Risk Officer, or our CEO is required.

Member Credit Outstanding - We track total credit risk with our members. The total credit risk concentrated with members (including any successor) with 10% or more of our total member credit outstanding is as follows:

As of December 31, 2023	Total Credit Outstanding	% of Total
BMO Bank, NA	\$ 14,160	18.0%
The Northern Trust Company	8,505	10.8%

Member Credit Risk Ratings - Our credit risk rating system focuses primarily on our members' overall financial health and takes into account the member's asset quality, earnings, and capital position. We utilize our credit risk rating system to assign each member a credit risk rating from one (lowest credit risk) to five (highest credit risk). Our credit risk rating represents our assessment of the risk of member insolvency rather than the risk of credit loss on the member's credit outstanding with us. We utilize the credit risk rating of a member to manage our credit risk through collateral controls, and we have never suffered a credit loss on a member credit product. Credit risk mitigation actions may be applied to members perceived to pose increased risk, and are commonly applied to members with credit risk ratings of four and five. Specifically, these members may be:

- required to maintain higher amounts of collateral;
- required to deliver loan collateral to us or a third party custodian on our behalf;
- restricted from obtaining certain member credit products; and
- faced with more stringent collateral reporting requirements.

The following table presents the number of members and related credit outstanding to them by credit risk rating. Credit outstanding consists primarily of outstanding advances and letters of credit. MPF credit enhancement obligations, member derivative exposures, and other obligations make up the rest. Of the total credit outstanding, \$66.0 billion were advances (par value) and \$12.6 billion were letters of credit at December 31, 2023, compared to \$67.5 billion and \$10.7 billion at December 31, 2022.

Rating	December 31, 2023			December 31, 2022		
	Borrowing Members	Credit Outstanding	Total Collateral Value	Borrowing Members	Credit Outstanding	Total Collateral Value
1-3	516	\$ 77,291	\$ 167,023	508	\$ 73,625	\$ 147,127
4	10	1,453	1,916	9	497	519
5	8	77	135	8	68	118
Total	534	\$ 78,821	\$ 169,074	525	\$ 74,190	\$ 147,764

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Members assigned a 4 rating in the above table were required to submit specific collateral listings and the members assigned a 5 rating were required to deliver collateral to us or to a third party custodian on our behalf.

Nature and Amount of Collateral Pledged - Collateral arrangements may vary by type of member (e.g., depository versus non-depository institutions), lien structure, member credit quality, collateral availability, collateral type, results of periodic on-site reviews of collateral, and overall member credit exposure. The FHLB Act requires us to obtain sufficient collateral to fully secure member credit products. Eligible collateral includes whole first mortgages on improved residential property, or non-agency securities representing a whole interest in such mortgages; securities issued, insured, or guaranteed by the U.S. government or any of its agencies (includes MBS issued or guaranteed by Fannie Mae, Freddie Mac, or Ginnie Mae and FHLB consolidated obligations); cash or deposits; and other real estate related collateral (includes home equity loans and lines of credit, farm land, commercial real estate, and construction, land development and other loans) that has a readily ascertainable value, can be reliably discounted to account for liquidation risk and can be liquidated in due course and that we can perfect a security interest in such collateral. We also accept pledges of secured business or agribusiness loans from CFIs, which are permitted under the FHLB Act.

In certain circumstances, such as when a member's membership is terminated due to a merger and the acquiring entity is a member of another FHLB; the other FHLB may agree to manage the former member's collateral covering advances and any other amounts still outstanding to us and will subordinate to us either certain collateral it receives from the member or certain categories of collateral. Likewise, if one of our members were to acquire the member of another FHLB, we may agree to manage the collateral for the other FHLB and subordinate our security interest in a certain category of collateral.

Our Advances, Collateral Pledge and Security Agreement requires that a member provide collateral value equal to its credit outstanding (unless we specifically require more for a particular member). The value assigned to securities and loan collateral is calculated as shown below. The applicable percentage of margin utilized in the calculation for securities or loans vary based on the type of collateral being pledged, as well as factors (that vary whether the collateral is a security or loan) including model risk, broker fees, market volatility and liquidity, the type of collateral reporting, the member's risk rating, and whether the member is a depository or non-depository.

- For securities, we multiply the applicable margin by the market value of each security; and
- For loans, we multiply the applicable margin by the unpaid principal balance of pledged loans, along with any applicable percentage applied to adjust for exceptions found during a member's collateral review.
 - In general members pledging loan collateral via blanket reporting will receive the margin published, as a percent of unpaid principal balance.
 - Members with listed and/or delivered loan collateral will generally receive the margin published, which will be applied as a percent to the lower of par or market value of the unpaid principal balance of the reported loan collateral.

Controls over Pledged Collateral - We require delivery of all securities collateral and may also require delivery of loan collateral under certain conditions (for example, when a member's credit condition deteriorates).

The FHLB Act requires that each advance to a member be fully secured. We are required to obtain and maintain a security interest in collateral securing advances. The FHLB Act provides that any security interest granted to us by our members, or an affiliate of such member, is entitled to priority over the claims and rights of any party, including any receiver, conservator, trustee, or similar party having rights of a lien creditor other than claims and rights that would be entitled to priority under otherwise applicable law and are held by actual bona fide purchasers for value or by actual secured parties that are secured by actual perfected security interests. We perfect the security interests granted to us by members and affiliates by taking possession of securities collateral and by filing UCC-1 financing statements on all other collateral.

For depository institutions, we generally require members to pledge collateral under a blanket lien under which our security interest in collateral is automatically released when the member has sold or otherwise transferred its ownership interest in the collateral (unless otherwise notified by us) and such collateral is not required to secure a member's outstanding credit obligations and we have not required the member to list or deliver such collateral. Under the Advances, Collateral Pledge and Security Agreement with our members, a member must maintain collateral with a collateral value to fully cover its credit outstanding. If the collateral does not have collateral value sufficient to cover the credit outstanding, we require a member to pledge other assets as collateral to cover the shortage, this includes the pledging of types of collateral that are outside of our eligibility criteria. As a result, we may require listing or delivery of the additional collateral from the member at any time while there is credit outstanding. Additionally, we have a lien on their capital stock in us.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

The method by which a member reports collateral is dependent upon the collateral status to which it is assigned, as well as the type of collateral being pledged. In order for a member to have borrowing capacity with us, the member must report its eligible collateral using one of the following methods. Under blanket reporting, a member that has granted us a blanket lien on certain categories of collateral may report the collateral types on a qualified collateral report. For members that list collateral, either by choice or as directed by us, the member must submit a listing of its collateral which includes loan-level detail of the collateral. Securities pledged to us must be delivered to us or an approved third party custodian pursuant to a collateral control agreement. Loan collateral pledged to us may be required to be delivered to an approved third party custodian pursuant to a collateral control agreement. Regardless of the manner in which the collateral is pledged, all members must report their collateral to us at least quarterly.

We also conduct periodic on-site loan collateral reviews to confirm the collateral meets our eligibility requirements. On-site collateral verifications are performed on a schedule that varies based upon, including, but not limited to, our assessment of the credit risk of the member, the size of the member's credit exposure, the types of collateral pledged, and the amount of collateral coverage.

We have not recorded any allowance for credit losses for our on-balance sheet member credit products nor any liabilities for our off-balance sheet member credit products in the periods presented based on the following factors:

- Our credit outstanding is sufficiently well collateralized as a result of the collateral and credit risk mitigation efforts described above;
- Our credit analyses of our members;
- The repayment history on member credit products; and
- No member credit products that were past due, on nonaccrual status, involved in a troubled debt restructuring, or otherwise considered impaired.

MPF Loans and Related Exposures

For a description of the MPF Program see **Mortgage Partnership Finance Program** on page 8.

Credit Risk Exposure - Our credit risk exposure on conventional MPF Loans held in portfolio is the potential for financial loss due to borrower default and depreciation in the value of the real estate collateral securing the MPF Loan, offset by the borrower's equity, which represents the fair value of the underlying property in excess of the outstanding MPF Loan held in portfolio balance, our ability to recover losses from PMI, Recoverable CE Income, and the CE Amount which may include SMI. The PFI is required to pledge collateral to secure any portion of its CE Amount that is a direct obligation of the PFI. The unpaid principal balances of our conventional MPF Loans held in portfolio exposed to credit losses (which does not take into account the borrower's equity) was \$10.5 billion at December 31, 2023, and \$9.2 billion at December 31, 2022.

Our MPF Loans held in portfolio include conventional mortgage loans that may be viewed as having greater credit risk because the borrowers have weaker credit histories. The current MPF Program eligibility criteria for conforming conventional MPF Loans excludes loans to borrowers with a FICO score less than 620. Historically, we accepted MPF Loans from borrowers with FICO scores below 620 provided they met the underwriting standards set forth in the MPF Guides, which require compliance with applicable laws and regulations, including the Interagency Guidance on Nontraditional Mortgage Product Risks (issued October 4, 2006) and the Statement on Subprime Mortgage Lending (issued on July 10, 2007) issued by the Office of the Comptroller of the Currency, Office of the Thrift Supervision, Board of Governors of the Federal Reserve System, Federal Deposit Insurance Corporation, and the National Credit Union Administration. MPF Loans to borrowers with no FICO scores are also eligible for delivery under the MPF Program provided that acceptable alternate documentation of credit history is provided. We do not classify these MPF Loans internally as "subprime" because they are not higher-priced mortgage loans. Mortgages that meet the MPF Program's definition of higher-priced mortgage loans are not eligible for delivery under the MPF Program. MPF Loans with borrowers having no FICO scores or with FICO scores less than 660 at origination represent a relatively small portion of our total conventional MPF Loan portfolio.

Under the MPF Government MBS product, we must advance the scheduled principal and interest payments to the securities holders of Ginnie Mae MBS that we issued if the servicing PFI defaults on its payment obligations to advance the scheduled remittances. Once MPF Government MBS loans are ninety days delinquent, the servicing PFI has the option to repurchase the mortgage loan to mitigate the credit loss.

Setting Credit Enhancement Levels - For conventional MPF Loans held in portfolio, credit losses in an MC are first absorbed by the Bank's First Loss Account (FLA) but, if applicable to the particular MPF product structure, we will withhold the PFI's scheduled performance credit enhancement income payment in order to reimburse ourselves for any losses allocated to the FLA. We refer to these reimbursable credit enhancement income payments as Recoverable CE Income. If the FLA is exhausted, the credit losses are then absorbed by the PFI's CE Amount, which is calculated by utilizing third party credit models. For further

(Dollars in tables in millions except per share amounts unless otherwise indicated)

details on the FLA and PFI's CE Amount, refer to **Loss Structure for Credit Risk Sharing Products** on page 9 and **Conventional MPF Loans Held in Portfolio** on page F-31 to the financial statements.

The PFI's credit enhancement obligation, inclusive of the CE Amount and Recoverable CE Income, as applicable, is determined by the Bank, based on documented analysis, that the Bank has a high degree of confidence that it will not bear material losses beyond the losses absorbed by the Bank's FLA, even under reasonably likely adverse changes to expected economic conditions. Loans are assessed by third party credit models at acquisition and a credit enhancement is calculated based on credit attributes of the loans in each MC. Credit losses on a loan may only be absorbed by the PFI's credit enhancement obligation, inclusive of the CE Amount and Recoverable CE Income, as applicable, in the MC related to the loan.

The CE Amounts and the FLA for certain conventional MPF Products held in our portfolio may be periodically reset lower for each MC after a required period of seasoning because the amount of credit enhancement necessary to maintain the risk of credit losses within our risk tolerance is usually reduced over time.

For the MPF Plus product, the PFI is required to provide an SMI policy covering the MPF Loans in the MC and having a deductible initially equal to the FLA. As of December 31, 2023, and 2022, the outstanding balances of MPF Loans under the MPF Plus product with SMI coverage were \$57 million and \$68 million and the amounts of SMI coverage provided against losses were \$1 million and \$2 million. The reduction in coverage was due to the resetting of SMI policies as provided in the MPF Plus product structure. Credit losses associated with MCs for which the SMI coverage has been discontinued are incorporated into the allowance for credit losses calculation. Such credit losses were immaterial.

The following table shows the status of the credit enhancement structure on conventional MPF Loans held in portfolio. Unpaid principal balances in this table include REO, and are impacted by the credit enhancement structure of a MC. As defined, the CE Amount includes SMI on the MPF Plus product. Government Loans are excluded from the table as they are not directly credit enhanced by the PFI.

As of December 31, 2023				
Conventional MPF Product Type	Unpaid Principal Balance	90+ Days Delinquent	FLA ^a	PFI's CE Amount ^b
100	\$ 47	1.93%	8.82%	2.23%
125	2,711	0.37%	2.61%	1.93%
Plus	298	2.17%	25.00%	0.49%
35	2,656	0.12%	0.67%	2.33%
Original	4,809	0.09%	0.31%	2.47%

^a For each product above, except MPF Original, a portion of losses experienced at the FLA level may be recovered through the withholding of performance based CE Income from PFIs.

^b Credit losses on a loan may only be absorbed by the CE Amount in the MC related to the loan. For further detail refer to **Conventional MPF Loans Held in Portfolio** on page F-31 to the financial statements.

Concentration Risks - In conjunction with assessing credit risks on the MPF Loan portfolio, we also assess concentration risks that could negatively impact the portfolio.

Geographic Concentration - While we have MPF Loans on properties throughout the United States, our largest concentrations of 10% or more of conventional MPF Loans held in portfolio were secured by properties located in the states shown in the following table. Percentages shown are based on unpaid principal balance. An overall decline in the economy, residential real estate market, or the occurrence of a natural disaster could adversely affect the value of some or all of the mortgaged properties in these states and increase the risk of delinquency, foreclosure, bankruptcy or loss on MPF Loans, which could negatively affect our business, results of operations, and financial condition.

As of	December 31, 2023
WI	44 %
IL	31 %
All other states	25 %
Total	100 %

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Seller Concentration - During 2023, the top five PFIs, in the aggregate, accounted for 41% of our MPF Loans purchased and held in portfolio on our balance sheet. To the extent we lose our business with these PFIs and cannot attract comparable replacements, our business may be adversely affected.

For further discussion of how concentration risks may affect us, see **Risk Factors** on page 21.

Mortgage Repurchase Risk - We are exposed to mortgage repurchase risk in connection with our sale of MPF Loans to Fannie Mae under the MPF Xtra product and to Ginnie Mae for MPF Loans securitized in Ginnie Mae MBS if a loan eligibility requirement or other representation or warranty is breached. We may require the PFI from which we purchased the ineligible MPF Loan to repurchase that loan from us or to indemnify us for related losses, or request indemnification from the PFI's MPF Bank. Of these two products, our MPF Xtra product is the more popular, and during the years ended December 31, 2023 and 2022, we purchased and concurrently delivered \$0.7 billion and \$1.4 billion in unpaid principal balance of these loans to Fannie Mae. At December 31, 2023 and 2022, there were \$22.0 billion and \$23.4 billion of off-balance sheet MPF Xtra loans outstanding.

Our mortgage repurchase liability is an estimate of our losses associated with all mortgage loans previously sold in connection with the MPF Xtra and MPF Government MBS products for which a breach of representation or warranty has occurred. We consider factors based predominantly on our historical repurchase experience and only include mortgage loans for which we deem it probable that we will be required to either repurchase the mortgage loan or indemnify the applicable third party for losses. This assessment is primarily made during the quality control review process, which includes internal and investor-led reviews. Our estimate incorporates our experiences with third party repurchase demands, PFIs' historical ability to cure repurchase demands, an assumed loss severity given default, and the current creditworthiness of the PFI.

We accrue a mortgage repurchase liability with an offsetting charge to noninterest expense when it is probable and reasonably estimable that we will be obligated to repurchase a loan or indemnify an investor.

Based on the above factors, the mortgage repurchase liability recognized as of December 31, 2023 and December 31, 2022 was immaterial.

Additionally, PFIs are required to repurchase ineligible MPF Loans held in our portfolio unless we either require the PFI to indemnify us or decide to continue to hold such loans in our portfolio. The PFI repurchase requirement is a factor in determining our allowance for credit losses. If a PFI is unable to repurchase ineligible MPF Loans or indemnify us, we would incur a loss to the extent a credit loss is not recovered from collateral provided by the PFI or, alternatively, from the FDIC. In this regard, we have not recorded an allowance for credit losses related to MPF Loans held in our portfolio, as we do not expect to incur any losses after factoring in our recovery claims from PFIs.

We record allowances for credit losses for MPF Loans held in portfolio based on available information of past events and the current economic conditions existing as of the date of our **Statements of Condition** and reasonable and supportable forecasts that affect the collectability of the financial instrument's reported amount. Such information includes, but is not limited to, delinquency rates, loss severities, and prepayment speeds consistent with the percentages of delinquent, nonaccrual, and impaired MPF Loans to total conventional MPF Loans. Refer to **Note 2 - Summary of Significant Accounting Policies** to the financial statements for details on our nonaccrual and charge-off policies. Additionally, refer to **Note 8 - Allowance for Credit Losses** to the financial statements for further details on our allowance for credit losses.

FHLBank Chicago Federal Home Loan Bank of Chicago

(Dollars in tables in millions except per share amounts unless otherwise indicated)

The following table presents various credit quality indicators of our MPF Loans Held in Portfolio.

As of	December 31, 2023	December 31, 2022
Unpaid Principal Balance		
Average MPF Loans held in portfolio during the period	\$ 10,501	\$ 9,811
MPF Loans held for portfolio	11,270	10,023
Nonaccrual MPF Loans	22	39
Allowance for MPF credit losses	5	5
MPF credit losses charged-off	1	2
Ratio of MPF credit losses charged-off to average MPF Loans held in portfolio during the period	0.01 %	0.02 %
Ratio of allowance for MPF credit losses to MPF Loans held for portfolio	0.04 %	0.05 %
Ratio of nonaccrual MPF Loans to MPF Loans held for portfolio	0.20 %	0.39 %
Ratio of allowance for MPF credit losses to nonaccrual MPF Loans	22.73 %	12.82 %

Nonaccrual MPF Loans decreased as our delinquent loans and loans in forbearance cured or paid off.

Key Credit Quality Indicators

The following table presents our key credit quality indicators (at origination) of FICO scores and Loan-to-Value (LTV) ratios for our conventional MPF Loans. Percentages shown are based on unpaid principal balance.

As of December 31, 2023	% of Total	Current	30 Days Delinquent	60 Days Delinquent	90 Days + Delinquent
FICO Score < 620	0.1 %	86.9 %	5.6 %	1.9 %	5.6 %
FICO Score 620-659	4.6 %	94.9 %	3.1 %	0.8 %	1.2 %
FICO Score >=660	95.0 %	99.1 %	0.5 %	0.2 %	0.2 %
No FICO Score	0.3 %	99.3 %	0.7 %	— %	— %
Total	100.0 %	98.9 %	0.6 %	0.2 %	0.3 %
Weighted average FICO score	745				
LTV Ratio <=60%	15.0 %				
LTV Ratio > 60% to 70%	14.0 %				
LTV Ratio > 70% to 80%	48.0 %				
LTV Ratio > 80% to 90%	12.0 %				
LTV Ratio > 90%	11.0 %				
Total	100.0 %				
Weighted average LTV %	75.0 %				

FHLBank Chicago Federal Home Loan Bank of Chicago

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Investment Debt Securities

We hold a variety of investment debt securities, mostly government backed or insured securities, and we believe these investments are currently low risk.

The ratings shown in the following table reflect the lowest long-term debt rating reported among the three largest Nationally Recognized Statistical Rating Organizations (NRSROs). FHFA regulations require the Bank to develop and assign internal credit ratings for its counterparties that do not rely exclusively on ratings reported by NRSROs. As such, the ratings shown in the following table are for presentation purposes only.

^a ABS and MBS are presented by contractual maturity however their expected maturities will likely differ from contractual maturities as borrowers may have the right to call or prepay obligations with or without call or prepayment fees.

Securities Purchased Under Agreements to Resell

We invest in securities purchased under agreements to resell in order to ensure the availability of funds to meet members' liquidity and credit needs. Securities purchased under agreements to resell are secured by collateral of marketable securities held by a third party custodian. If the fair value of the accepted collateral decreases below the fair value amount required as collateral, our counterparty is required to provide an equivalent amount of additional securities as collateral to make up the shortfall. If the credit markets experience disruptions, it may increase the likelihood that one of our counterparties could experience liquidity or financial constraints that may cause them to become insolvent or otherwise default on their obligations to us. If the collateral's fair value amount has decreased below the resale agreement's carrying amount, we may suffer a credit loss.

The credit ratings of securities purchased under agreements to resell are disclosed along with investment debt securities and unsecured short-term investments in the **Investment Debt Securities** table on page 71.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Unsecured Short-Term Investments

We invest in unsecured short-term investments in order to ensure the availability of funds to meet members' credit and liquidity needs. We have credit risk exposure from our unsecured short-term investment portfolio, which may consist of commercial paper, certificates of deposit, and federal funds sold. We have established the following policies and procedures to limit and monitor our unsecured credit risk exposure.

- Eligible counterparties for short-term investments are:
 - other FHLBs;
 - other U.S. GSEs; and
 - FDIC-insured financial institutions, including U.S. subsidiaries of foreign commercial banks, or U.S. branches of foreign commercial banks whose most recently published financial statements exhibit at least \$250 million of Tier 1 (or total) capital. U.S. branches and agency offices of foreign non-member counterparties that have their ultimate parent domiciled in a country whose sovereign rating is below "Aa3" from Moody's or AA- from Standard & Poor's, are reported to the Bank's Credit and Collateral Committee.
- Our unsecured credit exposures to U.S. branches or agency offices of foreign commercial banks include the risk that, as a result of political or economic conditions in a country, the counterparty may be unable to meet their contractual repayment obligations. Our unsecured credit exposures to domestic counterparties and U.S. subsidiaries of foreign commercial banks include the risk that these counterparties have extended credit to foreign counterparties.
- Unsecured credit investment maturities are subject to maximum amounts and tenors as established by the Bank.
- We actively monitor our credit risk exposure and the credit quality of each counterparty, including an assessment of each counterparty's financial performance, capital adequacy, sovereign support (if applicable) and the current market perceptions of the counterparty. General macro-economic, political and market conditions may also be considered when deciding on unsecured exposure. As a result of this monitoring activity, we may limit or terminate existing unsecured credit exposure limits.

The following table presents the credit ratings of our unsecured investment counterparties, organized by the domicile of the counterparty or, where the counterparty is a U.S. branch or agency office of a foreign commercial bank, by the domicile of the counterparty's parent. This table does not reflect the foreign sovereign government's credit rating. The ratings shown in the following table reflect the lowest long-term debt rating reported among the three largest Nationally Recognized Statistical Rating Organizations (NRSROs). FHFA regulations require the Bank to develop and assign internal credit ratings for its counterparties that do not rely exclusively on ratings reported by NRSROs. As such, the ratings shown in the following table are for presentation purposes only. The unsecured investment credit exposure presented in the table may not reflect the average or maximum exposure during the period as the table reflects only the balances at period end.

As of December 31, 2023	AA	A rated	Total
Domestic U.S.			
Interest-bearing deposits	\$ —	\$ 2,570	\$ 2,570
Foreign commercial banks - federal funds sold:			
Australia	—	1,000	1,000
Canada	—	2,300	2,300
Finland	273	—	273
Germany	—	150	150
Netherlands	—	450	450
Total unsecured credit exposure	\$ 273	\$ 6,470	\$ 6,743

All \$6.7 billion of the unsecured credit exposure in the above table represent overnight investments and \$800 million in the above table were with members or former members, and their affiliates. Any amounts related to members over a 10% concentration are included in the amounts in the **Member Credit Outstanding** table on page 65.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Managing Our Credit Risk Exposure Related to Derivative Agreements

See **Note 9 - Derivatives and Hedging Activities** to the financial statements for a discussion of how we manage our credit risk exposure related to derivative agreements. We have credit exposure on net asset positions where we have not received adequate collateral from our counterparties. We also have credit exposure on net liability positions where we have pledged collateral in excess of our liability to a counterparty.

The following table presents our derivative positions where we have such credit exposures. The ratings shown in the following table reflect the lowest long-term debt rating reported among the three largest Nationally Recognized Statistical Rating Organizations (NRSROs). FHFA regulations require the Bank to develop and assign internal credit ratings for its counterparties that do not rely exclusively on ratings reported by NRSROs. As such, the ratings shown in the following table are for presentation purposes only. Noncash collateral pledged consists of initial margin we posted through our FCMs, on behalf of the DCOs for cleared derivatives and is included in our derivative positions with credit exposure. Noncash collateral pledged also consists of net initial margin exchanged on our bilateral derivatives, which for presentation purposes we have reported on a net basis. We had no material concentration of credit risk with any one bilateral derivative counterparty.

	Net Derivative Fair Value Before Collateral	Cash Collateral Pledged	Noncash Collateral Pledged	Net Credit Exposure to Counterparties ^a
As of December 31, 2023				
Nonmember counterparties -				
Undercollateralized asset positions -				
Bilateral derivatives -				
AA	\$ 1	\$ (1)	\$ —	\$ —
A	359	(295)	(43)	21
Overcollateralized liability positions -				
Bilateral derivatives -				
A	(610)	622	5	17
BBB	(672)	677	20	25
Cleared derivatives	(19)	—	856	837
Nonmember counterparties	(941)	1,003	838	900
Member counterparties	1	—	—	1
Total	\$ (940)	\$ 1,003	\$ 838	\$ 901

^a Less than \$1 million is shown as zero.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

Market Risk Profile

Our financial assets and financial liabilities are subject to market risk. Specifically, the fair value of our financial assets may decline while the fair value of our financial liabilities may increase due to changes in market risk factors. Our exposure to interest rate risk, however, represents our most critical market risk factor since our earnings primarily are driven by net interest income.

Interest Rate Risk Management

Our interest rate risk management objective is to manage our exposure to interest rate risk within appropriate limits rather than eliminate our entire exposure to interest rate risk. In this regard, we have established policies that include guidelines on the amount of exposure to interest rate changes we are willing to accept. Our Asset/Liability Management Committee provides oversight of these risk management practices and policies. This includes routine reporting to senior Bank management and the Board of Directors, as well as maintaining the Income and Market Value Risk Policy, which defines our interest rate risk limits. Our strategy to manage interest rate risk is outlined below.

Monitoring and Analyzing Interest Rate Risk

- We monitor the risk to our net interest income, and average maturity of our interest-earning assets and interest-bearing liabilities.
- We measure and manage market exposure through five measurements: duration, convexity, curve, basis, and volatility.
 - Duration measures our exposure to parallel interest rate shifts where changes in interest rates occur at similar rates across the yield curve. Duration of equity is a measure that expresses the interest rate sensitivity of the present value of the Bank's cash flow in terms of duration years of portfolio equity. We report the results of our duration of equity calculations to the FHFA each quarter. We measure duration of equity in a base case using the actual yield curve as of a specified date and then shock it with an instantaneous shift of the entire curve. Effective duration measures price sensitivity taking into account that the expected cash flows will change as interest rate change due to any prepayment options embedded within a financial instrument.
 - Convexity measures how fast duration changes as a function of interest rate changes. Convexity is largely driven by mortgage cash flows that vary significantly as borrowers respond to rate changes by either prepaying their mortgages or slowing such prepayments.
 - Curve quantifies our exposure to non-parallel shifts in the yield curve.
 - Basis measures the difference in yields between two related financial instruments that are affected by yield changes in different markets.
 - Volatility describes the degree to which the value of options, explicit or embedded, fluctuates. MPF Loans held in portfolio and MBS include options held by the mortgage borrowers to prepay their loans. As a result, we have effectively sold options by owning MPF Loans held in portfolio and MBS. Some consolidated obligations issued by us have effective purchased options that allow us to call the bonds prior to the contractual maturity date.
- We analyze the risk of our mortgage assets on a regular basis and consider the interest rate environment under various interest rate scenarios. We also perform analyses of the duration and convexity of the portfolio.

Mortgage-Related Assets

MPF Loans Held in Portfolio and Residential MBS

The predominant source of interest rate risk in our market risk profile is attributable to mortgage-related assets. Our mortgage-related assets include, but are not limited to, MPF Loans held in portfolio and MBS. Interest rate risk results from prepayment options embedded in mortgage-related assets. Specifically, changes in interest rates may result in extensions or contractions in the expected maturities of our mortgage-related assets. Interest rate swaps, swaptions, and/or futures contracts may be used to hedge the duration, convexity, and prepayment risk on MPF Loans held in portfolio. We issue both callable and noncallable debt to achieve cash flow patterns and liability durations similar to those expected on MPF Loans held in portfolio.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Economic Hedges

An economic hedge is defined as a derivative that does not qualify (or was not designated) for hedge accounting, but is an acceptable hedging strategy for risk management purposes. These economic hedging strategies also comply with FHFA regulations that prohibit speculative hedge transactions. An economic hedge may introduce the potential for earnings volatility caused by the changes in fair value on the derivatives that are recorded in income but not offset by recognizing corresponding changes in the fair value of the economically hedged assets, liabilities, or firm commitments.

We utilize economic hedges to manage our duration, convexity, curve, basis, and volatility. We hedge the duration and convexity of MPF Loans held in portfolio by using economic hedges or through the use of callable and noncallable debt. Convexity risks arise principally from the prepayment option embedded in our MPF Loans held in portfolio and MBS. As interest rates become more volatile, changes in our duration and convexity profile become more volatile. As a result, our level of economic hedging activity, as discussed below, may increase resulting in an increase in hedging costs.

Our primary risk mitigation tools may include funding instruments, swaps, swaptions, futures, options on futures and mortgages, caps, floors, callable debt and/or selling forward Fannie or Ginnie Mae TBA contracts. We generally do not manage exposure to mortgage option-adjusted spreads. Based on our risk profile, funding is primarily used to address duration, convexity, curve, volatility and cash flow mismatch risks at either a portfolio or balance sheet level under different rate scenarios.

Economic hedges may be executed to reduce exposure or the risk associated with a single transaction or group of transactions. Our economic hedges are evaluated daily and adjusted as deemed necessary.

MPF Government MBS Product

Each delivery commitment is hedged during the delivery commitment period and during the period while the loan held for sale is on the Bank's balance sheet by selling forward Ginnie Mae TBA contracts. Both loans held for sale and TBA contracts are carried at fair value on the Bank's balance sheet. These TBA contracts may be executed to reduce the market risk exposure associated with buying or holding an MPF Government MBS loan until it is securitized. The hedges are evaluated daily and adjusted as deemed necessary.

MPF Xtra

We enter into offsetting delivery commitments under the MPF Xtra, where we agree to buy mortgage loans from PFIs and simultaneously re-sell them to third party investors. Accordingly, we are not exposed to market risk with respect to these delivery commitments.

Advances

The optionality embedded in certain advances may create interest rate risk. When a member prepays an advance, we could suffer lower future income if the principal portion of the prepaid advance were invested in lower-yielding assets that continue to be funded by higher-cost debt. To protect against this risk, we generally charge a prepayment fee that makes us financially indifferent to a member's decision to prepay an advance or on some products, we structure the advance to address this risk. When we offer advances (other than short-term advances) that a member may prepay or expand (increase the par amount at a later date) without a fee, we may finance such advances with callable or noncallable debt or enter into a derivative to achieve hedge accounting treatment.

Fair Value Hedges

With issuances of certain putable advances, we purchase from the member an embedded option that enables us to extinguish the advance. We may hedge a putable advance by entering into a cancelable interest rate swap where we pay fixed interest payments and receive floating rate interest payments based off of OIS or SOFR. This type of hedge is accounted for as a fair value hedge. We assess hedge effectiveness primarily under the qualitative hedge effectiveness method. However, in certain cases where all conditions are met, hedge effectiveness is assessed using the shortcut method. Currently, we principally apply shortcut accounting to certain nonputable and putable fixed-rate advances. In the case of certain putable advances that have features not meeting shortcut requirements, the transactions are primarily hedged under a highly effective hedge relationship. In those cases, the swap counterparty can cancel the derivative financial instrument on the same date that we can put the advance back to the member.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Economic Hedges

Interest rate swaps, swaptions, and/or futures contracts may be used to hedge the duration and convexity of the advances portfolio; as well as the prepayment risk on advances and the expander feature risk, which allows a member one or multiple opportunities to increase the principal amount of the advance. We issue both callable and noncallable debt intended to achieve cash flow patterns and liability durations similar to those expected on advances. We may also enter cancelable swaps in an effort to minimize the prepayment risk embedded in the advances.

Non-Residential MBS Investment Debt Securities

Our major security types, excluding Residential MBS, are based on the nature and risks of the security. These securities include, but are not limited to, the following:

- U.S. Government & other government related may consist of the sovereign debt of the United States; debt issued by government sponsored enterprises (GSE); and non-mortgage-backed securities of the Small Business Administration (SBA) and Tennessee Valley Authority.
- Federal Family Education Loan Program - asset backed securities (FFELP ABS).
- State or local housing agency obligations.
- Multi-Family MBS guaranteed by GSE.

We endeavor to manage the interest rate and prepayment risk associated with these non-MBS securities through a combination of debt issuance and derivatives.

Fair Value Hedges

We use interest rate swaps to hedge certain AFS securities to shorten our duration profile in an increasing interest rate environment. Our hedge strategy focuses on hedging the benchmark interest rate of SOFR or OIS by effectively converting fixed-rate securities into floating rate assets to reduce our exposure to rising interest rates. This type of hedge is accounted for as a fair value hedge. We assess hedge effectiveness primarily under the qualitative hedge effectiveness method. AFS securities are carried at fair value. The adjustment to the AFS security's carrying amount attributable to fair value changes in the benchmark interest rate for the relationship term, including partial hedge terms, is immediately recognized in interest income in our **Statements of Income**. Any gain or loss on these AFS securities that is not attributable to changes in the benchmark interest rate is recognized into AOCI. Changes in fair value on the derivative hedging these AFS securities in a fair value hedging relationship are immediately recognized into interest income into our **Statements of Income** in order to offset the fair value changes in the benchmark interest rate.

Economic Hedges

We may manage against prepayment and duration risk by funding investment debt securities with consolidated obligations that have call features, by economically hedging the prepayment risk with caps, floors, or by adjusting the duration of the securities by using derivatives to modify the cash flows of the securities.

We may also manage the risk arising from changing market prices and volatility of investment debt securities classified as trading debt securities by entering into derivative financial instruments (economic hedges) that offset the changes in fair value of the securities. The market value changes of both the trading debt securities and the associated derivatives are recognized in noninterest income.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Consolidated Obligation Discount Notes

Cash Flow Hedges

We are exposed to the variability in the total net proceeds received from forecasted zero-coupon discount note issuances, which is attributable to changes in the benchmark interest rate. Our hedge objective/strategy is to hedge the total net proceeds received from “rolling” forecasted zero-coupon discount note issuances attributable to changes in the benchmark interest rate by entering into interest rate swap(s) to mitigate such risk. We did not use the cash flow hedge strategy for new transactions in 2023, but may elect to do so in the future. The life of the hedging relationship between the hedging instrument and the hedged item is from hedge inception until the hedge relationship ends, which is the last forecasted discount note issuance date of the hedge relationship. We are hedging the total net proceeds attributable to changes in the benchmark interest rate related to the forecasted issuance (and re-issuance) of zero-coupon fixed-rate discount notes with a three or six month tenor. We primarily use a pay-fixed interest rate swap or “swap” as the hedging instrument in which the interest rate resets every three or six months, whichever is applicable.

Consolidated Obligation Bonds

Fair Value Hedges

We endeavor to manage the fair value risk of a consolidated obligation by matching the cash inflow on the derivative with the cash outflow on the consolidated obligation bonds. For instance, when a fixed-rate consolidated obligation bond is issued, we may simultaneously enter into an interest rate OIS or SOFR swap in which we receive fixed cash flows from a counterparty designed to offset in timing and amount the cash outflows we pay on the consolidated obligation bond. We also hedge the benchmark rate on callable fixed-rate step-up consolidated obligation bonds at specified intervals where we own a call option(s) to terminate the consolidated obligation bond. The hedging instrument is a fixed-rate interest rate swap with a matching step-up feature that converts the callable fixed-rate step-up bond into a floating rate liability and has an offsetting call option(s) to terminate the interest rate swap. Such transactions are treated as fair value hedges. We assess hedge effectiveness primarily under the qualitative hedge effectiveness method. However, in certain cases where all conditions are met, hedge effectiveness is assessed using the shortcut method. We apply shortcut accounting to certain noncallable fixed-rate consolidated obligations.

Fair Value Option

We may elect the fair value option for financial instruments, such as advances, MPF Loans held for sale, consolidated obligation discount notes and bonds, in cases where hedge accounting treatment may not be achieved due to the inability to meet the hedge effectiveness testing criteria, or in certain cases where we wish to mitigate the risk associated with selecting the fair value option for other instruments. Electing the fair value option for a financial instrument allows us to better match the changes in fair value on that financial instrument with the interest rate swap economically hedging it.

Our Asset/Liability Management Committee and its subcommittees provide oversight of our risk management practices and policies. This includes routine reporting to senior Bank management and the Board of Directors, as well as maintaining the Income and Market Value Risk Policy, which defines our interest rate risk limits.

FHLBank
 Chicago Federal Home Loan Bank of Chicago

(Dollars in tables in millions except per share amounts unless otherwise indicated)

The table below reflects the expected change in market value of equity for the stated increase or decrease in interest rates based on our models and related loss limit for each scenario established in the policy. For our down scenario shock analysis, the down shocks are constrained by scenarios provided by our regulator, which currently are limited so that shocked rates will not go negative but are subject to change. As a result, where applicable, we apply a floor to the down shock scenario at 10 bps. In the current rate environment, this floor setting was not triggered for any of the shock scenarios presented below.

Scenario as of	December 31, 2023		December 31, 2022	
	Change in Market Value of Equity	Loss Limit	Change in Market Value of Equity	Loss Limit
-200 bp	\$ (112)	\$ (650)	\$ (172)	\$ (450)
-100 bp	(30)	(290)	(60)	(200)
-50 bp	(8)	(130)	(24)	(90)
-25 bp	(2)	(65)	(11)	(45)
+25 bp	(2)	(65)	9	(45)
+50 bp	(7)	(130)	15	(90)
+100 bp	(26)	(290)	26	(200)
+200 bp	(86)	(650)	33	(450)

FHLBank
 Chicago Federal Home Loan Bank of Chicago

(Dollars in tables in millions except per share amounts unless otherwise indicated)

The following table outlines our hedge activity by hedged item or economic risk exposure, hedging instrument, hedge type and notional amount by hedging activity.

As of December 31,			Notional Amount	
Hedged Item/Economic Risk Exposure ^a	Hedge Type	Hedging Instrument	2023	2022
Investment Debt Securities	Fair value	Pay fixed, receive floating, interest rate swap	\$ 21,355	\$ 18,618
	Economic	Pay fixed, received floating, interest rate swap	1,750	—
			23,105	18,618
Advances	Fair value	Pay fixed, receive floating, interest rate swap (without options)	22,295	15,194
		Pay fixed, receive floating, interest rate swap (with options)	12,350	5,852
	Economic	Pay fixed, receive floating, interest rate swap (without options)	8	525
		Pay fixed, receive floating, interest rate swap (with options)	190	183
			34,843	21,754
MPF Loans	Economic	A combination that may include swaps, swaptions, caps, floors, futures, forward settlements and/or to-be-announced (TBA) forward contracts	429	477
Discount Notes	Economic	Receive fixed, pay floating interest rate swap	3,615	256
	Cash flow	Pay fixed, receive floating, interest rate swap	1,030	1,177
			4,645	1,433
Consolidated Obligation Bonds	Fair value	Receive fixed, pay floating interest rate swap (without options)	12,491	11,021
		Receive fixed, pay floating interest rate swap (with options)	57,902	38,943
	Economic	Receive fixed, pay floating interest rate swap (without options)	31	31
		Receive fixed, pay floating interest rate swap (with options)	1,313	1,065
			71,737	51,060
Intermediary transactions on behalf of members with counterparties	Economic	Pay fixed, receive floating, interest rate swap	13	2
Mortgage purchase commitments	Standalone	Mortgage delivery commitment	183	142
Total			\$134,955	\$ 93,486

^a Hedged item only applies to hedges that qualify for hedge accounting. Economic risk exposure applies economic hedges that are accounted for at fair value.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Measurement of Market Risk Exposure

To measure our exposure, we discount the cash flows generated from modeling the terms and conditions of all interest rate-sensitive securities using current interest rates to determine their fair values or spreads to the swap curve for securities where third party prices are used. This includes considering explicit and embedded options using a lattice model or Monte Carlo simulation. We estimate yield curve, option, and basis risk exposures by calculating the fair value change in relation to various parallel changes in interest rates, implied volatility, prepayment speeds, spreads to the swap curve and mortgage rates.

Our key interest rate risk exposures and interest rate risk within specific financial instruments are discussed below.

Key Interest Rate Risk Exposures

- *Yield curve risk* - We are exposed to interest rate movements in certain yield curves, such as SOFR and OIS, which are used to discount the future cash flows attributable to our financial instruments, including derivatives. We measure our yield curve risk as follows:
 - *Yield risk* - Change in market value for a one basis point parallel increase in the swap curve.
- *Option risk* - We are exposed to option risk as the value of option positions (explicit and embedded) vary due to changes in the implied volatility of the yield curve as well as the yield curve itself. We measure our option risk as follows:
 - *Option risk (implied volatility)* – Change in market value for a one percent parallel increase in the swaption volatility.
 - *Option risk (prepayment speeds)* – Change in market value for a one percent increase in prepayment speeds.
- *Basis risk* - We are exposed to basis risk as the yields on different assets, liabilities and derivatives are determined on different yield curves. This includes (1) differences between the reference curve and the Office of Finance cost of funds or consolidated obligation curve; (2) changes in individual securities' spreads to the reference curve as a result of changes in supply, demand, and credit quality of different securities in the market; and (3) changes in mortgage rates relative to the reference curve. We measure our basis risk as follows:
 - *Basis risk (spread to swap curve)* – Change in market value for a one basis point parallel increase in the spread to the reference curve.
 - *Basis risk (mortgage spread)* – Change in market value for a one basis point increase in mortgage rates.

The following table summarizes our sensitivity to various interest rate risk exposures in terms of changes in market value.

	Option Risk			Basis Risk	
	Yield Curve Risk	Implied Volatility	Prepayment Speeds	Spread to Swap Curve	Mortgage Spread
As of December 31, 2023					
Advances	\$ (4)	\$ 2	\$ —	\$ (5)	\$ —
Mortgage-backed securities	(8)	—	—	(8)	—
Interest-bearing liabilities	10	6	—	10	—
Derivatives	10	(13)	—	—	—
Total	\$ 8	\$ (5)	\$ —	\$ (3)	\$ —
As of December 31, 2022					
Advances	\$ (7)	\$ 3	\$ —	\$ (10)	\$ —
Mortgage-backed securities	(3)	—	—	(3)	—
Interest-bearing liabilities	16	11	—	17	—
Derivatives	1	(10)	—	—	—
Total	\$ 7	\$ 4	\$ —	\$ 4	\$ —

(Dollars in tables in millions except per share amounts unless otherwise indicated)

As of December 31, 2023, our total sensitivity to changes in implied volatility using a lattice model and Monte Carlo simulation was \$(5) million. At December 31, 2022, our sensitivity to changes in implied volatility was \$4 million. These sensitivities are limited in that they do not incorporate other risks, including but not limited to, non-parallel changes in yield curves, prepayment speeds, and basis risk related to differences between the swap and the other curves. Option positions embedded in our mortgage assets and callable debt impact our yield curve risk profile, such that swap curve changes significantly greater than one basis point cannot be linearly interpolated from the table above.

Duration of equity is another measure to express interest rate sensitivity. We report the results of our duration of equity calculations to the FHFA each quarter. We measure duration of equity in a base case using the actual yield curve as of a specified date and then shock it with an instantaneous shift of the entire curve. The following table presents the duration of equity reported by us to the FHFA in accordance with the FHFA's guidance, which prescribes that down and up interest-rate shocks equal 200 basis points. The results are shown by duration of equity in years. The Bank engages in ongoing performance monitoring for its market risk-related models.

Scenario as of	Duration of equity in years	
	As of December 31, 2023	As of December 31, 2022
Down 200 bps	-1.1	-1.8
Base	0.0	-0.5
Up 200 bps	0.7	0.0

As of December 31, 2023, on a U.S. GAAP basis, our fair value surplus (relative to book value) was \$390 million, and our market value of equity to book value of equity ratio was 105%, compared to \$407 million and 105% at December 31, 2022. The market value of equity to book value of equity was stable despite market volatility during the year. Our market to book value of total capital for regulatory risk-based capital purposes differs from this GAAP calculation, as discussed in **Note 12 - Capital and Mandatorily Redeemable Capital Stock (MRCS)** to the financial statements.

Item 8. Financial Statements and Supplementary Data.

Our **Annual Financial Statements and Notes**, including the **Report of Independent Registered Public Accounting Firm**, are set forth starting on page F-1 to the financial statements.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

None.

Item 9A. Controls and Procedures
Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, as of the end of the period covered by this report (the Evaluation Date). Based on this evaluation, the principal executive officer and principal financial officer concluded as of the Evaluation Date that the disclosure controls and procedures were effective such that information relating to us that is required to be disclosed in reports filed with the SEC: (i) is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms, and (ii) is accumulated and communicated to management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Management's Report on Internal Control over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting as such term is defined in Exchange Act 13a-15(f). Internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external reporting purposes in accordance with generally accepted accounting principles. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements.

Our management, which includes our principal executive officer and principal financial officer, assessed the effectiveness of our internal control over financial reporting as of December 31, 2023. In making this assessment, management uses as guidance the framework developed by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in "Internal Control - Integrated Framework (2013)" and other authoritative guidance on governance and internal control. The assessment included extensive documenting, evaluating and testing the design and operating effectiveness of our internal control over financial reporting. Management concluded that based on its assessment, our internal control over financial reporting was effective as of December 31, 2023. The effectiveness of our internal control over financial reporting as of December 31, 2023, has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report included herein.

Changes in Internal Control over Financial Reporting

For the quarter ended December 31, 2023, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Consolidated Obligations

Our disclosure controls and procedures include controls and procedures for accumulating and communicating information relating to our joint and several liability for the consolidated obligations of other FHLBs. Because the FHLBs are independently managed and operated, our management relies on information that is provided or disseminated by the FHFA, the Office of Finance or the other FHLBs, as well as on published FHLB credit ratings, in determining whether the FHFA's joint and several liability regulation is probable to result in a direct obligation for us or whether it is reasonably possible that we will accrue a direct liability.

Our management also relies on the operation of the FHFA's joint and several liability regulation that requires each FHLB to file with the FHFA a quarterly certification that it will remain capable of making full and timely payment of all of its current obligations, including direct obligations, coming due during the next quarter. In addition, if an FHLB cannot make such a certification or if it projects that it may be unable to meet its current obligations during the next quarter on a timely basis, it must file a notice with the FHFA. Under the FHLB Act and related regulation, the FHFA may order any FHLB to make principal and interest payments on any consolidated obligations of any other FHLB, or allocate the outstanding liability of an FHLB among all remaining FHLBs on a pro rata basis in proportion to each FHLB's participation in all consolidated obligations outstanding or on any other basis.

Based on these factors, we do not expect to pay any additional amounts on behalf of other FHLBs under our joint and several liability as of December 31, 2023, and as a result, we did not accrue a liability. For additional information, see **Note 10 - Consolidated Obligations** and **Note 16 - Commitments and Contingencies** to the financial statements.

Item 9B. Other Information.

PART III

Item 10. Directors, Executive Officers, and Corporate Governance.

Our Board is comprised of a combination of industry directors elected by the Bank's member institutions (referred to as member directors) on a state-by-state basis and independent directors elected by a plurality of the Bank's members (referred to as independent directors). No member of the Bank's management may serve as a director of an FHLB. Our Board currently includes ten member directors and eight independent directors.

Nomination of Member Directors

Member directors are required by statute and regulation to meet certain specific criteria in order to be eligible to be elected and serve as Bank directors. To be eligible an individual must:

- be an officer or director of a Bank member institution located in the state in which there is an open Bank director position;
- the member institution must be in compliance with the minimum capital requirements established by its regulator; and
- the individual must be a U.S. citizen.

These criteria are the only permissible eligibility criteria that member directors must meet. The FHLBs are not permitted to establish additional eligibility criteria for member directors or nominees. For member directors, each eligible institution may nominate representatives from member institutions in its respective state to serve four-year terms on the Board of the Bank. As a matter of statute and regulation, only FHLB stockholders may nominate and elect member directors. FHLB Boards are not permitted to nominate or elect member directors, although they may appoint a director to fill a vacant directorship in advance of the next annual election. Specifically, institutions which are members required to hold capital stock in the Bank as of the record date (i.e., December 31 of the year prior to the year in which the election is held) are entitled to participate in the election process unless they have been involuntarily terminated as a member at the time of voting. With respect to member directors, under FHFA regulations, no director, officer, employee, attorney, or agent of the Bank (except in his/her personal capacity) may, directly or indirectly, support the nomination or election of a particular individual for a member directorship. Because of the structure of FHLB member director nominations and elections, we do not know what factors our member institutions consider in selecting member director nominees or electing member directors.

Nomination of Independent Directors

For independent directors, the members elect these individuals on a district-wide basis to four-year terms, subject to FHFA designation. Independent directors cannot be officers or directors of a Bank member, and must meet certain statutory and regulatory eligibility criteria. To be eligible to serve as an independent director, an individual must be a citizen of the United States and a bona fide resident of the district in which the Bank is located. FHFA regulations require that an independent director (other than a public interest independent director) must have experience in or knowledge of one or more of the following areas: auditing and accounting, derivatives, financial management, organizational management, project development, risk management practices and the law. In addition, the FHFA regulation requires a public interest independent director to have more than four years' experience representing consumer or community interests in banking services, credit needs, housing or consumer financial protection.

Under FHFA regulation, our members are permitted to nominate independent director candidates to be considered by the Bank to be included on the nominee slate and our Board determines the nominees after consulting with the Bank's Community Investment Advisory Council (Advisory Council). FHFA regulations permit a Bank director, officer, attorney, employee or agent and our Board and Advisory Council to support the candidacy of any person nominated by the Board for election to an independent directorship. Our Board selected independent director nominees based on their qualifications as described in each independent director's biography below.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

2023 Director Election

Voting rights and process with regard to the election of member and independent directors are set forth in the FHLB Act and FHFA regulations. For the election of both member directors and independent directors, each eligible member institution is entitled to cast one vote for each share of capital stock that it was required to hold as of the record date; however, the number of votes that each institution may cast for each directorship cannot exceed the average number of shares of capital stock that were required to be held by all member institutions located in that state on the record date. The only matter submitted to a vote of shareholders in 2023 was the election of certain member and independent directors, which occurred in the fourth quarter of 2023 as described above. We conducted this election to fill two open member directorships and three open independent directorships for 2024 as designated by the FHFA. In 2023, the nomination and election of directors was conducted electronically. No meeting of the members was held in regard to the election. Our Board does not solicit proxies, nor are eligible member institutions permitted to solicit or use proxies to cast their votes in an election for member or independent directors. Information about the results of the election, including the votes cast, was reported in a Form 8-K filed on October 23, 2023, as amended by a Form 8-K/A filed on December 18, 2023.

Information Regarding Current Directors of the Bank

^c Public interest independent director.

^d Independent director.

James T. Ashworth joined CNB Bank & Trust, N.A. in 1978 and has served in many capacities, including as Vice Chairman since 1989 and as President and CEO from 1989 to 1997, as well as serving as Vice Chairman and President and CEO of its holding company, CNB Bank Shares, Inc. since 1989. Mr. Ashworth served as Chairman of the Community Bankers Association of Illinois (CBAI) and as an elected director of the Independent Community Bankers of America, on the state association's Legislative Committee and the national association's Regulation Review Committee; he was named CBAI's "Outstanding Member" in 1995. He also has previously served on the Illinois State Treasurer's Community Bank Advisory Council and as an appointed delegate to the White House Conference on Small Business. Mr. Ashworth earned a Bachelor of Science degree from the University of Miami, and is a graduate of the Graduate School of Banking at the University of Wisconsin-Madison, as well as its post-graduate program. Mr. Ashworth has also served on numerous local boards, including a community hospital, a chamber of commerce, an economic development corporation, and a community foundation.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Mr. Ashworth serves on the following Board committees of the Bank: Affordable Housing (Vice Chairperson), Executive & Governance and Human Resources & Compensation.

Kathleen Burns is currently the Chief Executive Officer of Aclaimant, a risk management technology company, a position she has held since 2024. She has also served as an independent board member for Aclaimant since 2020. From 2017-2023, Ms. Burns was Chief Digital Officer for Ryan Specialty Group, a specialty insurance firm (RSG); interim Chief Information Officer for RT Specialty, RSG's largest business unit, and CEO of The Connector, RT Specialty's digital marketplace. From 2006-2017, Ms. Burns was a board member and CEO of Ventiv Technology, formerly Aon eSolutions. Ms. Burns was selected to the first class of Business Insurance's "Women to Watch" and is a frequent speaker on the emerging role of technology in the insurance industry. Early in her career, Ms. Burns spent time at Marsh, Aon and Crawford & Company in various leadership roles in sales, operations and account management. Ms. Burns is a graduate of Northwestern University where she was a student athlete. The Board nominated Ms. Burns to serve as an independent director based on her knowledge of and experience in risk management practices, as indicated by her background.

Ms. Burns serves on the following Board committees of the Bank: Operations & Technology and Risk Management.

Mary J. Cahillane was Chief Financial Officer and Chief Investment Officer of the Spencer Foundation from 2003 until she retired in May 2015. She previously worked for Bank of America from 1994 to 2003, Continental Bank from 1981 to 1985 and again from 1989 to 1994 and Texas Commerce Bank from 1985 to 1989, holding a variety of senior roles in asset liability management, risk management, and finance. More specifically, Ms. Cahillane was the Head of Funding and Asset Liability Management at Continental Bank and the Chief Financial Officer for the Global Retail Bank at Bank of America. Following Bank of America's merger with NationsBank, she held the role of Deputy Treasurer of the corporation responsible for Balance Sheet Management, Pension Plan Investments, Corporate Securitizations and Structured Transactions, Rating Agency Relationships and the Parent Company Debt and Liquidity Plan. She was also the organization's first Operational Risk Executive and was a member of the organization's Management Operating Committee. Ms. Cahillane currently serves on the boards of the Arthur J. Schmitt Foundation, St. John Berchmans School, Children's First Fund, and PEAK (Partnership to Educate and Advance Kids). Until the sale of the company in October 2017, she served on the board of Forsythe Technology, Inc. and previously served on the boards of ShoreBank Corporation and ShoreBank. The Board nominated Ms. Cahillane to serve as an independent director based on her knowledge of and experience in financial management and risk management practices, as indicated by her background.

Ms. Cahillane serves on the following Board committees of the Bank: Audit, Executive & Governance, and Risk Management (Chairperson).

Mark J. Eppli is currently the Director of the Graaskamp Center for Real Estate, Wisconsin School of Business at the University of Wisconsin - Madison, a position he's held since August 2018. Dr. Eppli was previously Robert B. Bell, Sr. Chair in Real Estate at Marquette University in Milwaukee, Wisconsin from 2002 to 2018, and served as the Director of the Center for Real Estate from 2009 to 2018. He also served as Interim Keyes Dean of Business at Marquette University from 2012 to 2015. Dr. Eppli was also Assistant, Associate, and Full Professor of Finance and Real Estate in the School of Business and Public Management at The George Washington University from 1991 to 2002. He was an active instructor and author for the Urban Land Institute from 1992 to 2012. Dr. Eppli was also a Lecturer and Teaching Assistant at the University of Wisconsin-Madison from 1987 to 1991. Prior to obtaining his doctorate, Dr. Eppli pursued a career in commercial real estate, serving as Manager of Research and Investment Analysis with PM Realty Advisors from 1985 to 1986 and a Specialist in Real Estate Acquisitions at GE Capital Corporation from 1984 to 1985. Dr. Eppli is past recipient of the Greater Washington Urban League's "Volunteer of the Year," Urban Land Institute's "Star Performer," and LISC-Milwaukee's "Navigator" awards for his efforts to attract minorities to the commercial real estate industry. He is a board member and past president of the Real Estate Research Institute and Distinguished Fellow at NAIOP, the Commercial Real Estate Development Association. The Board nominated Dr. Eppli to serve as an independent director based on his knowledge of and experience in financial management and risk management practices, as indicated by his background.

Dr. Eppli serves on the following Board committees of the Bank: Affordable Housing and Risk Management (Vice Chairperson).

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Joseph Fazio III is currently a Chairman of the Board of Directors for Bristol Morgan Bank in Oakfield, Wisconsin and Oakfield Bancorp, Inc., positions he's held since April 2023. He joined these institutions in October 2022 as a board member. Mr. Fazio was the founder, Chairman of the Board of Directors, and CEO of Commerce State Bank from 2005 to October 2022, when it was acquired by Summit Credit Union. Prior to founding Commerce State Bank, Mr. Fazio led a privately-held marketing company from 2002 to 2004, was Director of Corporate Marketing for Metavante (now FIS) from 1998 to 2002, led Personal Trust Administration for M&I Trust Company (now BMO) from 1995 to 1998, and held several management positions with IBM from 1983 to 1995. Mr. Fazio is a 1983 graduate of St. Norbert College, and in 1988 earned his master's degree from Edgewood College. He served as a member of the board of directors of the Wisconsin Bankers Association from 2013 to 2016. Mr. Fazio has served as an elected official for the City of Cedarburg and has held several city board appointments. He is the past President of the Greater Cedarburg Community Foundation and chaired the 2018 Washington County United Way Campaign. He has served on the board of non-profits such as St. Francis Borgia School, Walker's Point Youth and Family Center, and the Cedarburg Athletic Booster Club. Mr. Fazio is the Founder and Past President of the Wisconsin Chapter of the Private Directors Association, and a member of the National Association of Corporate Directors and is an NACD Board Leadership Fellow. Mr. Fazio is the author of the book, "This Might be a Dumb Question, but How Does Money Work?"

Mr. Fazio serves as the Bank's Chairperson of the Board and Chairperson of the Executive & Governance Committee. He also serves as an ex officio member of the following Board committees of the Bank: Affordable Housing, Audit, Human Resources & Compensation, Operations & Technology, and Risk Management.

Michelle L. Gross has served as Executive Vice President/Chief Operating Officer, Information Systems Officer, and Director of the State Bank of Bement in Bement, Illinois since 2012 in addition to being Community Bank President of the State Bank of Bement – Monticello facility. She has worked at the State Bank of Bement since 1996 in roles with increasing responsibilities, including as Vice President & Information Systems Officer from 2008 to 2012. Ms. Gross currently serves as a director of Bement Bancshares, Inc. in Bement, Illinois. She is a former director at the State Bank of Cerro Gordo in Cerro Gordo, Illinois and The First National Bank of Ivesdale in Ivesdale, Illinois. Ms. Gross is active in a variety of community service organizations and with the Illinois Bankers Association. Through the Illinois Bankers Association, Ms. Gross has served on a number of committees and is a past chairperson. Ms. Gross is also active in the Community Bankers Association of Illinois. She serves on the Board of Directors of Kirby Medical Center and is a member of its Executive Committee as well as serving as Treasurer. She also serves as Chairman of the Bement Foundation. Ms. Gross is a graduate of the Graduate School of Banking in Madison, Wisconsin, and earned a Bachelor of Science from Western Illinois University.

Ms. Gross serves as the Bank's Vice Chairperson of the Board and Vice Chairperson of the Executive & Governance Committee. Ms. Gross also serves on the following Board committees of the Bank: Audit and Human Resources and Compensation (Chairperson).

James H. Hegenbarth is a bank executive who has been in the industry since 1985 and is currently serving as Market President of Greenwoods State Bank in Lake Mills, Wisconsin. He served as President/CEO and Board member of Park Bank, Madison, WI, from August 1991 to January 2024. Under his guidance, the bank grew from \$80 million to \$1.5 billion in assets. Prior to Park Bank, Mr. Hegenbarth was employed by First Bank N.A. (now US Bank). Mr. Hegenbarth was recognized as the Wisconsin Bankers Association (WBA) Banker of the Year for 2020. He has served on the WBA Board of Directors and Government Relations Committee, the American Bankers Association FHLB Committee, American Family Children's Hospital at University of Wisconsin Board, and held numerous other leadership positions on non-profit and civic organizations in the Dane County, Wisconsin area. Mr. Hegenbarth is a graduate of the Graduate School of Banking at the University of Wisconsin-Madison, and earned his undergraduate degree in Economics from the University of Wisconsin -Madison.

Mr. Hegenbarth serves on the following Board committees of the Bank: Executive & Governance, Human Resources & Compensation (Vice Chairperson), and Risk Management.

Betsy A. Johnson has served as the President and CEO of Solutions Bank in Forreston, Illinois (formerly known as Forreston State Bank) since 2020, and has been with the bank since 1996, serving in various capacities including Chief Operating Officer and Executive Vice President. Ms. Johnson has also served as a member of the Board of Directors of Solutions Bank and its holding company since 2010. Ms. Johnson is the current chairperson of the Illinois Bankers Association (IBA), and has served in numerous capacities with the organization, including a member of the Board of Directors in 2017 and a member of the Executive Committee in 2019. Ms. Johnson also served on the Federal Deposit Insurance Corporation Community Banker Advisory Committee 2020-2022. Ms. Johnson is a 2003 graduate of the Graduate School of Banking at the University of Wisconsin-Madison, and has served on the school's Banker Advisory Board since 2017 and the 2022-2023 Chairperson.

Ms. Johnson serves on the following Board committees of the Bank: Human Resources & Compensation and Operations & Technology (Vice Chairperson).

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Phyllis Lockett has served since 2014 as the founding CEO of LEAP Innovations, a national non-profit organization that works with educators and technology companies from across the nation to research, pilot and scale new instructional designs and technology solutions that advance student learning. Prior to her role at LEAP, Ms. Lockett served as President and CEO of New Schools for Chicago, a venture philanthropy organization that invests in the start-up of new public schools, since 2005. Ms. Lockett served from 1999 to 2005 as Executive Director of the Civic Consulting Alliance, a pro-bono consulting firm sponsored by the Civic Committee of the Commercial Club of Chicago that leads strategic planning initiatives, process improvement and program development projects for government agencies. She has played an instrumental role in some of the largest initiatives for the City of Chicago, Chicago Public Schools, and Chicago Housing Authority, including the reorganization of the management structure, resident relocation, capital construction, asset management, and economic development strategies to support the Chicago Housing Authority's \$1.5 billion Plan for Transformation. Currently, Ms. Lockett serves as a director of the CME Group. Ms. Lockett earned a Master of Management from the Kellogg Graduate School of Management at Northwestern University and a Bachelor of Science in Industrial Engineering from Purdue University. The Board nominated Ms. Lockett to serve as an independent director based on her knowledge of and experience in organizational management, financial management and project development, as indicated by her background.

Ms. Lockett serves on the following Board committees of the Bank: Executive & Governance (Alternate), Human Resources & Compensation, and Operations & Technology (Chairperson).

David J. Loundy has served as Chairman and CEO of Devon Bank headquartered in Chicago, Illinois since 2012. Mr. Loundy also serves as Chairman of Devon Bank's holding company (Devon Bancorp, Inc.), Founder and Managing Member of Devon Bank's investment pool affiliates (Abraham's River, LLC; and The Acheron Cash Fund, LLC; and their manager, 650 Asset Management LLC) and Chairman of Devon Bank's "sponsored" public charity, The Loundy Charitable Foundation. Prior to joining Devon Bank in 2003, Mr. Loundy practiced intellectual property and computer law and served as an adjunct professor (LLM and MBA programs) and law school administrator. He has over 100 publications in his name ranging from columns in trade publications to a law school casebook (Computer Crime, Information Warfare & Economic Espionage). Mr. Loundy is a board member of the Community Bankers Association of Illinois (CBAI), and is a board member of the CBAI's subsidiary Community BancService Corporation, and he serves on CBAI's Innovation Committee. He has been a board member or endowment board member for a number of community and religious organizations. He is also a frequent writer and speaker internationally on religion-based financing and mortgage financing issues. Mr. Loundy earned a Bachelor of Arts in Telecommunications from Purdue University and a Juris Doctorate from the University of Iowa, both with distinction.

Mr. Loundy serves on the following Board committees of the Bank: Audit (Vice Chairperson), Executive & Governance, and Operations & Technology.

Kevin L. Newell is the founder of the Royal Capital Group and has served as the company's CEO since 2010. Royal Capital Group is a real estate development firm focused on the creation of economic development and housing in the urban core. As the CEO of Royal Capital Group, Mr. Newell has led the company's efforts on business development, strategy, and investments. Mr. Newell also serves on the Great Milwaukee Foundation Impact Investment Committee, as a Board member of the Guest House of Milwaukee, and as a Board member of the MLK Economic Development Corporation. Mr. Newell continues to be an active Board member of the Wisconsin Preservation Fund since 2017. He has a BBA and is an MBA graduate of the University of Wisconsin-Whitewater, with an emphasis in Finance and Management, and an ACRE Alum at Marquette University. Mr. Newell served on the Federal Home Loan Bank of Chicago Community Investment Advisory Council from 2019 to 2022. The Board nominated Mr. Newell to serve as a public interest independent director based on his experience representing community interests in housing, as indicated by his background.

Mr. Newell serves on the following Board committees of the Bank: Affordable Housing and Operations & Technology.

Michael "Mick" G. O'Rourke has served as President and CEO of Signature Bank in Chicago, Illinois since 2006. Mr. O'Rourke has more than 30 years of experience in the banking industry, including serving as Executive Vice President of Associated Bank and previous positions at LaSalle Bank N.A. and American National Bank. Mr. O'Rourke is also the current Treasurer of the Western Golf Association/Evans Scholar Foundation, and serves as a director for several organizations, including St. Angela School, Granada Insurance, American Ireland Fund, and Chicagoland Chamber of Commerce. He also has served as Chairman of the Board of St. Patrick High School and a director of the Illinois Banker Association and Navy Pier. He was previously a Director of Schawk, Inc. (SGK) and Lancer Insurance. Mr. O'Rourke has a bachelor's degree from Marquette University and a master's degree from Loyola University in Chicago.

Mr. O'Rourke serves on the following Board committees of the Bank: Operations & Technology and Risk Management.

Lois A. Scott has served as President of Epoch Advisors since 2015. From 2011 to 2015, Ms. Scott served as the Chief Financial Officer for the City of Chicago, the first woman to ever serve in that capacity. In 2011, Ms. Scott co-founded and chaired the Municipal CFO Forum with the Harris School of the University of Chicago. She now chairs the Advisory Board of the Program for Excellence and Equity in Public Finance at Milken Institute. From 2002 to 2011, Ms. Scott was Chief Executive Officer of a financial advisory firm that served large corporate and governmental clients. Prior to that, she served as President and Vice

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Chair of a technology company that provided a family of services to schools. Ms. Scott started her career at First Chicago (now JPMorgan), where she was responsible for governmental, healthcare and higher education clients in an eight-state region. She also worked for Bank of America, Donaldson Lufkin & Jenrette and chaired the Management Committee of the Export-Import Bank of the U.S., after serving as a White House Fellow. From 2015 to August 2017, Ms. Scott served as a director on the board of MBIA, Inc. She served as Vice Chair and Audit Committee Chair of the Chicago Stock Exchange, where she was a director from 2016 to 2018 prior to its sale to the New York Stock Exchange. She currently serves on the board of the Kroll Bond Rating Agency, Enwave Energy, and GreenGas USA. Ms. Scott has served on the board of numerous nonprofit organizations focused on educational opportunity, economic empowerment, leadership development, and sustainable finance practices. The Board nominated Ms. Scott to serve as an independent director based on her knowledge of and experience in accounting and financial management practices, as indicated by her background.

Ms. Scott serves on the following Board committees of the Bank: Audit (Chairperson), Executive & Governance, and Risk Management.

Ty R. Taylor has been President and CEO of Waukesha State Bank since 2004, and has been with the bank since 1991. Prior to becoming President and CEO of Waukesha State Bank, he oversaw the bank's commercial and mortgage lending services, among other responsibilities. From 1990 to 1991, Mr. Taylor was employed at M&I Marshall & Ilsley Bank. Mr. Taylor has volunteered extensively with various local non-profit organizations. Mr. Taylor has a B.A. in Economics from Wheaton College, Wheaton, IL, and is a graduate of the Graduate School of Banking at the University of Wisconsin-Madison.

Mr. Taylor serves on the following Board committees of the Bank: Audit and Risk Management.

Kenneth "Ken" D. Thompson has been the President/CEO of Capitol Bank since 2003 and Chairman since 2018. Mr. Thompson has been in the Madison, Wisconsin banking industry for over 35 years, including 10 years at M&I Bank, before helping to start and grow Capitol Bank. Mr. Thompson served as a Director and past Chair of the Wisconsin Bankers' Association (2016-2022) and director of the Realtors Association of South-Central Wisconsin (2003-04). He has also served on the boards of a variety of local non-profits including Agrace HospiceCare, Inc. (since 2010, presently Chairperson), American Family Children's Hospital, Catholic Charities and the Breakfast Optimist Club of Madison. He currently serves on the boards for Hy Cite Enterprises and Extreme Engineering Solutions, Inc. Mr. Thompson holds a Bachelor of Business Administration degree from UW-Stevens Point (1983) and earned his EMBA from UW-Madison (1997). He also completed the Graduate School of Banking in Madison (2004) and is a graduate of Leadership Greater Madison (1996).

Mr. Thompson serves on the following Board committees of the Bank: Affordable Housing and Audit.

Daniel G. Watts is a Director and the President of Forest Park National Bank and Trust Company, which he joined in January 2010. Mr. Watts has been an executive banking professional for over 25 years. He began his career at The American National Bank and Trust Company of Chicago, after which he became an Executive Officer and Director at Cosmopolitan Bank and Trust, Pullman Bank and Trust and Park National Bank (all subsidiaries of the former FBOP Corporation). Mr. Watts currently serves as a board member of Community Investment Corporation (CIC) and Chicago Neighborhood Initiatives (CNI). Previously, he served as a director of Neighborhood Housing Services (NHS). Mr. Watts is the past Board Chairman of the Illinois Bankers Association and past President of The Bankers Club of Chicago. Mr. Watts earned an undergraduate degree in Economics from Northwestern University, a law degree from Loyola University of Chicago School of Law, and an MBA from the University Of Chicago Booth School Of Business.

Mr. Watts serves on the following Board committees of the Bank: Affordable Housing (Chairperson), Audit, and Executive & Governance (Alternate).

Maria E. Wynne currently serves as a board member and membership committee chair of the National Association of Corporate Directors' Chicago chapter. Most recently, from 2014 to 2023, Ms. Wynne led a transformation as CEO of Leadership Greater Chicago, a civic leadership development organization. From 2008 to 2013, Ms. Wynne served as CEO for Girl Scouts of Greater Chicago and Northwest Indiana, where she helmed a merger consolidating seven independently operated entities into the largest council in the nation. She has also served as a former technology and marketing executive at Microsoft (2003-2008) and Xerox (1998-2003), leading national sales and marketing organizations and significant P&Ls. She has served as president of Goodman Theatre's board of trustees (2020-2023) and as board treasurer for P33 (2020- present), an organization focused on steering Chicago to prominence as a tier-one technology city. She is also a multi-year member of The Economic Club of Chicago, The Chicago Network, The Chicago Club, and The Commercial Club of Chicago. Ms. Wynne is the recipient of the Latino Leaders Magazine's 2022 Maestro of Entrepreneurship Award and has been honored by Crain's Chicago Business multiple times, including as one of their 2019 Notable Women Executives of Color and in 2019's Who's Who in Chicago Business. She was also selected by Chicago United to join their 2023 Business Leaders of Color cohort and co-chaired Mayor Lightfoot's transition committee. She earned her MBA from Northern Illinois University and her bachelor's degree from North Central College and has continued her executive education at Harvard Business School, Northwestern's Kellogg School of Management, and the Center for Creative Leadership. The Board nominated Ms. Wynne to serve as an independent director based on her knowledge of and experience in financial management, organizational management and project development, as indicated by her background.

Audit Committee

Our Audit Committee is comprised of non-executive directors. The Audit Committee Charter is available in full on our website at <https://www.fhlbc.com/docs/default-source/about-us-pdfs/ac-charter.pdf>.

Audit Committee Report

March 7, 2024

The Audit Committee is composed of seven non-executive directors, two of whom are non-member directors, and operates under a written charter adopted by the Board of Directors that was last amended on March 9, 2023. Our Board of Directors determined that all Audit Committee members (Directors Scott, Loundy, Fazio, Cahillane, Gross, Taylor, Thompson, and Watts) are "Audit Committee financial experts" for purposes of SEC requirements. Our Board of Directors elected to use the New York Stock Exchange definition of "independence" and, in doing so, concluded that each of the Directors on the Audit Committee, during 2023 and currently, is not independent as they are officers or directors of member institutions which do business with the Bank, with the exception of Directors Scott and Cahillane, who do not serve as officers or directors of a Bank member. Under Federal Housing Finance Agency (FHFA) regulations applicable to members of the Audit Committee, each of the Audit Committee members is independent. For further discussion about the Board's analysis of director independence under the New York Stock Exchange rules, see **Director Independence** on page 119.

In accordance with its written charter adopted by the Board of Directors, the Audit Committee, assists the Board of Directors in fulfilling its responsibility for oversight of the Bank's accounting, reporting and financial practices, including the integrity of its financial statements, among other areas. The Audit Committee is directly responsible for the appointment and oversight of our independent auditors, PricewaterhouseCoopers LLP (PwC), including review of their qualifications, independence and performance. Among other duties, the Audit Committee also oversees:

- the integrity of the Bank's financial statements, the Bank's accounting and financial reporting processes and systems;
- internal control over the Bank's financial reporting and safeguarding the Bank's assets;
- internal controls and reporting processes of the Bank's Environmental, Social and Governance (ESG) activities and other regulatory reporting;
- the programs, policies and systems of the Bank designed to ensure compliance with applicable laws, regulations, other legal and regulatory requirements and policies;
- the programs, policies and systems of the Bank designed to ensure the integrity and reliability of Bank operations and technology; including cybersecurity;
- practices with respect to risk assessment and risk management;
- independent auditor's qualifications and independence;
- performance of the internal audit function; and
- performance of the independent auditor.

The Bank is one of 11 district Federal Home Loan Banks (FHLBs) that together with the Office of Finance (OF), comprise the Federal Home Loan Bank System (System). Each FHLB operates as a separate entity with its own management, employees, and board of directors and each is regulated by the FHFA. The OF has responsibility for the issuance of consolidated obligations on behalf of the FHLBs, and for publishing combined financial reports (CFRs) of the FHLBs. Accordingly, the System has determined that it is optimal to have the same independent audit firm to coordinate and perform the separate audits of the OF and each FHLB. The FHLBs and OF collaborate in selecting, setting the compensation of, and evaluating the performance of the independent auditor, but the responsibility for the appointment and oversight of the independent auditor remains solely with the audit committees of each FHLB and the OF.

PwC has been the independent auditor for the System and the Bank since 1990. The Audit Committee engages in rigorous evaluations each year on the independent auditor. In connection with the appointment of the Bank's independent auditor, the Audit Committee's evaluation included consultation with the Audit Committees of the other FHLBs and the OF. Specific considerations included:

- an analysis of the risks and benefits of retaining the same firm as independent auditor versus engaging a different firm, including consideration of:
 - PwC engagement audit partner, engagement quality review partner and audit team rotation;
 - PwC's tenure as the Bank's and the Systems' independent auditor;
 - benefits associated with engaging a different firm as independent auditor; and
 - potential disruption and risks associated with changing the independent auditor.
- PwC's depth and breadth of understanding of our business, operations, and accounting policies and practices;

(Dollars in tables in millions except per share amounts unless otherwise indicated)

- PwC's historical and recent performance on the Bank's audit, including the results of an internal survey of PwC service and quality;
- an analysis of PwC's known legal risks and significant proceedings;
- external data relating to audit quality and performance, including recent Public Company Accounting Oversight Board (PCAOB) audit quality inspection reports on PwC and its peer firms as well as metrics indicative of audit quality;
- the appropriateness of PwC's fees, on both an absolute basis and as compared to its peer firms; and
- the diversity of PwC's leadership and staff assigned to the engagement.

Audit Fees represent fees for professional services provided in connection with the audit of the Bank's annual financial statements and internal control over financial reporting and reviews of the Bank's quarterly financial statements, regulatory filings, consents and other SEC matters.

The Audit Committee has reviewed and approved the fees paid to the independent auditor for audit, audit-related and non-audit services, and the Audit Committee has determined that PwC does not provide any non-audit services that would impair its independence. To the Audit Committee's knowledge, there are no other matters which cause the Audit Committee to believe PwC is not independent.

In accordance with SEC rules, audit partners are subject to rotation requirements to limit the number of consecutive years an individual partner may provide service to the Bank. For lead and concurring partners, the maximum number of consecutive years of service in that capacity is five years. The process for selection of the Bank's lead audit partner pursuant to this rotation policy involves a meeting between the Chairperson of the Audit Committee and the candidate for the role, as well as discussion by the full Audit Committee and management. Our current lead partner started working on our engagement in 2023.

Based on its reviews discussed above, the Audit Committee recommended to the Board of Directors the appointment of PwC as the Bank's independent registered public accounting firm for 2024.

The Audit Committee annually reviews its written charter and practices, and has determined that its charter and practices are consistent with the applicable FHFA regulations and the provisions of the Sarbanes-Oxley Act of 2002.

Among other matters, the Audit Committee also:

- reviews the scope of and overall plans for the external and internal audit program;
- discusses with management and independent auditor the Bank's processes for risk assessment and risk management;
- discusses with management and the independent auditor significant matters, including Critical Audit Matters, if any, arising during the audit and other areas of significant judgment or estimation in preparing the financial statements;
- reviews and challenges management and the independent auditor, as necessary, on new or changed accounting policy and policy alternatives;
- reviews and challenges management and the independent auditor, as necessary, on how they have established materiality thresholds for establishing the controls over financial reporting and their audit process;
- discusses with management the use of any non-GAAP measures in the financial statements;
- reviews and approves the Bank's policy with regard to the hiring of former employees of the independent auditor;
- reviews and approves the Bank's policy for the pre-approval of audit and permitted non-audit services by the independent auditor;
- receives reports pursuant to the Bank's policy for the submission and confidential treatment of communications from employees and others about accounting, internal controls and auditing matters;
- reviews with management the scope and effectiveness of the Bank's disclosure controls and procedures, including for purposes of evaluating the accuracy and fair presentation of the Bank's financial statements in connection with certifications made by the Bank's President and Chief Financial Officer; and
- reviews significant legal developments and the Bank's processes for monitoring compliance with law and Bank policies.

The Audit Committee has established procedures for the receipt, retention and treatment, on a confidential basis, of any complaints we receive. The Bank encourages employees and third party individuals and organizations to report concerns about the Bank's accounting controls, auditing matters or anything else that appears to involve financial or other wrongdoing.

Management has the primary responsibility for the preparation and integrity of the Bank's financial statements, accounting and financial reporting principles, and internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. The Bank's independent auditor, PwC, is responsible for performing an independent audit of the Bank's financial statements and of the effectiveness of internal control over financial reporting in accordance with the standards of the PCAOB and, with respect to the financial statements, the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. The internal auditors are responsible for preparing an annual audit plan and conducting internal audits under the control of the General Auditor, who reports to the Audit Committee.

FHLBank
Chicago Federal Home Loan Bank of Chicago

(Dollars in tables in millions except per share amounts unless otherwise indicated)

The Audit Committee's responsibility is to monitor and oversee these processes. The Audit Committee met 12 times during 2023, and has regular executive sessions with key executives as well as internal and independent auditors.

In this context, prior to their issuance, the Audit Committee reviewed and discussed the quarterly and annual earnings releases, financial statements (including the presentation of non-GAAP financial information) and disclosures under "Management's Discussion and Analysis of Financial Condition and Results of Operations" (including significant accounting policies and judgments) with management, the Bank's internal auditors and PwC. The Audit Committee also reviewed the Bank's policies and practices with respect to financial risk assessment, as well as its processes and practices with respect to enterprise risk assessment and management. The Audit Committee discussed with PwC matters required to be discussed by the applicable requirements of the PCAOB and the Securities and Exchange Commission. The Audit Committee has also received the written disclosures and the letter from PwC required by the applicable requirements of the PCAOB regarding PwC's communications with the Audit Committee concerning independence, and has discussed with PwC its independence [Item 407(d)(3) of Reg. S-X]. The Audit Committee met with PwC and with the Bank's internal auditors, in each case, with and without other members of management present, to discuss the results of their respective examinations, the evaluations of the Bank's internal controls and the overall quality and integrity of the Bank's financial reporting. Management represented to the Audit Committee that the Bank's financial statements were prepared in accordance with accounting principles generally accepted in the United States of America.

Based on the reviews and discussions with management, the internal auditors, and PwC, as well as the review of the representations of management and PwC's report, the Audit Committee recommended to the Board of Directors, and the Board of Directors has approved, to include the audited financial statements in the Bank's Annual Report on Form 10-K for the year ended December 31, 2023, for filing with the Securities and Exchange Commission.

As of the date of filing for this Annual Report on Form 10-K, the members of the Audit Committee are:

Lois A. Scott, Chairperson
David J. Loundy, Vice Chairperson
Mary J. Cahillane
Michelle Gross
Ty R. Taylor
Kenneth Thompson
Daniel G. Watts
Joseph Fazio III (ex officio)

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Executive Officers of the Registrant

The following table provides certain information regarding our executive officers as of February 29, 2024:

Executive Officer	Age	Capacity in Which Served	Employee of the Bank Since
Michael A. Ericson	52	President and Chief Executive Officer	2005
Christian Claffy	46	Executive Vice President, Group Head, Member Support and Strategy	2010
Kim Cullotta	54	Executive Vice President, Group Head, People, Culture, and Communications	2011
Virxhini Gjonzeneli	42	Executive Vice President and Chief Financial Officer	2003
Thomas H.W. Harper ^a	58	Executive Vice President, General Auditor	2005
Carolyn Jaw	41	Executive Vice President, Group Head, Sales, Strategy, and Solutions	2004
Michelle Jonson	50	Executive Vice President and Chief Risk Officer	2000
Samuel J. Nicita	63	Executive Vice President and Chief Information Officer	2008
John Stocchetti	67	Executive Vice President, Group Head, Mortgage Partnership Finance Program	2006
Cedric D. Thurman	59	Executive Vice President, Group Head, Community Investments and Diversity, Equity and Inclusion	2018
Laura M. Turnquest	59	Executive Vice President, General Counsel and Corporate Secretary	2004

^a Although Mr. Harper is a non-voting member of the Bank's Executive Team, he is not considered an "executive officer" as defined in Rule 3b-7 of the Securities Exchange Act of 1934 because he is not in charge of a principal business unit, division or function, nor does he perform a similar policy making function.

Michael A. Ericson became President and Chief Executive Officer of the Bank on January 1, 2021. Prior to that, Mr. Ericson held the following positions at the Bank: Executive Vice President and Chief Operating Officer during 2020, Executive Vice President and Group Head, Members and Markets from 2014 to 2020, Executive Vice President and Chief Risk Officer from December 2008 to 2014, Senior Vice President and Chief Risk Officer from July 2008 to December 2008, and Senior Vice President of Accounting Policy and SEC Reporting from January 2005 to July 2008. Prior to joining the Bank, Mr. Ericson was Vice President, Accounting Policy at Bank One before the merger with JPMorgan Chase and became Global Treasury Controller at JPMorgan Chase subsequent to the merger from 2003 to 2004. Mr. Ericson was Senior Manager with PricewaterhouseCoopers LLP in the Financial Services Group from 1994 to 2003. Mr. Ericson currently serves on the Board of Directors of the Pentegra Defined Benefit Plan for Financial Institutions and the FHLBs' Office of Finance, and as Chairperson of the Resolution Funding Corporation Directorate.

Christian Claffy became Executive Vice President and Group Head, Member Support and Strategy on January 1, 2023. Prior to that, Mr. Claffy was Senior Vice President, Process Optimization from 2021 to 2022, leading the Bank's Process Optimization team, which includes aspects of project management, risk, compliance and security, in addition to driving operational excellence efforts throughout the Bank. From 2016 to 2020, Mr. Claffy was Senior Vice President, Member Product Support where he had oversight of Member, Collateral, and Investment Operations. Prior to joining the Bank in 2010, Mr. Claffy worked in multiple positions within the banking and mortgage industries. Mr. Claffy received his MBA from the University of Notre Dame and a dual undergraduate degree in Economics and Math from Illinois State University.

Kim Cullotta joined the Bank's Executive Team in November 2017, and became Senior Vice President and Group Head, Human Resources (now People, Culture, and Communications) in January 2018 and Executive Vice President in January 2021. Ms. Cullotta started with the Bank in 2011, and has served as Senior Vice President, Member Product Support and Senior Vice President, Information Technology. Ms. Cullotta has over 20 years of management experience in diverse financial services institutions, including: Director, Finance at Infinium Capital Management, LLC from 2010 to 2011, Financial Controller/Compliance Officer at Fox River Securities, LLC from 2007 to 2010 (which was acquired by Infinium), Financial Management & Reporting Director at Ritchie Capital Management, LLC from 2002 to 2007, and Vice President, Finance-Global Markets Group Planning & Reporting at Bank of America from 1996 to 2002.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Virxhini Gjonzeneli became Chief Financial Officer and Group Head, Financial Accounting and Markets on January 1, 2023. She became an Executive Vice President of the Bank in January 2021, and was Group Head of Member Support and Strategy from 2017 to 2022. Prior to that, Ms. Gjonzeneli was Senior Vice President, Director of Enterprise Risk Management starting in 2015. Ms. Gjonzeneli joined the Bank in 2003, and from 2007 to 2015 held positions of increasing levels of responsibilities within the Bank's Credit group, including Assistant Vice President, Senior Markets Credit Analyst and Vice President, Manager of Markets Credit Analysis. Ms. Gjonzeneli received her MBA from the University of Chicago Booth School of Business and her undergraduate degree from Northwestern University. She received her CFA charter designation in 2008.

Thomas H. W. Harper became General Auditor of the Bank in 2006 and Executive Vice President in January 2011. Prior to that, Mr. Harper was Senior Vice President, Audit Director from 2005 to 2006. Prior to joining the Bank, Mr. Harper was First Vice President, Senior Audit Manager with JPMorgan Chase and Co. as well as Bank One, NA, First National Bank of Chicago and Barclays de Zoete Wedd. Mr. Harper was responsible for the internal audit of Technology, Commercial and Investment Bank, Treasury Services and Corporate areas in the United States, United Kingdom and other Asia-Pacific. Mr. Harper was an auditor Banking and Financial Services with KPMG in London, U.K., from 1987 to 1992. Mr. Harper is a Fellow of the Institute of Chartered Accountants (England and Wales), a Certified Financial Services Auditor, and a Certified Internal Auditor.

Carolyn Jaw joined the Bank's Executive Team in January 2020, and became Senior Vice President and Group Head, Sales, Strategy, and Solutions. She became Executive Vice President in January 2021. From 2015 to 2019, Ms. Jaw was Senior Vice President and Managing Director, Institutional Sales, and most recently had responsibility over institutional sales, marketing, and events. Ms. Jaw has worked in various groups at the Bank since 2004, including the sales, capital markets, and mortgage groups. Previously, Ms. Jaw worked at Hillenbrand Capital Partners, a structured products investment fund, where she focused on pricing, funding, and hedging the residential and commercial mortgage loan and securities portfolios. Ms. Jaw serves on the board of The People's Music School, the largest completely free music school serving Chicago metropolitan area children and is a Northwestern University Affinity Leaders and Learners (ALL) Mentor. Ms. Jaw holds a Bachelor of Arts degree in Economics and International Studies from Northwestern University, a Master of Business Administration degree with concentrations in Finance, Economics, Accounting, and Entrepreneurship from the University of Chicago, Booth School of Business, and is a graduate of the Harvard Business School Executive Education General Management Program.

Michelle Jonson became Executive Vice President, Chief Risk Officer of the Bank in July 2014. Prior to that, she was Senior Vice President and Co-Head of the Members and Markets Group since May 2014. Previously, Ms. Jonson served as Managing Director of the sales, member support, and member marketing relations functions since 2011. In 2000, Ms. Jonson joined the Bank and has managed responsibilities around pricing, funding, and hedging of advances and MPF, and developing operational risk strategies for the Members and Markets Group. Prior to joining the Bank, Ms. Jonson worked as an Investment Analyst for Aon Advisors. She received her CFA charter designation in 2008.

Samuel J. Nicita became Executive Vice President and Chief Information Officer of the Bank in January 2016. Prior to that, he was Executive Vice President and Group Head, Community Investment and Member Products Support of the Bank from 2014 to 2015, Senior Vice President and Group Head, Community Investment of the Bank from 2012 to 2014, Community Investment Officer of the Bank from 2011 to 2012, Senior Vice President, Manager Premier Group/Middle Office of the Bank from 2010 to 2011 and Vice President, Manager Premier Group/Middle Office of the Bank from 2008 to 2010. Prior to joining the Bank, Mr. Nicita was Chief Operating Officer of Highview Capital Management from 2006 to 2008, Director of Operations of Ritchie Capital Management from 2001 to 2006 and held various positions with Chicago Research and Trade (which was acquired by Nations Bank, and later merged with Bank of America) from 1990 to 2001.

John Stocchetti has been with the Bank since 2006 and is currently Executive Vice President and Group Head, Mortgage Partnership Finance Program, a responsibility he assumed in January 2014. From May 2008 to January 2014, Mr. Stocchetti was Executive Vice President and Group Head, Products and Operations (formerly Products, Operations, and Technology), where he led a number of initiatives to upgrade, re-organize, and re-engineer the Bank's operations and technology. Mr. Stocchetti served as Senior Vice President, Project Premier Director of the Bank from 2006 to 2008, where he led the effort to implement an enterprise-wide systems platform that is now the Bank's main operating platform. Prior to joining the Bank, Mr. Stocchetti served in several positions from 2004 to 2006, including Chief Financial Officer, at Ritchie Capital Management, LLC, a multi-strategy hedge fund. Previously, Mr. Stocchetti served in various capacities from 1997 to 2004, including CEO, with Learning Insights, Inc., an e-learning internet company. From 1995 to 1997, Mr. Stocchetti was a Senior Vice President with NationsBank where he was the head of interest rate derivatives operations on a global basis and the Chief Operating Officer of NationsBank Financial Products, a AAA-rated derivatives company. From 1978 to 1995, Mr. Stocchetti was with Continental Bank in Chicago, IL where he held various positions, the latest of which was as a Managing Director of Derivative Products. Mr. Stocchetti holds a Masters of Business Administration from the University of Chicago and earned a Bachelor of Science in economics from the University of Illinois at Chicago. Mr. Stocchetti served as an adjunct professor at the Illinois Institute of Technology where he taught classes for six years in the graduate level Financial Markets and Trading program.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Cedric D. Thurman joined the Bank in the newly created position of Senior Vice President & Chief Diversity Officer in September 2018. Since January 2020, Mr. Thurman serves as Senior Vice President and Group Head, Community Investments and Diversity, Equity and Inclusion. He became Executive Vice President in January 2021. In his role as Chief Diversity Officer, Mr. Thurman is responsible for shaping the Bank's culture to provide opportunities for all employees and help the Bank be a catalyst for change for its member institutions and the communities they serve. In his role leading Community Investments, Mr. Thurman is responsible for oversight of the Bank's products, programs and awards to support its member institutions' affordable housing and community lending initiatives. From 2014 to 2017, Mr. Thurman served as U.S. Head of Inclusion at BMO Harris Bank. In this role, Mr. Thurman was responsible for the diversity and inclusion strategy for the U.S. while overseeing BMO's Enterprise Resource Groups in the U.S. and Canada, as well as compliance related activities. Mr. Thurman began his career at BMO Harris, spending nearly 10 years in a variety of roles from International Trade Finance, Community Development Lending, and Branch Management and Development from 1987 to 1996. Prior to re-joining BMO Harris, Mr. Thurman spent 14 years at JLL in office and retail brokerage capacities, as well as leading HR strategy for the Americas region. He also served as JLL's first Chief Diversity Officer. Mr. Thurman is very active in Chicago's civic community. He currently serves on the Governing Board of UCAN; Central Division Board member for Junior Achievement of Chicago; University of Illinois Gies College of Business Dean's Business Council; Board of Directors, University of Illinois Alumni Association; member of the President's Council for the Museum of Science and Industry; and Commissioner, Illinois Attorney Registration and Disciplinary Commission of the Supreme Court of Illinois. Mr. Thurman holds an MBA in Management Strategy and Marketing from the Kellogg School of Management of Northwestern University and a BS in Finance from the University of Illinois, Urbana-Champaign.

Laura M. Turnquest became Executive Vice President, General Counsel and Corporate Secretary of the Bank in August 2016. Prior to that Ms. Turnquest was: Senior Vice President, Deputy General Counsel from 2007 to August 2016; Vice President, Deputy General Counsel from 2006 to 2007; and Assistant Vice President, Assistant General Counsel from 2004 to 2006. Prior to joining the Bank, Ms. Turnquest was an associate in the Banking and Finance practice at Mayer Brown LLP from 1997 to 2004.

There are no family relationships among the above executive officers or our directors.

We have adopted a code of ethics for all of our employees and directors, including our President and CEO, principal financial officer, and those individuals who perform similar functions. A copy of the code of ethics is published on our internet website and may be accessed at: <https://www.fhlbc.com/docs/default-source/about-us-pdfs/code-of-ethics.pdf>.

We intend to disclose on our website any amendments to, or waivers of, the Code of Ethics covering our President, CEO, principal financial officer, and those individuals who perform similar functions. The information contained in or connected to our website is not incorporated by reference into this annual report on Form 10-K and should not be considered part of this or any report filed with the SEC.

(All dollar amounts within this Item 11. Executive Compensation are in whole dollars unless otherwise specified)

Item 11. Executive Compensation.

This section provides information regarding our compensation program for our 2023 named executive officers (NEOs): Michael A. Ericson, President and CEO; Virxhini Gjonzeneli, Executive Vice President & Chief Financial Officer; Michelle Jonson, Executive Vice President & Chief Risk Officer; John Stocchetti, Executive Vice President & Group Head, Mortgage Partnership Finance Program; and Laura M. Turnquest, Executive Vice President, General Counsel & Corporate Secretary.

Compensation Discussion & Analysis

Compensation Program Objectives and Philosophy

Our Human Resources & Compensation Committee (the HR&C Committee) is responsible for, among other things, reviewing and making recommendations to the full Board of Directors regarding compensation and incentive plan awards for the Bank's President and CEO and to assist the Board in matters pertaining to the employment and compensation of other executive officers, our employment and benefits programs in general, and overseeing a risk assessment of our compensation policies and practices for all employees. The HR&C Committee may rely on the assistance, advice, and recommendations of the Bank's management and other advisors and may refer specific matters to other committees of the Board.

The goal of our compensation program is to set compensation at a level which allows us to attract, motivate, and retain talented executives who can enhance our business performance and help us fulfill our mission. Our compensation program is designed to:

- Reward individual performance and attainment of Bank-wide goals and business strategies on both a short-term and long-term basis;
- Fulfill our mission of providing funding to members and support for their community investment-related activities;
- Appropriately and effectively manage risks, including financial, operational, market, credit, legal, regulatory, and other risks; and
- Grow and continuously strengthen our executive leadership.

Our current compensation program is comprised of base salary, short-term incentive compensation, long-term incentive compensation, retirement, severance, and other benefits which reflect total compensation that is consistent with individual performance, business results, job responsibility levels and the competitive market. Because we are a cooperative and our capital stock generally may be held only by members, we are unable to provide compensation to executives in the form of stock or other equity-based compensation, which is typical in the financial services industry.

Regulatory Oversight of Executive Compensation

The FHFA provides certain oversight of FHLB executive officer compensation. Under the Federal Housing Enterprises Financial Safety and Soundness Act of 1992, as amended, the FHFA Director must prohibit an FHLB from paying compensation to its executive officers that is not reasonable and comparable to that paid for employment in similar businesses involving similar duties and responsibilities. In connection with this responsibility, the FHFA has directed the FHLBs to submit all compensation actions involving named executive officers to the FHFA for prior review.

The FHFA has issued a rule setting forth requirements and processes with respect to compensation provided to executive officers by FHLBs (12 CFR Part 1230). Among other things, the rule addresses the authority of the FHFA Director to: review the compensation arrangements of named executive officers of the FHLBs and to prohibit an FHLB from providing compensation to any named executive officer that the Director determines is not reasonable and comparable with compensation for employment in other similar businesses involving similar duties and responsibilities.

The FHFA has also issued an advisory bulletin establishing certain principles for executive compensation at the FHLBs and the Office of Finance. These principles include that: (1) such compensation must be reasonable and comparable to that offered to executives in similar positions at comparable financial institutions; (2) such compensation should be consistent with sound risk management and preservation of the par value of FHLB stock; (3) a significant percentage of an executive's incentive-based compensation should be tied to longer-term performance and outcome-indicators and be deferred and made contingent upon performance over several years; and (4) the FHLB's Board of Directors should promote accountability and transparency in the process of setting compensation. In 2020 and 2023, the FHFA provided the FHLBs further guidance to supplement these principles and to clarify its expectations regarding certain statutory and regulatory provisions relevant to executive compensation. Under the Housing and Economic Recovery Act of 2008, the FHFA Director has the right to prohibit or limit golden parachute payments under certain conditions as described in **Severance Arrangements** on page 105.

(All dollar amounts within this Item 11. Executive Compensation are in whole dollars unless otherwise specified)

The HR&C Committee has established a risk review framework in connection with its review and approval of incentive compensation plan requirements and goals, risks, and payouts. Under the framework, our Chief Risk Officer delivered a risk analysis report to our Operations and Technology Committee and the Risk Management Committee of the Board of Directors evaluating certain risk principles against the requirements and goals, risks, and payouts associated with our short-term, deferred and long-term incentive compensation plans, and evaluating whether our compensation policies and practices create risks that are reasonably likely to have a material adverse effect on the Bank. The HR&C Committee reviewed the report, along with base salary information and consultant studies (as further described below), and determined that the compensation payable to our executive officers for 2023 and 2024 was and is reasonable and comparable to that paid within the FHLB System and complies with the FHFA guidance.

Use of Compensation Consultants and Surveys

It is the intent of the HR&C Committee to set overall compensation packages at competitive market levels. In order to evaluate and maintain our desired market compensation position, the HR&C Committee reviews comparable market compensation information. We participated in the 2022 Federal Home Loan Bank System Key Position Compensation Survey. This survey, conducted by Kathy Reimer Compensation Consulting, outlines executive and non-executive compensation information for various positions across all 11 FHLBs.

We also engaged McLagan, part of Aon plc, a compensation consultant, to conduct the 2022 Executive Compensation Benchmarking survey, a broad-based compensation survey that includes market statistics on salary, annual incentives, total cash, long-term/deferred awards, current salary rate and total compensation. The survey compared executive officer compensation against three peer groups: (1) other FHLBs, (2) commercial banks (excluding certain large investment banks), and (3) named executive officers from publicly traded financial institutions with \$10 billion to \$20 billion in assets. McLagan reviewed the data collection and results with our Human Resources senior management so that we may understand the appropriateness of the survey comparisons adjusting for scale and scope of the survey position versus the other survey participants. Our Human Resources senior management reviewed the surveys with our HR&C Committee.

The information obtained from the 2022 Federal Home Loan Bank System Key Position Survey and the 2022 McLagan Executive Compensation Benchmarking survey (together, Compensation Surveys) was considered by the Board of Directors, the HR&C Committee, and our President and CEO, as appropriate, when making compensation decisions for 2023.

Elements of Our Compensation Program

On an annual basis, the HR&C Committee reviews the components of our NEO compensation: salary, short- and long-term/deferred incentive compensation, matching bank contributions, severance benefits, and projected payments under our retirement plans.

Base salary is included in our NEO compensation package because the HR&C Committee believes it is appropriate that a portion of the compensation be in a form that is fixed and liquid. We use the base salary element to provide the foundation of a fair and competitive compensation opportunity for each of our executive officers. During 2023 none of our executives received perquisites in excess of \$10,000 in annual value, except our President and CEO (as further described in the Summary Compensation Table).

Performance based compensation is split between our short-term and long-term/deferred cash incentive award opportunities, providing incentive for our NEOs to pursue particular business objectives consistent with the overall business strategies and risk management criteria set by our Board of Directors. The plans for our NEOs, although designed to reward both overall Bank performance and individual performance, are heavily weighted toward overall Bank performance.

In determining executive compensation, we have not had to consider federal income tax effects on the Bank because, by statute, we are exempt from federal income taxation.

(All dollar amounts within this Item 11. Executive Compensation are in whole dollars unless otherwise specified)

Employment Agreements

All of our NEOs (other than the President and CEO) are at-will employees of the Bank.

The Bank entered into an employment agreement with Mr. Ericson effective January 1, 2021 (the Employment Agreement). The Employment Agreement provides for a four-year employment term ending December 31, 2024, unless terminated earlier as provided for in the agreement. The Employment Agreement provides for automatic one-year extensions until such date as the Board of Directors or Mr. Ericson elects not to renew the agreement.

The HR&C Committee reviews Mr. Ericson's performance annually and following its review for the 2022 calendar year, the HR&C Committee recommended that the Board increase Mr. Ericson's base salary from \$900,000 to \$975,000, effective January 1, 2023, after considering his performance and accomplishments during 2022 and the overall competitive market data from the Compensation Surveys, which brings Mr. Ericson's base salary to just below the 50th percentile of the base salaries paid to other FHLB presidents.

The Employment Agreement allows Mr. Ericson to participate in the Bank's President and Executive Team Incentive Compensation Plan (as amended to date, the Incentive Plan). In addition, Mr. Ericson is entitled to participate in our health insurance, life insurance, retirement, and other benefit plans that are generally applicable to our other senior executives. Under the Employment Agreement, Mr. Ericson is responsible for the payment of all federal, state and local income and other taxes that may be due with respect to any payments made to him pursuant to the Employment Agreement, although if any provision of the Employment Agreement would cause Mr. Ericson to incur any additional tax or interest under Section 409A of the Code, then the Bank may reform such provision provided that it maintains (to the maximum extent practicable), the original intent of the applicable provision.

For a description of Mr. Ericson's post-termination compensation payable under the Employment Agreement, see **Severance Arrangements** on page 105.

Base Salary

Base salary is a key component of our compensation program. In making base salary determinations, the HR&C Committee and, with respect to making compensation recommendations for the other executive officers, the President and CEO, review competitive market data from the Compensation Surveys and consider factors such as prior related work experience, individual job performance, and the position's scope of duties and responsibilities within our organizational structure and hierarchy.

The Board of Directors determines base salary for the President and CEO after it has received a recommendation from the HR&C Committee; it set Mr. Ericson's base salary at \$975,000 as described above.

On an annual basis, the President and CEO reviews the performance of the other NEOs and makes salary recommendations to the HR&C Committee. In setting base salaries for 2023, Mr. Ericson and the HR&C Committee generally considered competitive market data from the Compensation Surveys and individual performance, including the attainment of personal goals. The HR&C Committee and Mr. Ericson determined that the compensation guideline for base salaries for NEOs (other than the President and CEO) should generally target the 75th percentile of the base salaries paid to senior executives serving in similar positions at the other FHLBs. Due to the complex nature and operations and geographic market of the Bank relative to the other FHLBs and the importance of retaining key members of the executive management team, and the tenure of our NEOs, salaries for certain NEOs may be targeted above the 75th percentile.

Ms. Gjonzeneli received a 27.47% increase in base salary effective with her promotion to Chief Financial Officer in January 2023, which increases her base salary from \$341,250 to \$435,000, and brings her base salary slightly below the 25th percentile of base salaries paid to senior executives serving in similar positions at the other FHLBs and reflects her individual performance, tenure and experience. Ms. Jonson received a 4.98% increase in base salary for 2023 from \$459,900 to \$482,800, which maintains her base salary above the 75th percentile of base salaries paid to senior executives serving in similar positions at the other FHLBs and reflects her individual performance, tenure, and experience. Mr. Stocchetti received a 4.55% increase in base salary for 2023 from \$660,941 to \$691,000, which maintains his base salary above the 75th percentile of base salaries paid to senior executives serving in similar positions at the other FHLBs and reflects the increased complexities of his job compared to those serving in similar positions at the other FHLBs, his individual performance, and tenure. Ms. Turnquest received a 4.97% increase in base salary for 2023 from \$454,137 to \$476,700 which maintains her base salary above the 75th percentile of base salaries paid to senior executives serving in similar positions at the other FHLBs and reflects her individual performance, tenure, and experience. The new base salaries for these NEOs (except Ms. Gjonzeneli) became effective February 1, 2023; Ms. Gjonzeneli's base salary became effective January 1, 2023 when she became Chief Financial Officer of the Bank.

(All dollar amounts within this Item 11. Executive Compensation are in whole dollars unless otherwise specified)

President and Executive Team Incentive Compensation Plan

Since 2013 our NEOs have participated in the Incentive Plan, which is a cash-based annual incentive plan with a deferral component that establishes individual incentive award opportunities related to achievement of performance objectives by the Bank and by participants during performance periods. The Incentive Plan provides the Bank's Executive Team, including our NEOs, the opportunity to earn incentive compensation awards based on the Bank's achievement of certain financial and performance requirements established by the Board (the Performance Requirements).

The Incentive Plan establishes two performance periods. Incentive Plan participants may earn an annual award following a one-year performance period (an Annual Award) and may receive a deferred award following a three-year deferral period (a Deferred Award). For each performance period, the Board will present an opportunity to Incentive Plan participants to earn a total award (an Incentive Award), which is composed of the Annual Award and the Deferred Award, equal to a percentage of each Incentive Plan participant's annual base salary at the end of the performance period for the Annual Award. After the end of a performance period, the Board will determine the total Incentive Award of the President and CEO, and the HR&C Committee will determine the total Incentive Award of each other Incentive Plan participant, based on the achievement of the Performance Requirements at a "minimum", "target", or "maximum" level. As approved by the Board (for the President and CEO) and HR&C Committee (for the other NEOs) for the 2023 - 2026 performance period, the Incentive Award may range from 40% to 80% of base salary for NEOs other than the President and CEO and from 60% to 100% of base salary for the President and CEO. The HR&C Committee has the discretion to award amounts that fall between these ranges based on an interpolation of the performance results. The Annual Award will be equal to 50% of the Incentive Award and the Deferred Award will be equal to 50% of the Incentive Award (subject to adjustment based upon achievement of certain Performance Requirements) and will be deferred during the three-year deferral period. The HR&C Committee (or the Board in the case of the President and CEO) may, to the extent it deems appropriate in its sole discretion make awards or adjust awards, including making no awards, to reflect: (1) any extraordinary event, (2) individual performance that is not captured in the Performance Requirements, or (3) other significant changes which may have occurred during the performance period which alter the basis upon which the Performance Requirements were determined, or otherwise.

In determining the Performance Requirements under the Incentive Plan, the HR&C Committee strives to:

- (1) balance risk and financial results in a manner that does not encourage participants to expose the Bank to imprudent risks;
- (2) make such determination in a manner designed to ensure that participants' overall compensation is balanced and not excessive in amount and that the awards are consistent with the Bank's policies and procedures regarding such compensation arrangements; and
- (3) monitor the success of the Performance Requirements and weighting established in prior years, alone and in combination with other incentive compensation awarded to the same participants, and make appropriate adjustments in future calendar years as needed so that payments appropriately incentivize participants and reflect risk.

Performance Requirements for Annual Awards

The Incentive Award opportunity for each performance period will be based on Performance Requirements established annually by the Board (for the President and CEO) and HR&C Committee (for the other Incentive Plan participants). The Incentive Plan provides that the HR&C Committee and the Board will establish separate Performance Requirements for Annual Awards and Deferred Awards. Performance Requirements for Deferred Awards will apply during the deferral period and assessment of the achievement of Performance Requirements will be determined at the end of each deferral period.

(All dollar amounts within this Item 11. Executive Compensation are in whole dollars unless otherwise specified)

The Performance Requirements for the 2023 Annual Awards and applicable weighting for each requirement are as follows:

	Performance Requirements	Weighting for NEOs other than CRO	Weighting for Chief Risk Officer (CRO)
A	Adjusted annual GAAP net income as compared to the Bank's operating plan at 12/31/2023. Adjusted net income means annual GAAP net income adjusted by 1) subtracting total 2023 advance prepayment fees net of related hedge costs adjusted only to exclude net amounts that would have occurred after 2022 had there been no prepayment, 2) subtracting total 2023 prepayment fees on DUS bonds net of related hedge costs and net of interest planned in 2023, 3) subtracting the product of (a) the monthly change in average three-month SOFR from the Bank's operating plan average and (b) the average plan total capital, 4) removal of hedge ineffectiveness, 5) accelerated amortization of concession fees on called unswapped COs, net of the AHP assessment, and 6) adjusting for any other material, unusual events or significant uses of current income for members outside of the plan.	15.00%	12.50%
B	Selected Bank operating expenses compared to amounts budgeted. (Excluded expenses include amortization/depreciation, Community Investment voluntary programs, and MPF master servicing/custody and external quality control expenses.)	15.00%	15.00%
C	As of 12/31/2023, the year to date average advances outstanding to all members (including housing associates and excluding former members with advances still outstanding).	15.00%	10.00%
D	As of 12/31/2023, the year to date average advances outstanding to all members and housing associates under the CFI asset threshold.	5.00%	5.00%
E	As of 12/31/2023, the volume delivered on MPF Traditional products on balance sheet.	5.00%	5.00%
F	The number of products used by members in 2023. This is calculated by dividing the number of product classes used by members, by the number of members. "Members" are members as of December 31, 2023. The four product classes are: Advances (including Community Investment Cash Advance (CICA) advances), Letters of Credit, MPF (any product), and Community Investment (AHP, DPP, other voluntary grants).	5.00%	5.00%
G	Complete 2023 deliverables for Bank's operations and technology roadmap projects.	20.00%	25.00%
H	Interview a diverse slate of qualified candidates for a percentage of externally posted open positions or hire a diverse candidate.	10.00%	10.00%
I	Employee participation in Diversity, Equity, and Inclusion (DEI) training relating or leadership role in an employee resource group, working group, or engagement team.	10.00%	12.50%

(All dollar amounts within this Item 11. Executive Compensation are in whole dollars unless otherwise specified)

The minimum, target and maximum achievement levels for each Performance Requirement for the 2023 Annual Awards (which awards are reflected in the Summary Compensation Table) along with 2023 results and the actual weighted achievement (as a percentage of base salary) are set forth in the following table:

Requirement	Minimum	Target	Maximum	2023 Results	Actual Weighted Incentive Award as % of Salary for		
					President ^a	Chief Risk Officer ^b	All Other NEOs ^b
A	\$(50.0) million	\$0	\$50.0 million	\$170.7 million	15.00%	10.00%	12.00%
B	2.00%	-0.75%	-5.00%	-5.15%	15.00%	12.00%	12.00%
C	\$44.9 billion	\$52.7 billion	\$59.5 billion	\$74.2 billion	15.00%	8.00%	12.00%
D	\$6 billion	\$6.9 billion	\$8.2 billion	\$10.71 billion	5.00%	4.00%	4.00%
E	\$1.38 billion	\$1.66 billion	\$1.94 billion	\$2.18 billion	5.00%	4.00%	4.00%
F	1.70 products	1.77 products	1.84 products	1.95 products	5.00%	4.00%	4.00%
G	12 points	16 points	18 points	16 points	16.00%	15.00%	12.00%
H	75% of externally posted positions	85% of externally posted positions	90% of externally posted positions	98% of externally posted positions	10.00%	8.00%	8.00%
I	70% of total employees completed	75% of total employees who completed	90% of total employees who completed	91% of total employees who completed	10.00%	10.00%	8.00%
Total Actual Incentive Award as a % of Salary ^c					96.00% ^d	75.00%	76.00% ^d

^a The percentages shown above represent the actual achievement which equates to an opportunity percentage ranging from 60% to 100% of base salary for the President and CEO (which includes interpolated amounts where performance fell between the achievement levels), multiplied by the applicable weighting for each requirement.

^b The percentages shown above represent the actual achievement which equates to an opportunity percentage ranging from 40% to 80% of base salary for NEOs other than the President and CEO (which includes interpolated amounts where performance fell between the achievement levels), multiplied by the applicable weighting for each requirement.

^c 50% of the Incentive Award achieved is the Annual Award, which is payable at the end of 2023, and 50% of the Incentive Award is the Deferred Award, which is payable at the end of the 2024-2026 deferral period.

^d The Board began with an award opportunity of 96% for Mr. Ericson. After considering Mr. Ericson's individual performance, the Board increased the Incentive Award to 100% of his base salary. The HR&C began with an award opportunity of 76% for each of Mr. Stocchetti and Ms. Turnquest. After considering Mr. Stocchetti's individual performance, the HR&C decreased the Incentive Award to 68.4% of his base salary. After considering Ms. Turnquest's individual performance, the HR&C increased the Incentive Award to 80.2% of her base salary.

(All dollar amounts within this Item 11. Executive Compensation are in whole dollars unless otherwise specified)

Performance Requirements for Deferred Awards

2021-2023 Deferred Award (Earned for 2023)

The performance results and weighted achievement for the 2021-2023 Deferred Award (as a percentage of the initial deferred portion of the Incentive Award achieved for the 2020-2023 performance period) are set forth in the following table. This Deferred Award was earned in 2023 and is reflected in the Summary Compensation Table.

2021-2023 Performance Requirement Results	Actual Weighted Deferred Award as % of Deferred Award^a
Ratio of the market value of equity to par value of the Bank's capital stock as of 12/31/23 is 256%.	41.67%
Maintained the three minimum regulatory capital ratios at each month end through 12/31/23.	41.67%
Maintained positive quarterly net income during 2021, 2022, and 2023.	41.66%
Deferred Award as a % of the Initial Deferred Portion of the Incentive Award Achieved for the 2020-2023 Performance Period ^b	125.00%

^a The percentages shown above represent the actual achievement, which equates to an opportunity percentage ranging from 75% to 125% of the initial deferred portion of the Incentive Award achieved for the 2020-2023 performance period (which includes interpolated amounts where performance fell between the achievement levels), multiplied by the applicable weighting for each requirement. All conditions for payment of the 2021-2023 Deferred Award were satisfied and the maximum levels were achieved for each Performance Requirement.

^b The 2021-2023 Deferred Award is part of the Incentive Award achieved for the 2020-2023 performance period. 50% of the Incentive Award achieved is the Annual Award, which was earned in 2020, 50% of the Incentive Award achieved is the Deferred Award, which is payable following the end of 2023, and reflected in the Summary Compensation Table.

2024-2026 Deferred Award (Part of 2023 Incentive Award)

The minimum, target, and maximum achievement levels for each Performance Requirement for the Deferred Award for the 2024-2026 deferral period, along with the applicable weightings for each requirement are set forth in the following table:

	Performance Requirements	Weighting for all NEOs^a	Minimum	Target	Maximum
A	Ratio of the market value of equity to par value of outstanding capital stock as of 12/31/26.	33.34%	>100%	>105%	>150%
B	Maintain two monthly and one quarterly minimum capital ratios through 12/31/2026 (84 in total).	33.33%	80 capital requirements	83 capital requirements	84 capital requirements
C	Maintain positive quarterly net income during 2024, 2025, and 2026.	33.33%	In 10 of 12 quarters	In 11 of 12 quarters	In all 12 quarters

^a If the composite Safety and Soundness exam rating remains the same as the level at 12/31/22 or improves during 2024, 2025, or 2026, the Deferred Award paid will be at 100% of applicable weighting for each Performance Requirement above. If the composite Safety and Soundness exam rating declines during any of 2024, 2025, or 2026 from the level at 12/31/22 then the calculation based on actual achievement of the Performance Requirements for the Deferred Awards will reflect a reduction of 33% in the weightings of each Performance Requirement above.

The HR&C Committee may, in its discretion, reduce or eliminate an Annual Award or a Deferred Award for any applicable performance period under any of the following circumstances: (1) the Bank receives the lowest or second-lowest cumulative rating in its FHFA examination in any calendar year in a particular performance period; (2) the Board determines that a material safety and soundness problem has occurred, or a material risk management deficiency exists at the Bank, or if (a) operational errors or omissions result in material revisions to the Bank's financial results, information submitted to the FHFA, or to data used to determine Incentive Awards, (b) submission of material information to the Securities and Exchange Commission, the Office of Finance, or the FHFA is materially beyond any deadline or applicable grace period, or (c) the Bank fails to make sufficient progress, as determined by the Board, in the timely remediation of significant examination, monitoring, or other supervisory findings; (3) a Deferred Award may be reduced for each year during the deferral period in which the Bank has negative net income; or (4) with respect to an individual Incentive Plan participant only, (a) such Incentive Plan participant's job performance was not satisfactory with respect to their established personal goals or the Bank's core competencies either during a performance period or at the scheduled time of an Incentive Award payment, (b) such Incentive Plan participant becomes subject

(All dollar amounts within this Item 11. Executive Compensation are in whole dollars unless otherwise specified)

to any disciplinary action at the scheduled time of an Incentive Award payout, or (c) such Incentive Plan participant fails to comply with regulatory requirements or standards, internal control standards, the standards of his or her profession, any internal Bank standard, or fails to perform responsibilities assigned to such Incentive Plan participant under the Bank's strategic business plan. The amount of the Deferred Award may increase or decrease based on the level of achievement of the Performance Requirements during the deferral period. For the 2023 - 2026 performance period, the amount of the Deferred Award as approved by the Board for each participant can range from 75% to 125% of the initial deferred portion of the Incentive Award as determined at the end of the initial performance period. The HR&C Committee has the discretion to award amounts that fall between these ranges based on an interpolation of the performance results.

Incentive Plan participants are paid their respective Incentive Awards, if any, in cash following the initial and deferred performance periods, provided that they are actively employed by the Bank at the end of the performance period. If a participant dies, becomes disabled, retires, terminates employment for good reason or a change of control occurs, the participant is eligible to receive, unless (s)he participates in any activity constituting cause, (a) a pro-rated incentive award for the current performance period based on how long (s)he was employed with the Bank during the year (excluding any period of disability in excess of three months), and (b) all Deferred Awards previously granted. Incentive Plan participants may elect to defer some or all of an Incentive Award under our Benefit Equalization Plan. For a description of the terms of the Benefit Equalization Plan see **Benefit Equalization Plan** on page 107.

See **President and Executive Team Incentive Compensation Plan** on page 101 for the awards made to the NEOs under this plan.

Post-Termination Compensation

Severance Arrangements

Our NEOs (other than the President and CEO) are eligible to receive severance benefits under our Employee Severance Plan. Under the plan, if an NEO covered by the plan were to be terminated other than for cause or through voluntarily termination of their employment because of a constructive discharge, that NEO would be entitled to receive the greater of: (1) four weeks' base salary for each full year of calendar service, but not to exceed 104 weeks; or (2) one year's base salary, subject to certain limits. In addition, we will make the Bank's portion of the COBRA payments required to continue health insurance benefits for a time period generally equal to the number of weeks of pay such employee is entitled to receive (not to exceed the statutory COBRA continuation period). Payments under the Employee Severance Plan shall be made during the payment period (as defined in such plan) with the regular payroll schedule of the Bank. An NEO's receipt of benefits under the Employee Severance Plan is conditioned on an executed general release waiving all claims against the Bank.

Under the Employment Agreement, in the event Mr. Ericson's employment with the Bank were terminated by him through retirement (as defined in the Employment Agreement), Mr. Ericson would be entitled to receive the following payments and benefits:

1. all accrued and unpaid salary for time worked as of the date of termination;
2. all accrued but unutilized vacation time as of the date of termination;
3. a lump sum payment in an amount equal to the incentive compensation he would have otherwise been entitled to for:
 - a. the total Incentive Award (both Annual Award and Deferred Award) under the Incentive Plan for the year in which termination occurs, calculated as if all performance targets for the current annual and deferral award period had been met at the target award level and prorated based on the number of full months Mr. Ericson was employed during the year of termination, divided by 12, and
 - b. any previously deferred award (50% of the total Incentive Award) under the Incentive Plan not subject to proration or further adjustments based on performance target achievement during the deferral period;

as determined without any regard to whether Mr. Ericson's termination affects his eligibility to receive an Incentive award under the Incentive Plan; provided, however that the HR&C Committee may, in its discretion, reduce or eliminate any incentive compensation amounts paid under this item (3) for any of the circumstances set forth in Section 5.3(b)(1)-(3) or (5) the Incentive Plan, to the extent the circumstances existed at or before the time Mr. Ericson provided notice of termination, as applicable, and

4. participation in the Bank's retiree health care benefit plans for Mr. Ericson and his spouse, in accordance with the terms of the Federal Home Loan Bank of Chicago Description of Retiree Medical Coverage.

(All dollar amounts within this Item 11. Executive Compensation are in whole dollars unless otherwise specified)

If Mr. Ericson's employment with the Bank is terminated by resignation other than for Good Reason (as described in the Employment Agreement), Mr. Ericson will be entitled to the payments in items (1) through (3) above. If Mr. Ericson's employment with the Bank is terminated by the Board for Cause (as defined in the Employment Agreement), Mr. Ericson will be entitled only to the amounts in items (1) and (2) above. If Mr. Ericson's employment with the Bank is terminated: (a) by reason of death or disability (as defined in the Employment Agreement), (b) by the Bank other than for Cause, (c) by Mr. Ericson by resignation for Good Reason, or (d) by the Bank by non-renewal of the Employment Agreement, Mr. Ericson will be entitled to the payments in items (1) through (3) above, as well as salary continuation (at the base salary in effect at the time of termination) for a period of one year, and continued participation in the Bank's employee health care benefit plans for Mr. Ericson and his spouse, in accordance with the terms of the Bank's severance plan that would be applicable if Mr. Ericson's employment had been terminated pursuant to such plan (provided, however, the Bank shall continue paying the employer's portion of Mr. Ericson's medical and/or dental insurance premiums, if Mr. Ericson had been participating in either or both programs for one year prior to termination).

The Employment Agreement specifies that the HR&C Committee may in its discretion reduce or eliminate any incentive compensation amounts in item (3) above for certain circumstances as more fully set forth in the Incentive Plan, and as summarized in **Performance Requirements for Deferred Awards** on page 104.

The Employment Agreement provides that Mr. Ericson would not be entitled to any other compensation, bonus, incentive, or severance pay from the Bank other than as specified above and any vested rights which he has under any pension, thrift, or other benefit plan, excluding the severance plan, and, for termination by all means except for Cause, the Incentive Plan.

The right to receive certain termination payments as outlined above is contingent upon, among other things, Mr. Ericson signing a general release of all claims against the Bank in such form as the Bank requires.

Under the Housing and Economic Recovery Act of 2008, the FHFA Director has the authority to prohibit or limit any golden parachute or indemnification payment by an FHLB. FHFA rules on golden parachute payments sets forth the standards the FHFA would take into consideration when limiting or prohibiting golden parachute and indemnification payments by an FHLB when the FHLB is in a troubled condition, in conservatorship or receivership, or insolvent. FHFA rules also generally prohibit an FHLB and the OF from making indemnification payments to any officer, director, employee or other affiliated party to pay or reimburse such person for any liability of legal expense in connection with an administrative proceeding or civil action initiated by the FHFA.

For a further description of potential payments to our NEOs upon termination of employment, see **Potential Payments Upon Termination Table** on page 113.

Pension Plan Benefits

The HR&C Committee believes that retirement plan benefits and retiree health and life insurance are an important part of our NEO compensation program which provides a competitive benefits package. The Pentegra Defined Benefit Plan for Financial Institutions (Pension Plan) and related Benefit Equalization Plan benefits serve a critically important role in the retention of our senior executives (including our NEOs), as benefits under these plans increase for each year that these executives remain employed by us and thus encourage our most senior executives to remain employed by us. We provide additional retirement and savings benefits under the Benefit Equalization Plan because we believe that it is inequitable to limit retirement benefits and the matching portion of the retirement savings plan on the basis of a limit that is established by the IRS for purposes of federal tax policy.

We participate in the Pension Plan, a multiple employer, tax-qualified, noncontributory defined-benefit pension plan that covers most employees, including the NEOs. Benefits under this Pension Plan are based upon the employee's years of service and the employee's consecutive five-year average highest earnings, and are payable after retirement in the form of an annuity or a lump sum. Earnings, for purposes of the calculation of benefits under the Pension Plan, are defined to include salary and bonuses under the applicable short-term incentive plan. The amount of annual earnings that may be considered in calculating benefits under the Pension Plan is limited by law. For 2023, the limitation on annual earnings was \$330,000. In addition, benefits provided under tax-qualified plans may not exceed an annual benefit limit of \$265,000 in 2023.

The formula for determining the normal retirement annual benefit for employees depends on an employee's date of hire. For employees hired prior to January 1, 2010, the formula is 2.25%, multiplied by the number of years of the employee's credited service, multiplied by the employee's consecutive five-year average highest earnings. For employees hired prior to 2010, an employee's retirement benefit vests 20% per year beginning after an employee has completed two years of employment, but is completely vested at age 65 regardless of completed years of employment. Normal retirement age is 65, but a reduced benefit may be elected in connection with early retirement beginning at age 45. All of the NEOs, except Ms. Gjonzeneli, are currently eligible for the early retirement benefit. We also provide health care and life insurance benefits for retired employees of which

(All dollar amounts within this Item 11. Executive Compensation are in whole dollars unless otherwise specified)

they pay 50% of the total Bank premium for each benefit.

Savings Plan Benefits

The Federal Home Loan Bank of Chicago 401(k) Plan (the Savings Plan) is a tax-qualified, defined contribution savings plan that we established effective January 15, 2020. Prior to January 15, 2020, our eligible employees had the opportunity to participate in the Pentegra Defined Contribution Plan for Financial Institutions (Pentegra DC Plan), a tax-qualified multiemployer defined contribution savings plan. For our active and eligible employees, the Savings Plan replaced the Pentegra DC Plan on and after January 15, 2020. Under the Savings Plan, employees, including our NEOs, may contribute up to 50% of regular earnings on a before-tax basis to a 401(k) account or on an after-tax basis to a Roth Elective Deferral Account or a regular account. In 2023, for employees who have completed one year of service, the Bank matches a portion of the employee's contribution to the Savings Plan (50% for employees with three years of service or less, 75% for employees with more than three years of service but less than five years of service, and 100% for employees with five or more years of service). For 2023, our matching contribution was limited to \$19,800 for each employee.

The Bank's matching contributions to the Savings Plan vest incrementally based on years of employment, with 100% vesting after six years of employment. Pursuant to IRS rules, and effective for 2023, the Savings Plan limits the annual additions that can be made to a participating employee's account to \$66,000 per year. Annual additions include our matching contributions and employee contributions. Of those annual additions, the current maximum before-tax contribution by an employee to a 401(k) account is \$22,500 per year. In addition, no more than \$330,000 of annual compensation may be taken into account in computing benefits under the Savings Plan. Participants age 50 and over are eligible to make catch-up contributions of up to \$7,500 per year. Generally, Savings Plan distributions can only be made at termination of employment. However, an employee may take a withdrawal of employee and employer plan contributions while employed, but an excise tax of 10% is generally imposed on the taxable portion of withdrawals occurring prior to an employee reaching age 59 1/2. Employees may also take one loan each year from the vested portion of the Regular, Roth Elective Deferral and 401(k) Savings Plan accounts. Loan amounts may be between \$1,000 and \$50,000. No more than 50% of the available balance can be borrowed at any time.

Benefit Equalization Plan

We also provide supplemental retirement and savings plan benefits under our Benefit Equalization Plan, a nonqualified unfunded plan that preserves the level of benefits which were intended to be provided under our Pension Plan and Savings Plan in light of legislation limiting benefits under these tax qualified plans. The Benefit Equalization Plan was established in 1994. On December 19, 2008, our Board of Directors approved a new plan, the Federal Home Loan Bank of Chicago Post December 31, 2004 Benefit Equalization Plan, that replaces the former plan. The new plan includes updated provisions related to compliance with Section 409A of the Internal Revenue Code of 1986, as amended, but the basic benefits under the plan remain unchanged.

Our Benefit Equalization Plan provides that if an executive officer dies, retires, or terminates employment due to disability when any short-term incentive compensation that was previously earned but deferred in accordance with the deferral provisions of any of the Bank's incentive compensation plans, we will recalculate the officer's pension benefits in order to adjust for the fact that such short-term incentive compensation would not otherwise be included in the officer's base compensation for purposes of calculating pension benefits at the time the executive officer dies, retires, or terminates employment due to disability. We will recalculate the officer's pension benefit as if such deferred amounts had been included in the executive officer's base compensation and the difference between that calculation and the amount to which the retired, deceased or disabled officer is entitled to under the Benefit Equalization Plan as a result of such calculation will be paid in a lump sum.

The Pension Plan benefit under the Benefit Equalization Plan is an amount equal to the difference between the Pension Plan formula without considering legislative limitations, and the benefits which may be provided under the Pension Plan considering such limitations. Generally, participants may elect when Pension Plan benefits under the Benefit Equalization Plan are paid, but not earlier than termination of employment or later than age 70 1/2. Generally, participants may elect to receive a benefit in the form of a single lump sum, a 50% joint and survivor annuity, a 100% joint and survivor annuity with a ten-year certain benefit or a life annuity with a ten-year certain benefit. As noted above, the Benefit Equalization Plan maintained by the Bank is unfunded; however, the Bank owns investments held in a rabbi trust to help satisfy future benefit obligations of the Pension Plan benefit under the Benefit Equalization Plan.

The Benefit Equalization Plan also allows employees to make additional salary reduction contributions up to the maximum percentages allowed under the Savings Plan and to receive matching contributions up to the maximum percentages under the Savings Plan, in each case without giving effect to laws limiting annual additions. Salary reduction contributions and earnings under the Benefit Equalization Plan are treated as deferred income. Effective January 1, 2014, Savings Plan related contributions and earnings in the Benefit Equalization Plan earn interest at the 20 quarter (five year) moving average of the five year Federal Home Loan Bank consolidated obligation bond rate. Generally, a participant's Savings Plan benefit under the Benefit Equalization Plan is payable in lump sum as soon as reasonably practicable after his or her termination of employment

(All dollar amounts within this Item 11. Executive Compensation are in whole dollars unless otherwise specified)

with the Bank. While employed at the Bank, a participant may, in the event of an unforeseeable emergency, request withdrawal from his or her Savings Plan account, and such request shall be made in a time and manner determined by the HR&C Committee.

Compensation Committee Report

Our Board of Directors has established the HR&C Committee to assist it in matters pertaining to the employment and compensation of the President and CEO, executive officers and our employment and benefits programs in general.

The HR&C Committee is responsible for making recommendations to the Board of Directors regarding the compensation of the President and CEO and approving the compensation of the other executive officers, including base salary, merit increases, incentive compensation and other compensation and benefits. Its responsibilities include reviewing our compensation strategy and its relationship to our goals and objectives, as well as compensation at the other FHLBs and other similar financial institutions that involve similar duties and responsibilities.

The HR&C Committee has reviewed and discussed with our management the Compensation Discussion & Analysis included in this Item 11. Executive Compensation. In reliance on such review and discussions, the HR&C Committee recommended to the Board of Directors that such Compensation Discussion and Analysis be included in our Annual Report on Form 10-K for the year ended December 31, 2023.

The HR&C Committee:

Michelle L. Gross, Chairperson
James H. Hegenbarth, Vice Chairperson
James T. Ashworth
Betsy A. Johnson
Phyllis Lockett
Maria E. Wynne
Andrea L. Zopp
Joseph Fazio III, ex officio

(All dollar amounts within this Item 11. Executive Compensation are in whole dollars unless otherwise specified)

Compensation Tables

Summary Compensation Table

The following table sets forth summary compensation information for our NEOs for 2023.

Summary Compensation Table

	Year	Salary	Non-Equity Incentive Plan Compensation		Change in Pension Value ^b	All Other Compensation ^c	Total ^c
			Annual Award	Deferred Award ^a			
Michael A. Ericson	2023	\$975,000	\$487,500	\$272,960	\$1,126,000	\$ 34,302	\$ 2,895,762
President and Chief Executive Officer	2022	900,000	425,000	275,908	—	39,544	1,640,452
	2021	850,000	425,000	256,250	591,000	29,881	2,152,131
Virxhini Gjonzeneli^d	2023	435,000	165,300	146,859	281,000	19,800	1,047,959
Executive Vice President and Chief Financial Officer							
John Stocchetti	2023	688,495	236,330	296,532	478,000	19,800	1,719,157
Executive Vice President and Group Head, Mortgage Partnership Finance Program	2022	660,412	236,168	338,367	—	15,250	1,250,197
	2021	641,690	241,324	312,500	700,000	14,500	1,910,014
Laura M. Turnquest	2023	474,820	191,146	197,021	494,000	19,800	1,376,787
Executive Vice President, General Counsel and Corporate Secretary	2022	452,858	162,272	210,338	—	18,300	843,768
	2021	438,780	158,758	212,500	435,000	17,400	1,262,438
Michelle Jonson	2023	480,892	181,050	199,636	428,000	19,800	1,309,378
Executive Vice President and Chief Risk Officer	2022	459,864	159,733	212,686	—	18,300	850,583
	2021	446,505	161,523	189,604	198,000	17,400	1,013,032

^a All amounts earned for all NEOs reflect the Deferred Award under the Incentive Plan.

^b The amount reported in this column for 2023 represents the aggregate change in the actuarial present value of the NEO's accumulated benefit under the Pension Plan and BEP from December 31, 2022 to December 31, 2023. The change in value resulted primarily from adding another year of credited service based on higher NEO consecutive five-year average earnings. For 2023, the increases are higher than in 2022 primarily due to slightly lower interest rates used during 2023. During 2022, total pension value for Mr. Ericson, Mr. Stocchetti, Ms. Turnquest, and Ms. Jonson decreased by \$977,000; \$549,000; \$589,000, and \$1,126,000, respectively. In accordance with SEC rules, these negative amounts are not included in this table.

^c For all NEOs in 2023 other than Mr. Ericson, amounts reported for all other compensation include Bank contributions to employee 401(k) and BEP plans. For Mr. Ericson in 2023, amounts reported for all other compensation include: Bank contributions to employee 401(k) and BEP plans (\$19,800); life and long-term disability insurance premiums paid by the Bank; reimbursement for office parking and spousal attendance at certain business functions; and an airline club membership. The "All Other Compensation" and "Total" amounts shown for the NEOs (other than Mr. Ericson) in 2022 and 2021 do not match the amounts previously reported in our SEC filings because they have been updated to exclude the following life insurance premiums that were reported in prior years but were below the requisite disclosure threshold of \$10,000 (when aggregated with other perquisites received by the NEOs): Stocchetti: \$742 (2022) and \$711 (2021); Turnquest: \$410 (2022) and \$316 (2021); Jonson: \$471 (2022) and \$440 (2021). The "All Other Compensation" and "Total" amounts shown for Mr. Ericson in 2022 and 2021 do not match the amounts previously reported in our SEC filings because they have been updated to include disability insurance premiums previously not included (which, in the case of 2021, brought the total aggregate amount of Mr. Ericson's perquisites over \$10,000).

^d The Board of Directors named Ms. Gjonzeneli as Chief Financial Officer of the Bank, effective January 1, 2023.

(All dollar amounts within this Item 11. Executive Compensation are in whole dollars unless otherwise specified)

Narrative to Summary Compensation Table

Compensation under the heading Annual Award in the Summary Compensation Table is comprised of the Annual Awards under the Incentive Plan. Compensation under the heading Deferred Awards in the Summary Compensation table is comprised of Deferred Awards under the Incentive Plan.

President and Executive Team Incentive Compensation Plan

Annual Awards for 2023 to the NEOs under the Incentive Plan are set forth below. For a description of how these awards were calculated see **President and Executive Team Incentive Compensation Plan** on page 101.

Name	Base Salary	Actual Annual Award as a % of Salary ^a	Actual Annual Award
Michael A. Ericson	\$ 975,000	50.00%	\$ 487,500
Virxhini Gjonzeneli	435,000	38.00%	165,300
John Stocchetti	691,000	34.20%	236,330
Laura M. Turnquest	476,700	40.10%	191,146
Michelle Jonson	482,800	37.50%	181,050

^a 50% of the Incentive Award achieved as a percentage of base salary is the Annual Award for 2023.

Deferred Awards for the 2021-2023 performance period to the NEOs under the Incentive Plan are set forth below. For a description of how these awards were calculated see **President and Executive Team Incentive Compensation Plan** on page 101.

Name	Deferred Award ^a	Actual Award Percentage ^b	Actual Deferred Award
Michael A. Ericson	\$ 218,368	125%	\$ 272,960
Virxhini Gjonzeneli	117,487	125%	146,859
John Stocchetti	237,225	125%	296,532
Laura M. Turnquest	157,617	125%	197,021
Michelle Jonson	159,709	125%	199,636

^a Represents the initial deferred portion of the Incentive Award achieved for the 2021-2023 performance period.

^b Represents the earned percentage of the initial deferred portion of the Incentive Award achieved for the 2020-2023 performance period.

(All dollar amounts within this Item 11. Executive Compensation are in whole dollars unless otherwise specified)

Grants of Plan-Based Awards

The following table describes the potential NEO awards under the Incentive Plan for the performance period covering January 1, 2023, through December 31, 2026. See **President and Executive Team Incentive Compensation Plan** starting on page 101 for a description of the performance criteria under this plan.

Name	Incentive Plan ^a	Estimated Future Payouts under Non-Equity Incentive Plan Awards		
		Minimum	Target	Maximum
Michael A. Ericson	Annual	\$ 292,500	\$ 390,000	\$ 487,500
	Deferred	365,625	487,500	609,375
Virxhini Gjonzeneli	Annual	87,000	130,500	174,000
	Deferred	123,975	165,300	206,625
John Stocchetti	Annual	138,200	207,300	276,400
	Deferred	177,248	236,330	295,413
Laura M. Turnquest	Annual	95,340	143,010	190,680
	Deferred	143,360	191,146	238,933
Michelle Jonson	Annual	96,560	144,840	193,120
	Deferred	135,788	181,050	226,313

^a Annual: Annual Award under the Incentive Plan. The amounts shown are based on the potential awards for each NEO for 2023. Annual awards granted in 2023 were earned in the same year; for such amounts actually earned, please see the Summary Compensation Table. Deferred: Deferred Award under the Incentive Plan. The amounts shown reflect the actual Deferred Awards granted for 2024-2026 based on actual performance for 2023. The Deferred Awards remain subject to adjustment based upon achievement of certain Performance Requirements during the 2024-2026 deferral period and may be reduced to zero if actual achievement is below the minimum achievement level for those Performance Requirements.

Retirement and Other Post-Employment Compensation Table and Narrative

Name	Plan Name	Years Credited Service	Present Value of Accumulated Benefit	Payments During Last Fiscal Year
Michael A. Ericson	Pension	18.42	\$ 918,000	\$ —
	BEP	18.42	3,413,000	—
Virxhini Gjonzeneli	Pension	19.92	643,000	—
	BEP	19.92	728,000	—
John Stocchetti	Pension	16.75	1,451,000	—
	BEP	16.75	4,431,000	—
Laura M. Turnquest	Pension	18.75	1,337,000	—
	BEP	18.75	2,359,000	—
Michelle Jonson	Pension	20.75	989,000	—
	BEP	20.75	1,783,000	—

Our NEOs are entitled to receive retirement benefits through the Pension Plan and the Benefit Equalization Plan. See **Post-Termination Compensation** on page 105. The present value of the current accumulated benefit, with respect to each NEO under both the Pension Plan and the Benefit Equalization Plan, described in the table above is based on certain assumptions described below.

The participant's accumulated benefit is calculated as of December 31, 2023 and 2022. Under the Pension Plan, which is a qualified pension plan, the participant's accumulated benefit amount as of these calculation dates is based on the plan formula, ignoring future service periods and future salary increases during the pre-retirement period. The present value is calculated using the accumulated benefit at each date multiplied by a present value factor based on an assumed age 65 retirement date. As of December 31, 2022, 55% of the Pension Plan benefit is valued using the PRI-2012 mortality table for white collar worker annuitants (with mortality improvement scale MP-2021) and 45% of the Pension Plan benefit is valued using the IRS Applicable

(All dollar amounts within this Item 11. Executive Compensation are in whole dollars unless otherwise specified)

mortality table for lump sums projected to 2022. As of December 31, 2023, 55% of the Pension Plan benefit is valued using the PRI-2012 mortality table for white collar worker annuitants (with mortality improvement scale MP-2021) and 45% of the Pension Plan benefit is valued using the IRS Applicable mortality table for lump sums projected to 2023. The interest rates used are 5.02% as of December 31, 2022 and 4.83% as of December 31, 2023.

The present value amount discounted back to reporting period does not factor in the mortality table. The difference between the present value of the December 31, 2023 accumulated benefit and the present value of the December 31, 2022 accumulated benefit is the change in pension value for the qualified plan presented in the Summary Compensation Table.

Benefits provided under the qualified plan are limited under the Employee Retirement Income Security Act (ERISA). As a result, the BEP, which is a nonqualified plan, is designed to provide benefits above the amount allowed under ERISA. The benefits provided under the BEP are initially calculated on a gross basis to include benefits provided by the qualified plan. The benefits under the qualified plan are then deducted from the initially calculated gross amount to arrive at the amount of benefits provided by the BEP. The participant's accumulated benefit amounts as of these calculation dates are based on plan formula, ignoring future service periods and future salary increases. The present value is calculated by multiplying the benefits accumulated at each date by a present value factor based on an assumed age 65 retirement date. As of December 31, 2022, the BEP benefit is valued using the PRI-2012 mortality table for white collar worker annuitants (with mortality improvement scale MP-2021). As of December 31, 2023, the BEP benefit is valued using the PRI-2012 mortality table for white collar worker annuitants (with mortality improvement scale MP-2021). The interest rates used are 4.85% as of December 31, 2022 (participants who elected a lump sum as their form of benefit from the BEP have their lump sum amounts at age 65 valued at 5.02%, then discounted back to current age at 4.85%) and 4.68% as of December 31, 2023 (participants who elected a lump sum as their form of benefit from the BEP have their lump sum amounts at age 65 valued at 4.83%, then discounted back to current age at 4.68%).

The difference between the present value of the December 31, 2023 accumulated benefit and the present value of the December 31, 2022 accumulated benefit is the change in pension value for the nonqualified plan presented in the Summary Compensation Table.

The difference in the interest rates used for the assumptions under the Pension Plan and the BEP is due to the Pension Plan being a multi-employer plan and the experience/assumptions under that plan versus our BEP being a single employer plan.

Nonqualified Deferred Compensation Table

Name	Plan Name ^a	Executive Contributions in Last FY ^b	Registrant Contributions in Last FY ^c	Aggregate Earnings in Last FY ^d	Aggregate Withdrawals/Distributions	Aggregate Balance of All Plans at Last FYE ^e
Michael A. Ericson	BEP	\$ 38,250	\$ —	\$ 4,450	\$ —	\$ 253,104
Virxhini Gjonzeneli	BEP	7,950	113	2,527	—	134,996
John Stocchetti	BEP	41,811	—	32,655	—	1,671,476
Laura M. Turnquest	BEP	1,667	—	157	—	9,560
Michelle Jonson	BEP	27,707	4,224	7,395	—	398,305

^a The table above includes salary reduction contributions by our NEOs, and matching contributions by the Bank under the Savings Plan benefit under the Benefit Equalization Plan (BEP). For a description of the BEP, see **Benefit Equalization Plan** on page 107.

^b Represents the amounts of the contributions made by each NEO. These amounts are reflected in the "Salary", "Annual Award" and "Deferred Award" columns of the Summary Compensation Table.

^c Represents the amounts of the contributions made by the Bank for each NEO under the Savings Plan benefit under the BEP. These amounts are reflected in the "All Other Compensation" column of the Summary Compensation Table.

^d Not included in 2023 compensation as rate paid was not above a market rate.

^e The aggregate balance at December 31, 2023, as reported above, includes amounts that are either currently reported or were previously reported as compensation in the Summary Compensation Table for 2023 and prior years for the NEOs to the extent they were NEOs in such years, except the aggregate earnings on deferred compensation to the extent such compensation was not above market rate.

(All dollar amounts within this Item 11. Executive Compensation are in whole dollars unless otherwise specified)

Potential Payments Upon Termination Table

Name	Severance	President and Executive Team		Total
		Incentive Plan	Health Care	
Michael A. Ericson	\$ 975,000	\$ 2,097,960	\$ 31,027	\$ 3,103,987
Virxhini Gjonzeneli	669,231	755,022	10,406	1,434,659
John Stocchetti	903,615	1,246,684	18,055	2,168,354
Laura M. Turnquest	696,715	900,343	31,027	1,628,085
Michelle Jonson	631,354	882,992	18,669	1,533,015

The table above and the narrative below outline payments that our NEOs would be entitled to receive in connection with their termination of employment as of December 31, 2023. Due to the number of factors that affect the nature and amounts of compensation and benefits provided upon the potential termination events discussed, the actual amounts paid or distributed may be different.

For Mr. Ericson, the table above outlines termination under the following conditions in accordance with his Employment Agreement: by reason of death or disability, or by the Bank other than for Cause, or by resignation for good reason, or by non-renewal of the Employment Agreement by the Bank (each as defined in the Employment Agreement). For purposes of calculating the benefits outlined in the table above, we have also assumed that Mr. Ericson would continue to receive Bank-subsidized health care coverage. For Mr. Ericson, the amounts reflected in the "President and Executive Team Incentive Plan" column in the table above include the following awards under the Incentive Plan: the earned 2023 Annual Award and the Deferred Awards for the following performance periods: 2021-2023 (as earned); 2022-2024 (assuming target performance); 2023-2025 (assuming target performance); and 2024-2026 (assuming target performance).

Pursuant to the Employment Agreement, if Mr. Ericson's employment is terminated by him through retirement, he would be entitled to the payments set forth in the "President and Executive Team Incentive Plan" column above and participation in the Bank's retiree health care benefit plans for him and his spouse, in accordance with the terms of the Federal Home Loan Bank of Chicago Description of Retiree Medical Coverage. Pursuant to the Employment Agreement, if Mr. Ericson's employment with the Bank is terminated by resignation other than for good reason, he would be entitled to the payments set forth in the "President and Executive Team Incentive Plan" column above.

For the other NEOs, the table above outlines termination under the following conditions in accordance with the Employee Severance Plan: without cause or as a result of constructive discharge (each as defined in the Employee Severance Plan). In addition, we assumed termination was not for cause as defined in the Incentive Plan, that their severance payments do not exceed the limits set forth in the Employee Severance Plan, and that they continue to receive Bank-subsidized health care coverage if the NEO was enrolled in the Bank's health care benefit plan during 2023. For the other NEOs, the amounts reflected in the "President and Executive Team Incentive Plan" column in the table above include the following awards under the Incentive Plan: the 2023 Annual Award (as earned) and the Deferred Awards for the following performance periods: 2021-2023 (as earned); 2022-2024 (assuming target performance); 2023-2025 (assuming target performance); and 2024-2026 (assuming target performance).

Additionally, under the Incentive Plan, assuming termination at December 31, 2023, the same awards as set forth under the "President and Executive Team Incentive Plan" column in the table above would be available to the NEOs (excluding Mr. Ericson, whose Employment Agreement outlines all possible termination scenarios) in the event they terminate employment for any reason, including as set forth in the immediately following sentence. Under the Incentive Plan, the 2023 Annual Award and the 2021-2023, 2022-2024, 2023-2025, and 2024-2026 Deferred Awards as reflected in the table above will also be available to these NEOs in the event they die, become disabled, retire, terminate employment for good reason, or a change of control occurs (as such terms are defined in the Incentive Plan) at December 31, 2023, assuming they did not participate in any activity constituting cause (as defined in the Incentive Plan).

For further details on payments due upon these circumstances to the NEOs, see **Severance Arrangements** on page 105.

In various termination scenarios, including the death, disability or retirement of the NEOs, our NEOs would be entitled to receive benefits generally available to other employees (although for Mr. Ericson the Employment Agreement as described on page 100 outlines all possible benefits he is entitled to receive). The narrative disclosure and tables above describe and quantify the compensation and benefits that are paid in addition to compensation and benefits generally available to other employees. Examples of compensation and benefits generally available to other employees, and thus not included above, are distributions

**(All dollar amounts within this Item 11. Executive Compensation are in whole dollars unless otherwise specified)**

under the Savings Plan, disability and life insurance benefits to the extent such employee has paid for such benefits, health and life insurance benefits, and amounts for accrued and unpaid salary and vacation.

For more information on the Pension Plan and the BEP, see **Retirement and Other Post-Employment Compensation Table and Narrative** on page 111 and the **Nonqualified Deferred Compensation Table** on page 112, as well as **Pension Plan Benefits** on page 106 and **Benefit Equalization Plan** on page 107.

Pay Ratio

As required by Section 953(b) of the Dodd-Frank Wall Street Reform and Consumer Protection Act, and Item 402(u) of Regulation S-K, we are providing the following information about the relationship of the median of the annual total compensation of our employees and the annual total compensation of Mr. Ericson, our President and CEO in 2023.

For 2023, the median of the annual total compensation of all employees of the Bank (other than Mr. Ericson) (the Median Employee) was \$170,867 and the annual total compensation of Mr. Ericson was \$2,895,762. Annual total compensation for the Median Employee and Mr. Ericson is calculated in the same manner as the "Total" column in the **Summary Compensation Table** on page 109. Based on this information, for 2023, the ratio of the annual total compensation of Mr. Ericson to the Median Employee was 16.95 to 1.

We identified the Median Employee by comparing the amount of base salary (including overtime), incentive awards, and Savings Plan and BEP plans contributions made by the Bank, for each of the employees who were employed by the Bank on December 31, 2023, and ranking the total compensation for all such employees from lowest to highest, excluding Mr. Ericson. We identified the Median Employee using this compensation measure, which was applied consistently to all our employees included in the calculation. We included all full-time and part-time employees in the identification of the Median Employee and annualized the compensation for all permanent employees who were not employed by us for all of 2023.

Because the SEC rules for identifying the median of the annual total compensation of our employees and calculating the pay ratio based on that employee's annual total compensation allow companies to adopt a variety of methodologies, to apply certain exclusions, and to make reasonable estimates and assumptions that reflect their employee populations and compensation practices, the pay ratio reported by other companies may not be comparable to the pay ratio for our Bank, as other companies have headquarters or offices in different states and countries, have different employee populations and compensation practices and may utilize different methodologies, exclusions, estimates and assumptions in calculating their pay ratios.

(All dollar amounts within this Item 11. Executive Compensation are in whole dollars unless otherwise specified)

Director Compensation

The goal of our policy governing compensation and travel reimbursement for our Board of Directors is to compensate members of the Board of Directors for work performed on our behalf and to make them whole for out-of-pocket travel expenses incurred while working for the Bank. The fees compensate Directors for their time preparing for and attending in-person and virtual meetings, attending Bank-sponsored member meetings and events, attending Community Investment Advisory Council meetings, attending FHLB System meetings, Board of Directors training, activities that provide information pertinent to the Bank or service on the Board of Directors that are learning opportunities and other activities related to service on the Board of Directors. Director compensation levels are established at the discretion of each FHLB's Board of Directors, provided that the fees are reasonable. In connection with setting director compensation, we participated in an FHLB System review of director compensation in 2022 which includes a director compensation study prepared by McLagan. The McLagan study includes peer group analysis of director compensation at the FHLBs, publicly traded banks with between \$10 billion and \$20 billion in assets, and publicly traded banks with between \$20 billion and \$65 billion in assets.

Our Board of Directors set compensation levels for 2023 as follows:

Position	Maximum Total Annual Compensation
Chairperson of the Board	\$ 165,000
Vice Chairperson of the Board	142,000
Chairperson of the Audit Committee	137,000
Human Resources and Compensation Committee Chairperson	130,000
Risk Management Committee Chairperson	130,000
Other Committee Chairperson	127,000
All other Directors	120,000

Each director will be paid one quarter of their maximum annual compensation following the end of each quarter. In the event a director serves on the Board for only a portion of a calendar year, or only serves as Chairperson, Vice Chairperson, or Committee Chairperson for a portion of a calendar year, such director's maximum annual compensation shall be adjusted accordingly on a pro-rata basis, based on the number of days served divided by the number of days in the year. If a director does not fulfill his or her responsibility by failing to meet certain performance and attendance criteria set forth in the policy, the director's compensation may be reduced below the maximum amounts shown above. All directors are also entitled to participate in a non-qualified, unfunded, deferred compensation plan, under which each Bank director has the opportunity to defer all or a portion of the compensation paid under this policy. In addition to the maximum annual compensation, the Bank reimburses directors for necessary and reasonable travel and related expenses incurred in connection with the performance of their official duties in accordance with the Bank's employee reimbursement policy.

FHLBank Chicago Federal Home Loan Bank of Chicago

(All dollar amounts within this Item 11. Executive Compensation are in whole dollars unless otherwise specified)

The Chairperson of the Board, the Vice Chairperson of the Board, and the Chairperson of the Human Resources & Compensation Committee reviewed director performance, as required by the 2023 Board of Directors Compensation Policy, and determined that directors serving during 2023 earned the compensation disclosed in the table below. The HR&C Committee was notified of the determination.

Name	2023 Total Fees Earned	2023 Fees Paid in Cash	2023 Fees Deferred ^a
James T. Ashworth - Chairperson	\$ 165,000	\$ 122,100	\$ 42,900

Total	\$ 2,278,000	\$ 2,111,500	\$ 166,500

^a Directors could elect to defer fees to a director's non-qualified, unfunded, deferred compensation plan. Earnings on this deferred compensation are not included above as the rate paid was not above a market rate.

All directors serving on the Bank's Board for 2024 are expected to receive compensation under the Bank's 2024 Board of Directors Compensation Policy, which includes terms similar to the 2023 Board of Directors Compensation Policy, except the maximum annual payments are as follows:

Position	Maximum Total Annual Compensation
Chairperson of the Board	\$ 165,000
Vice Chairperson of the Board	142,000
Chairperson of the Audit Committee	137,000
Human Resources and Compensation Committee Chairperson	137,000
Risk Management Committee Chairperson	137,000
Other Committee Chairperson	130,000
All other Directors	123,000

The Board compensation policy for 2024 is attached as Exhibit 10.9 to this Form 10-K.

We are a cooperative and our capital stock may only be held by current and former member institutions, so we do not provide compensation to our directors in the form of stock or stock options. In addition, our directors do not participate in any of our incentive or pension plans.

FHLB director compensation is subject to FHFA regulations that permit an FHLB to pay its directors reasonable compensation and expenses, subject to the authority of the FHFA Director to object to, and to prohibit prospectively, compensation and other expenses that the FHFA Director determines are not reasonable.

FHLBank
Chicago Federal Home Loan Bank of Chicago

(All dollar amounts within this Item 11. Executive Compensation are in whole dollars unless otherwise specified)

Compensation Committee Interlocks and Insider Participation

During 2023, the following directors served on our HR&C Committee: Michelle L. Gross (Chairperson), James H. Hegenbarth, (Vice Chairperson), Phyllis Lockett, John K. Reinke, Maria E. Wynne, Andrea Zopp, and James T. Ashworth (ex-officio). No member of our HR&C Committee has at any time been an officer or employee of the Bank. None of our executive officers have served or are serving on the Board of Directors or the compensation committee of any entity (as defined by Instruction to Item 407(e) of Regulation S-K) whose executive officers served on our HR&C Committee or Board of Directors.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.

We are cooperatively owned. Our members (and, in limited circumstances, former members) own our outstanding capital stock, and a majority of our directors are elected from our membership. No individuals, including our directors, officers and employees, may own our capital stock. The exclusive voting rights of members in 2023 are for the election of our directors, as more fully discussed in **2023 Director Election** on page 86.

We do not offer any compensation plan under which our capital stock is authorized for issuance.

The following table sets forth information about beneficial owners of more than 5% of our outstanding regulatory capital stock:

As of January 31, 2024	Regulatory Capital Stock	% of Total
BMO Bank, NA 320 South Canal Street Chicago, IL 60606	\$ 445	13.67 %
The Northern Trust Company 50 South LaSalle Street Chicago, IL 60603	305	9.37 %

The following table sets forth information about those members with an officer or director serving as a director of the Bank. Independent directors do not control any capital stock of the Bank.

As of January 31, 2024	Director Name	Regulatory Capital Stock ^a	% of Total
Devon Bank 6445 Western Avenue Chicago, IL 60645	David J. Loundy	\$ 6.68	0.21 %
Signature Bank 191 N. Wacker Drive Chicago, IL 60606	Michael G. O'Rourke	6.63	0.20 %
The Greenwoods State Bank 365 Tyranaena Park Road Lake Mills, WI 53551	James H. Hegenbarth	4.49	0.14 %
CNB Bank & Trust, N.A. 450 West Side Square Carlinville, IL 62626	James T. Ashworth	3.04	0.09 %
Waukesha State Bank 151 E. St. Paul Avenue Waukesha, WI 53187	Ty R. Taylor	2.29	0.07 %
Capitol Bank 710 N. High Point Road Madison, WI 53717	Kenneth D. Thompson	1.80	0.06 %
State Bank of Bement 180 E. Bodman Street Bement, IL 61813	Michelle L. Gross	0.88	0.03 %
Bristol Morgan Bank 103 S Main Street Oakfield, WI 53065	Joseph Fazio III	0.86	0.03 %
Forest Park National Bank and Trust Company 7348 W. Madison St. Forest Park, IL 60130	Daniel G. Watts	0.36	0.01 %
Solutions Bank 200 E. Main Street Forreston, IL 61030	Betsy Johnson	0.30	0.01 %
Total members with a Director as a group		\$ 27.33	0.85 %

^a The regulatory capital stock that a member institution owns is pledged to us as additional collateral on advances and all other outstanding obligations for that member.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Item 13. Certain Relationships and Related Transactions, and Director Independence.

Related Persons and Related Transactions

We are a cooperative and capital stock ownership is a prerequisite to transacting any member business with us. Our members (and, in limited circumstances, former members) own all of our capital stock.

Our Board of Directors consists of two types of directors: “member directors” and “independent directors”. Member directors are required to be directors or officers of our members, whereas independent directors cannot be directors or officers of a Bank member. For further discussion of the eligibility criteria for our directors, see **Nomination of Member Directors** and **Nomination of Independent Directors** on page 85. We have eight independent directors and ten member directors currently serving on our Board.

We conduct our advances business, the MPF Program, and letters of credit almost exclusively with members. Therefore, in the normal course of business, we extend credit to members whose officers and directors may serve as our directors and to members who may hold more than 5% of our capital stock. We extend credit to them on market terms that are no more favorable than the terms of comparable transactions with other members who are not considered related parties (as defined below). In addition, we may purchase short-term investments, sell federal funds to, and purchase MBS from members (or affiliates of members) whose officers or directors serve as our directors and members who may hold more than 5% of our capital stock. All such investments are market term transactions and all such MBS are purchased through securities brokers or dealers. Prior to 2024, as an additional service to our members, including those whose officers or directors serve as our directors and those that hold more than 5% of our stock, we may enter into interest rate derivatives with members and offset these derivatives with non-member counterparties. These transactions are executed on market terms.

Additionally, the Bank’s community investment activities include grant funding to support affordable housing and economic development initiatives, as well as discounted advances to support community lending. For a more details on our community investment activities, see **Community Investment Activities** on page 11. These activities may involve members and nonmembers and are conducted in the ordinary course of business of the Bank’s business. In instances where these transactions involve a member that owns more than 5% of the Bank’s capital stock, a member with an officer or director who is a director of the Bank, or an entity with an executive officer, director, controlling shareholder, or general partner who serves as a director of the Bank (and that has a direct or indirect interest in the subsidiary), the transaction is subject to the same eligibility and other program criteria and requirements as all other comparable transactions the Bank enters, and the transaction is subject to the regulations governing the operations of the relevant program.

We define a “related person” as any director or executive officer of the Bank, any member of their immediate families, or any holder of 5% or more of our capital stock.

During 2023, we did not have a separate written policy requiring the Board of Directors to review, approve, or ratify transactions with related persons that are outside the ordinary course of our business because such transactions rarely occur. However, it has been our practice to report to the Board all transactions between us and our members that are outside the ordinary course of business, and on a case-by-case basis, to seek approval or ratification from the Board, or recusal as needed. In addition, each director is required to disclose to the Board any personal financial interests he or she has and any financial interests of immediate family members or of a director's business associates where such person or entity does or proposes to do business with us. Under our Code of Ethics, executive officers are prohibited from engaging in conduct that would cause an actual or apparent conflict of interest. An executive officer other than the CEO and President may seek a waiver of this provision from the CEO and President, and the CEO and President may seek a waiver from the Board.

Director Independence

General

Our Board of Directors is required to evaluate and report on the independence of our directors under two distinct director independence standards. First, FHFA regulations establish independence criteria for directors who serve as members of our Audit Committee. Second, SEC rules require that our Board of Directors apply the independence criteria of a national securities exchange or automated quotation system in assessing the independence of the Bank’s directors and members of our board committees, to the extent the exchange or quotation system selected by the Bank has adopted separate independence rules for such committee members.

See **Information Regarding Current Directors of the Bank** on page 86 for more information on our current directors. None of our directors is a Bank employee or officer. Further, our directors are prohibited from personally owning stock in the Bank. Each of the member directors, however, is a senior officer or director of an institution that is one of our members, and our members are able, and are encouraged, to engage in transactions with us on a regular basis.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

FHFA Regulations Regarding Independence

The FHFA director independence standards prohibit an individual from serving as a member of our Audit Committee if he or she has one or more disqualifying relationships with us or our management that would interfere with the exercise of that individual's independent judgment. Relationships considered disqualifying by the FHFA include: employment with the Bank at any time during the last five years; acceptance of compensation from the Bank other than for service as a director; being a consultant, advisor, promoter, underwriter or legal counsel for the Bank at any time within the last five years; and being an immediate family member of an individual who is or who has been within the past five years, a Bank executive officer. Our Board of Directors assesses the independence of each director under the FHFA's independence standards, regardless of whether he or she serves on the Audit Committee. Our Board of Directors determined that all of our directors are independent under these criteria.

SEC Rules Regarding Independence

As described above, SEC rules require our Board to adopt a standard of independence to evaluate our directors. Pursuant thereto, the Board adopted the independence standards of the New York Stock Exchange (the NYSE) to determine which of our directors are independent, which members of our Audit Committee and HR&C Committee are not independent, and whether our Audit Committee's financial experts are independent.

Under the NYSE rules, no director qualifies as independent unless the full Board affirmatively determines that he or she has no material relationship with the company (either directly or as a partner, shareholder or officer of an organization that has a relationship with the company). In addition, the NYSE rules set out a number of specific disqualifications from independence, including certain employment relationships between the director or his or her immediate family members and the company, the company's internal or external auditor, another company where any of the company's executive officers is a compensation committee member or another company that conducted business with the company above a specified threshold during specified periods; and receipt by the director or his or her immediate family members of compensation from the company above a specified threshold during specified periods (with certain exceptions).

Applying the NYSE independence standards for boards of directors to our current member directors and those who served during 2023, our Board determined that only member directors Johnson, Reinke, and Watts did not trigger any of the objective NYSE independence disqualifications. However, based upon the fact that each member director is a senior officer or director of an institution that is a member of the Bank (and thus is an equity holder in the Bank), that each such institution routinely engages in transactions with us, and that such transactions occur frequently and are encouraged, the Board determined that at the present time it would conclude that none of these member directors, consisting of Ashworth, Fazio, Gross, Hegenbarth, Johnson, Loundy, O'Rourke, Reinke (whose term ended on December 31, 2023), Taylor, Thompson, and Watts meets the independence criteria under the NYSE independence standards. In contrast, none of the independent directors are employees or officers of institutions that are members of the Bank, and therefore do not have, ongoing business transactions with us (other than where an institution that an independent director is affiliated with has engaged in limited, ordinary course transactions with the Bank as part of our community investment programs). The Board determined that each of these independent directors, consisting of Brady (whose term ended on December 31, 2023), Burns, Cahillane, Eppli, Lockett, Newell, Scott, Wynne, and Zopp is independent under the NYSE independence standards. The Board also determined that the following current member directors serving on the Audit Committee, and member directors who served on the Audit Committee during 2023, are not independent under the NYSE independence standards for audit committees: Ashworth, Fazio, Gross, Hegenbarth, Loundy, Taylor, Thompson, and Watts. Finally, the Board also determined that the following current member directors serving on the HR&C Committee, and member directors who served on the HR&C Committee in 2023, are not independent under the NYSE independence standards for compensation committees: Ashworth, Fazio, Gross, Hegenbarth, Johnson, and Reinke.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Item 14. Principal Accountant Fees and Services.

The following table sets forth the aggregate fees we have been charged (or accrued) by our external accounting firm.

For the Years Ended December 31,	(in thousands)	
	2023	2022
Audit fees	\$ 1,207	\$ 1,094
Audit related fees	281	314
All other fees	2	6
Total fees	<u>\$ 1,490</u>	<u>\$ 1,414</u>

Audit fees were for professional services rendered for the audits of our financial statements. Audit related fees were for other assurance and related services. Other fees related to software license fees. No tax related fees were paid. No fees were paid for financial information system design or implementation.

Our Audit Committee has adopted the Pre-Approval of Audit-Related and Non-Audit Services Policy (the Policy). In accordance with the Policy and applicable law, the Audit Committee pre-approves audit services, audit-related services, and permissible non-audit services to be provided by its independent auditor. The term of any pre-approval of audit services is the Bank's financial year, and of audit-related and non-audit services in the calendar year, unless the Audit Committee specifically provides otherwise. On an annual basis, the Audit Committee reviews the list of specific services and projected fees for services to be provided for the next 12 months.

PART IV
Item 15. Exhibits, Financial Statements Schedules.

(a) See "2023 Annual Financial Statements and Notes"

(b) The below exhibits were filed with the Form 10-K Annual Report to the SEC on March 7, 2024, or as noted below, were filed with the Bank's previously filed Annual, Quarterly, or Current Reports or registration statements, copies of which may be obtained by going to the SEC's website at <http://www.sec.gov>. Each exhibit that is considered a management contract or compensatory plan or arrangement required to be filed is identified with a "*".

Item 16. Form 10-K Summary.

Not applicable.

Glossary of Terms

Advances: Secured loans to members.

ABS: Asset-backed-securities.

AFS: Available-for-sale debt securities.

Agency MBS: Mortgage-backed securities issued by, or comprised of mortgage loans guaranteed by, Fannie Mae or Freddie Mac.

AHP: Affordable Housing Program.

ALM Policy: Our Asset/Liability Management Policy.

AMA: Acquired Member Assets. Assets that an FHLB may acquire from or through FHLB System members or housing associates by means of either a purchase or a funding transaction.

AMA investment grade: A determination made by the Bank with respect to an asset or pool, based on documented analysis, including consideration of applicable insurance, credit enhancements, and other sources for repayment on the asset or pool, that the Bank has a high degree of confidence that it will be paid principal and interest in all material respects, even under reasonably likely adverse changes to expected economic conditions.

AVM: Automated Valuation Methodology. A service that provides real estate property valuations using mathematical modeling combined with a database.

AOI: Accumulated Other Comprehensive Income.

BEP: Benefit Equalization Plan.

Capital Plan: Capital Plan of the Federal Home Loan Bank of Chicago, effective as of May 3, 2021.

CDFI: Community Development Financial Institution.

CE Amount: A PFI's assumption of credit risk, beyond any Recoverable CE Income payments in the FLA, on conventional MPF Loan products held in an MPF Bank's portfolio that are funded by, or sold to, an MPF Bank by providing credit enhancement either through a direct liability to pay credit losses up to a specified amount or through a contractual obligation to provide SMI. Does not apply to the MPF Government, MPF Xtra, or MPF Government MBS product.

CE Income: Credit enhancement income. PFIs are paid credit enhancement income for managing credit risk and in some instances, all or a portion of the CE Income may be performance based.

CFI: Community Financial Institution - FDIC-insured institutions with an average of total assets over the prior three years which is less than the level prescribed by the FHFA and adjusted annually for inflation. Effective in January 2024, the limit is \$1.461 billion (for 2023, the limit was \$1.417 billion).

CO Curve: Consolidated Obligation curve. The Office of Finance constructs a market-observable curve referred to as the CO Curve. This curve is constructed using the U.S. Treasury Curve as a base curve which is then adjusted by adding indicative spreads obtained largely from market observable sources. These market indications are generally derived from pricing indications from dealers, historical pricing relationships, market activity such as recent GSE trades, and other secondary market activity.

Consolidated Obligations (CO): FHLB debt instruments (bonds and discount notes) which are the joint and several liability of all FHLBs; issued by the Office of Finance.

Consolidated obligation bonds: Consolidated obligations that make periodic interest payments with a term generally over one year, although we have issued for terms of less than one year.

COSO: The Committee of Sponsoring Organizations of the Treadway Commission. A joint initiative of the private sector dedicated to providing frameworks and guidance on enterprise risk management, internal control and fraud deterrence.

DCO: Derivatives Clearing Organization. A clearinghouse, clearing association, clearing corporation, or similar entity that enables each party to an agreement, contract, or transaction to substitute, through novation or otherwise, the credit of the DCO for the credit of the parties; arranges or provides, on a multilateral basis, for the settlement or netting of obligations; or otherwise provides clearing services or arrangements that mutualize or transfer credit risk among participants.

Discount notes: Consolidated obligations with a term of one year or less, which sell at less than their face amount and are redeemed at par value when they mature.

DPP: Downpayment Plus.

ERISA: Employee Retirement Income Security Act.

Excess capital stock: Capital stock held by members in excess of their minimum investment requirement.

Fannie Mae: Federal National Mortgage Association.

FASB: Financial Accounting Standards Board.

FCM: Futures Commission Merchant.

FDIC: Federal Deposit Insurance Corporation.

Federal Reserve: Federal Reserve Bank of New York.

FFELP: Federal Family Education Loan Program.

FHA: Federal Housing Administration.

FHFA: Federal Housing Finance Agency - The Housing Act created the Federal Housing Finance Agency which became the regulator of the FHLBs.

FHFA Purchase Only House Price Index (HPI): The HPI is a broad measure of the movement of single-family house prices. The HPI is a weighted, repeat-sales index, meaning that it measures average price changes in repeat sales or refinancings on the same properties. This information is obtained by reviewing repeat mortgage transactions on single-family properties whose mortgages have been purchased or securitized by Fannie Mae or Freddie Mac since January 1975.

FHLB Act: The Federal Home Loan Bank Act of 1932, as amended.

FHLBs: The 11 Federal Home Loan Banks or subset thereof.

FHLB System: The 11 FHLBs and the Office of Finance.

FHLB Chicago: The Federal Home Loan Bank of Chicago.

Finance Board: The Federal Housing Finance Board. We were supervised and regulated by the Finance Board, prior to creation of the Federal Housing Finance Agency as regulator of the FHLBs by the Housing Act, effective July 30, 2008.

FLA: First loss account is a memo account used to track the MPF Bank's exposure to losses until the CE Amount is available to cover losses.

Freddie Mac: Federal Home Loan Mortgage Corporation.

GAAP: Generally Accepted Accounting Principles in the United States of America.

Ginnie Mae: Government National Mortgage Association.

Ginnie Mae MBS: Mortgage-backed securities guaranteed by Ginnie Mae.

FHLBank
Chicago

Federal Home Loan Bank of Chicago

GLB Act: Gramm-Leach-Bliley Act of 1999.

Government Loans: Mortgage loans insured or guaranteed by the Federal Housing Administration (FHA), the Department of Housing and Urban Development (HUD), the Department of Veteran Affairs (VA) or Department of Agriculture Rural Housing Service (RHS).

GSE: Government sponsored enterprise.

HFS: Held for sale.

Housing Act: Housing and Economic Recovery Act of 2008, enacted July 30, 2008.

HR&C Committee: Human Resources and Compensation Committee.

HUD: Department of Housing and Urban Development.

HTM: Held-to-maturity debt securities.

JCE Agreement: Joint Capital Enhancement Agreement entered into by all FHLBs, effective February 28, 2011 and amended August 5, 2011, which is intended to enhance the capital position of each FHLB. The intent of the agreement is to allocate that portion of each FHLB's earnings to a separate retained earnings account at that FHLB.

LIBOR: London Interbank Offered Rate.

Liquidity AB: Advisory Bulletin 2018-07 Liquidity Guidance, issued by the FHFA on August 23, 2018.

LTV: Loan-to-value ratio.

Master Commitment (MC): Pool of MPF Loans purchased or funded by an MPF Bank.

MBS: Mortgage-backed securities.

Moody's: Moody's Investors Service.

MPF[®]: Mortgage Partnership Finance.

MPF Banks: FHLBs that participate in the MPF Program.

MPF Government MBS product: The MPF Program product under which we aggregate Government Loans acquired from PFIs in order to issue securities guaranteed by the Ginnie Mae that are backed by such Government Loans.

MPF Guides: MPF program guide, MPF selling guide, and MPF servicing guide including the selling and servicing guides and manuals for specific MPF Loan products.

MPF Loans: Conventional and government mortgage loans secured by one-to-four family residential properties with maturities from five to 30 years.

MPF Program: A secondary mortgage market structure that provides liquidity to FHLB members that are PFIs through the purchase or funding by an FHLB of MPF Loans.

MPF Provider: The Federal Home Loan Bank of Chicago, in its role of providing programmatic and operational support to the MPF Banks and their PFIs.

MPF Xtra[®] product: The MPF Program product under which we acquire MPF Loans from PFIs without any CE Amount and concurrently resell them to Fannie Mae.

MRCS: Mandatorily redeemable capital stock.

MSA: Metropolitan Statistical Areas (MSAs) are geographic entities delineated by the Office of Management and Budget for use by federal statistical agencies. MSAs consist of the county or counties (or equivalent entities) associated with at least one urbanized area of at least 50,000 population, plus adjacent counties having a high degree of social and economic integration with

the core as measured through commuting ties.

NEO: Named executive officer.

Nonaccrual MPF Loans: Nonperforming mortgage loans in which the collection of principal and interest is determined to be doubtful or when interest or principal is past due for 90 days or more, except when the MPF Loan is well secured and in the process of collection.

NRSRO: Nationally Recognized Statistical Rating Organization.

NYSE: New York Stock Exchange.

OCI: Other Comprehensive Income.

Office of Finance: A joint office of the FHLBs established by the Finance Board to facilitate issuing and servicing of consolidated obligations.

OIS: Fed Funds Effective Swap Rate (or Overnight Index Swap Rate).

OTTI: Other-than-temporary impairment.

OTTI Committee: An FHLB System OTTI Committee formed by the FHLBs to achieve consistency among the FHLBs in their analyses of the OTTI of PLMBS.

PCAOB: Public Company Accounting Oversight Board.

Pension Plan: Pentegra Defined Benefit Plan for Financial Institutions.

PFI: Participating Financial Institution. A PFI is a member (or eligible housing associate) of an MPF Bank that has applied to and been accepted to do business with its MPF Bank under the MPF Program.

PFI Agreement: MPF Program Participating Financial Institution Agreement.

PLMBS: Private label mortgage-backed securities.

PMI: Primary Mortgage Insurance.

PwC: PricewaterhouseCoopers LLP.

RCAP: Reduced Capitalization Advance Program.

Recoverable CE Income: Under the MPF Program, the PFI may receive a contingent performance based credit enhancement income payment whereby such income is reduced up to the amount of the FLA by losses arising under the Master Commitment.

Regulatory capital: Regulatory capital stock plus retained earnings.

Regulatory capital stock: The sum of the paid-in value of capital stock and mandatorily redeemable capital stock.

REO: Real estate owned.

RHS: Department of Agriculture Rural Housing Service.

S&P: Standard and Poor's Rating Service.

Savings Plan: Pentegra Defined Contribution Plan for Financial Institutions.

SBA: Small Business Administration.

SEC: Securities and Exchange Commission.

Secretary: Secretary of the U.S. Treasury.

FHLBank
Chicago

Federal Home Loan Bank of Chicago

SMI: Supplemental mortgage insurance.

SOFR: Secured Overnight Financing Rate.

System or FHLB System: The Federal Home Loan Bank System consisting of the 11 Federal Home Loan Banks and the Office of Finance.

TBA: A forward contract on a mortgage-backed security (MBS), typically issued by a U.S. government sponsored entity, whereby a seller agrees to deliver an MBS for an agreed upon price on an agreed upon date.

TDR: Troubled Debt Restructuring.

UPB: Unpaid Principal Balance.

U.S.: United States.

VA: Department of Veterans Affairs.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of the
Federal Home Loan Bank of Chicago

Opinions on the Financial Statements and Internal Control over Financial Reporting

We have audited the accompanying statements of condition of the Federal Home Loan Bank of Chicago (the “Bank”) as of December 31, 2023 and 2022, and the related statements of income, comprehensive income, capital and cash flows for each of the three years in the period ended December 31, 2023, including the related notes (collectively referred to as the “financial statements”). We also have audited the Bank’s internal control over financial reporting as of December 31, 2023, based on criteria established in *Internal Control - Integrated Framework* (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Bank as of December 31, 2023 and 2022, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2023 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Bank maintained, in all material respects, effective internal control over financial reporting as of December 31, 2023, based on criteria established in *Internal Control - Integrated Framework* (2013) issued by the COSO.

Basis for Opinions

The Bank’s management is responsible for these financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in Management’s Report on Internal Control over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on the Bank’s financial statements and on the Bank’s internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Bank in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the financial statements included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

Definition and Limitations of Internal Control over Financial Reporting

A company’s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Critical Audit Matters

The critical audit matter communicated below is a matter arising from the current period audit of the financial statements that was communicated or required to be communicated to the audit committee and that (i) relates to accounts or disclosures that are material to the financial statements and (ii) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Valuation of Interest-Rate Derivatives and Hedged Items

As described in Notes 9 and 15 to the financial statements, the Bank uses derivatives to manage interest rate risk. The total notional amount of derivatives as of December 31, 2023 was \$135 billion, of which 94% were designated as hedging instruments, and the fair value of derivative assets and liabilities as of December 31, 2023 was \$82 million and \$20 million, respectively. The fair values of interest-rate derivatives and hedged items not transacted in an active market use standard valuation techniques, such as discounted cash-flow analysis and comparisons to similar instruments. The discounted cash-flow analysis uses market-observable inputs, related to interest rate curves, volatility, and, if applicable, prepayment assumptions.

The principal considerations for our determination that performing procedures relating to the valuation of interest-rate derivatives and hedged items is a critical audit matter are the significant audit effort in evaluating the interest rate curves, volatility, and, if applicable, prepayment assumptions used to fair value these derivatives and hedged items, and the audit effort involved the use of professionals with specialized skill and knowledge.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the financial statements. These procedures included testing the effectiveness of controls relating to the valuation of interest-rate derivatives and hedged items, including controls over the method, data and assumptions. These procedures also included, among others, the involvement of professionals with specialized skill and knowledge to assist in developing an independent range of prices for a sample of interest rate derivatives and hedged items and comparison of management's estimate to the independently developed ranges. Developing the independent range of prices involved testing the completeness and accuracy of data provided by management and independently developing the interest rate curves, volatility, and, if applicable, prepayment assumptions.

**Notes to Financial Statements****(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)****Note 1 – Background and Basis of Presentation**

The Federal Home Loan Bank of Chicago is a federally chartered corporation and one of 11 Federal Home Loan Banks (the FHLBs) that, with the Office of Finance, comprise the Federal Home Loan Bank System (the System). The FHLBs are government-sponsored enterprises (GSEs) of the United States of America and were organized under the Federal Home Loan Bank Act of 1932, as amended (FHLB Act), in order to improve the availability of funds to support home ownership. We are supervised and regulated by the Federal Housing Finance Agency (FHFA), an independent federal agency in the executive branch of the United States (U.S.) government.

Each FHLB is a member-owned cooperative with members from a specifically defined geographic district. Our defined geographic district is Illinois and Wisconsin. All federally insured depository institutions, insurance companies engaged in residential housing finance, credit unions and CDFIs located in our district are eligible to apply for membership with us. All our members are required to purchase our capital stock as a condition of membership. Our capital stock is not publicly traded, and is issued, repurchased or redeemed at par value, \$100 per share, subject to certain statutory and regulatory limits. As a cooperative, we do business with our members, and former members (under limited circumstances). Specifically, we provide credit principally in the form of secured loans called advances. We also provide liquidity for home mortgage loans to members approved as PFIs through the MPF Program.

Our accounting and financial reporting policies conform to generally accepted accounting principles in the United States of America (GAAP). Amounts in prior periods may be reclassified to conform to the current presentation and, if material, are disclosed in the following notes.

Unless otherwise specified, references to we, us, our, and the Bank are to the Federal Home Loan Bank of Chicago.

"Mortgage Partnership Finance", "MPF", "eMPF", "MPF Xtra", "Downpayment Plus", "DPP", "Downpayment Plus Advantage", "DPP Advantage", and "Community First" are federally registered trademarks of the Federal Home Loan Bank of Chicago.

Refer to the **Glossary of Terms** on page 124 for the definitions of certain terms used herein.

Use of Estimates and Assumptions

We are required to make estimates and assumptions when preparing our financial statements in accordance with GAAP. The most significant of these estimates and assumptions applies to fair value measurements, which includes derivative instruments. Our actual results may differ from the results reported in our financial statements due to such estimates and assumptions. This includes the reported amounts of assets and liabilities, the reported amounts of income and expense, and the disclosure of contingent assets and liabilities.

**Notes to Financial Statements****(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)****Basis of Presentation**

Gross versus Net Presentation - We present derivative assets and liabilities on a net basis in our **Statements of Condition** when our right to net amounts due between us and our counterparty, or us and our clearing agent, is enforceable at law. We include accrued net interest settlements and cash collateral, including initial and variation margin, in the carrying amount of a derivative. Over-the-counter derivatives are netted by contract (e.g., master netting agreement), to discharge all or a portion of the amounts that would be owed to our counterparty by applying them against the amounts that our counterparty owes to us. Additionally, we clear certain derivatives transactions with clearinghouses classified as a Derivatives Clearing Organization (DCO), through Futures Commission Merchants (FCM), a clearing member of the DCO. If these netted amounts are positive, they are classified as a derivative asset and if negative, they are classified as a derivative liability. We characterize the treatment of variation margin payments as settlements rather than as collateral for our cleared derivatives. As a result, we account for variation margin payments as settlements to our derivative assets and derivative liabilities. See **Note 2 - Summary of Significant Accounting Policies** for further details.

The net exposure for these financial instruments can change on a daily basis; therefore, there may be a delay between the time this exposure change is identified and additional collateral is requested, and the time when this collateral is received or pledged. Likewise, there may be a delay for excess collateral to be returned. For derivative instruments that meet the netting requirements, any excess cash collateral received or pledged is recognized as a derivative liability or asset. Derivatives that do not have the legal right of offset are presented on a gross basis in our **Statements of Condition**.

Refer to **Note 9 - Derivatives and Hedging Activities** for further details.

Our policy is to report securities purchased under agreements to resell and securities sold under agreements to repurchase, if any, and securities borrowing transactions, if any, on a gross basis.

Consolidation of Variable Interest Entities - We are not the primary beneficiary of any variable interest entity. Specifically, we do not have the power to direct the activities of any variable interest entity that would most significantly impact its economic performance and we do not have the obligation to absorb losses or the right to receive benefits from any variable interest entity that could potentially be significant to a variable interest entity. As a result, we do not consolidate any of our investments in variable interest entities. Instead, we classify variable interest entities as investment debt securities in our **Statements of Condition**. Such investment debt securities include, but are not limited to, Federal Family Education Loan Program asset backed securities (FFELP ABS). Additionally, under its MPF program, the Bank may also purchase loans from PFIs and simultaneously sell these loans to investors who, in turn, may securitize them. Simultaneous with the sale of these loans, the Bank may purchase the MBS backed by these loans, which represent variable interests in securitization vehicles. We do not consolidate these securitization vehicles as we are not the primary beneficiary for the reasons described above. Refer to **Note 2 - Summary of Significant Accounting Policies** for further details.

Our maximum loss exposure for the securitizations described above is limited to the carrying amounts of the securities we purchase. We have no liabilities related to these securitizations. We have not provided financial or other support (explicitly or implicitly) to these securitizations that we were not previously contractually required to provide, nor do we intend to provide such support in the future.

Notes to Financial Statements

(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)

Note 2 – Summary of Significant Accounting Policies
Currently Expected Credit Losses

Currently Expected Credit Losses (CECL) is the measurement of credit losses on financial assets carried at amortized cost, which includes loans and held-to-maturity (HTM) securities, presented at the net amount expected to be collected. Credit losses relating to these financial instruments as well as available-for-sale (AFS) securities are recorded through an allowance for credit losses. The measurement of CECL is based on relevant information about certain events, including historical experience, current conditions, and reasonable and supportable forecasts that affect the collectability of the financial instrument's reported amount. Expected recoveries of amounts previously written off and expected to be written off should be included in the allowance for credit losses determination but should not exceed the aggregate of amounts previously written off and expected to be written off by us. In addition, for collateral dependent financial assets, an allowance for credit losses that is added to the amortized cost of the financial asset(s) should not exceed amounts previously written off. We present accrued interest receivable separately from the amortized cost of loans, AFS debt securities, and HTM debt securities in Other assets on our **Statements of Condition**. An allowance for credit losses determination is not required because we recognize the reversal of interest on a monthly basis in the event of an interest shortfall. The accounting for HTM and available for sale (AFS) debt securities changed on a prospective basis. Additionally, HTM and AFS debt securities will have their own allowance for credit losses, as applicable.

Fair Value

Fair value represents the exit price that we would receive to sell an asset or pay to transfer a liability in an orderly transaction with a market participant at the measurement date.

Valuation Techniques and Significant Inputs

We utilize the fair value hierarchy when selecting valuation techniques and significant inputs to measure the fair value of our assets and liabilities. Our valuation techniques may utilize market, cost, and/or income models to estimate fair values. Under the fair value hierarchy, valuation techniques and significant inputs are prioritized from the most objective, such as quoted market prices in external active markets, to the least objective, such as valuation approaches that utilize unobservable inputs. The fair value hierarchy requires us to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Outlined below is an overview of Level 1, Level 2, and Level 3 of the fair value hierarchy. Refer to **Note 15 - Fair Value** for further details on our valuation techniques and significant inputs.

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that we can access at the measurement date.

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. If the asset or liability has a specified (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs are unobservable inputs used to measure fair value of an asset or liability to the extent that relevant observable inputs are not available; for example, situations in which there is little, if any, market activity for the asset or liability at the measurement date.

Fair Value Option

Financial instruments for which we elect the fair value option are carried at fair value with any changes in fair value immediately recognized as noninterest income - instruments held under the fair value option in our **Statements of Income**. Interest income or expense recognized in our **Statements of Income** on these financial instruments is based solely on the contractual amount of interest due or unpaid, except for our zero-coupon rate discount notes for which we accrete the initial discount into interest expense over the life of the discount note. Any transaction fees or costs, are immediately recognized into noninterest expense - other, net in our **Statements of Income**. See **Note 15 - Fair Value** to the financial statements for further details.

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)
Cash and Cash Equivalents

We consider only cash and due from banks as cash and cash equivalents. We do not have any restricted cash.

Interest-Bearing Deposits, Federal Funds Sold and Securities Purchased Under Agreements to Resell

We invest in interest-bearing deposits, securities purchased under agreements to resell, and federal funds sold. Securities purchased under agreements to resell are accounted for as short-term collateralized loans. These investments provide short-term liquidity and are carried at amortized cost. Accrued interest receivable is presented separately in our **Statements of Condition**.

Interest-bearing deposits, federal funds sold, and securities purchased under agreements to resell are evaluated quarterly for expected credit losses. Under CECL, the Bank uses the collateral maintenance provision practical expedient for our securities purchased under agreements to resell, which allows expected credit losses to be measured based on the difference between the fair value of the collateral and the investment's amortized cost. Consequently, a credit loss would be recognized if there is a collateral shortfall which the Bank does not believe the counterparty will replenish in accordance with its contractual terms. The credit loss would be limited to the difference between the fair value of the collateral and the investment's amortized cost. These investments provide short-term liquidity and are carried at amortized cost. If applicable, an allowance for credit losses is recorded with a corresponding adjustment to the provision (reversal) for credit losses. We did not establish an allowance for credit losses for our unsecured overnight interest-bearing deposits or federal funds sold as of December 31, 2023 since all federal funds sold were repaid and all unsecured overnight interest-bearing deposits were returned according to their contractual terms.

Investment Debt Securities

We record purchases and sales of investment debt securities (securities) on a trade date basis. We classify securities as either trading, available-for-sale (AFS), or held-to-maturity (HTM) based on the criteria outlined below. Classification is made at the time a security is acquired and then reassessed on a quarterly basis or as the need arises.

- Securities held solely for liquidity purposes are classified as trading and are carried at fair value. We are prohibited from holding trading debt securities for speculative purposes pursuant to FHFA regulations.
- Securities held to provide additional earnings are classified as HTM. Classification as HTM requires that we have both the intent and ability to hold the security to maturity.
- Securities not classified as either trading or HTM are classified as AFS; for example, securities held for asset-liability management purposes.

Our accounting policies for trading, AFS and HTM debt securities are outlined below. For all securities the cost of a security sold or the amount reclassified out of accumulated other comprehensive income into earnings is determined on a specific identification basis.

Trading debt securities are carried at fair value with any changes in fair value immediately recognized as noninterest income on trading debt securities in our **Statements of Income**. As a result, trading debt securities are not assessed for credit losses. Interest income on trading debt securities is based solely on the contractual amount of interest due, except for securities, if any, that have a zero-coupon rate. For trading debt securities with a zero-coupon rate, we accrete the initial discount into interest income over their life into our **Statements of Income**. Cash flows from trading debt securities, excluding cash flows from our securitized MPF Government MBS product, are presented on a gross basis and classified as investing activities in our **Statements of Cash Flows**. Cash flows from our securitized MPF Government MBS product are classified as operating activities in our **Statements of Cash Flows**.

AFS securities are carried at fair value with any changes in fair value immediately recognized into Other Comprehensive Income (OCI) as net unrealized gains (losses) on AFS securities, except for AFS securities that are in a fair value hedge relationship. Changes in fair value related to the benchmark interest rate on AFS securities in a fair value hedging relationship are immediately recognized into interest income in our **Statements of Income** together with the related change in the fair value of the derivative with the remainder of the change in fair value of the security recorded in OCI as net unrealized gains (losses) on AFS securities.

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)

For securities classified as AFS, we evaluate an individual security for impairment on a quarterly basis. Impairment exists when the fair value of the investment is less than its amortized cost basis (i.e., in an unrealized loss position). In assessing whether a credit loss exists on an impaired security, we consider whether there would be a shortfall in receiving all cash flows contractually due. When a shortfall is considered possible, we compare the present value of cash flows expected to be collected from the security with the amortized cost basis of the security. If the present value of cash flows is less than amortized cost basis, an allowance for credit losses is recorded with a corresponding adjustment to the provision (reversal) for credit losses. The allowance is limited to the amount of the unrealized loss. If management intends to sell an AFS security in an unrealized loss position or more likely than not will be required to sell the security before expected recovery of its amortized cost, any allowance for credit losses is written off and the amortized cost basis is written down to the security's fair value at the reporting date. If management does not intend to sell an AFS security, and it is not more likely than not that management will be required to sell the debt security, then the unrealized loss is recorded as net unrealized gains (losses) on AFS securities within OCI.

For improvements in impaired AFS securities with an allowance for credit losses recognized after the adoption of CECL guidance, the allowance for credit losses associated with recoveries may be derecognized up to its full amount.

HTM securities are carried at amortized cost. Amortized cost represents the original cost of a security adjusted for accretion, amortization, collection of principal, and write-downs on or subsequent to January 1, 2020 recognized into earnings (less any cumulative effect adjustments). Accrued interest receivable is presented separately in our **Statements of Condition**.

HTM securities are evaluated quarterly for expected credit losses on a pool basis unless an individual assessment is deemed necessary because the securities do not possess similar risk characteristics. In assessing whether a credit loss exists on an impaired security, we consider whether there is expected to be a shortfall in receiving all cash flows contractually due. When a shortfall is considered possible, we compare the present value of cash flows expected to be collected from the security with the amortized cost of the security. If the present value of cash flows is less than amortized cost, an allowance for credit losses is recorded with a corresponding adjustment to the provision (reversal) for credit losses. Prior to January 1, 2020, credit losses were recorded as a direct write-down of the HTM security carrying value.

For improvements in cash flows on impaired HTM securities with an allowance for credit losses recognized after the adoption of CECL guidance, the allowance for credit losses associated with recoveries may be derecognized up to its full amount. Specifically, we evaluate the yield of each impaired HTM security on a quarterly basis. We adjust the impaired security's yield for subsequent increases or decreases in its estimated cash flows, if any. The adjusted yield is then used to calculate the amount to be recognized into interest income over the remaining life of the impaired security. For improvements in impaired HTM securities with an allowance for credit losses recognized after the adoption of CECL guidance, the allowance for credit losses associated with recoveries may be derecognized up to its full amount. HTM securities are evaluated quarterly for expected credit losses on a pool basis unless an individual assessment is deemed necessary because the securities do not possess similar risk characteristics. In assessing whether a credit loss exists on an impaired security, we consider whether there is expected to be a shortfall in receiving all cash flows contractually due. When a shortfall is considered possible, we compare the present value of cash flows expected to be collected from the security with the amortized cost of the security. If the present value of cash flows is less than amortized cost, an allowance for credit losses is recorded with a corresponding adjustment to the provision (reversal) for credit losses. Prior to January 1, 2020, credit losses were recorded as a direct write-down of the HTM security carrying value.

Certain changes in circumstances may cause us to change our intent to hold a security to maturity without calling into question our intent to hold other debt securities to maturity in the future. The sale or transfer of an HTM security due to changes in circumstances, such as evidence of significant credit deterioration in the issuer's creditworthiness or changes in regulatory requirements, is not considered inconsistent with its original classification. Other events that are isolated, nonrecurring, and unusual for us that could not have been reasonably anticipated by us may cause us to sell or transfer an HTM security without necessarily calling into question our intent to hold other debt securities to maturity. Further, the sale of an HTM debt security would not be considered inconsistent with its classification as HTM if (1) the sale occurs near enough to its maturity date (for example, within three months of maturity) or call date if exercise of the call is probable, that interest rate risk is substantially eliminated as a pricing factor and the changes in market interest rates would not have a significant effect on the security's fair value; or (2) the sale of the security occurs after the Bank has already collected a substantial portion (at least 85%) of the principal outstanding due either to prepayments on the debt security or to scheduled payments on a debt security payable in equal installments (both principal and interest) over its term.

We use the interest method to amortize/accrete premiums/discounts on HTM and AFS securities into interest income in our **Statements of Income**. HTM and AFS securities having a prepayment feature amortize/accrete premiums/discounts over their estimated lives based on anticipated prepayments. We recalculate their effective yield on an ongoing basis to reflect actual payments to date and anticipated future payments. HTM and AFS securities that do not have a prepayment feature amortize/accrete premiums/discounts over their contractual life.

Gains and losses on sales of securities are included in noninterest income in our **Statements of Income**.

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)
Advances

An advance is carried at its amortized cost, except when we elect the fair value option. Amortized cost represents the original amount funded to our member adjusted for any accretion, amortization, collection of cash, and fair value hedge accounting adjustments, if any. Fair value hedge adjustments include ongoing (open) and/or discontinued (closed) fair value hedges. We utilize the interest method to amortize/accrete over contractual life any premiums/discounts and closed fair value and/or cash flow hedging adjustments. Pursuant to CECL, accrued interest receivable is presented separately on our **Statements of Condition** except for advances for which we elected the fair value option. The advances carried at amortized cost are evaluated quarterly for expected credit losses. If deemed necessary, an allowance for credit losses is recorded with a corresponding adjustment to the provision (reversal) for credit losses. Refer to **Note 6 - Advances** and **Note 8 - Allowance for Credit Losses** for further details.

In cases where the Bank funds a new advance concurrently with or within a short period of time before or after the prepayment of an existing advance, it evaluates whether it constitutes a new advance. If the Bank concludes the difference is more than minor based on using both quantitative and qualitative assessments of the modifications made to the original contractual terms, then the advance is accounted for as a new advance. The existing advance is considered terminated with any prepayment fees and related hedging adjustments are immediately recognized into interest income. Prepayment fees on advances treated as modifications are deferred and amortized as a yield adjustment to interest income.

We issued advances with a zero-coupon interest rate in 2021 as part of our COVID-19 relief program. We imputed an interest rate based on prevailing market rates creating a discount on the advance with the offset immediately recognized to the COVID-19 relief program expense. We accreted the discount as a yield adjustment to interest income over the life of the advance.

MPF Loans
MPF Loans Held in Portfolio

MPF Loans for which we have the intent and ability to hold for the foreseeable future, or until maturity or payoff, are classified as MPF Loans held in portfolio. Such loans are carried on an amortized cost basis in our **Statements of Condition**. Amortized cost represents the initial fair value amount of the MPF delivery commitment as of the purchase or settlement date, agent fees (i.e., market risk premiums or discounts paid to or received from PFIs), if any, subsequently adjusted, if applicable, for accretion, amortization, collection of cash, charge-offs, and cumulative basis adjustments related to fair value hedges. We use the interest method to amortize yield adjustments into interest income in our **Statements of Income** over the contractual life of an MPF Loan held in portfolio. Accrued interest receivable is presented separately in our **Statements of Condition**. The Bank performs a quarterly assessment of its mortgage loans held in portfolio to estimate expected credit losses. An allowance for credit losses is recorded with a corresponding adjustment to the provision (reversal) for credit losses.

Pursuant to CECL, the Bank measures expected credit losses on mortgage loans on a collective basis, pooling loans with similar risk characteristics. If a mortgage loan no longer shares risk characteristics with other loans, it is removed from the pool and evaluated for expected credit losses on an individual basis. Such loans are considered collateral dependent loans. Specifically, a loan is considered collateral dependent if repayment is expected to be provided substantially through the sale of the collateral when the borrower is experiencing financial difficulty based on the entity's assessment as of the reporting date. A loan that is considered collateral dependent is measured for credit loss on an individual basis based on the fair value of the underlying property less estimated selling costs, with any shortfall recognized as an allowance for credit loss or charged-off. When developing the allowance for credit losses, the Bank measures the estimated loss over the remaining life of a mortgage loan, which also considers how the Bank's credit enhancements mitigate credit losses. If a loan is purchased at a discount, the discount does not offset the allowance for credit losses. The allowance excludes uncollectible accrued interest receivable, as the Bank writes off accrued interest receivable by reversing interest income if a mortgage loan is placed on nonaccrual status.

The Bank includes estimates of expected recoveries within the allowance for credit losses. See **Note 8 – Allowance for Credit Losses** for details on the allowance methodologies relating to mortgage loans. See **Note 7 - MPF Loans Held in Portfolio** for further details pertaining to the MPF Program and MPF Loans.

MPF Loans Held for Sale/Sold

MPF Loans acquired by the Bank under the MPF Government MBS product are classified as MPF Loans held for sale (HFS). We classify MPF Loans HFS in Other Assets rather than as a separate line item in our **Statements of Condition** on the basis of materiality. Other products such as MPF Xtra loans are generally bought and resold on the same day. They qualify for sales accounting treatment and thus are not carried on our balance sheet at the end of a reporting period. MPF Loans under the MPF Government MBS product qualify, once sold, for sales accounting treatment and are reclassified from MPF Loans HFS to trading debt securities upon their securitization. Refer to **Note 1 – Background and Basis of Presentation** which further expands on our involvement with these securitizations. Cash flows from the MPF Government MBS product are classified as operating

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)

activities in our **Statements of Cash Flows**. We have elected the fair value option for these HFS MPF Loans on our balance sheet.

We make customary representations and warranties regarding the underwriting and loan eligibility of MPF Loans that are sold to third party investors. If a loan underwriting requirement or other warranty is breached, these third parties could require us to repurchase the MPF Loan or provide an indemnity. We establish reserves for mortgage representation and warranty related matters when it is probable that a loss associated with a claim or proceeding has been incurred and the amount of the loss can be reasonably estimated. For the periods presented, the reserves associated with these representations and warranties were not material.

The Bank does not own the servicing rights related to these sold loans because the servicing is either retained by the PFI or sold by the PFI to a third party. The Bank has ongoing operating expenses related to administering these loans that are expensed as incurred.

Cash related to loan these programs is maintained in custodial accounts and is not included in the financial statements, but certain loan costs and other related administration fees are recognized into noninterest income - MPF fees in our **Statements of Income** as follows:

- Third party transaction costs attributable to the sale and securitization of MPF Loans HFS/Sold are recognized as a component of the gain or loss on sale of the transferred financial assets.
- Administration fees on loans serviced by the PFI are recognized on a straight-line basis over the life of the loan. For MPF Loans HFS/Sold where servicing is released, the fees are recognized immediately.

Allowance for Credit Losses

We determine an allowance for credit losses, if any, for each of our portfolio segments based on CECL. A portfolio segment represents the level of disaggregation we utilize to develop and document a systematic method for determining an allowance for credit losses attributable to our financing receivables. An allowance for credit losses is a contra valuation account attributable to an on-balance sheet portfolio segment. We recognize the change in our allowance for credit losses during the reporting period as a provision for (reversal of) credit losses in our **Statements of Income**. We establish a separate liability for credit losses, if any, attributable to off-balance sheet financial instruments, such as standby letters of credit (also referred to herein as letters of credit), using the same approach described above for on-balance sheet financial instruments. We recognize the change in credit losses attributable to off-balance sheet financial instruments during the reporting period, if any, as a provision for (reversal of) credit losses in our **Statements of Income**.

Charge-off Policy

We recognize a charge-off on an MPF Loan upon the occurrence of a confirming event, which include, but are not limited to, the events shown below. The charge-off amount equals the difference between the loan's amortized cost and its fair value, less costs to sell. We use an Automated Valuation Methodology (AVM) to determine the fair value of our impaired conventional MPF Loans held in portfolio, including troubled debt restructurings, and real estate owned (REO). The charge-off policy does not apply to Government Loans which are guaranteed.

- At foreclosure following the acquisition of REO unless a gain is recognized in noninterest income because the REO's fair value is supportable by objective evidence in the marketplace.
- When a loan is 180 days or more past due and its fair value, less cost to sell, is less than the loan's amortized cost, except when there is a presumption that the loan's amortized cost will be collected.
- When a borrower is in bankruptcy, loans are written down to the fair value of the collateral, less costs to sell, within 60 days of receipt of the notification of filing from the bankruptcy court or within the delinquency time frames specified in the adverse classification guidance, whichever is shorter. A loan is not written down if the loan is performing, the borrower continues making payments on the loan, and repayment in full is expected.
- Fraudulent loans, not covered by any existing representations and warranties in the loan purchase agreement, are charged off within 90 days of discovery of the fraud, or within the delinquency time frames specified in the adverse classification guidance, whichever is shorter.

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)
Past Due

Past due loans are those where the borrower has failed to make a payment of principal and interest within 30 days of its due date. In determining a single family mortgage loan's delinquency status, the Bank may use one of two methods to recognize partial payments. A payment equivalent to 90 percent or more of the contractual payment may be considered a full payment in computing delinquency. Alternatively, the Bank may use the paid through date. In the latter case, credit is given for aggregate partial payments received.

If the Bank can clearly document that the delinquent loan is well secured and in the process of collection, such that collection will occur regardless of delinquency status, then the loan need not be adversely classified. A well secured loan is collateralized by a perfected security interest in real property with an estimated fair value, less cost to sell, sufficient to recover the amortized cost in the loan. In the process of collection means that either a collection effort or legal action is proceeding and is reasonably expected to result in recovery of the loan balance or restoration of the loan to a current status, generally within the next 90 days. Other exceptions to this adverse classification policy might be for loans that are supported by valid insurance claims, like federal loan guarantee programs.

Nonaccrual

Conventional MPF Loans held in portfolio are placed on nonaccrual when they become 90 days past due and/or are "adversely classified" - that is, when a loan is classified as "Substandard", "Doubtful", or "Loss".

An adverse classification means that such a loan is not considered well secured and is in the process of collection. All previously accrued but not collected interest is reversed from interest income. Subsequent accruals of interest income are discontinued. Ongoing recognition of any discounts, premiums, deferred loan origination fees or costs, and hedge basis adjustments also are discontinued.

As a general rule, a nonaccrual asset may be restored to accrual status when (1) none of its principal and interest is due and unpaid, and the Bank expects repayment of the remaining contractual principal and interest, or (2) when it otherwise becomes well secured and in the process of collection.

Off-Balance Sheet Credit Exposures

The Bank evaluates its off-balance sheet credit exposures on a quarterly basis for expected credit losses. If deemed necessary, we establish a separate liability for credit losses, if any, attributable to off-balance sheet financial instruments, such as standby letters of credit (also referred to herein as letters of credit), using the same approach described above for on-balance sheet financial instruments. We recognize the change in credit losses attributable to off-balance sheet financial instruments during the reporting period, if any, as a provision for or (reversal of) credit losses in our **Statements of Income**.

Refer to **Note 8 - Allowance for Credit Losses** for further details.

Derivatives

We presented hedge ineffectiveness and net interest settlements as either interest income or interest expense in our **Statements of Income**. For cash flow hedges, we recognize changes in fair value on the hedged item in AOCI until they are required to be reclassified into our **Statements of Income** - that is, amounts recorded in AOCI are reclassified either to interest income or interest expense depending on the hedged item during the period in which the hedged transaction affects earnings.

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)

We carry all derivatives at fair value in our **Statements of Condition**. We designate derivatives either as fair value hedges, cash flow hedges, or economic hedges. We use fair value hedges to manage our exposure to changes in fair value of (1) a recognized asset or liability or (2) an unrecognized firm commitment attributable to changes in a benchmark interest rate. Our cash flow hedge strategy is to hedge the total net proceeds received from rolling forecasted zero-coupon discount note issuances attributable to changes in the benchmark interest rate by entering into interest rate swaps to mitigate such risk. We did not use the cash flow hedge strategy for new transactions in 2023, but may elect to do so in the future. We use economic hedges in cases where hedge accounting treatment is not permitted or achievable.

Accounting for Variation Margin Payments - We account for variation margin payments made to or received by the DCOs (Derivatives Clearing Organization) through our FCMs (Futures Commission Merchant) as settlements to our cleared derivative assets and derivative liabilities.

Derivative Hedge Accounting - We apply hedge accounting to qualifying hedge relationships. A qualifying hedge relationship exists when a derivative hedging instrument is expected to be highly effective in offsetting changes in fair values, cash flows, or underlying risk of the hedged item during the term of the hedge relationship. We prepare formal contemporaneous documentation at inception of the hedge relationship to support that the hedge relationship qualifies for hedge accounting treatment and assess hedge effectiveness on an ongoing basis.

We immediately recognize changes in fair values for both the derivative hedging instrument and the related hedged item beginning on the derivative hedging instrument's trade date. For fair value hedges, changes in fair value on the hedged item are recognized as a cumulative basis adjustment and are included in the amortized cost basis of the asset or liability being hedged. For cash flow hedges, the changes in fair value of the hedging instrument are recorded to AOCI first and reclassified into earnings (net interest income) as the hedged item affects earnings.

Economic Hedges - Changes in fair value on economic hedges are immediately recognized as noninterest income on derivatives and hedging activities in our **Statements of Income**. Accrual of net interest settlements on economic hedges are recognized as noninterest income on derivatives and hedging activities in our **Statements of Income**.

MPF Delivery Commitments - Commitments to purchase MPF Loans are carried at fair value as a derivative asset or derivative liability, with changes in fair value immediately recognized as noninterest income on derivatives and hedging activities in our **Statements of Income**.

Advance Commitments - An unhedged advance commitment on an advance we intend to hold for investment purposes upon funding is accounted for as a firm commitment rather than a derivative. Firm commitments are accounted for off-balance sheet rather than carried at fair value. Changes in fair value related to an advance commitment in a fair value hedge relationship are immediately recognized in interest income.

We discontinue hedge accounting treatment prospectively for an existing fair value or cash flow hedge if any one of the following occurs:

- Any hedge criterion is no longer met.
- The derivative expires or is sold, terminated, or exercised.
- We voluntarily remove the designation as a hedge.

Refer to **Note 9 - Derivatives and Hedging Activities** for additional details.

Consolidated Obligations

Consolidated obligations consist of discount notes and consolidated obligation bonds. Consolidated obligations are the joint and several liability of the FHLBs.

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)

We carry consolidated obligations on an amortized cost basis, except when we elect the fair value option. Amortized cost basis represents the amount funded to us adjusted for any premiums and discounts, concession fees, and cumulative basis adjustments, if any, related to ongoing (open) and/or discontinued (closed) fair value hedges (fair value hedging adjustments). Cumulative basis adjustments represent the changes in fair value of the hedged items, therefore, they are only applicable to fair value hedges. For cash flow hedges, the changes in fair value of the hedging instrument are recorded to OCI first. We use the interest method to amortize/accrete premiums/discounts, concession fees, and hedging adjustments on consolidated obligations into interest expense in our **Statements of Income**. The amortization/accretion period for a callable consolidated obligation is over its estimated life. The amortization/accretion period for a consolidated obligation that is noncallable or that has a zero-coupon rate is over its contractual life. We immediately recognize any remaining premiums/discounts, concession fees, and any fair value and/or hedging adjustments attributable to a consolidated obligation that is called into interest expense in our **Statements of Income**.

We consider our joint and several liability for consolidated obligations most akin to a related party guarantee. GAAP guidance pertaining to the initial recognition and measurement of guarantees does not apply to related party guarantees. As a result, we did not recognize an initial liability for our joint and several liability at fair value. We would accrue a liability if subsequently we expect to pay any amounts on behalf of other FHLBs under the joint and several liability.

See **Note 10 - Consolidated Obligations** to the financial statements for further details.

Capital and Mandatorily Redeemable Capital Stock (MRCS)

Capital stock is issued and recorded at par. We also record the repurchase and redemption of our capital stock from our members at par because our capital stock can only be acquired and redeemed or repurchased at par value. It is not publicly traded and no market mechanism exists for the exchange of our capital stock outside our cooperative structure. The capital stock repurchased and redeemed is retired. We recognize dividends on our capital stock on the date they are declared by our Board of Directors.

We reclassify capital stock from equity to mandatorily redeemable capital stock (MRCS), a liability on our **Statements of Condition**, once we become unconditionally obligated to redeem capital stock by transferring cash at a specified or determinable date (or dates) or upon an event certain to occur. Capital stock is reclassified to MRCS at fair value. The fair value of capital stock subject to mandatory redemption is its par value (as indicated by contemporaneous member purchases and sales at par value) plus any dividends related to the capital stock which are also reclassified as a liability, accrued at the expected dividend rate, and reported as a component of interest expense.

Refer to **Note 12 - Capital and Mandatorily Redeemable Capital Stock (MRCS)** for further details.

Lease

Expenses attributable to our leases are included in noninterest expense - operating expenses in our **Statements of Income**. Payments related to our leases are classified within operating activities in our **Statements of Cash Flows**.

The lease agreement for our office space at 433 West Van Buren Street, Chicago, IL terminates in December 2035, subject to options to extend the lease or terminate early. At December 31, 2023 our lease net asset was \$41 million and our lease liability was \$46 million, compared to \$45 million and \$50 million at December 31, 2022. We recognized noninterest expense of lease amortization of \$3 million for each of the years ended December 31, 2023, 2022, and 2021.

Pentegra Defined Benefit (DB) Plan for Financial Institutions (the Pension Plan)

We participate in the multiple employer Pentegra Defined Benefit (DB) Plan for Financial Institutions (the Pension Plan), a tax-qualified defined-benefit pension plan. We account for the Pension Plan as a multiemployer plan since contributions made by us may be used to provide benefits to participants of other participating employers. Net pension cost recognized into our **Statements of Income** includes our minimum required contribution plus administrative fees. A prepaid pension asset is recognized when our contributions are in excess of 100% of our minimum required contribution while a liability is recognized for contributions due and unpaid at the end of the reporting period. Refer to **Note 14 - Employee Retirement Plans** for further details.

**Notes to Financial Statements****(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)****The following accounting standards updates (ASUs) have been recently adopted:**

During March of 2020, the Financial Accounting Standards Board (FASB) issued ASU 2020-04, *Reference Rate Reform (Topic 848) Facilitation of the Effects of Reference Rate Reform on Financial Reporting (ASC 848)*. This guidance provides relief for qualifying contract modifications related to reference rate reform related to receivables, payables and hedging relationships. The guidance was effective upon issuance and remains in effect through December 31, 2024, as amended, except for certain optional expedients elected for hedging relationships, which should be retained for the duration of the hedge term. As of June 30, 2023, the Bank had transitioned all outstanding LIBOR-indexed instruments to reference SOFR, with the implementation of such fallback effective either immediately following June 30, 2023 or at the beginning of the instrument's next reset period. As a result of finalizing transition, we adopted certain practical expedients in ASC 848 for qualifying contract modifications related to reference rate reform, including with respect to qualifying hedge relationships. Application of this guidance did not have a material impact on the financial statements. For qualifying hedge relationships, the Bank does not expect that the practical expedients elected for the duration of the hedge term will have material impact on the financial statements. The Bank does not expect to further elect this guidance through its ending date, December 31, 2024.

During March 2022, the FASB issued ASU 2022-01 Derivatives and Hedging (Topic 815): Fair Value Hedging—Portfolio Layer Method. This ASU broadens the availability of fair value hedging to non-prepayable and prepayable portfolios. The guidance on hedging multiple layers in a closed portfolio is applied prospectively. The guidance on the accounting for fair value basis adjustments is applied on a modified retrospective basis. Further, an entity may reclassify debt securities from held-to-maturity to available-for-sale if it includes them in a closed portfolio that is hedged under the portfolio layer method. This ASU is effective for the Bank starting January 1, 2023. The Bank has not elected to apply this guidance as of this reporting period, but may do so in the future.

Also during March 2022, the FASB issued ASU 2022-02 Financial Instruments - Credit Losses (Topic 326): Troubled Debt Restructurings and Vintage Disclosures to eliminate the recognition and measurement guidance for troubled debt restructurings for creditors that have adopted Current Expected Credit Losses (CECL) methodology. The ASU also required enhanced disclosures about loan modifications for borrowers experiencing financial difficulty and required the presentation of gross write-offs by year of origination. ASU 2022-02 was effective for the Bank starting January 1, 2023. The Bank elected to implement the guidance prospectively. The adoption of the ASU did not have a material impact on the financial statements.

Federal Home Loan Bank of Chicago

Notes to Financial Statements

(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)

Note 3 – Recently Issued but Not Yet Adopted Accounting Standards

During November 2023, the FASB issued ASU 2023-07 Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures. The amendments in this Update are effective for the Bank for the year ended December 31, 2024 and for interim periods beginning January 1, 2025. The Bank has a single operating segment and is currently evaluating impacts of this ASU to its financial statement disclosure.

Bonds	3,855	1,090	229
Other	71	31	12
Interest expense	6,349	1,859	285
Net interest income	\$ 1,060	\$ 677	\$ 543

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)
Note 5 – Investment Debt Securities

We classify debt securities as either trading, held-to-maturity (HTM), or available-for-sale (AFS). Our security disclosures within these classifications are disaggregated by major security types as shown below. Our major security types are based on the nature and risks of the security:

- U.S. Government & other government related - may consist of the sovereign debt of the United States; debt issued by GSEs; debt issued by the Tennessee Valley Authority; and securities guaranteed by the Small Business Administration.
- Federal Family Education Loan Program - asset-backed-securities (FFELP ABS).
- GSE mortgage-backed securities (MBS) - issued by Fannie Mae and Freddie Mac.
- Government guaranteed MBS.
- State or local housing agency obligations.

We have no allowance for credit losses on our investment debt securities and we have elected to exclude accrued interest receivable from the amortized cost in the following AFS and HTM tables. See **Note 8 - Allowance for Credit Losses** for further details on these amounts.

Pledged Collateral

We disclose the amount of investment debt securities pledged as collateral pertaining to our derivatives activity on our **Statements of Condition**. See **Note 9 - Derivatives and Hedging Activities** for further details.

Trading Debt Securities

The following table presents the fair value of our trading debt securities.

As of	December 31, 2023	December 31, 2022
U.S. Government & other government related	\$ 1,766	\$ —
MBS		
GSE	3	3
Trading debt securities	\$ 1,769	\$ 3

The following table presents our gains and losses on trading debt securities recorded in noninterest income - other, net.

For the years ended December 31,	2023	2022	2021
Net unrealized gains (losses) on securities held at period end	\$ 11	\$ 1	\$ (14)
Net realized gains (losses) on securities sold/matured during the period	—	—	(30)
Net gains (losses) on trading debt securities	\$ 11	\$ 1	\$ (44)

Notes to Financial Statements

Government guaranteed	24	—	—	24
Other	6	—	—	6
Held-to-maturity debt securities	\$ 1,552	\$ 4	\$ (9)	\$ 1,547
As of December 31, 2022				
U.S. Government & other government related	\$ 1,210	\$ —	\$ (14)	\$ 1,196
MBS				
GSE	164	3	—	167
Government guaranteed	49	—	—	49
Other	8	—	(1)	7
Held-to-maturity debt securities	\$ 1,431	\$ 3	\$ (15)	\$ 1,419

^a Includes adjustments made to the cost basis of an investment for accretion, and/or amortization.

We had no sales of HTM debt securities for the periods presented. Any gains or losses are determined on a specific identification basis.

Notes to Financial Statements

(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)

Interest Rate Payment Terms

The following table presents the interest rate payment terms of AFS and HTM debt securities at amortized cost basis for the reporting periods indicated.

As of December 31,	Available-for-Sale		Held-to-Maturity	
	2023	2022	2023	2022
Non-MBS				
Fixed-rate	\$ 2,147	\$ 2,228	\$ 1,385	\$ 1,210
Variable-rate	1,905	2,252	—	—
MBS				
Fixed-rate	18,860	15,846	92	110
Variable-rate	370	553	75	111
Total	\$ 23,282	\$ 20,879	\$ 1,552	\$ 1,431

Contractual Maturity

The maturity of our AFS and HTM debt securities is detailed in the following table. MBS and FFELP ABS are not presented by contractual maturity because their expected maturities will likely differ from contractual maturities as borrowers may have the right to call or prepay obligations with or without call or prepayment fees.

As of December 31, 2023	Available-for-Sale		Held-to-Maturity	
	Amortized Cost Basis	Net Carrying Amount and Fair Value	Amortized Cost and Net Carrying Amount	Fair Value
Non-MBS and FFELP ABS Year of Maturity -				
Due in one year or less	\$ 3	\$ 3	\$ 1,180	\$ 1,181
Due after one year through five years	1,084	1,078	56	55

Total debt securities	\$ 23,282	\$ 23,084	\$ 1,552	\$ 1,547

Notes to Financial Statements

(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)

AFS Securities in a Continuous Unrealized Loss Position

The following table presents unrealized losses on our AFS portfolio for periods less than 12 months and for 12 months or more. These losses are considered temporary as we expect to recover the entire amortized cost basis and neither intend to sell these securities nor consider it more likely than not that we will be required to sell these securities before the anticipated recovery of each security's remaining amortized cost basis. In the tables below, in cases where the gross unrealized losses for an investment category are less than \$1 million, the losses are not reported.

	Less than 12 Months		12 Months or More		Total	
	Fair Value	Gross Unrealized (Losses)	Fair Value	Gross Unrealized (Losses)	Fair Value	Gross Unrealized (Losses)
Available-for-sale debt securities						
As of December 31, 2023						
U.S. Government & other government related	\$ 231	\$ —	\$ 1,396	\$ (116)	\$ 1,627	\$ (116)

Government guaranteed	33	—	—	—	33	—
Available-for-sale debt securities	\$ 10,440	\$ (159)	\$ 1,378	\$ (128)	\$11,818	\$ (287)

Credit Loss Analysis

We recognized no credit losses on HTM or AFS debt securities for the periods presented.

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)
Note 6 – Advances

We offer a wide range of fixed and variable rate advance products with different maturities, interest rates, payment characteristics and options.

We have no allowance for credit losses on our advances and we have elected to exclude accrued interest receivable from the amortized cost in the following tables. See **Note 8 - Allowance for Credit Losses** for further details on these amounts.

The following table presents our advances by terms of contractual maturity and the related weighted average contractual interest rate. For amortizing advances, contractual maturity is determined based on the advance's amortization schedule. Actual maturities may differ from contractual maturities because some borrowers have the right to call or prepay advances with or without penalties.

As of December 31, 2023	Par Value Amount	Weighted Average Contractual Interest Rate
Due in one year or less	\$ 26,321 ^a	5.17 %
One to two years	14,180	4.39 %
Two to three years	8,592	4.08 %
Three to four years	3,811	4.18 %
Four to five years	4,423	3.39 %
Five to fifteen years	8,129	3.13 %
More than fifteen years	505	5.13 %
Total	\$ 65,961	4.43 %

^a Of the advances due in one year or less, \$4.0 billion remain outstanding to One Mortgage Partners Corp. (now JPMorgan Chase Bank, NA), our former captive insurance company member, whose membership was terminated in 2021 in connection with an FHFA rule.

The following table presents our advances by terms of contractual maturity and reconciles the par value of our advances to the carrying amount on our **Statements of Condition** as of the dates indicated.

As of	December 31, 2023	December 31, 2022
Fixed-rate due in one year or less	\$ 11,959	\$ 20,341
Fixed-rate due after one year	30,097	19,057
Total fixed-rate	42,056	39,398
Variable-rate due in one year or less	14,362	16,455
Variable-rate due after one year	9,543	11,604
Total variable-rate	23,905	28,059
Par value	65,961	67,457
Fair value hedging adjustments	(675)	(1,191)
Other adjustments	20	22
Advances	\$ 65,306	\$ 66,288

The following advance borrowers exceeded 10% of our advances outstanding.

As of December 31, 2023	Par Value	% of Total Outstanding
BMO Bank, NA	\$ 11,066	16.8 %
The Northern Trust Company	8,505	12.9 %

Notes to Financial Statements

(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)

Note 7 – MPF Loans Held in Portfolio

We acquire MPF Loans from PFIs to hold in our portfolio. MPF Loans that are held in portfolio are fixed-rate conventional and Government Loans secured by one-to-four family residential properties with maturities ranging from 5 years to 30 years.

The following table presents information on MPF Loans held in portfolio by contractual maturity at the time of purchase. We have an allowance for credit losses on our MPF Loans and we have elected to exclude accrued interest receivable from the amortized cost in the following tables. See **Note 8 - Allowance for Credit Losses** for further details on these amounts.

As of	December 31, 2023	December 31, 2022
Medium term (15 years or less)	\$ 1,450	\$ 1,521
Long term (greater than 15 years)	9,820	8,502
Unpaid principal balance	11,270	10,023
Net premiums, credit enhancement, and/or deferred loan fees	168	163
Fair value hedging and delivery commitment basis adjustments	(23)	(21)
MPF Loans held in portfolio, before allowance for credit losses	11,415	10,165
Allowance for credit losses on MPF Loans	(5)	(5)
MPF Loans held in portfolio, net	\$ 11,410	\$ 10,160
Conventional mortgage loans	\$ 10,514	\$ 9,221
Government Loans	756	802
Unpaid principal balance	\$ 11,270	\$ 10,023

The above table excludes MPF Loans acquired under the MPF Xtra and MPF Government MBS products. See **Note 2 - Summary of Significant Accounting Policies** for information related to the accounting treatment of these off-balance sheet MPF Loan products.

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)
Note 8 – Allowance for Credit Losses

See **Note 2 - Summary of Significant Accounting Policies** for further details regarding our accounting policies pertaining to credit losses that are applicable to each of our portfolio segments discussed below. Our credit analysis determines whether an asset is classified as adversely classified. An asset not adversely classified is supported by an appropriate credit analysis that documents the quality of a loan or an investment debt security, as well as ongoing analyses that demonstrate the obligor's continued repayment capacity. In such cases, the loan or investment security will not be adversely classified as substandard, doubtful, or loss. Adversely classified loans or investment debt securities are expected to have credit losses and thus will have an allowance.

We have the following portfolio segments:

Nongovernment related

- Member credit products (advances, letters of credit and other extensions of credit to borrowers)
- Conventional MPF Loans held in portfolio
- Interest-Bearing Deposits, Federal Funds Sold and Securities Purchased Under Agreements to Resell
- Community First Fund (the Fund)
- Municipal Securities and Standby Bond Purchase Agreements

Member Credit Products

Member Credit Products encompass secured credit extensions to members including advances and letters of credit. The Bank's Credit Department monitors the financial performance of members at least quarterly, classifies credit extensions in accordance with our asset classification approach, monitors that our credit outstanding is sufficiently well collateralized and recommends credit reserves against individual credit exposures if needed.

We did not record an allowance for credit losses related to our advances nor a liability for our letters of credit as of the end of these reporting periods based on the factors outlined below.

- None of our Member Credit Products portfolio was adversely classified.
- Loss mitigation techniques, which include, but are not limited to the following:
 - Credit monitoring which includes underwriting; credit limits; and ongoing collateral monitoring
 - Collateral policies or monitoring which include:
 - Rights to collateral, nature of the collateral and future changes to collateral.
 - Complying with regulatory requirements to fully collateralize member credit products, which incorporate the associated collateral haircut process. Collateral value represents the borrowing capacity assigned to pledged collateral and does not imply fair value.
- Our credit outstanding is sufficiently well collateralized as of the end of these reporting periods - that is, the applicable agreement with a member requires that the member provide collateral value equal to its credit outstanding (unless we specifically require more for a particular member - for example, due to the member's risk rating based on our credit analyses of our members). Further, we require our members to pledge additional collateral if we perceive additional risk.
- Credit risk mitigation efforts such as collateral reviews to confirm the collateral meets eligibility requirements and ongoing monitoring to verify the sufficiency of collateral to mitigate exposure from member credit products;
- All payments due under the contractual terms have been received as of the end of this reporting period. In particular, no Member Credit Products were past due, on nonaccrual status, involved in a troubled debt restructuring, or otherwise considered impaired.

Our long history of no credit losses on advances and letters of credit along with loss mitigation techniques is sufficient to support a conclusion of zero allowance for credit losses as of the end of these reporting periods.

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)
Conventional MPF Loans Held in Portfolio

We measure expected credit losses on conventional MPF Loans held in portfolio on a collective basis, pooling loans with similar risk characteristics. If an MPF Loan no longer shares risk characteristics with other loans in the pool (for example, the loan has become collateral dependent), it is removed from the pool and evaluated for expected credit losses on an individual basis.

The analysis on a pool basis includes consideration of various loan portfolio characteristics, such as past performance, current conditions, and reasonable and supportable forecasts of expected economic credit losses. The model projects cash flows of estimated expected credit losses over the remaining life of an MPF Loan, which also considers how credit enhancements mitigate those credit losses through the MPF credit risk sharing structure at a Master Commitment (MC) level. The model relies on a number of assumptions, with the primary ones being a housing price index (HPI), the unemployment rate, and interest rates, including:

- Base case scenario, consisting of the HPI scenario at the Metropolitan Statistical Area (MSA) level and the unemployment rate scenario at the State level
- A reasonable and supportable short-term forecast horizon of 12 months
- A transition period reverting to the long-term mean, which varies based on MSA (and on average is approximately four years)
- Model projections of prepayment, default, and loss severities are calibrated based on back-testing results since the beginning of the last full economic cycle

The model consists of two sub-models (a prepayment and default model and a loss given default model), with the ability to calibrate the model to unique aspects of our portfolio. The allowance excludes accrued interest receivable since we place the loan on nonaccrual when the loan becomes impaired and reverse interest income.

In addition to evaluating our model output, management included a qualitative adjustment to compensate for any model-to-actual differences and reflect economic uncertainty.

As economic and market uncertainties persist that have affected and are expected to continue to affect borrowers across our conventional MPF Loans, significant judgment is required to estimate the impact and scope of the current economic environment, as well as its potential impact on borrower defaults and loss severities. It can be difficult to predict exactly how borrower behavior will be impacted by these changes in economic conditions. We expect that subsequent changes to this forecast and the related estimates will be reflected in the provision for credit losses in future periods.

Our estimates include forecasts of prepayment, default, and severities; actual results could differ from the estimates and assumptions in our models. At this time, we have determined loan payment status based on the borrower's last payment, and therefore do not assume any benefit associated with the possibility of the borrower completing any forbearance available to the borrower and becoming current on the loan.

MPF Credit Risk Sharing Structure

Our allowance for credit losses considers the credit risk sharing structure of conventional MPF Loans held in portfolio, with credit losses absorbed in the following order:

- Borrower's equity.
- Primary mortgage insurance, if any.
- The PFI. We will withhold the PFI's scheduled performance credit enhancement income payment in order to reimburse ourselves for any losses allocated to the First Loss Account (FLA) in instances where performance based credit enhancement income payments are applicable to the MC under which the loan was sold to us. We refer to these reimbursable credit enhancement income payments as Recoverable CE Income. The FLA functions as a tracking mechanism for our first layer of loss exposure before determining the point at which a PFI's CE Amount would cover the next layer of losses. Our FLA exposure varies by MPF Loan product type - that is, MPF Original, MPF 35, MPF 100, MPF 125, and MPF Plus.
- We incur the next layer, up to the amount of the FLA.

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)

- The PFI. The PFI's CE Amount, which may include proceeds from a provider of supplemental mortgage guaranty insurance (SMI).
- We will absorb any losses after the CE Amount has been exhausted.

The entire population of conventional MPF Loans is analyzed using the MPF credit risk sharing structure at the MC level using roll rates and the total severity rate. The credit risk analysis determines the degree to which layers of the MPF credit risk sharing structure are available to recover losses on MPF Loans. PFIs deliver MPF Loans into pools designated by product specific MCs. The credit risk analysis is performed at an individual MC level since credit loss recovery from a PFI is MC- specific - that is, credit losses on a loan may be absorbed by the PFI only by its risk layer of the MC related to that loan.

The total losses resulting after factoring in the MPF credit risk sharing structure are then calculated. The adjusted total losses are then split into credit losses and noncredit losses. A credit loss only consists of the loss resulting from the timing and amount of unpaid principal on an MPF Loan and does not include periodic expenses incurred during the time period in which an MPF Loan has become REO. Such periodic expenses are noncredit losses, and they are directly expensed through the **Statements of Income** as incurred.

The following table presents the activity in our allowance for credit losses for MPF Loans for the three years ended December 31, 2023.

For the years ended December 31,	2023	2022	2021
Allowance for MPF credit losses beginning balance	\$ 5	\$ 5	\$ 3
MPF credit losses charged-off	(1)	(3)	(2)
Credit loss recovery	1	1	1
Provision for (reversal of) MPF for credit losses	—	2	3
Allowance for MPF credit losses ending balance	\$ 5	\$ 5	\$ 5

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)

The following tables summarize our conventional MPF Loans by our key credit quality indicators.

As of	December 31, 2023			December 31, 2022		
	Conventional MPF Amortized Cost by Origination Year			Conventional MPF Amortized Cost by Origination Year		
	2019 to 2023	Prior to 2019	Total	2018 to 2022	Prior to 2018	Total

Loans on nonaccrual status	23	—	23	39	—	39
Loans on nonaccrual status with no allowance for credit losses	9	—	9	15	—	15

Interest-Bearing Deposits, Federal Funds Sold and Term Securities Purchased Under Agreements to Resell

We face credit risk on our unsecured short-term investment portfolio. We invest in unsecured overnight interest-bearing deposits and federal funds sold in order to ensure the availability of funds to meet members' credit and liquidity needs. If the credit markets experience significant disruptions, it may increase the likelihood that one of our counterparties could experience liquidity or financial constraints that may cause them to become insolvent or otherwise default on their obligations to us.

We did not establish an allowance for credit losses for our unsecured overnight interest-bearing deposits or federal funds sold as of December 31, 2023 since all federal funds sold were repaid and all unsecured overnight interest-bearing deposits were returned according to their contractual terms.

We invest in overnight securities purchased under agreements to resell in order to ensure the availability of funds to meet members' liquidity and credit needs. Securities purchased under agreements to resell are secured by marketable securities held by a third party custodian and collateral is adjusted daily to ensure full collateral coverage. If the credit markets experience disruptions and as a result, one of our counterparties becomes insolvent or otherwise defaults on their obligations to us and the collateral is insufficient to cover our exposure, we may suffer a credit loss. We did not record credit losses for our securities purchased under an agreement to resell portfolio segment since the portfolio was not adversely classified and sufficient collateral existed as of December 31, 2023. We also did not establish an allowance for credit losses for overnight securities purchased under an agreement to resell as of December 31, 2023 since overnight securities purchased under agreements to resell were paid according to their contractual terms.

Community First Fund (the Fund)

We created the Fund, which is structured as an on-balance sheet revolving pool of funds, with a mission to provide access to capital that supports economic development and affordable housing needs in the communities that our members serve in Illinois and Wisconsin. This is accomplished by providing long-term, unsecured loans to community development intermediary organizations (Partners). Partners to the Fund are unregulated and are often less sophisticated than our regulated members. We calculate a loss allowance based on expected loss rates on representative rated securities and average tenor of the outstanding portfolio. As of December 31, 2023 we had \$47 million in Fund loans outstanding compared to \$47 million at December 31, 2022.

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)

The following table details our allowance for credit losses on Fund loans.

For the year ended December 31,	2023	2022	2021
Allowance for Fund loan credit losses beginning balance	\$ 7	\$ 7	\$ 7
Provision for (reversal of) Fund loan for credit losses	—	—	(1)
Other	—	—	1
Allowance for Fund loan credit losses ending balance	<u>\$ 7</u>	<u>\$ 7</u>	<u>\$ 7</u>

Municipal Securities and Standby Bond Purchase Agreements

We invest in municipal securities consisting of Housing Finance Authority (HFA) securities and off-balance sheet Standby Bond Purchase Agreements (SBPAs) with HFAs. The HFA securities were classified as AFS. We review the ratings of the HFA securities and the corresponding Moody's Default Balance to determine potential credit exposure. Our HFA securities are rated above BBB, and no credit losses were expected for HFA securities and SBPAs at December 31, 2023.

U.S. Government related assets

- Investment debt securities issued or guaranteed by the U.S. Government
- Investment debt securities issued or guaranteed by U.S. Government Sponsored Enterprises
- U.S. Government guaranteed Federal Family Education Loan Program (FFELP)
- U.S. Government guaranteed MPF Loans held in portfolio

We have not established an allowance for credit losses for U.S. Government related assets, as we do not expect any losses on the basis of: 1) an explicit U.S. Government guarantee; 2) the assumption that an implicit U.S. Government guarantee exists; 3) a demonstration of the U.S. Government's willingness to act on the implicit guarantee as evidenced by U.S. Government capitalization and support during past financial crisis events that resulted in no losses for investors in such securities; and 4) the assumption of the U.S. Government's willingness and ability to act on the explicit and implicit guarantees in the future on the basis of the importance of federal agencies and GSEs in terms of promoting public policy and economic stability.

With respect to defaulted U.S. Government guaranteed MPF Loans, any losses incurred that are not recovered from the U.S. Government insurer or guarantor are absorbed by the MPF PFI servicer. Accordingly, credit losses are based on our assessment of our servicers' ability to absorb losses not covered by the applicable U.S. Government guarantee or insurance. We did not establish an allowance for credit losses on our Government Loans held in portfolio for the reporting periods presented based on our assessment that our servicers have the ability to absorb such losses.

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)
Accrued interest receivable

We present accrued interest receivable separately for loans and AFS/HTM debt securities. We do not measure an allowance for credit losses on loan related accrued interest receivables as we reverse accrued interest on a monthly basis when the loan is placed on nonaccrual status.

The following table summarizes our accrued interest receivable by portfolio segment.

Financial instrument type	December 31, 2023	December 31, 2022
MPF Loans held in portfolio	\$ 65	\$ 51
HTM securities	15	9
AFS securities	90	81
Interest-bearing deposits	10	7
Federal funds sold	2	2
Securities purchased under agreements to resell	3	4
Advances	241	197
Accrued interest receivable	\$ 426	\$ 351

Notes to Financial Statements

(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)

Note 9 – Derivatives and Hedging Activities

 Refer to **Note 2 - Summary of Significant Accounting Policies** for our accounting policies for derivatives.

We transact most of our derivatives with large banks and major broker-dealers. Some of these banks and broker-dealers or their affiliates buy, sell, and distribute consolidated obligations. We are not a derivatives dealer and do not trade derivatives for speculative purposes. We enter into derivative transactions through either of the following:

- A bilateral agreement with an individual counterparty for over-the-counter derivative transactions.
- Clearinghouses classified as DCOs through FCMs, which are clearing members of the DCOs, for cleared derivative transactions.

Managing Interest Rate Risk

We use fair value hedges to manage our exposure to changes in the fair value of (1) a recognized asset or liability or (2) an unrecognized firm commitment, attributable to changes in a benchmark interest rate, such as SOFR. We use cash flow hedges to hedge the variability in the total proceeds received from rolling forecasted zero-coupon discount note issuance, attributable to changes in the benchmark interest rate, by entering into pay-fixed interest rate swaps. We did not use the cash flow hedge strategy for new transactions in 2023, but may elect to do so in the future.

We may elect the fair value option for financial instruments, such as advances, MPF Loans held for sale, and consolidated obligation discount notes and bonds, in cases where hedge accounting treatment may not be achieved due to the inability to meet the hedge effectiveness testing criteria, or in certain cases where we wish to mitigate the risk associated with selecting the fair value option for other instruments. We may also use economic hedges to hedge securities in our trading portfolio, when hedge accounting is not permitted or hedge effectiveness is not achievable.

Managing Credit Risk on Derivative Agreements

Over-the-counter (bilateral) Derivative Transactions: We are subject to credit risk due to the risk of nonperformance by counterparties to our derivative agreements. For bilateral derivative agreements, the degree of counterparty risk depends on the negotiated provisions of such agreements to mitigate such risk, including, for example, terms related to master netting arrangements, collateral requirements, and other credit enhancements. We manage counterparty credit risk through credit analysis, collateral requirements and adherence to the requirements set forth in our policies and FHFA regulations. We require collateral agreements on all over-the-counter derivatives.

As of December 31, 2023, based on credit analyses and collateral requirements, we have not recorded a credit loss on our over-the-counter derivative agreements. See **Note 15 - Fair Value** for discussion regarding our fair value methodology for over-the-counter derivative assets and liabilities, including an evaluation of the potential for the fair value of these instruments to be affected by counterparty credit risk.

Our bilateral derivative transactions are subject to variation margin requirements and are fully collateralized with a zero unsecured threshold. We pledged no investment securities for variation margin on our bilateral derivative transactions (that can be sold or repledged by our counterparty) as of December 31, 2023.

Bilateral derivative transactions executed on or after September 1, 2022, are subject to two-way initial margin requirements if our aggregate uncleared derivative transaction exposure to a counterparty exceeds a specified threshold. The initial margin is required to be held at a third party custodian and does not change ownership. Rather, the party in respect of which the initial margin has been posted to a third party custodian will have a security interest in the amount of initial margin required to be posted and can only take ownership upon the occurrence of certain events, including an event of default due to bankruptcy, insolvency, or similar proceeding. As of December 31, 2023, we pledged and/or received initial margin with certain bilateral derivative counterparties.

Cleared Derivative Transactions: Cleared derivative transactions are subject to variation and initial margin requirements established by the DCO and its clearing members. Variation margin payments are characterized as settlement of a derivative's mark-to-market exposure and not as collateral against the derivative's mark-to-market exposure. See **Note 1 - Background and Basis of Presentation** and **Note 2 - Summary of Significant Accounting Policies** for further discussion. We post our initial margin collateral payments and make variation margin settlement payments through our FCMs, on behalf of the DCO, which could expose us to institutional credit risk in the event that the FCMs or the DCO fail to meet their obligations. Clearing derivatives through a DCO mitigates counterparty credit risk exposure because the DCO is substituted for individual counterparties and variation margin settlement payments are made daily through the FCMs for changes in the value of cleared

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)

derivatives. The DCO determines initial margin requirements for cleared derivatives. We pledged \$856 million of investment securities (that can be sold or repledged) as part of our initial margin related to cleared derivative transactions at December 31, 2023. Additionally, an FCM may require additional initial margin to be posted based on credit considerations, including but not limited to, if our credit rating downgrades. We had no requirement to post additional initial margin by our FCMs at December 31, 2023.

The following table presents details on the notional amounts, and cleared and bilateral derivative assets and liabilities on our **Statements of Condition**. The netting adjustment amount includes cash collateral (either received or paid by us) and related accrued interest in cases where we have a legal right, by contract (e.g., master netting agreement) or otherwise, to offset cash flow obligations between us and our counterparty into a single net payable or receivable.

Net amount	\$ 1	\$ —	\$ 1	\$ 10	\$ —	\$ 10

At December 31, 2023 and December 31, 2022 we had \$837 million and \$692 million of additional credit exposure due to pledging of noncash collateral to our counterparties, which exceeded our net derivative position for combined cleared and bilateral derivatives. Separately, as of December 31, 2023, we posted an additional \$43 million in noncash initial margin collateral to our custodian for the benefit of certain bilateral derivative counterparties to offset initial margin exposure related to our bilateral derivative transactions.

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)
Fair Value Hedges

The following table presents our fair value hedging results by the type of hedged item. We had no net gain or loss on hedged firm commitments that no longer qualified as a fair value hedge. Changes in the fair value of the derivative and the hedged item attributable to the hedged risk for designated fair value hedges are recorded in net interest income in the same line as the earnings effect of the hedged item. Gains (losses) on derivatives include unrealized changes in fair value, as well as net interest settlements. The line for Other relates to discontinued closed fair value hedges on MPF Loans held for portfolio that are being amortized over the remaining life of the loans. As of December 31, 2023 we did not have any active fair value hedges on our MPF Loans.

For the years ending December 31,	Gain (Loss) on Derivative	Gain (Loss) on Hedged Item	Amount Recorded in Net Interest Income
2023			
Available-for-sale debt securities	\$ 243	\$ 311	\$ 554

Other	211	—	4	4

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)
Cash Flow Hedges

For cash flow hedges the entire change in the fair value of the hedging instrument is recorded in AOCI and reclassified into earnings (net interest income) as the hedged item affects earnings. Hedge effectiveness testing is performed to determine whether hedge accounting is qualified.

We are exposed to the variability in the total net proceeds received from forecasted zero-coupon discount note issuances, which is attributable to changes in the benchmark interest rate. As a result, we enter into cash flow hedge relationships utilizing derivative agreements to hedge the total net proceeds received from our "rolling" forecasted zero-coupon discount note issuances attributable to changes in the benchmark interest rate. The maximum length of time over which we are hedging this exposure is 6 years. We reclassify amounts in AOCI into our **Statements of Income** in the same periods during which the hedged forecasted transaction affects our earnings. We had no discontinued cash flow hedges for the periods presented. There were no deferred net gains (losses) on derivative instruments in AOCI that are expected to be reclassified to earnings during the next twelve months as of December 31, 2023. We did not use the cash flow hedge strategy for new transactions in 2023, but may elect to do so in the future.

The following table presents our cash flow hedging results by type of hedged item. Additionally, the table indicates where cash flow hedging results are classified in our **Statements of Income**. In this regard, the **Amount Reclassified from AOCI into Net Interest Income** column below includes the following:

- The amortization of closed cash flow hedging adjustments, which are reclassified from AOCI into the interest income/expense line item of the respective hedged item type.
- The effect of net interest settlements attributable to open derivative hedging instruments, which are initially recorded in AOCI and are reclassified to the interest income/expense line item of the respective hedged item type.

For the years ending December 31,	Gross Amount Initially Recognized in AOCI	Amount Reclassified from AOCI into Net Interest Income
2023		
Discount notes	\$ 12	\$ 42

Bonds	—	(1)
Total	<u>\$ 35</u>	<u>\$ (19)</u>

Notes to Financial Statements

(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)

Note 10 – Consolidated Obligations

The FHLBs issue consolidated obligations through the Office of Finance as their agent. Consolidated obligations consist of discount notes and consolidated obligation bonds. Consolidated obligation discount notes are issued to raise short-term funds, are issued at less than their face amount and redeemed at par value when they mature. The maturity of consolidated obligation bonds may range from less than one year to over 20 years, but they are not subject to any statutory or regulatory limits on maturity.

The following table presents our consolidated obligation discount notes for which we are the primary obligor. All are due in one year or less.

As of	December 31, 2023	December 31, 2022
Consolidated obligation discount notes - carrying amount	\$ 28,109	\$ 59,531
Consolidated obligation discount notes - principal amount	28,283	59,814
Weighted Average Interest Rate	5.23 %	4.15 %

The following table presents the remaining life of our consolidated obligation bonds by contractual maturity and the related weighted average interest rate, for which we are the primary obligor, including callable bonds that are redeemable in whole, or in part, at our discretion on predetermined call dates.

As of December 31, 2023	Contractual Maturity	Weighted Average Interest Rate	By Maturity or Next Call Date
Due in one year or less	\$ 35,391	4.07 %	\$ 69,646
One to two years	11,026	2.92 %	4,776
Two to three years	14,882	1.73 %	4,332
Three to four years	6,483	2.73 %	1,720
Four to five years	4,586	3.75 %	1,243
Thereafter	10,007	2.82 %	658
Total par value	\$ 82,375	3.22 %	\$ 82,375

The following table presents consolidated obligation bonds outstanding by call feature.

As of	December 31, 2023	December 31, 2022
Noncallable	\$ 19,068	\$ 16,775
Callable	63,307	44,499
Par value	82,375	61,274
Fair value hedging adjustments	(1,967)	(3,114)
Other adjustments	(19)	(44)
Consolidated obligation bonds	\$ 80,389	\$ 58,116

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)

Consolidated obligations are issued with either fixed or floating rate payment terms that may use a variety of indices for interest rate resets (e.g. SOFR). Additionally, both fixed-rate bonds and floating-rate bonds may contain an embedded derivative, such as a call feature or complex coupon payment terms, if requested by investors. When such consolidated obligations are issued, we may concurrently enter into an interest rate swap containing offsetting features that effectively convert the terms of the bond to a variable-rate bond tied to an index or a fixed-rate bond.

Consolidated obligation bonds, beyond having fixed-rate or floating-rate payment terms, may also have the following broad terms regarding either principal repayment or coupon payment terms:

Step-Up Bonds and Step-Down Bonds - Bonds that pay interest at increasing or decreasing fixed rates for specified intervals over their life. These bonds are callable at our option on the step-up or step-down dates.

The following table presents interest rate payment terms for consolidated obligation bonds for which we are primary obligor at the dates indicated.

As of	December 31, 2023	December 31, 2022
Fixed-rate	\$ 74,760	\$ 50,872
Variable-rate	820	1,120
Step-up	6,795	9,282
Step-down	—	—
Other	—	—
Par value	\$ 82,375	\$ 61,274

The following table summarizes the consolidated obligations of the FHLBs and those for which we are the primary obligor. We did not accrue a liability for our joint and several liability related to the other FHLBs' share of the consolidated obligations as of December 31, 2023 and December 31, 2022. Refer to **Note 16 - Commitments and Contingencies** for further details.

Par value as of	December 31, 2023			December 31, 2022		
	Bonds	Discount Notes	Total	Bonds	Discount Notes	Total
FHLB System total consolidated obligations	\$ 914,431	\$ 289,885	\$ 1,204,316	\$ 712,178	\$ 469,565	\$ 1,181,743
FHLB Chicago as primary obligor	82,375	28,283	110,658	61,274	59,814	121,088
As a percent of the FHLB System	9 %	10 %	9 %	9 %	13 %	10 %

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)
Note 11 - Affordable Housing Program

The Financial Institutions Reform, Recovery and Enforcement Act of 1989 (FIRREA) contains provisions for the establishment of an AHP by each FHLB. Through this program, we provide subsidies in the form of direct grants for members to support the acquisition, construction, and/or rehabilitation of affordable housing. Annually, each FHLB must set aside for its AHP the greater of 10% of its current year's income subject to assessments (e.g., excluding any interest expense related to MRCS), or the prorated sum required to ensure the aggregate contribution by the FHLBs is no less than \$100 million. The exclusion of interest expense related to MRCS is a regulatory calculation that was established by the FHFA. Interest expense related to MRCS for 2023, 2022, and 2021, was, respectively, \$17 million, \$16 million, and \$12 million. We accrue the regulatory AHP assessment monthly based on our income subject to assessments and recognize an AHP liability. As disbursements are made, the AHP liability is reduced. The regulatory AHP assessment funds affordable housing grants through our AHP General Fund and Downpayment Plus Programs.

The Bank also voluntarily contributes additional amounts to our DPP programs above the regulatory AHP assessment. Expenses related to voluntary contributions to the DPP programs are accrued when considered to be probable and estimable based on member demand (not to exceed a limit established by the Bank's Board of Directors). Such expenses are recorded to the AHP liability until disbursed.

The following table summarizes the changes in the AHP liability for the periods indicated.

For the years ended December 31,	2023	2022	2021
AHP liability balance at beginning of year	\$ 99	\$ 85	\$ 89
AHP assessment	75	48	32
Voluntary DPP expense	20	7	3
Cash disbursements for voluntary DPP	(17)	(7)	(3)
AHP assessments paid	(38)	(34)	(36)
AHP liability balance at end of year	\$ 139	\$ 99	\$ 85

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)
Note 12 – Capital and Mandatorily Redeemable Capital Stock (MRCS)

Under our Capital Plan our stock consists of two sub-classes of stock, Class B1 activity stock and Class B2 membership stock (together, Class B stock), both with a par value of \$100 and redeemable on five years' written notice, subject to certain conditions. Under the Capital Plan, each member is required to own capital stock in an amount equal to the greater of a membership stock requirement or an activity stock requirement. All stock that supports a member's activity stock requirement with the Bank is classified as Class B1 activity stock. Any additional amount of stock necessary for the total amount of Class B stock held to equal a member's minimum investment amount will be classified as Class B2 membership stock. Members purchase Class B2 membership stock to satisfy their membership stock requirement with the Bank. Stock held in excess of a member's minimum investment requirement is classified as Class B2 excess capital stock.

Members that withdraw from membership must wait at least five years after their membership was terminated and all of their capital stock was redeemed or repurchased before being readmitted to membership in any FHLB.

Under our Capital Plan, any dividend declared on Class B1 shares must be greater than or equal to the dividend declared on Class B2 shares for the same period. We have paid an enhanced dividend on Class B1 activity stock since the fourth quarter of 2013. Future dividend payments remain subject to declaration by our Board and will depend on future operating results, our Retained Earnings and Dividend Policy and any other factors the Board determines to be relevant.

Minimum Capital Requirements

We are subject by FHFA regulation to the following three capital requirements:

- Total regulatory capital ratio;
- Leverage capital ratio; and
- Risk-based capital.

For purposes of calculating our compliance with these minimum capital requirements in effect:

- "Permanent capital" includes our retained earnings plus the amount paid in for our Class B stock, including Class B stock classified as mandatorily redeemable.
- "Total capital" means the sum of (1) our permanent capital plus (2) any general allowance for losses.
- "Total assets" are the total assets determined in accordance with GAAP.

Permanent capital and total capital do not include accumulated other comprehensive income (loss).

Total Regulatory Capital Ratio. We must maintain a minimum ratio of total capital to total assets of at least 4.00%. For safety and soundness reasons, this ratio may be increased by the FHFA with respect to an individual FHLB.

Leverage Capital Ratio. We must also maintain a leverage ratio of total capital to total assets of at least 5.00%. For purposes of determining this leverage ratio, total capital is computed by multiplying our permanent capital by 1.5 and adding to this product all other components of total capital. This ratio also may be increased by the FHFA with respect to an individual FHLB.

Risk-Based Capital. Under the risk-based capital requirement, we must maintain permanent capital in an amount at least equal to the sum of our: (i) credit risk capital requirement, (ii) market risk capital requirement, and (iii) operational risk capital requirement; all of which are calculated in accordance with the rules and regulations of the FHFA.

As of	December 31, 2023		December 31, 2022	
	Requirement	Actual	Requirement	Actual
Total regulatory capital	\$ 4,735	\$ 8,339	\$ 5,074	\$ 7,801
Total regulatory capital ratio	4.00 %	7.04 %	4.00 %	6.15 %
Leverage capital	\$ 5,919	\$ 12,508	\$ 6,343	\$ 11,701
Leverage capital ratio	5.00 %	10.57 %	5.00 %	9.22 %
Risk-based capital	\$ 2,199	\$ 8,339	\$ 1,786	\$ 7,801

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)

Total regulatory capital and leverage capital includes mandatorily redeemable capital stock (MRCS) but does not include AOCI. Under the FHFA regulation on capital classifications and critical capital levels for the FHLBs, we are adequately capitalized.

Additionally, an FHFA Advisory Bulletin sets forth guidance for each FHLB to maintain a ratio of at least two percent of capital stock to total assets. In accordance with this guidance, the FHFA considers the proportion of capital stock to assets, measured on a daily average basis at month end, when assessing each FHLB's capital management practices.

Capital Concentration

The following member(s) (including any successor) had regulatory capital stock exceeding 10% of our total regulatory capital stock outstanding (which includes MRCS) as of December 31, 2023.

As of December 31, 2023	Regulatory Capital Stock Outstanding	% of Total Outstanding	Amount of Which is Classified as a Liability (MRCS)
BMO Bank, NA	\$ 501	14.9 %	\$ —

Mandatorily Redeemable Capital Stock (MRCS)

The following table shows our MRCS redemption terms by year payable.

As of December 31, 2023	Amount
Two to three years	\$ 80 ^a
Three to four years	1
Four to five years	2
Mandatorily Redeemable Capital Stock	\$ 83

^a Represents the redemption period of Class B stock held by a former captive insurance company member which began immediately upon their terminations of membership on February 19, 2021, in accordance with the FHFA Rule on FHLB membership. However, based on our current excess stock repurchase practices, we expect to repurchase nearly all of their excess stock prior to the end of the redemption period.

Repurchase of Excess Capital Stock

Members may request repurchases of excess stock on any business day. Additionally, on a monthly basis, the Bank repurchases excess capital stock held by each member or former member that exceeds certain limits set by the Bank. All repurchases of excess capital stock, including any future monthly repurchases, will continue until otherwise announced, but remain subject to our regulatory requirements, certain financial and capital thresholds, and prudent business practices.

Dividends

Our ability to pay dividends is subject to the FHLB Act and FHFA regulations. On January 26, 2024 our Board of Directors declared an 8.75% cash dividend (annualized) for Class B1 activity stock and a 5.125% cash dividend (annualized) for Class B2 membership stock based on our preliminary financial results for the fourth quarter of 2023. This dividend totaled \$78 million (recorded as \$75 million dividends on capital stock and \$3 million interest expense on mandatorily redeemable capital stock) and was paid on February 15, 2024. Any future dividend payment remains subject to declaration by the Board and will depend on future operating results, our Retained Earnings and Dividend Policy and any other factors the Board determines to be relevant.

Joint Capital Enhancement Agreement

All of the FHLBs, including us, entered into a Joint Capital Enhancement Agreement (as later amended, the JCE Agreement) and implemented it in our respective capital plans. The intent of the JCE Agreement is to enhance the capital position of each FHLB by allocating that portion of each FHLB's earnings to a separate restricted retained earnings account at that FHLB.

The JCE Agreement provides that each FHLB is required to contribute 20% of its net income each quarter to a restricted retained earnings account until the balance of that account equals at least 1% of that FHLB's average balance of outstanding consolidated obligations for the previous quarter.

Notes to Financial Statements

(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)

Additionally, the JCE Agreement provides that amounts in restricted retained earnings in excess of 150% of an FHLB's restricted retained earnings minimum (i.e., one percent of that FHLB's total consolidated obligations calculated as of the last day of each calendar quarter) may be released from restricted retained earnings.

Although restricted retained earnings under the JCE Agreement are included in determining whether we have attained the retained earnings target under the Bank's Retained Earnings and Dividend Policy, these restricted retained earnings will not be available to pay dividends. We do not believe that the requirement to contribute 20% of our future net income to a restricted retained earnings account under the JCE Agreement will have an impact on our ability to pay dividends except in the most extreme circumstances. There is a provision in the JCE Agreement that if, at any time, our restricted retained earnings were to fall below the required level, we would only be permitted to pay dividends out of (1) current net income not required to be added to our restricted retained earnings and (2) retained earnings that are not restricted.

Notes to Financial Statements

Noninterest income	(1)			(1)
Noninterest expense			8	8
Ending balance	<u>\$ 366</u>	<u>\$ (11)</u>	<u>\$ (13)</u>	<u>\$ 342</u>

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)
Note 14 - Employee Retirement Plans

We participate in the Pentegra Defined Benefit (DB) Plan for Financial Institutions (the Pension Plan), a multiple employer, tax-qualified noncontributory defined-benefit pension plan. The Pension Plan year runs from July 1 to June 30. Substantially all of our officers and employees participate in the Pension Plan. Our risks in participating in the Pension Plan are as follows:

- The Pension Plan is a single plan under Internal Revenue Code Section 413(c) and, as a result, all of the assets stand behind all of the liabilities. Accordingly, contributions made by us may be used to provide benefits to participants of other participating employers.
- If a participating employer withdraws from the Pension Plan, the unfunded obligations of the Pension Plan may be borne by the remaining participating employers, which would include us.
- If we choose to withdraw from the Pension Plan, we may be required to pay the Pension Plan an amount based on the underfunded status of the Pension Plan, referred to as a withdrawal liability.

Relevant information concerning the Pension Plan is outlined below:

- The Pension Plan's Employer Identification Number is 13-5645888 and the Plan Number is 333.
- A single Form 5500 is filed on behalf of all employers who participate in the Pension Plan. A Form 5500 was not available for the Pension Plan year ended June 30, 2023, as of the date of filing of this Form 10-K filing.
- Our contributions for the years ending December 31, 2023, December 31, 2022, and December 31, 2021 was not more than 5% of the total contributions to the Pension Plan.
- The Pension Plan is not a collective bargaining agreement.
- We did not pay any surcharges to the Pension Plan.
- There was no funding improvement plan or rehabilitation plan implemented, nor is any such plan pending.

Contributions to the Pension Plan include both mandatory amounts required under federal law and discretionary contributions to improve the Plan's funded status. The Moving Ahead for Progress in the 21st Century Act ("MAP-21"), enacted in 2012, provided temporary relief for employers like the Bank who participate in plans for which funding contributions are determined under the Employee Retirement Income Security Act of 1974. Specifically, MAP-21 allows the Bank to use a 25-year average discount rate within an upper and lower range rather than the current discount rate when determining its minimum funding obligation. In effect, the discount rate under MAP-21 is higher than the current discount rate, which reduces the Bank's minimum funding obligation and expense recognized into earnings. This is due to the inverse relationship between the discount rate and the pension liability and expense - that is, the higher the discount rate, the lower the liability and expense amount. This discount rate relief was extended in 2014 when the Highway and Transportation Funding Act (HATFA) was signed into law; again extended through 2020 when the Bipartisan Budget Act of 2015 (BBA 2015) was enacted in 2015; and again extended through 2021 with the American Rescue Plan of 2021 (ARPA). The Infrastructure Investment and Jobs Act (IIJA), also known as the Bipartisan Infrastructure Law (BIL), was signed into law on November 15, 2021 which further extended this discount rate relief through 2031.

The following table provides details on our multiemployer Pension Plan. The funded status is calculated as the market value of plan assets divided by the funding target and reflects contributions received through the plan year ended June 30.

Pension Plan	2023	2022	2021
Net pension cost (minimum required contribution) including administrative fees, charged to compensation and benefits expense for the years ended December 31,	\$ 10	\$ 2	\$ 4
Prepaid pension contributions, in other assets, as of December 31,	55	63	64
Plan funded status as of the plan years ended June 30,	114 %	119 %	130 %
Our portion of plan funded status as of the plan years ended June 30,	145 %	159 %	180 %

In addition to the above Pension Plan we have a tax-qualified defined contribution 401(k) plan, an unfunded non-qualified deferred compensation plan, and a postretirement health and life insurance benefit plan. The financial amounts related to these plans were not material.

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)
Note 15 - Fair Value

Fair value represents the exit price that we would receive to sell an asset or pay to transfer a liability in an orderly transaction with a market participant at the measurement date. Refer to **Note 2 - Summary of Significant Accounting Policies** for our fair value measurement policies.

Valuation Techniques and Significant Inputs

Outlined below is a description of our valuation techniques and significant assumptions.

Assets for which fair value approximates carrying amount. Due to the short-term nature and negligible credit risk, we use the carrying amount to estimate fair value of cash and due from banks, interest-bearing deposits, and accrued interest receivable.

Investment debt securities—non-MBS and MBS. We use one of the valuation approaches outlined below to determine fair value.

- Prices received from third party pricing vendors provided we believe their pricing models are consistent with what other market participants would use; or
- An income approach based on a market-observable interest rate curve adjusted for a spread.

The significant inputs and assumptions utilized by third party pricing vendors in their proprietary pricing models are derived as outlined below for these securities.

- Market observable sources (Level 1), which include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, benchmark securities, bids, offers, and other market related data, for securities that are actively traded.
- Available market observable inputs (Level 2) rather than quoted market prices are used when valuing securities primarily comprised of our portfolio of government, mortgage and asset-backed securities. Available market information is used, such as benchmark curves, benchmarking of like securities, sector groupings, and matrix pricing for fixed income securities that do not trade on a daily basis.
- Significant unobservable inputs (Level 3) for securities. Valuations are derived from techniques that use significant assumptions not observable in the market, which include pricing models, discounted cash flow models, or similar techniques.

We annually review the multiple third party pricing vendors we utilize to measure the fair value of our agency MBS and FFELP ABS. Our annual review includes, but is not limited to, the following:

- Confirming and further augmenting our understanding of the vendors' pricing processes, methodologies and control procedures.
- Reviewing, if available, the vendors' independent auditors' reports to assess the vendors' internal controls over their valuation processes.
- Assessing our third party vendors' proprietary pricing models for reasonableness, including the underlying inputs and assumptions utilized. This is achieved by sampling securities across different asset classes and utilizing deep dive analyses since we do not have direct access to their propriety pricing models.
- Using our internal model price in cases where a fair value is not provided by any third party pricing vendor to measure the fair value. In this process, we compare prices for comparable securities provided by third party pricing vendors to our internal pricing model to test for reasonableness.
- Using our third party vendor's pricing challenge process, which is in place for all security valuations. The pricing challenge process facilitates identification and resolution of potentially erroneous prices.

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)

Non-MBS securities - SBA, agency bonds and housing development bonds. We use one third party pricing vendor to measure the fair value of these securities. If available, we compare the prices received from that service to two other third party pricing vendors to determine if the price is reasonable. If no other third party prices are available, we validate against internal models.

Advances. We determine the fair value of an advance by calculating the present value of its expected future cash flows. Accrued interest receivable is included in the expected future cash flows for an advance carried at fair value under the fair value option, and accordingly, accrued interest receivable on such an advance is classified in Advances in our **Statements of Condition**. Accrued interest receivable is not included in the expected future cash flows on an advance carried on an amortized cost basis, and accordingly, accrued interest receivable on such an advance is classified in Other Assets in our **Statements of Condition**. In determining fair value we do not factor in prepayment risk in cases where an advance carries a prepayment fee since we are financially indifferent whether or not the borrower prepays.

The significant inputs used to determine fair value for advances carried under the fair value option in our **Statements of Condition** are shown below.

- Consolidated Obligation Curve (CO Curve). The Office of Finance constructs this market-observable curve using the U.S. Treasury Curve as a base which is then adjusted by adding indicative spreads obtained largely from market observable sources, which includes the benchmark component interest rate. These market indications are derived from pricing indications from dealers, historical pricing relationships, market activity such as recent GSE trades, and other secondary market activity. The CO Curve best represents our cost of funds and is an integral factor with respect to pricing our advance products, and accordingly, we utilize it to measure an advance's fair value.
- Volatility assumption. Market-based expectations of future interest rate volatility implied from current market prices for similar options.
- Target spread assumption. The target spread relative to the cost of funds that we expect to earn for a given advance.

MPF Loans held in portfolio. We measure the fair value of our entire mortgage loan portfolio based on to-be-announced (TBA) securities, which represent quoted market prices for new mortgage-backed securities issued by U.S. government-sponsored enterprises, and adjust that fair value amount for impaired MPF Loans held in portfolio. The prices of the referenced mortgage-backed securities and the MPF Loans are highly dependent upon the underlying prepayment assumptions priced in the secondary market. Prices are then adjusted for differences in coupon, average loan rate, seasoning, settlements, purchase market spread, loan balance, and cash flow remittance between our MPF Loans and the referenced mortgage-backed securities.

MPF Loans held for sale (included in Other Assets). We measure the fair value of our MPF Loans HFS portfolio based on TBA securities, which represent quoted market prices for new mortgage-backed securities issued by U.S. government-sponsored enterprises.

Derivative assets/liabilities. Derivative instruments are primarily transacted in the institutional dealer market and priced with observable market assumptions at a mid-market valuation point. We estimate the fair value of a derivative that is not transacted in such an active market using standard valuation techniques, such as discounted cash-flow analysis and comparisons to similar instruments. We are subject to nonperformance risk in derivative transactions due to the potential default by our derivative counterparties or a DCO. To mitigate this risk, we have entered into master netting agreements and credit support agreements with our derivative counterparties for our bilaterally executed derivative contracts that provide for the daily delivery of collateral. We apply the "portfolio exception" for purposes of determining the nonperformance risk adjustment, if any, to the fair value of our derivative instruments. As a result, we measure the nonperformance risk adjustment on our derivative instruments by taking into consideration the effects of legally enforceable master netting agreements that allow us to settle positive and negative positions and offset collateral with the same counterparty on a net basis.

For transactions executed as a cleared derivative, we settle our variation margin exposure daily in cash and pledge securities collateral for initial margin exposure. We also have established the enforceability of offsetting rights incorporated in the agreements for the cleared derivative transactions. Our net counterparty position equals the amount attributable to a particular credit exposure that we would receive to sell a net long position or that we would pay to transfer a net short position. Based on our risk management practices described above and our assessment of any change in our own credit spread, we concluded that the effect of the credit differential between us and our derivative counterparties and the DCO was sufficiently mitigated, to an immaterial level, so that no nonperformance risk adjustments were deemed necessary to the recorded fair value of our derivative assets/liabilities in our **Statements of Condition**. See **Note 9 - Derivatives and Hedging Activities** for further discussion of our credit risk management practices.

**Notes to Financial Statements****(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)**

In estimating a derivative's fair value, we use a discounted cash flow analysis utilizing market-observable inputs (inputs that are actively quoted and can be validated to external sources). Inputs by class of derivative are shown below.

Interest-rate related:

- We use the SOFR curve to determine the fair value of our cleared derivative contracts, and bilateral derivative contracts that use the SOFR index. For bilateral derivative contracts using an index other than SOFR, we use the OIS curve to determine the fair value.
- Volatility assumption market-based expectations of future interest rate volatility implied from current market prices for similar options.
- Prepayment assumption, if applicable.

Mortgage delivery commitments and TBA mortgage-backed securities:

- TBA price. Market-based prices of TBAs are determined by coupon class and expected term until settlement.

Deposits. We determine the fair values of deposits by their book values.

Federal Funds Sold and Securities Purchased Under Agreements to Resell. We determine the fair values of federal funds sold and securities purchased under agreements to resell using zero spread on the OIS curve.

Consolidated obligations. For consolidated obligations with embedded options, we estimate fair values based on clustering of two pricing vendors and our internal valuation model if the instrument has vendor pricing coverage. For consolidated obligations without embedded options or no vendor pricing coverage, we use our internal valuation model only. Our internal valuation models use standard valuation techniques and estimate fair values based on the following significant inputs for those consolidated obligations carried at fair value:

- CO Curve for fixed-rate, noncallable (bullet) consolidated obligations and a spread to a benchmark swap curve for callable consolidated obligations based on price indications for callable consolidated obligations from the Office of Finance.
- Volatility assumption. Market-based expectations of future interest rate volatility implied from current market prices for similar options.
- Spread assumption. A spread adjustment to a benchmark swap curve used to value callable consolidated obligations carried at fair value.

Notes to Financial Statements

(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)

Fair Value Estimates

The following table is a summary of the fair value estimates and related levels in the hierarchy. The carrying amounts are per the **Statements of Condition**. Fair value estimates represent the exit prices that we would receive to sell assets or pay to transfer liabilities in an orderly transaction with market participants at the measurement date. They do not represent an estimate of our overall market value as a going concern, as they do not take into account future business opportunities or profitability of assets and liabilities. We measure instrument-specific credit risk attributable to our consolidated obligations based on our nonperformance risk, which includes the credit risk associated with the joint and several liability of other FHLBs, see **Note 16 – Commitments and Contingencies**. As a result, we did not recognize any instrument-specific credit risk attributable to our consolidated obligations that are carried at fair value. See **Note 2 - Summary of Significant Accounting Policies** for our fair value policies and **Note 9 - Derivatives and Hedging Activities** for more information on the Netting and Cash Collateral amounts. The net carrying amount in the below table is net of any allowance for credit losses.

	Net Carrying Amount	Fair Value	Level 1	Level 2	Level 3	Netting & Cash Collateral
As of December 31, 2023						
Carried at amortized cost						
Cash and due from banks and interest-bearing deposits	\$ 2,604	\$ 2,604	\$ 2,604

We had no transfers between levels for the periods shown.

Level 3 Rollforward

There was no material activity for the periods reported for recurring Level 3 assets.

Fair Value Option

We may elect the fair value option for financial instruments, such as advances, MPF Loans held for sale, and consolidated obligation discount notes and bonds, in cases where hedge accounting treatment may not be achieved due to the inability to meet the hedge effectiveness testing criteria, or in certain cases where we wish to mitigate the risk associated with selecting the fair value option for other instruments. Financial instruments for which we elected the fair value option along with their related fair value are shown on our **Statements of Condition**. Refer to **Note 2 - Summary of Significant Accounting Policies** for further details.

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)

The following table presents the gains (losses) in fair values of financial assets and liabilities carried at fair value under the fair value option, which are recognized in noninterest income - instruments held under the fair value option in our **Statements of Income**.

For the years ended December 31,	2023	2022	2021
Advances	\$ 10	\$ (73)	\$ (46)
Discount notes	1	2	—
Bonds	(21)	23	4
Other	(1)	(8)	(4)
Noninterest income - Instruments held under the fair value option	\$ (11)	\$ (56)	\$ (46)

The following table reflects the difference between the aggregate UPB outstanding and the aggregate fair value for our long term financial instruments for which the fair value option has been elected. None of the advances were 90 days or more past due and none were on nonaccrual status.

As of	December 31, 2023		December 31, 2022	
	Advances	Consolidated Obligation Bonds	Advances	Consolidated Obligation Bonds
Unpaid principal balance	\$ 145	\$ 1,106	\$ 680	\$ 741
Fair value over (under) UPB	(10)	1	(19)	(23)
Fair value	\$ 135	\$ 1,107	\$ 661	\$ 718

Notes to Financial Statements

(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)

Note 16 – Commitments and Contingencies

The following table shows our commitments outstanding, which represent off-balance sheet obligations.

As of	December 31, 2023			December 31, 2022		
	Expire within one year	Expire after one year	Total	Expire within one year	Expire after one year	Total
Member standby letters of credit	\$ 5,274	\$ 7,327 ^a	\$ 12,601	\$ 4,485	\$ 6,265 ^a	\$ 10,750
MPF delivery commitments	155	—	155	93	—	93
Advance commitments	1	5	6	76	5	81
Housing authority standby bond purchase agreements	91	439	530	56	485	541
Unsettled consolidated obligation bonds	10	—	10	65	—	65
Other	1	—	1	2	—	2
Commitments	\$ 5,532	\$ 7,771	\$ 13,303	\$ 4,777	\$ 6,755	\$ 11,532

^a Contains \$6.4 billion and \$5.8 billion of member standby letters of credit at December 31, 2023 and December 31, 2022, which were renewable annually.

Commitments

Member standby letters of credit. A member standby letter of credit is a financing arrangement between us and our member. We execute a letter of credit with a member for a fee and require that member to fully collateralize the letter of credit at the time of issuance. If we are required to make payment for a beneficiary's draw, the payment amount is converted into a collateralized advance to the member if not reimbursed by the member. We monitor the creditworthiness of our members that have letters of credit. See **Note 8 - Allowance for Credit Losses** for information related to our credit risk for member standby letters of credit.

Housing authority standby bond purchase agreements. We enter into agreements with state housing authorities within our district to provide them liquidity for a fee. Specifically, if required under the terms of the agreement, we purchase and hold a state housing authority's bonds until their designated marketing agent can find a suitable investor or the state housing authority repurchases the bond. As of December 31, 2023, these standby bond purchase commitments expire no later than 2028, although some may be renewable at our option. We purchased no bonds under these agreements during the periods presented above.

Advance commitments. We enter into forward-starting advances, which lock in a predetermined interest rate for an advance that will be funded at a future date subject to certain conditions.

MPF delivery commitments. Includes delivery commitments to purchase all MPF Loans, including MPF Loans we hold in our portfolio and MPF Loans that are subsequently sold or securitized.

Contingencies

Joint and Several Liability on Behalf of Another FHLB. We have a contingent obligation for the payment of principal and interest on consolidated obligations of all the FHLBs resulting from our joint and several liability. We did not expect to pay any additional amounts under our joint and several liability as of December 31, 2023 and December 31, 2022.

Legal Proceedings. We may be subject to various legal proceedings arising in the normal course of business. After consultation with legal counsel, management is not aware of any such proceedings that might result in our ultimate liability in an amount that would have a material effect on our financial condition or results of operations.

Notes to Financial Statements
(U.S. Dollars in tables in millions except per share amounts unless otherwise indicated)
Note 17 – Transactions with Related Parties and Other FHLBs

We define related parties as either members whose officers or directors serve on our Board of Directors, or members that control more than 10% of our total voting interests. We did not have any members that controlled more than 10% of our total voting interests for the periods presented in these financial statements.

In the normal course of business, we may extend credit to or enter into other transactions with a related party. These transactions are done at market terms that are no more favorable than the terms of comparable transactions with other members who are not considered related parties.

Members

The following table summarizes material balances we had with our members who are related parties as defined above (including their affiliates) as of the dates presented. The related net income impacts to our **Statements of Income** were not material.

As of	December 31, 2023	December 31, 2022
Assets - Advances	\$ 595	\$ 386
Liabilities - Deposits	5	3
Equity - Capital Stock	28	18

Other FHLBs

From time to time, we may loan to, or borrow from, other FHLBs. These transactions are done at market terms that are no more favorable than the terms of comparable transactions with other counterparties. These transactions are overnight, maturing the following business day.

We have also, from time to time, assumed the outstanding consolidated obligations of another FHLB rather than issue new consolidated obligations. In connection with these transactions, the Bank becomes the primary obligor for the transferred debt. During the year ended December 31, 2023 the Bank assumed consolidated obligation discount notes with a par value of \$4.32 billion from the FHLB of Atlanta with a corresponding transfer of funds to the Bank from the FHLB of Atlanta. The Bank did not assume any debt from other FHLBs during the year ended December 31, 2022.

In addition, we provide programmatic and operational support in our role as the administrator of the MPF Program on behalf of the other MPF Banks for which we receive a membership and volume-based administration fee.

Material transactions with other FHLBs are identified on the face of our financial statements.

Signatures

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
