Note 1 - Background and Basis of Presentation

The Federal Home Loan Bank of Chicago is a federally chartered corporation and one of 11 Federal Home Loan Banks (the FHLBs) that, with the Office of Finance, comprise the Federal Home Loan Bank System (the System). The FHLBs are government-sponsored enterprises (GSE) of the United States of America and were organized under the Federal Home Loan Bank Act of 1932, as amended (FHLB Act), in order to improve the availability of funds to support home ownership. We are supervised and regulated by the Federal Housing Finance Agency (FHFA), an independent federal agency in the executive branch of the United States (U.S.) government.

Each FHLB is a member-owned cooperative with members from a specifically defined geographic district. Our defined geographic district is Illinois and Wisconsin. All federally-insured depository institutions, insurance companies engaged in residential housing finance, credit unions and community development financial institutions located in our district are eligible to apply for membership with us. All our members are required to purchase our capital stock as a condition of membership. Our capital stock is not publicly traded, and is issued, repurchased or redeemed at par value, \$100 per share, subject to certain statutory and regulatory limits. As a cooperative, we do business with our members, and former members (under limited circumstances). Specifically, we provide credit principally in the form of secured loans called advances. We also provide liquidity for home mortgage loans to members approved as Participating Financial Institutions (PFIs) through the Mortgage Partnership Finance® (MPF®) Program.

Our accounting and financial reporting policies conform to generally accepted accounting principles in the United States of America (GAAP). Amounts in prior periods may be reclassified to conform to the current presentation and if material are disclosed in the following notes.

In the opinion of management, all normal recurring adjustments have been included for a fair statement of this interim financial information. These unaudited financial statements and the following footnotes should be read in conjunction with the audited financial statements and footnotes for the year ended December 31, 2016, included in our Annual Report on Form 10-K (2016 Form 10-K) starting on page F-1, as filed with the Securities and Exchange Commission (SEC).

Unless otherwise specified, references to we, us, our, and the Bank are to the Federal Home Loan Bank of Chicago.

"Mortgage Partnership Finance", "MPF", "MPF Xtra", and "Community First" are registered trademarks of the Federal Home Loan Bank of Chicago.

See the Glossary of Terms starting on page 59 for the definitions of certain terms used herein.

Use of Estimates and Assumptions

We are required to make estimates and assumptions when preparing our financial statements in accordance with GAAP. The most significant of these estimates and assumptions applies to fair value measurements and allowance for credit losses. Our actual results may differ from the results reported in our financial statements due to such estimates and assumptions. This includes the reported amounts of assets and liabilities, the reported amounts of income and expense, and the disclosure of contingent assets and liabilities.

Consolidation of Variable Interest Entities

We are not the primary beneficiary of any variable interest entity. Specifically, we do not have the power to direct the activities of any variable interest entity that would most significantly impact its economic performance and we do not have the obligation to absorb losses or the right to receive benefits from any variable interest entity that could potentially be significant to a variable interest entity. As a result, we do not consolidate any of our investments in variable interest entities. Instead, we classify variable interest entities as investment securities in our statements of condition. Such investment securities include, but are not limited to, senior interests in private-label mortgage backed securities (MBS) and Federal Family Education Loan Program asset backed securities (FFELP ABS). Our maximum loss exposure for these investment securities is limited to their carrying amounts. We have no liabilities related to these investments in variable interest entities. We have not provided financial or other support (explicitly or implicitly) to these investment securities that we were not previously contractually required to provide, nor do we intend to provide such support in the future.

Gross versus Net Presentation of Financial Instruments

Our over-the-counter derivative transactions may be entered into through a bilateral agreement with an individual counterparty. We present these derivative transactions on a net basis in our statements of condition on the basis that our right to net amounts due to our counterparties is enforceable at law upon early termination. Derivatives are netted by contract (e.g., master netting agreement), to discharge all or a portion of the amounts that would be owed to our counterparty by applying them against the amounts that our counterparty owes to us. If these netted amounts are positive, they are classified as a derivative asset and if negative, they are classified as a derivative liability. The net exposure for these financial instruments can change on a daily basis; therefore, there may be a delay between the time this exposure change is identified and additional collateral is requested, and the time when this collateral is received or pledged. Likewise, there may be a delay for excess collateral to be returned. For derivative instruments that meet the netting requirements, any excess cash collateral received or pledged is recognized as a derivative liability or asset.

We also enter into cleared derivative transactions with clearinghouses classified as a Derivatives Clearing Organization (DCO) through a Futures Commission Merchant (FCM), a clearing member of the DCO. Prior to 2017, our accounting presented derivative assets and liabilities of our cleared derivative transactions on a net basis, inclusive of initial and variation margin, and accrued interest receivable/payable and cash collateral. Due to rule changes adopted by our DCOs that characterize the treatment of variation margin payments as settlement of a derivative's mark-to-market exposure and not as collateral against the derivative's mark-to-market exposure, we now account for our variation margin payments as settlements to our derivative assets and derivative liabilities. The amendments to the DCOs' rules have no effect on how we present initial margin, which we include in the carrying amount of our derivative assets or derivative liabilities.

See Note 9 - Derivatives and Hedging Activities for further details.

Our policy is to report securities purchased under agreements to resell and securities sold under agreements to repurchase, if any, and securities borrowing transactions, if any, on a gross basis.

Note 2 - Summary of Significant Accounting Policies

Our **Summary of Significant Accounting Policies** through December 31, 2016, can be found in **Note 2 – Summary of Significant Accounting Policies** to the financial statements in our 2016 Form 10-K. We adopted the following policies year to date in 2017:

Accounting for Variation Margin Payments

Effective in January of 2017 we began accounting for variation margin payments made to or received by the DCOs through our FCMs as settlements to our cleared derivative assets and derivative liabilities. See **Note 1 - Background and Basis for Presentation** for further details. This change in accounting did not have any effect on the accounting of our existing hedge relationships. Specifically, the change in accounting would not require us to discontinue existing hedge relationships or preclude us from using the short-cut method of hedge accounting provided no additional changes are made by the DCOs that would preclude the use of the short-cut method of hedge accounting. The International Swaps and Derivatives Association (ISDA) issued a confirmation letter confirming the SEC staff's non-objection to the conclusions reached by ISDA related to the accounting implications of the DCO rule changes regarding the characterization of the variation margin payments as daily settlements and the continued application of existing hedge accounting relationships, including the use of the short-cut method of hedge accounting.

Contingent Put and Call Options in Debt Instruments

In March of 2016, the FASB issued new guidance clarifying the requirements for assessing whether a contingent call (put) option embedded in a debt instrument is clearly and closely related to that debt instrument, which is referred to the "host contract" for purposes of this assessment. Specifically, we are no longer required to consider the event triggering the acceleration of an embedded contingent call (put) option when assessing whether it is clearly and closely related to the debt instrument or host contract. We adopted the new guidance effective January 1, 2017. The new guidance did not have any effect on our financial condition, results of operations, or cash flows at the time of adoption.

Note 3 - Recently Issued but Not Yet Adopted Accounting Standards

Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost

In March of 2017, the FASB amended existing GAAP to require the service cost component of our net periodic pension and postretirement benefit costs to be classified as compensation costs. The other components of our net periodic pension and postretirement benefit costs are required to be classified as Noninterest expense - Other operating expenses on a retrospective basis effective January 1, 2018. Currently, our total net periodic pension and postretirement costs are classified as compensation costs. We do not expect the classification guidance of this GAAP amendment will have a significant effect on our financial condition, results of operations, and cash flows.

Classification of Certain Cash Receipts and Cash Payments in the Statement of Cash Flows

In August of 2016, the FASB issued statement of cash flows classification guidance governing certain cash receipts and cash payments. The new guidance becomes effective January 1, 2018 and will be applied retrospectively for each period our statements of cash flows are presented at the time of adoption. The new guidance is not expected to have any effect on our financial condition, results of operations, and cash flows since our existing practice is consistent with the provisions that are applicable to us. The provisions applicable to us are outlined below.

- We classify cash payments related to prepaying or extinguishing our consolidated obligations as financing activities in our statements of cash flows.
- We classify the cash payments attributable to interest expense paid at the maturity of our discount notes, which have a zero
 coupon rate, as operating activities in our statements of cash flows and in our supplemental disclosure of interest expense
 paid.

Measurement of Credit Losses on Financial Instruments

In June of 2016, the FASB amended existing GAAP guidance applicable to measuring credit losses on financial instruments. The amendments are expected to result in recognizing credit losses in the financial statements on a timelier basis by utilizing forward looking information. Key provisions of the amendments relevant to us are outlined below.

- Replaces the "incurred loss" impairment methodology applied under current GAAP with an "expected credit losses" methodology.
- The expected credit losses methodology requires us to estimate all credit losses on financial instruments carried on an
 amortized cost basis and off-balance-sheet credit exposures over their contractual term. On balance sheet financial
 instruments include, but are not limited to, advances, MPF Loans held in portfolio, and Held-to-maturity (HTM) securities.
 Off-balance-sheet credit exposure refers to unfunded credit exposures, such as standby letters of credit.
- The measurement of expected credit losses is based on relevant information about past events, including historical experience, current conditions, and reasonable and supportable forecasts that affect the collectability of the financial instrument's reported amount.
- Aligns the income statement recognition of credit losses for securities with the reporting period in which changes in
 collectability occur by recording credit losses (and subsequent reversals) through an allowance rather than a write-down as
 currently required under GAAP.
- Requires recognition of a credit loss on available-for-sale (AFS) securities into the income statement if the present value of
 cash flows expected to be collected on the security is less than its amortized cost basis. Additionally, the allowance on AFS
 debt securities will be limited to the amount by which fair value is less than the amortized cost basis.
- Expands upon the current credit quality disclosures by requiring further disaggregation of financial instruments by their year
 of origination. This disclosure is expected to help financial statement users better understand credit quality trends of asset
 portfolios.

The amendments become effective January 1, 2020, with early adoption permitted effective January 1, 2019. We plan to implement the expected credit loss methodology through a cumulative-effect adjustment to our beginning retained earnings as of the first reporting period in which the new guidance becomes effective for us. The cumulative effect adjustment will equal the amount required to adjust our existing allowance for credit losses for our on balance-sheet financial instruments and other

liabilities for our off-balance sheet financial instruments to the amounts determined under the expected credit losses methodology. A prospective transition approach is required for debt securities in which an other-than-temporary-impairment (OTTI) impairment had been recognized before our effective date. The accounting implications of such an approach are outlined below:

- Write-downs recognized prior to our effective date on securities may not be reversed at the time of our adoption.
- Improvements in expected cash flows subsequent to adoption for such securities will continue to be accounted for as yield
 adjustments over their remaining life.
- Recoveries of amounts previously written off prior to the date of adoption will be recorded in earnings when received.

We are in the process of reviewing the expected effect of this guidance on our financial condition, results of operations, and cash flows.

Leases

In February of 2016, the FASB issued new guidance pertaining to lease accounting. The new guidance requires us to recognize operating leases and right-to-use assets, if any, in our statements of condition if their term exceeds 12 months. Currently, we recognize our operating leases off-balance sheet. The new guidance becomes effective January 1, 2019. A modified retrospective transition approach is required to be applied to leases existing at, or entered into after, January 1, 2018. We do not expect the new guidance to have a significant effect on our financial condition, results of operations, and cash flows since our existing off-balance sheet operating leases are not material.

Recognition and Measurement of Financial Assets and Financial Liabilities

In January of 2016, the FASB issued new guidance governing recognition and measurement of financial assets and financial liabilities. The new guidance becomes effective January 1, 2018. We do not expect the new guidance to have a significant effect on our financial condition, results of operations, and cash flows. The key provisions applicable to us are as follows:

- The ability to elect the fair value option will continue to be permitted.
- The portion of instrument-specific credit risk attributable to the total change in fair value of our consolidated obligations that are carried at fair value under the fair value option should be recognized in other comprehensive income. We will measure such instrument-specific credit risk based on our nonperformance risk. Specifically, our nonperformance risk includes our own credit risk and the credit risk associated with the joint and several liability of other FHLBs. We do not expect this requirement will have a material effect on our financial condition, results of operations, and cash flows.
- The requirement to separately present financial assets and financial liabilities by measurement category, such as amortized
 cost, and form, such as securities or loans, on our statements of condition or the accompanying notes to the financial
 statements.

Revenue from Contracts with Customers

In May of 2014, the FASB issued new guidance governing revenue recognition from contracts with customers. Subsequently the FASB issued several other related pronouncements that provide additional revenue recognition guidance and clarifications to the original guidance issued in 2014. The new guidance becomes effective January 1, 2018. We do not expect the new revenue recognition guidance will have any effect on our financial condition, results of operations, or cash flows at the time of adoption. This is because the majority of our financial instruments and other contractual rights that generate revenue are covered by other GAAP, and therefore, are scoped out of this new guidance. Further, we believe that recognition of our service fee revenue, which is insignificant, is consistent with this new guidance.

Note 4 - Interest Income and Interest Expense

The following table presents interest income and interest expense for the periods indicated:

	Three months	ended June 30,	Six months er	nded June 30,	
	2017	2016	2017	2016

Note 5 - Investment Securities

We classify securities as either trading, held-to-maturity (HTM), or available-for-sale (AFS). Our security disclosures within these classifications are disaggregated by major security types as shown below. Our major security types are based on the nature and risks of the security.

- U.S. Government & other government related may consist of the sovereign debt of the United States; debt issued by government sponsored enterprises (GSE); and non-mortgage-backed securities of the Small Business Administration and Tennessee Valley Authority.
- Federal Family Education Loan Program asset backed securities (FFELP ABS).
- GSE residential mortgage-backed securities (MBS) issued by Fannie Mae and Freddie Mac.
- · Government-guaranteed MBS.
- Private-label residential MBS.
- State or local housing agency obligations.

Pledged Collateral

We disclose the amount of investment securities pledged as collateral pertaining to our derivatives activity on our statements of condition. Also see **Note 9 - Derivatives and Hedging Activities** for further details.

Trading Securities

The following table presents the fair value of our trading securities. We had no material unrealized gains or losses on trading securities still held on our statement of condition as of the end of the reporting period.

Aging of Unrealized Temporary Losses

The following tables present unrealized temporary losses on our AFS and HTM portfolio for periods less than 12 months and for 12 months or more. We recognized no OTTI charges on these unrealized loss positions. Refer to the Other-Than-Temporary Impairment Analysis section below for further discussion. In the tables below, in cases where the gross unrealized losses for an investment category are less than \$1 million, the losses are not reported.

Other-Than-Temporary Impairment Analysis

We recognized no OTTI charges on HTM or AFS securities for the periods presented. This is because we do not intend to sell these securities, we believe it is more likely than not that we will not be required to sell them prior to recovering their amortized cost basis, and we expect to recover the entire amortized cost basis. For further detail on our accounting policy regarding OTTI please see **Note 2 - Summary of Significant Accounting Policies** to the financial statements in our 2016 Form 10-K.

As of June 30, 2017, we had a base case short-term housing price forecast for all markets with projected changes ranging from -5.0% to +11.0% over the twelve month period beginning April 1, 2017. For the vast majority of markets, the short-term forecast has changes ranging from +1.0% to +6.0%.

The following table presents the changes in the cumulative amount of previously recorded OTTI credit losses on investment securities recognized into earnings for the reporting periods indicated.

	Thr	ee months	ende	ed June 30,	5	Six months er	nded June 30,		
	2017			2016		2017	2016		
Beginning Balance	\$	508	\$	555	\$	520	\$	568	
Increases in expected future cash flows recorded as accretion into interest income		(9)		(13)		(21)		(26)	
Ending Balance	\$	499	\$	542	\$	499	\$	542	

Ongoing Litigation

On October 15, 2010, we instituted litigation relating to 64 private-label MBS bonds we purchased in an aggregate original principal amount of \$4.29 billion. As of June 30, 2017, the remaining litigation covers three private-label MBS bonds in the aggregate original principal amount of \$65 million.

Notes to Financial Statements - (Unaudited) (Dollars in tables in millions except per share amounts unless otherwise indicated)

Note 6 - Advances

We offer a wide range of fixed- and variable-rate advance products with different maturities, interest rates, payment characteristics and optionality.

The following table presents our advances by terms of maturity. Actual maturities may differ from contractual maturities because some borrowers have the right to call or prepay advances with or without penalties.

As of June 30, 2017	Amount	Weighted Average Contractual Interest Rate
·	 Amount	interest Nate
Due in one year or less	\$ 22,420	1.13%
One to two years	3,306	1.20%
Two to three years	1,854	1.61%
Three to four years	1,338	1.66%
Four to five years	1,904	1.70%
More than five years	15,901	1.30% ^a
Par value	\$ 46,723	1.25%

The weighted average interest rate is relatively low when compared to other categories due to a majority of advances in this category consisting of variable rate advances which reset periodically at market prevailing interest rates.

We have no allowance for credit losses on our advances. See **Note 8 - Allowance for Credit Losses** to the financial statements for further information related to our credit risk on advances.

The following table reconciles the par value of our advances to the carrying amount on our statements of condition as of the dates indicated.

As of	Jur	ne 30, 2017	Decen	nber 31, 2016
Par value	\$	46,723	\$	44,965
Fair value hedging adjustments		115		98
Other adjustments		6		4
Advances	\$	46,844	\$	45,067

The following advance borrowers exceeded 10% of our advances outstanding:

As of June 30, 2017	Par Value	% of Total Outstanding
One Mortgage Partners Corp.	\$ 11,000 ^a	23.5%
BMO Harris Bank, National Association	6,875	14.7%

^a One Mortgage Partners Corp. is a subsidiary of JPMorgan Chase Bank NA.

Notes to Financial Statements - (Unaudited) (Dollars in tables in millions except per share amounts unless otherwise indicated)

Note 7 - MPF Loans Held in Portfolio

We acquire MPF Loans from PFIs to hold in our portfolio, and in some cases we purchased participations in pools of eligible mortgage loans from other FHLBs (MPF Banks). MPF Loans that are held in portfolio are fixed-rate conventional and Government Loans secured by one-to-four family residential properties with maturities ranging from 5 years to 30 years or participations in pools of similar eligible mortgage loans from other MPF Banks.

The following table presents information on MPF Loans held in portfolio by contractual maturity at the time of purchase.

As of	Jur	ne 30, 2017	Decem	ber 31, 2016
Medium term (15 years or less)	\$	321	\$	417
Long term (greater than 15 years)		4,578		4,489
Unpaid principal balance		4,899		4,906
Net premiums, credit enhancement and deferred loan fees		45		38
Fair value hedging adjustments		24		26
MPF Loans held in portfolio, before allowance for credit losses		4,968		4,970
Allowance for credit losses on MPF Loans		(3)		(3)
MPF Loans held in portfolio, net	\$	4,965	\$	4,967
Conventional mortgage loans	\$	3,866	\$	3,818
Government Loans		1,033		1,088
Unpaid principal balance	\$	4,899	\$	4,906

The above table excludes MPF Loans acquired under the MPF Xtra, MPF Direct, and MPF Government MBS products. We either concurrently sell these loans to third party investors or hold them for a short time period, during which they are reflected as Other Assets in our Statements of Condition, until such loans are securitized.

See **Note 8 - Allowance for Credit Losses** to the financial statements for information related to our credit losses on MPF Loans held in portfolio.

Note 8 - Allowance for Credit Losses

See **Note 2 - Summary of Significant Accounting Policies** to the financial statements in our 2016 Form 10-K for further details regarding our allowance for credit losses methodology for each of the portfolio segments discussed below.

We have identified our portfolio segments as shown below:

- Member credit products (advances, letters of credit and other extensions of credit to borrowers);
- Conventional MPF Loans held in portfolio;
- Government Loans held in portfolio; and
- Federal Funds Sold and Securities Purchased Under Agreements to Resell.

Member Credit Products

We have not recorded any allowance for credit losses for our member credit products portfolio segment based upon our credit analysis and the repayment history on member credit products. We had no member credit products that were past due, on nonaccrual status, involved in a troubled debt restructuring or otherwise considered impaired. We have not recorded a separate liability to reflect credit losses on our member credit products with off-balance sheet credit exposure.

Conventional MPF Loans Held in Portfolio

For further detail of our **MPF Risk Sharing Structure** see page F-15 in our 2016 Form 10-K. There has been no material activity in our allowance for credit losses since December 31, 2016. The following table presents the recorded investment and the allowance for credit losses in conventional MPF Loans by impairment methodology.

As of	June	30, 2017	Decem	ber 31, 2016
Recorded investment in conventional MPF Loans -				
Individually evaluated for impairment	\$	62	\$	74
Collectively evaluated for impairment		3,878		3,812
Recorded investment	\$	3,940	\$	3,886
Allowance for credit losses on conventional MPF Loans -				
Homogeneous pools of loans collectively evaluated for impairment	\$	3	\$	3

Government Loans Held in Portfolio

Servicers are responsible for absorbing any losses incurred on Government Loans held in portfolio that are not recovered from the government insurer or guarantor. We did not establish an allowance for credit losses on our Government Loans held in portfolio for the reporting periods presented based on our assessment that our servicers have the ability to absorb such losses. Further, Government Loans were not placed on nonaccrual status or disclosed as troubled debt restructurings for the same reason.

Notes to Financial Statements - (Unaudited) (Dollars in tables in millions except per share amounts unless otherwise indicated)

Credit Quality Indicators - MPF Loans Held in Portfolio

The following table summarizes our recorded investment in MPF Loans by our key credit quality indicators, which include:

- "Serious delinquency rate" consists of MPF Loans that are 90 days or more past due or in the process of foreclosure, as a
 percentage of the total recorded investment. MPF Loans that are both 90 days or more past due and in the process of
 foreclosure are only included once in our serious delinquency rate calculation.
- "Past due 90 days or more still accruing interest" consists of MPF Loans that are either insured or guaranteed by the
 government or conventional mortgage loans that are well secured (by collateral that have a realizable value sufficient to
 discharge the debt or by the guarantee or insurance, such as primary mortgage insurance, of a financially responsible party)
 and in the process of collection.

		,	June	cember 31, 2016								
As of	Con	ventional	Go	Government Total		Conventional		Government			Total

Recorded investment	\$	3,940	\$	1,054	\$	4,994	\$	3,886	\$	1,110	\$	4,996
In process of foreclosure	\$	29	\$	6	\$	35	\$	35	\$	7	\$	42
Serious delinquency rate		1.47%		1.94%		1.57%		1.82%		2.07%		1.88%
Past due 90 days or more and still accruing interest	\$	6	\$	20	\$	26	\$	8	\$	23	\$	31
On nonaccrual status	\$	62	\$	_	\$	62	\$	74	\$	_	\$	74

Individually Evaluated Impaired MPF Loans

The following table summarizes the recorded investment, unpaid principal balance, and related allowance for credit losses attributable to individually evaluated impaired conventional MPF Loans. Conventional MPF Loans are individually evaluated for impairment when they are adversely classified. There is no allowance for credit losses attributable to conventional MPF Loans that are individually evaluated for impairment, since the related allowance for credit losses have been charged off.

As of	June	30, 2017	D	ecember 31, 2016
Recorded investment without an allowance for credit losses	\$	62	\$	74
Unpaid principal balance without an allowance for credit losses		67		80

We do not recognize interest income on impaired loans.

Term Federal Funds Sold and Term Securities Purchased Under Agreements to Resell

We only held overnight Federal Funds sold and Securities Purchased Under Agreements to Resell as of June 30, 2017, and December 31, 2016. We did not have any longer term Federal Funds sold and Securities Purchased Under Agreements to Resell arrangements. We did not establish an allowance for credit losses for our overnight Federal Funds sold since all Federal Funds sold were repaid according to their contractual terms. We also did not establish an allowance for credit losses for overnight securities purchased under agreements to resell since all payments due under the contractual terms have been received and we hold sufficient underlying collateral.

Note 9 - Derivatives and Hedging Activities

See Note 2 - Summary of Significant Accounting Policies in our 2016 Form 10-K for our accounting policies for derivatives.

We transact most of our derivatives with large banks and major broker-dealers. Some of these banks and broker-dealers or their affiliates buy, sell, and distribute consolidated obligations. We are not a derivatives dealer and do not trade derivatives for speculative purposes. We enter into derivative transactions through either of the following:

- A bilateral agreement with an individual counterparty for over-the-counter derivative transactions.
- Clearinghouses classified as DCOs through FCMs, which are clearing members of the DCOs, for cleared derivative transactions.

Managing Interest Rate Risk

We use fair value hedges to offset changes in the fair value or a benchmark interest rate (e.g., LIBOR) related to (1) a recognized asset or liability or (2) an unrecognized firm commitment. We use cash flow hedges to offset an exposure to variability in expected future cash flows associated with an existing recognized asset or liability or a forecasted transaction. We use economic hedges in cases where hedge accounting treatment is not permitted or achievable; for example, hedges of portfolio interest rate risk or financial instruments carried at fair value under the fair value option.

Managing Credit Risk on Derivative Agreements

Over-the-counter Derivative Transactions: We are subject to credit risk due to the risk of nonperformance by counterparties to our derivative agreements. For bilateral derivative agreements, the degree of counterparty risk depends on the extent to which master netting arrangements, collateral requirements and other credit enhancements are included in such contracts to mitigate the risk. We manage counterparty credit risk through credit analysis, collateral requirements and adherence to the requirements set forth in our policies and FHFA regulations. We require collateral agreements on all over-the-counter derivatives. Additionally, collateral related to over-the-counter derivatives with member institutions includes collateral assigned to us, as evidenced by a written security agreement, and which may be held by the member institution for our benefit. Based on credit analyses and collateral requirements, we do not anticipate any credit losses on our over-the-counter derivative agreements. See **Note 13** - **Fair Value** to the financial statements in this Form 10-Q and **Note 16** - **Fair Value** in our 2016 Form 10-K for discussion regarding our fair value methodology for over-the-counter derivative assets and liabilities, including an evaluation of the potential for the fair value of these instruments to be affected by counterparty credit risk.

For most of our bilateral derivative transactions executed prior to March 1, 2017, and for all transactions entered into after March 1, 2017, our bilateral derivative agreements are fully collateralized with a zero unsecured threshold in accordance with variation margin requirements issued by the U.S. federal bank regulatory agencies and the CFTC, as discussed in the Legislative and Regulatory Developments in the Bank's Annual Report on Form 10-K for the year ended December 31, 2015. Certain of our bilateral derivative agreements may contain provisions that require us to post additional collateral with our counterparties for transactions executed prior to March 1, 2017, if there is deterioration in our credit rating. If our credit rating is lowered by a major credit rating agency, such as Standard and Poor's or Moody's, we would be required to deliver additional collateral on derivatives in net liability positions. If our credit rating had been lowered from its current rating to the next lower rating at June 30, 2017, no material amount of additional collateral would have been required to be delivered to our derivatives counterparties.

Cleared Derivative Transactions: Cleared derivative transactions are subject to variation and initial margin requirements established by the DCO and its clearing members. As a result of rule changes adopted by our DCOs, variation margin payments are characterized as settlement of a derivative's mark-to-market exposure and not as collateral against the derivative's mark-to-market exposure. See Note 1 - Background and Basis of Presentation and Note 2 - Summary of Significant Accounting Policies for further discussion. We post our initial margin collateral payments and make variation margin settlement payments through our FCMs, on behalf of the DCO, which could expose us to institutional credit risk in the event that the FCMs or the DCO fail to meet their obligations. Clearing derivatives through a DCO mitigates counterparty credit risk exposure because the DCO is substituted for individual counterparties and variation margin settlement payments are made daily through the FCMs for changes in the value of cleared derivatives. The DCO determines initial margin requirements for cleared derivatives. In this regard, we pledged \$76 million of investment securities that can be sold or repledged, as part of our initial margin related to cleared derivative transactions at June 30, 2017. Additionally, an FCM may require additional initial margin to be posted based on credit considerations, including but not limited to, if our credit rating downgrades. We had no requirement to post additional initial margin by our FCMs at June 30, 2017.

Notes to Financial Statements - (Unaudited) (Dollars in tables in millions except per share amounts unless otherwise indicated)

The following table presents details on the notional amounts, and derivative assets and liabilities on our statements of condition. Effective in January of 2017, we began treating daily variation margin on our cleared derivatives as cash settlements instead of as cash collateral.

	June 30, 2017							December 31, 2016						
As of	Notional Derivative Derivative Amount Assets Liabilities		Notional Amount		Derivative Assets		Derivative Liabilities							
Derivatives in hedge accounting relationships-

Noncash collateral pledged and cannot be sold or repledged				(2)		(2)						
Net amount	\$	6	\$	3	\$	9	\$	34	\$	_	\$	34

At June 30, 2017, we had \$70 million of additional credit exposure on cleared derivatives due to pledging of noncash collateral to our DCOs for initial margin, which exceeded our derivative liability position. We had \$86 million comparable exposure at December 31, 2016.

Notes to Financial Statements - (Unaudited) (Dollars in tables in millions except per share amounts unless otherwise indicated)

Fair Value Hedges

The following table presents our fair value hedging results by the type of hedged item. We had no gain (loss) for hedges that no longer qualified as a fair value hedge. Additionally, the table indicates where fair value hedging results are classified in our statements of income. In this regard, the **Amount Recorded in Net Interest Income** column includes the following:

- The amortization of closed fair value hedging adjustments, which are included in the interest income/expense line item of the respective hedged item type.
- The effect of net interest settlements attributable to open derivative hedging instruments, which are recorded directly to the interest income/expense line item of the respective hedged item type.

Cash Flow Hedges

We reclassify amounts in AOCI into our statements of income in the same periods during which the hedged forecasted transaction affects our earnings. We had no discontinued hedges. The deferred net gains (losses) on derivative instruments in AOCI that are expected to be reclassified to earnings during the next twelve months were \$(4) million as of June 30, 2017. The maximum length of time over which we are hedging our exposure to the variability in future cash flows for forecasted transactions is 3 years.

The following table presents our cash flow hedging results by type of hedged item. Additionally, the table indicates where cash flow hedging results are classified in our statements of income. In this regard, the **Amount Recorded in Net Interest Income** column includes the following:

- The amortization of closed cash flow hedging adjustments, which are reclassified from AOCI into the interest income/ expense line item of the respective hedged item type.
- The effect of net interest settlements attributable to open derivative hedging instruments, which are recorded directly to the interest income/expense line item of the respective hedged item type.

Note 10 - Consolidated Obligations

The FHLBs issue consolidated obligations through the Office of Finance as their agent. Consolidated obligations consist of discount notes and consolidated obligation bonds. Consolidated discount notes are issued to raise short-term funds, are issued at less than their face amount and redeemed at par value when they mature. The maturity of consolidated obligation bonds may range from less than one year to over 20 years, but they are not subject to any statutory or regulatory limits on maturity.

The following table presents our consolidated obligation discount notes for which we are the primary obligor. All are due in one year or less.

As of	Jur	ne 30, 2017	De	ecember 31, 2016
Carrying Amount	\$	37,944	\$	35,949
Weighted Average Interest Rate		0.90%		0.46%

The following table presents our consolidated obligation bonds, for which we are the primary obligor, including callable bonds that are redeemable in whole, or in part, at our discretion on predetermined call dates.

As of June 30, 2017	Contractual Maturity	Weighted Average Interest Rate	By Maturity or Next Call Date
Due in one year or less	\$ 16,116	1.21%	\$ 28,293
One to two years	8,708	1.14%	6,452
Two to three years	2,390	1.24%	1,398
Three to four years	2,361	1.89%	1,048
Four to five years	3,128	1.69%	51
Thereafter	5,341	2.79%	802
Total par value	\$ 38,044	1.50%	\$ 38,044

The following table presents consolidated obligation bonds outstanding by call feature:

As of	Jı	une 30, 2017	Dec	ember 31, 2016
Noncallable	\$	23,938	\$	22,356
Callable		14,106		14,778

Fair value hedging adjustments		(164)		(229)
Other adjustments		(2)		(2)
Consolidated obligation bonds	\$	37,878	\$	36,903

The following table summarizes the consolidated obligations of the FHLBs and those for which we are the primary obligor. We did not accrue a liability for our joint and several liability related to the other FHLBs' share of the consolidated obligations as of June 30, 2017, and December 31, 2016. See **Note 17 - Commitments and Contingencies** to the financial statements in our 2016 Form 10-K for further details.

Notes to Financial Statements - (Unaudited) (Dollars in tables in millions except per share amounts unless otherwise indicated)

Note 11 - Capital and Mandatorily Redeemable Capital Stock (MRCS)

Under our Capital Plan our stock consists of two sub-classes of stock, Class B1 activity stock and Class B2 membership stock (together, Class B stock), both with a par value of \$100 and redeemable on five years' written notice, subject to certain conditions. Under the Capital Plan, each member is required to own capital stock in an amount equal to the greater of a membership stock requirement or an activity stock requirement. Class B1 activity stock is available to support a member's activity stock requirement. Class B2 membership stock is available to support a member's membership stock requirement and any activity stock requirement.

Minimum Capital Requirements

For details on our minimum capital requirements, including how the ratios below were calculated, see **Minimum Capital Requirements** on page F-43 of our 2016 Form 10-K. We complied with our minimum regulatory capital requirements as shown below.

		June 3	0, 20 ⁻	17		2016				
	Req	uirement	Actual		Requirement			Actual		
Risk-based capital	\$	1,033	\$	4,982	\$	1,088	\$	5,032		
Total regulatory capital	\$	3,271	\$	4,982	\$	3,148	\$	5,032		
Total regulatory capital ratio		4.00%	4.00%		6.09%			4.00%		6.40%
Leverage capital	\$	4,089	\$	7,473	\$	3,935	\$	7,549		
Leverage capital ratio		5.00%		9.14%		5.00%		9.59%		

Total regulatory capital and leverage capital includes mandatorily redeemable capital stock (MRCS) but does not include AOCI. Under the FHFA regulation on capital classifications and critical capital levels for the FHLBs, we are adequately capitalized.

The following members exceeded 10% of our regulatory capital stock outstanding (which includes MRCS):

As of June 30, 2017	tory Capital Outstanding	% of Total Outstanding	Amount of Which is Classified as a Liability (MRCS)
BMO Harris Bank, National Association	\$ 309	16.9%	* —
One Mortgage Partners Corp.	245 ^a	13.4%	245

^a One Mortgage Partners Corp. is a subsidiary of JPMorgan Chase Bank NA.

Repurchase of Excess Capital Stock

On January 26, 2017, we began repurchasing all excess Class B2 stock on a weekly basis at par value, i.e., \$100 per share. Members may continue to request repurchase of excess stock on any business day in addition to the weekly repurchase. All repurchases of excess stock, including automatic weekly repurchases, will continue until otherwise announced, but remain subject to our regulatory requirements, certain financial and capital thresholds, and prudent business practices. Repurchase of excess capital stock held by members is subject to compliance with financial and capital thresholds, as detailed on page 57 of our 2016 Form 10-K.

As of June 30, 2017, our regulatory capital stock outstanding was \$1.8 billion, a net decrease of \$183 million from year-end, due in part to these automatic weekly repurchases.

Note 12 - Accumulated Other Comprehensive Income (Loss)

Notes to Financial Statements - (Unaudited) (Dollars in tables in millions except per share amounts unless otherwise indicated)

Note 13 - Fair Value

Fair value represents the exit price that we would receive to sell an asset or pay to transfer a liability in an orderly transaction with a market participant at the measurement date. See **Note 2 - Summary of Significant Accounting Policies** to the financial statements in our 2016 Form 10-K for our fair value measurement policies. For a description of the valuation techniques and significant inputs see **Note 16 - Fair Value** to the financial statements in our 2016 Form 10-K.

The following tables are a summary of the fair value estimates and related levels in the fair value hierarchy. The carrying amounts are as recorded in the statements of condition. These tables do not represent an estimate of our overall market value as a going concern as they do not take into account future business opportunities and future net profitability of assets and liabilities. We had no transfers between levels in the fair value hierarchy for the periods shown.

The following table shows the fair values of financial instruments that are measured at amortized cost on our statements of condition, unless we elect the fair value option for such instruments, in which case, such instruments are measured at fair value on our statements of condition. Financial instruments for which we elected the fair value option are measured at fair value on a recurring basis and are shown on our statements of condition and are also included in the table on the following page, which details instruments carried at fair value on a recurring basis.

Notes to Financial Statements - (Unaudited) (Dollars in tables in millions except per share amounts unless otherwise indicated)

The following table presents financial instruments measured at fair value on a recurring basis on our statements of condition. This includes advances, consolidated obligation discount notes and bonds, and mortgage loans held for sale for which we elected the fair value option. The **Netting and Cash Collateral** adjustment is attributable to our derivative transactions that are presented on a net basis in our statements of condition. See **Note 1 - Background and Basis of Presentation, Note 2 - Summary of Significant Accounting Policies** and **Note 9 - Derivatives and Hedging Activities** for further details.

Fair Value Option

We elect the fair value option for financial instruments, such as advances, MPF Loans held for sale, and consolidated obligation discount notes and bonds in cases where hedge accounting treatment may not be achieved due to the inability to meet the hedge effectiveness testing criterion. Financial instruments for which we elected the fair value option along with their related fair value are shown on our **Statements of Condition**. Refer to our **Note 2 – Summary of Significant Accounting Policies** to the financial statements in our 2016 Form 10-K for further details.

The following table reflects the difference between the aggregate unpaid principal balance (UPB) outstanding and the aggregate fair value for our long term financial instruments for which the fair value option has been elected. None of the advances were 90 days or more past due and none were on nonaccrual status.

		June 30, 2017			Decembe			er 31, 2016

a Contains \$721 million and \$486 million of member standby letters of credit at June 30, 2017, and December 31, 2016, which were renewable annually.

For a description of defined terms see **Note 17 - Commitments and Contingencies** to the financial statements in our 2016 Form 10-K.

Note 15 - Transactions with Related Parties and Other FHLBs

We define related parties as either members whose officers or directors serve on our Board of Directors, or members that control more than 10% of our total voting interests. We did not have any members that controlled more than 10% of our total voting interests for the periods presented in these financial statements.

In the normal course of business, we may extend credit to or enter into other transactions with a related party. All transactions are done at market terms that are no more favorable than the terms of comparable transactions with other members who are not considered related parties.

Members

The following table summarizes balances we had with our members who are related parties as defined above (including their affiliates) as of the periods presented.

As of	June 30, 2017	Dec	cember 31, 2016
Assets - Advances	\$ 144	\$	107
Liabilities - Deposits	21		8
Equity - Capital Stock	8		18

Other FHLBs

From time to time, we may loan to, or borrow from, other FHLBs. All transactions are done at market terms that are no more favorable than the terms of comparable transactions with other counterparties. These transactions are overnight, maturing the following business day. These transactions with other FHLBs. if any, are identified on the face of our **Financial Statements**.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

^a Investments includes investment securities, interest bearing deposits, Federal Funds sold, and securities purchased under agreements to resell.

MPF off-balance sheet loans are MPF Loans purchased from PFIs and concurrently resold to Fannie Mae or other third party investors under the MPF Xtra and MPF Direct products or pooled and securitized in Ginnie Mae MBS under the MPF Government MBS product. See Mortgage Partnership Finance Program beginning on page 7 in our 2016 Form 10-K.

^c Includes \$38 million of **Litigation settlement awards**, see page 42 for details.

(Dollars in tables in millions except per share amounts unless otherwise indicated)

Forward-Looking Information

Statements contained in this report, including statements describing the objectives, projections, estimates, or future predictions of management, may be "forward-looking statements." These statements may use forward-looking terminology, such as "anticipates," "believes," "expects," "could," "estimates," "may," "should," "will," their negatives, or other variations of these terms. We caution that, by their nature, forward-looking statements involve risks and uncertainties related to our operations and business environment, all of which are difficult to predict and many of which are beyond our control. These risks and uncertainties could cause actual results to differ materially from those expressed or implied in these forward-looking statements and could affect the extent to which a particular objective, projection, estimate, or prediction is realized. As a result, undue reliance should not be placed on such statements.

These forward-looking statements involve risks and uncertainties including, but not limited to, the following:

- changes in the demand by our members for advances, including the impact of the availability of other sources of funding for our members, such as deposits;
- · limits on our investments;
- the impact of new business strategies, including our ability to develop and implement business strategies focused on
 maintaining net interest income; the impact of our efforts to simplify our balance sheet on our market risk profile and
 future hedging costs; our ability to execute our business model, implement business process improvements and scale
 our size to our members' borrowing needs; the extent to which our members use our advances as part of their core
 financing rather than just as a back-up source of liquidity; and our ability to implement product enhancements and new
 products and generate enough volume in new products to cover our costs related to developing such products;
- the extent to which amendments to our Capital Plan, including our ability to reduce capital stock requirements for certain future advance borrowings, and our ability to continue to pay enhanced dividends on our activity stock, impact borrowing by our members;
- our ability to meet required conditions to repurchase and redeem capital stock from our members (including maintaining compliance with our minimum regulatory capital requirements and determining that our financial condition is sound enough to support such repurchases), and the amount and timing of such repurchases or redemptions;
- general economic and market conditions, including the timing and volume of market activity, inflation/deflation, unemployment rates, housing prices, the condition of the mortgage and housing markets, increased delinquencies and/or loss rates on mortgages, prolonged or delayed foreclosure processes, and the effects on, among other things, mortgage-backed securities; volatility resulting from the effects of, and changes in, various monetary or fiscal policies and regulations, such as those determined by the Federal Reserve Board and Federal Deposit Insurance Corporation; impacts from various measures to stimulate the economy and help borrowers refinance home mortgages and student loans; disruptions in the credit and debt markets and the effect on future funding costs, sources, and availability;
- volatility of market prices, rates, and indices, or other factors, such as natural disasters, that could affect the value of our investments or collateral; changes in the value or liquidity of collateral securing advances to our members;
- changes in the value of and risks associated with our investments in mortgage loans, mortgage-backed securities, and FFELP ABS and the related credit enhancement protections;
- · changes in our ability or intent to hold mortgage-backed securities to maturity;
- changes in mortgage interest rates and prepayment speeds on mortgage assets;

- membership changes, including the withdrawal of members due to restrictions on our dividends or the loss of members through mergers and consolidations or through regulatory requirements; changes in the financial health of our members, including the resolution of some members; risks related to expanding our membership to include more institutions with regulators and resolution processes with which we have less experience;
- increased reliance on short-term funding and changes in investor demand and capacity for consolidated obligations
 and/or the terms of interest rate derivatives and similar agreements, including changes in the relative attractiveness of
 consolidated obligations as compared to other investment opportunities; changes in our cost of funds due to concerns
 over U.S. fiscal policy, and any related rating agency actions impacting FHLB consolidated obligations;
- political events, including legislative, regulatory, judicial, or other developments that affect us, our members, our
 counterparties and/or investors in consolidated obligations, including, among other things, the Dodd-Frank Wall Street
 Reform and Consumer Protection Act (Dodd-Frank Act) and related regulations and proposals and legislation related to
 housing finance and GSE reform; changes by our regulator and changes in the FHLB Act or applicable regulations as a
 result of the Housing and Economic Recovery Act of 2008 or as may otherwise be issued by our regulator, including
 regulatory changes to FHLB membership requirements proposed by the FHFA; the potential designation of us as a
 nonbank financial company for supervision by the Federal Reserve;
- recent regulatory changes to FHLB membership requirements by the FHFA;
- the ability of each of the other FHLBs to repay the principal and interest on consolidated obligations for which it is the primary obligor and with respect to which we have joint and several liability;
- the pace of technological change and our ability to develop and support technology and information systems, including
 our ability to protect the security of our information systems and manage any failures, interruptions or breaches in our
 information systems or technology services provided to us through third-party vendors;
- · our ability to attract and retain skilled employees;
- the impact of new accounting standards and the application of accounting rules, including the impact of regulatory guidance on our application of such standards and rules;
- the impact of the application of auditor independence rules to our independent auditor;
- · the volatility of reported results due to changes in the fair value of certain assets and liabilities; and
- · our ability to identify, manage, mitigate, and/or remedy internal control weaknesses and other operational risks.

For a more detailed discussion of the risk factors applicable to us, see Risk Factors in our 2016 Form 10-K on page 18.

These forward-looking statements are representative only as of the date they are made, and we undertake no obligation to update any forward-looking statement as a result of new information, future events, changed circumstances, or any other reason.

Executive Summary

Second Quarter 2017 Financial Highlights

- We recorded net income of \$79 million in the second quarter of 2017, down from \$104 million in the second quarter of 2016; however, in the second quarter of 2016 we benefited from \$38 million of litigation settlement awards related to our private-label mortgage-backed securities, compared to just \$1 million during the second quarter of 2017.
- Net interest income for the second quarter of 2017 was \$117 million, up from \$111 million for the second quarter of 2016 as we benefited from the rising interest rate environment.
- Total investment securities decreased 11% to \$18.8 billion at June 30, 2017, down from \$21.0 billion at December 31, 2016, as our investment portfolio continued to pay down.
- Advances outstanding increased \$1.7 billion to \$46.8 billion at June 30, 2017, up from \$45.1 billion at December 31, 2016.
- Total assets increased to \$81.8 billion as of June 30, 2017, compared to \$78.7 billion as of December 31, 2016.
- We reached close to \$3.2 billion in retained earnings at June 30, 2017.
- We remained in compliance with all of our regulatory capital requirements as of June 30, 2017.

Summary and Outlook

On July 27, 2017, the Bank's Board of Directors increased the dividend declared per share on both sub-classes of capital stock. Based on the Bank's preliminary financial results for the second quarter of 2017, the Board of Directors declared a dividend of 3.30% (annualized) for Class B1 activity capital stock (an increase of 15 basis points) and a dividend of 1.25% (annualized) for Class B2 membership capital stock (an increase of 20 basis points). The Class B2 capital stock dividend enhances the value of membership; the Class B1 capital stock dividend reduces the effective cost of borrowing from the Bank and rewards our members who support the entire cooperative through their advances.

Member demand at quarter-end for advances and letters of credit reached all-time highs. At June 30, 2017, advances were \$46.8 billion, up 4% from December 31, 2016, and letters of credit were \$13.2 billion, up 22% from December 31, 2016. As the MPF Program celebrates its 20th anniversary this summer, its volume continues to grow as more members enjoy the economic benefits of selling loans in the secondary market through their Federal Home Loan Bank.

Results of Operations

Net Interest Income

Net interest income is the difference between the amount we recognize into interest income on our interest earning assets and the amount we recognize into interest expense on our interest bearing liabilities. These amounts were determined in accordance with GAAP and were based on the underlying contractual interest rate terms of our interest earning assets and interest bearing liabilities as well as the following items:

- Net interest paid or received on interest rate swaps that are accounted for as fair value or cash flow hedges;
- Amortization of premiums;
- · Accretion of discounts and OTTI reversals;
- Amortization of hedge adjustments;
- Advance and investment prepayment fees; and
- MPF credit enhancement fees.

The table on the following page presents the increase or decrease in interest income and expense due to volume or rate variances. The calculation of these components includes the following considerations:

- Average Balance: Average balances are calculated using daily balances. Historical cost balances are used to compute the
 average balances for most of our financial instruments, including available for sale securities and MPF Loans held in
 portfolio that are on nonaccrual status. Fair value is used to compute average balances for our trading securities and
 financial instruments carried at fair value under the fair value option.
- Total Interest: Total interest includes all components of net interest income, if applicable, as discussed above.
- Yield/Rate: Effective yields/rates are based on average daily balances and include all components of net interest income as discussed above. Yields/rates are calculated on an annualized basis.
- Any changes due to the combined volume/rate variance have been allocated ratably to volume and rate.

The following is an analysis of the preceding table and unless otherwise indicated, comparisons apply to both the three and six month periods ending June 30, 2017 compared to June 30, 2016.

- Interest income from investment securities declined during the first six months of 2017 as we recognized fewer investment
 prepayment fees, and experienced the continued reduction in average investment balances as securities matured or paid
 down. We expect the decline in average balances and related interest income to continue in the near term due to FHFA
 regulatory limits on the amount of investment securities that we may hold on our balance sheet as discussed in
 Investments starting on page 12 in our 2016 Form 10-K.
- Interest income from advances increased primarily due to a rise in interest rates and, to a lesser extent, higher member demand for advances. Higher interest rates resulted primarily from rate hikes by the Federal Reserve Bank.
- Interest income from MPF Loans held in portfolio declined slightly due to lower average interest rates as our more seasoned and higher interest rate MPF Loans mature and are replaced with lower interest rate MPF Loans.

- Interest income from Federal Funds sold and securities sold under agreements to repurchase increased primarily due to higher volume outstanding year over year. The increase in interest income also was due to rate hikes by the Federal Reserve Bank.
- Interest expense on our consolidated obligation discount notes increased due to rising short term interest rates despite a
 significant decline in average balances outstanding as we shifted a portion of our funding to longer term bonds. Interest
 rates on our longer term bonds declined; a result of money market reforms which increased demand for FHLB debt in the
 market which improved our funding costs.
- Our subordinated notes were paid off on June 13, 2016.
- For details of the effect our fair value and cash flow hedge activities had on our net interest income see Trading Securities,
 Derivatives and Hedging Activities, and Instruments Held at Fair Value Option on the following page.

Noninterest Income

Derivatives and Hedging Activities, and Instruments Held Under Fair Value Option

Derivatives and hedging activities, and instruments held under the fair value option were not significant to our statements of income over the last year. Instead, the majority of the effect from our derivatives and hedging activities is recorded in net interest income.

The following table details the effect of all of these transactions on our results of operations. Note that we economically hedge only a portion of our trading securities.

Litigation settlement awards

Litigation settlement awards have not been material during the first six months of 2017. During the second quarter of 2016 we received \$38 million in settlement awards on our ongoing litigation related to our investment in private label mortgage backed securities as further discussed in **Note 5 - Investment Securities - Ongoing Litigation** to the financial statements on page F-30 in our 2016 Form 10-K.

MPF fees from other FHLBs

Other FHLBs pay us a membership fee to participate in the MPF Program and a fee for us to provide services related to their on balance sheet MPF Loans. These fees offset a portion of the expenses we incur to administer the program.

Other, net

Other, net consists primarily of fee income we earn from our off balance sheet MPF Loan products, and fees we earn on a variety of functions we perform for our members.

Noninterest Expense

	Three months ended June 30,					x months er	nded June 30,		
	2017			2016		2017		2016	
Compensation and benefits	\$	26	\$	22	\$	51	\$	45	
Operating expenses		15		14		30		29	
Other		3		10		5		12	
Noninterest expense	\$	44	\$	46	\$	86	\$	86	

The following is an analysis of the preceding table and unless otherwise indicated, comparisons apply to both the three and six month periods ending June 30, 2017 compared to June 30, 2016.

Compensation and benefits increased primarily due to increased employee count. We had 457 employees as of June 30, 2017, compared to 432 as of June 30, 2016.

Other decreased primarily due to the fact that during the second quarter of 2016 we paid \$5 million in legal fees associated with our ongoing litigation related to our investment in private label mortgage backed securities as further discussed in **Note 5** - **Investment Securities - Ongoing Litigation** to the financial statements on page F-30 in our 2016 Form 10-K. We incurred less than \$1 million in such legal fees in 2017.

Assessments

We fund the Affordable Housing Program (AHP) program at a calculated rate of 10% of income before assessments, excluding interest expense on MRCS.

Other Comprehensive Income (Loss)

	Three months ended June 30, Six months ended June 30,								Balance remaining in AOCI as of		
	2	2017		2016	2017		2016		Ju	ne 30, 2017	
Net unrealized gain (loss) available-for-sale securities	\$	(19)	\$	(60)	\$	19	\$	(100)	\$	478	
Noncredit OTTI held-to-maturity securities		8		10		17		21		(160)	
Net unrealized gain (loss) cash flow hedges		25		8		69		(45)		(243)	
Postretirement plans		_		1		(2)		1		(8)	
Other comprehensive income (loss)	\$	14	\$	(41)	\$	103	\$	(123)	\$	67	

The following is an analysis of the above table and unless otherwise indicated, comparisons apply to both the three and six month periods ending June 30, 2017 compared to June 30, 2016.

Net unrealized gain (loss) on available-for-sale securities

Our available for sale (AFS) portfolio has experienced a net unrealized gain during 2017, which was primarily due to a decrease in longer term market interest rates. Our net unrealized gain position in AOCI is expected to reverse to zero as these AFS securities reach maturity. Our AFS portfolio had a net unrealized loss during 2016 due to an increase in longer term market interest rates.

Noncredit OTTI on held-to-maturity securities

The gain in noncredit OTTI held-to-maturity (HTM) securities is the amount accreted to their carrying amount during 2017. The remaining gain in AOCI for these noncredit OTTI HTM securities will be accreted to their carrying amount over their remaining life provided the gain is expected to be collected. To the extent the gain is not expected to be collected, we would immediately recognize that amount as additional OTTI in our statements of income.

Net unrealized gain (loss) on cash flow hedges

The net unrealized gain on cash flow hedges so far during 2017 resulted from an increase in shorter term interest rates as a result of actions by the Federal Reserve Bank.

For further details on the activity in our Other Comprehensive Income (Loss) see **Note 12 - Accumulated Other Comprehensive Income (Loss)** to the financial statements.

Statements of Condition

	une 30, 2017	De	cember 31, 2016
Cash and due from banks, interest bearing deposits, Federal Funds sold, and securities purchased under agreement to resell	\$ 10,851	\$	7,376
Investment securities	18,778		21,035
Advances	46,844		45,067
MPF Loans held in portfolio, net of allowance for credit losses	4,965		4,967
Other	341		247
Assets	81,779		78,692
Consolidated obligation discount notes	37,944		35,949
Consolidated obligation bonds	37,878		36,903
Other	1,211		1,145
Liabilities	77,033		73,997
Capital stock	1,526		1,711
Retained earnings	3,153		3,020
Accumulated other comprehensive income (loss)	67		(36)
Capital	4,746		4,695
Total liabilities and capital	\$ 81,779	\$	78,692

The following is an analysis of the above table and comparisons apply to June 30, 2017 compared to December 31, 2016.

Cash and due from banks, interest bearing deposits, Federal Funds sold, and securities purchased under agreements to resell

Amounts held in these accounts will vary each day based on the following:

- · Interest rate spreads between Federal Funds sold and securities purchased under agreements to resell and our debt;
- · Liquidity requirements;
- · Counterparties available; and
- · Collateral availability on securities purchased under agreements to resell.

Investment Securities

We are currently unable to make additional investments in MBS/ABS under FHFA regulatory limits as discussed in **Investments** on page 12 in our 2016 Form 10-K.

Advances

Advances increased to the highest outstanding quarter-end balance in our history at June 30, 2017. See **Note 6 - Advances** to the financial statements.

While advance demand is strong, it is possible that member demand for our advances could decline in future periods should their funding needs change, or to the extent they elect alternative funding resources. In addition, as our advances with captive insurance companies mature, our total advance levels could decrease.

MPF Loans Held in Portfolio, Net of Allowance for Credit Losses

We had a small net decrease in our outstanding MPF Loans from year end, as our purchases of new loans during 2017 mostly offset maturities and paydowns experienced in our MPF Loan portfolio.

In addition to our MPF Loans held in portfolio, we have MPF off-balance sheet products, where we buy and concurrently resell MPF Loans to Fannie Mae or other third party investors or pool and securitize them into Ginnie Mae MBS.

Liquidity, Funding, & Capital Resources

Liquidity

For the period ending June 30, 2017, we have maintained a liquidity position in accordance with FHFA regulations and guidance, and policies established by our Board of Directors. Based upon our excess liquidity position described below, we anticipate remaining in compliance with our liquidity requirements. See **Liquidity, Funding, & Capital Resources** on page 48 in our 2016 Form 10-K for a detailed description of our liquidity requirements. We use different measures of liquidity as follows:

Overnight Liquidity – Our policy requires us to maintain overnight liquid assets at least equal to 3.5% or \$2.9 billion of total assets. As of June 30, 2017, our overnight liquidity was \$16.0 billion or 20% of total assets, giving us an excess overnight liquidity of \$13.2 billion.

Deposit Coverage – To support our member deposits, FHFA regulations require us to have an amount equal to the current deposits invested in obligations of the U.S. Government, deposits in eligible banks or trust companies, or advances with maturities not exceeding five years. As of June 30, 2017, we had excess liquidity of \$38.2 billion to support member deposits.

Contingency Liquidity – The cumulative five business day liquidity measurement assumes there is a localized credit crisis for all FHLBs where the FHLBs do not have the ability to issue new consolidated obligations or borrow unsecured funds from other sources (e.g., purchasing Federal Funds or customer deposits). Our net liquidity in excess of our total uses and reserves over a cumulative five-business-day period was \$16.3 billion as of June 30, 2017.

In addition to the liquidity measures discussed above, FHFA guidance requires us to maintain daily liquidity through short-term investments in an amount at least equal to our anticipated cash outflows under two different scenarios. One scenario assumes that we cannot access the capital markets for 15 days and that during that time members do not renew any maturing, prepaid, and called advances. The second scenario assumes that we cannot access the capital markets for 5 days and that during that period we will automatically renew maturing and called advances for all members except for very large, highly rated members. These additional requirements are more stringent than the contingency liquidity requirement discussed above and are designed to enhance our protection against temporary disruptions in access to the FHLB debt markets in response to a rise in capital markets volatility. As a result of this guidance, we are maintaining increased balances in short-term investments. In addition, we fund certain overnight or shorter-term investments and advances with debt that has a maturity that extends beyond the maturities of the related investments or advances. For a discussion of how this may impact our earnings, see page 21 in the **Risk Factors** section of our 2016 Form 10-K. On July 3, 2017, the FHFA proposed to rescind certain minimum regulatory liquidity requirements for the FHLBs as further discussed in **Legislative and Regulatory Developments** on page 55.

We are sensitive to maintaining an appropriate liquidity and funding balance between our financial assets and liabilities, and we measure and monitor the risk of refunding such assets as liabilities mature (refunding risk). In measuring the level of assets requiring refunding, we take into account their contractual maturities, as further described in the notes to the financial statements. In addition, we make certain assumptions about their expected cash flows. These assumptions include: calls for assets with such features, projected prepayments and scheduled amortizations for our MPF Loans held in portfolio, MBS and ABS investments. The following table presents the unpaid principal balances of (1) MPF Loans held in portfolio, (2) AFS securities, and (3) HTM securities (including ABS and MBS investments), by expected principal cash flows. The table is illustrative of our assumptions about the expected cash flow of our assets, including prepayments made in advance of maturity.

	ME	PF Loans		Investment	Securities		
As of June 30, 2017		Held in Portfolio	Available-for Sale			leld-to- laturity	
Year of Expected Principal Cash Flows							
One year or less	\$	886	\$	1,138	\$	1,765	
After one year through five years		1,937		10,024		2,395	
After five years through ten years		1,149		1,536		424	
After ten years		927		672		167	
Total	\$	4,899	\$	13,370	\$	4,751	

We consider our liabilities available to fund assets until their contractual maturity. For further discussion of the liquidity risks related to our access to funding, see page 24 of the **Risk Factors** section in our 2016 Form 10-K.

Funding

Conditions in Financial Markets

The Federal Open Market Committee (FOMC) delivered an interest rate increase raising the target range for the federal fund rate by 25 basis points in March, 2017. In June, 2017, it raised the target range again by another 25 basis points from 1.00 to 1.25 percent while signaling to the market that the FOMC would begin to shrink its balance sheet by reducing purchases of U.S. Treasuries and agency mortgage-backed securities.

We maintained ready access to funding during the second quarter. However, the U.S. Treasury has projected that the statutory "debt ceiling" limit could be reached in September, 2017. In preparation for the possibility of disorderly markets caused by potential debt defaults of the U.S. Government, we are increasing our liquidity position in order to fund potential advance demand and repay maturing debt during any debt ceiling negotiations.

Cash flows from operating activities with significant changes

Six months ended June 30,	20	2017 2016			Change
Net cash provided by (used in) operating activities -					_
Net income	\$	152	\$	173	\$ (21)
Non cash (gain) loss on derivatives and hedging activities		165		(165)	330
Other		(92)		(16)	(76)
Net cash provided by (used in) operating activities	\$	225	\$	(8)	\$ 233

Our operating assets and liabilities support our mission to provide our member shareholders competitively priced funding, a reasonable return on their investment in our capital stock, and support for community investment activities. Operating assets and liabilities can vary significantly in the normal course of business due to the amount and timing of cash flows, which are affected by member-driven activities and market conditions. We believe cash flows from operations, available cash balances and our ability to generate cash through short- and long-term borrowings are sufficient to fund our operating liquidity needs. The change of \$233 million in net cash provided by (used in) operating activities primarily resulted from the non-cash adjustment attributable to the unrealized net changes in the fair value of our derivative instruments.

Cash flows from investing activities with significant changes

Six months ended June 30,	2017			2016		Change
Net cash provided by (used in) investing activities -						
Liquid assets (Federal Funds sold, securities purchased under agreements to resell, interest bearing deposits, and trading securities)	\$	(2,855)	\$	(2,288)	\$	(567)
Securities held for investment (available-for-sale and held-to-maturity)		1,454		1,621		(167)
Advances		(1,758)		(9,458)		7,700
Other		12		181		(169)
Net cash provided by (used in) investing activities	\$	(3,147)	\$	(9,944)	\$	6,797

Our investing activities consist predominantly of liquid assets, securities held for investment, and advances. The \$6.8 billion change in net cash provided by (used in) investing activities primarily resulted from the following:

- Liquid assets reflect a desire for increased liquidity to meet the needs of our members.
- Securities held for investment reflects the continued paydown in our investments portfolio.
- Advances reflect the further increase in advances outstanding during 2017.

Cash flows from financing activities with significant changes

Six months ended June 30,	2017	2016		Change
Net cash provided by (used in) financing activities -				
Consolidated obligation discount notes	\$ 1,986	\$ 4,298	\$	(2,312)
Consolidated obligation bonds	909	6,409		(5,500)
Capital stock	(179)	123		(302)
Payments for retirement of subordinated notes	_	(944)		944
Other	23	(58)		81
Net cash provided by (used in) financing activities	\$ 2,739	\$ 9,828	\$	(7,089)

Our financing activities primarily reflect cash flows related to issuing and repaying consolidated obligations. The proceeds from the net increases in our consolidated obligation discount notes and consolidated obligations bonds were primarily utilized to fund the net increases in our investing activities as noted above. The \$(7.1) billion change in net cash provided by (used in) financing activities primarily resulted from the following:

- A decrease in the amount of our consolidated obligations used to fund the growth in our balance sheet.
- A reduction in capital stock outstanding as we implemented automatic weekly repurchases of members' excess capital stock.
- The payment for the retirement of our subordinated notes in 2016.

Capital Resources

Capital Rules

Under our Second Amended and Restated Capital Plan of the Federal Home Loan Bank of Chicago, effective October 1, 2015 (Capital Plan), our stock consists of two sub-classes of stock, Class B1 activity stock and Class B2 membership stock (together, Class B stock), both with a par value of \$100 and redeemable on five years' written notice, subject to certain conditions. Each member is required to own capital stock in an amount equal to the greater of a membership stock requirement or an activity stock requirement. Class B1 activity stock is available for purchase only to support a member's activity stock requirement. Class B2 membership stock is available to be purchased to support a member's membership stock requirement and any activity stock requirement.

Under our Capital Plan, our Board of Directors may set a threshold of between \$10,000 and \$75 million on the amount of Class B2 membership stock that would otherwise be held for membership if a member has advances outstanding that have an activity stock requirement in excess of the threshold amount. In that case, the amount of Class B2 membership stock that exceeds such threshold and is necessary to support advance activity is automatically converted into Class B1 activity stock. That threshold is currently set at \$10,000, which means that we will convert to Class B1 activity capital stock any capital stock supporting advances that exceeds the lesser of the member's membership requirement or \$10,000.

The Board of Directors may periodically adjust members' activity stock requirement for certain new advances within a range of 2% and 6% of a member's outstanding advances. Our Board implemented this provision through RCAP as further discussed below. Each member's activity stock requirement remained at 4.5% for non-RCAP advances.

Our Capital Plan allows for an activity stock requirement for MPF Loans acquired for our portfolio within a range of 0% and 6%, which our Board has set at 0%. Should the Board decide to introduce this capital requirement, we intend to notify members sufficiently in advance of the change and apply that change only to future acquisitions.

The Board may periodically adjust members' membership stock requirement within a range of 0.20% to 2% of a member's mortgage assets. Each member's membership stock requirement is the greater of either \$10,000 or 0.40% of a member's mortgage assets. A member's investment in membership stock is subject to a cap equal to the lesser of (1) a dollar cap set by the Board within a range of \$10,000 and \$75 million, and (2) 9.9% of our total capital stock outstanding as of the prior December 31. The cap on each member's membership stock requirement is now \$5 million, which is less than 9.9% of the Bank's total capital stock outstanding at December 31, 2016, and is thus the operative cap during the remainder of 2017 unless the Board sets a new cap.

Membership stock requirements will continue to be recalculated annually, whereas the activity stock requirement and any automatic conversion of Class B2 membership stock to Class B1 activity stock related to the threshold will apply on a daily basis.

For details on our capital stock requirement changes in 2016, see Capital Resource on page 54 of our 2016 Form 10-K.

We may only redeem or repurchase capital stock from a member if, following the redemption or repurchase, the member continues to meet its minimum investment requirement and we remain in compliance with our regulatory capital requirements as discussed in **Note 11 - Capital and Mandatorily Redeemable Capital Stock (MRCS)** to the financial statements in this Form 10-Q.

On July 3, 2017, the FHFA proposed to amend certain regulatory capital requirements for the FHLBs as further discussed in **Legislative and Regulatory Developments** on page 55.

Members that withdraw from membership must wait at least five years after their membership was terminated and all of their capital stock was redeemed or repurchased before being readmitted to membership in any FHLB.

Under the terms of our Capital Plan, our Board of Directors is authorized to amend the Capital Plan, and the FHFA must approve all such amendments before they become effective.

Reduced Capitalization Advance Program

RCAP allows members to borrow one or more advances with an activity stock requirement of only 2% for the life of the advance instead of the 4.5% requirement under our Capital Plan's general provisions as further discussed in **Capital Resources** on page 54 of our 2016 Form 10-K. As of June 30, 2017, and December 31, 2016, RCAP advances outstanding total \$22.9 billion to 161 members and \$22.7 billion to 147 members, respectively.

Repurchase of Excess Capital Stock

On January 26, 2017, we began repurchasing all excess Class B2 membership stock on a weekly basis at par value, i.e., \$100 per share. Members may continue to request repurchase of excess stock on any business day in addition to the weekly repurchase. All repurchases of excess stock, including automatic weekly repurchases, will continue until otherwise announced, but remain subject to our regulatory requirements, certain financial and capital thresholds, and prudent business practices

Repurchase of excess capital stock held by members is subject to compliance with financial and capital thresholds, as detailed on page 57 of our 2016 Form 10-K.

Capital Amounts

The following table reconciles our capital reported in our statements of condition to the amount of capital stock reported for regulatory purposes. MRCS is included in the calculation of the regulatory capital and leverage ratios but is recorded in other liabilities in our statements of condition.

	,	June 30, 2017	De	ecember 31, 2016	Change
Capital Stock	\$	1,526	\$	1,711	\$ (185)
MRCS		303		301	2
Regulatory capital stock		1,829		2,012	(183)
Retained earnings		3,153		3,020	133
Regulatory capital	\$	4,982	\$	5,032	\$ (50)
Capital stock	\$	1,526	\$	1,711	\$ (185)
Retained earnings		3,153		3,020	133
Accumulated other comprehensive income (loss)		67		(36)	103
GAAP capital	\$	4,746	\$	4,695	\$ 51

Accumulated other comprehensive income (loss) in the above table consists of changes in market value of various balance sheet accounts where the change is not recorded in earnings but are instead recorded in equity capital as the income (loss) is not yet realized. For details on these changes please see **Note 12 - Accumulated Other Comprehensive Income (Loss)** to the financial statements.

Although we have had no OTTI year to date in 2017, credit deterioration may negatively impact our remaining private-label MBS portfolio. We cannot predict if or when impairments will occur, or the impact these impairments may have on our retained earnings and capital position. See page 28 of the **Risk Factors** section of our 2016 Form 10-K.

We may not pay dividends if we fail to satisfy our minimum capital and liquidity requirements under the FHLB Act and FHFA regulations.

On July 27, 2017, our Board of Directors increased the dividend declared per share on both sub-classes of capital stock. The Board declared a 3.30% dividend (annualized) for Class B1 activity stock (an increase of 15 basis points) and a 1.25% dividend (annualized) for Class B2 membership stock (an increase of 20 basis points) based on our preliminary financial results for the second quarter of 2017. This dividend, including dividends on mandatorily redeemable capital stock, totaled \$11 million and will be paid on August 15, 2017. The Class B2 capital stock dividend is intended to enhance the value of membership; the Class B1 capital stock dividend reduces the effective cost of borrowing from the Bank and rewards our members who support the entire cooperative through their advances.

Although we continue to work to maintain our financial strength to support a reasonable dividend, any future dividend determination by our Board will be at our Board's sole discretion and will depend on future operating results, our Retained Earnings and Dividend Policy and any other factors the Board determines to be relevant. For further information see **Retained Earnings & Dividends** on page 57 in our 2016 Form 10-K.

We continue to allocate 20% of our net income each quarter to a restricted retained earnings account in accordance with the Joint Capital Enhancement Agreement that we entered into with the other FHLBs, as further discussed in **Joint Capital Enhancement Agreement** on page F-44 in our 2016 Form 10-K.

Critical Accounting Policies

For a detailed description of our Critical Accounting Policies and Estimates see page 61 in our 2016 Form 10-K.

Also see Note 2 - Summary of Significant Accounting Policies and Note 3 - Recently Issued but Not Yet Adopted Accounting Standards to the financial statements in this Form 10-Q for the impact of changes in accounting policies and recently issued accounting standards on our financial results subsequent to December 31, 2016.

Risk Management - Credit Risk

Managing Our Credit Risk Exposure Related to Member Credit Products

Our credit risk rating system focuses primarily on our member's overall financial health and takes into account the member's asset quality, earnings, and capital position. For further information please see **Member Credit Risk Ratings** on page 64 in our 2016 Form 10-K.

The following table presents the number of members and related credit outstanding to them by credit risk rating. Credit outstanding consists primarily of outstanding advances and letters of credit. MPF credit enhancement obligations, member derivative exposures, and other obligations make up the rest. Of the total credit outstanding, \$46.7 billion were advances (par value) and \$13.2 billion were letters of credit at June 30, 2017, compared to \$45.0 billion and \$10.8 billion at December 31, 2016.

			June 30, 2017			De	cember 31, 20	16			
Rating	Borrowing Members	% of Total	Credit Outstanding	% of Total			Borrowing Members	% of Total	Credit Outstanding	% of Total	Collateral Loan Value
1-3	491	97%	\$ 59,944	100%	\$	113,728	483	97%	\$ 55,750	100%	\$ 106,814
4	7	1%	52	— %		98	7	1%	47	—%	103
5	9	2%	94	- %		192	11	2%	140	—%	390
Total	507	100%	\$ 60,090	100%	\$	114,018	501	100%	\$ 55,937	100%	\$ 107,307

The majority of members assigned a 4 rating in the above table were required to submit specific collateral listings and the majority of members assigned a 5 rating were required to deliver collateral to us or a third-party custodian on our behalf.

MPF Loans and Related Exposures

For details on our allowance for credit losses on MPF Loans, please see **Note 8 - Allowance for Credit Losses** to the financial statements.

<u>Credit Risk Exposure</u> - Our credit risk exposure on conventional MPF Loans held in portfolio is the potential for financial loss due to borrower default and depreciation in the value of the real estate collateral securing the MPF Loan, offset by our ability to recover losses from PMI, Recoverable CE Fees, and the CE Amount which may include SMI. The PFI is required to pledge collateral to secure any portion of its CE Amount that is a direct obligation of the PFI.

Setting Credit Enhancement Levels - Credit losses in a Master Commitment are first absorbed by the Bank's FLA but, if applicable to the MPF product, we will withhold a PFI's scheduled performance credit enhancement fee in order to reimburse ourselves for any losses allocated to the FLA. If the FLA is exhausted, the credit losses are then absorbed by the PFI's CE Amount that is calculated by utilizing a third party's credit model. For further details on the FLA and PFI's CE Amount, refer to Item 1- PFI Responsibilities on page 9 and Note 2 - MPF Risk Sharing Structure on page F-15 of the 2016 10-K.

Pursuant to the revised AMA regulation, effective January 18, 2017, we adjusted our methodology to set the PFI's CE Amount. The PFI's CE Amount is determined by the Bank with respect to an asset or a pool, based on documented analysis, that the Bank has a high degree of confidence that it will not bear material losses beyond the losses absorbed by the FLA, even under reasonably likely adverse changes to expected economic conditions.

The CE Amounts and the FLA for certain conventional MPF products held in our portfolio may be periodically reset lower for each Master Commitment after a required period of seasoning because the amount of credit enhancement necessary to maintain our risk of credit losses within our risk tolerance is usually reduced over time.

Under the MPF Plus product, the PFI is required to provide an SMI policy covering MPF Loans in the Master Commitment and having a deductible initially equal to the FLA. Certain SMI providers fell below the requirements in the MPF Guides and instead of replacing the SMI provider or indemnifying us for any losses, most PFIs elected to forfeit future performance CE Fees. Credit losses associated with Master Commitments where the SMI coverage has been discontinued are incorporated into the allowance for credit losses calculation. Such credit losses are immaterial.

The following table shows the status of our credit enhancement structure on conventional MPF Loans held in portfolio. Unpaid principal balances in this table include REO, as losses in REO impact, and are impacted by, the credit enhancement structure of a Master Commitment. As defined, the CE Amount includes SMI on the MPF Plus product. Government Loans are excluded from the table as they are not directly credit enhanced by the PFI.

		As of June 30, 2017							
MPF Product Type	Unpaid Pri	ncipal Balance	90+ Days Delinquent	FLA ^a	PFI's CE Amount b				
100	\$	256	1.75%	4.59%	4.12%				
125		1,086	0.29%	1.36%	1.67%				
Plus		1,493	4.01%	5.55%	1.72%				
35		21	— %	0.35%	3.43%				
Original		1,032	1.03%	0.96%	8.69%				

^a For each product above, except MPF Original, a portion of losses experienced at the FLA level may be recovered through the withholding of performance-based CE Fees from PFIs.

Mortgage Repurchase Risk

For details on our mortgage repurchase risk in connection with our sale of MPF Loans to third party investors and MPF Loans securitized into MBS when a loan eligibility requirement or other warranty is breached, see **Mortgage Repurchase Risk** on page 67 in our 2016 Form 10-K.

Credit losses on a loan may only be absorbed by the CE Amount in the Master Commitment related to the loan. For further detail refer to **Note 2 - MPF Risk Sharing Structure** on page F-15 of the 2016 10-K.

Investment Securities

We hold a variety of AA or better rated investment securities, mostly government backed or insured securities such as GSE debt and FFELP ABS, and we believe these investments are low risk. There was no material change in the credit ratings of these securities since December 31, 2016. For further details see page 70 in our 2016 Form 10-K. Except for private-label MBS as noted below, we have never taken an impairment charge on our investment securities.

Our private-label MBS are predominantly variable rate securities rated below investment grade (BBB). There was no material change in overall credit quality since December 31, 2016, nor have we acquired any new private-label MBS. We last had an other-than-temporary impairment (OTTI) loss on private-label MBS in 2012. We currently have unrealized gains on these securities as their market values have improved from the impaired values and subsequent to 2012 we have begun recording accretion gains on these securities back into income. For further details see **Note 5 - Investments Securities** to the financial statements.

Unsecured Short-Term Investments Credit Exposure

For further details on our unsecured short-term investments as well as policies and procedures to limit and monitor our unsecured credit risk exposure, see page 72 in our 2016 Form 10-K.

The following table presents the credit ratings of our unsecured investment credit exposures by the domicile of the counterparty or the domicile of the counterparty's parent for U.S. branches and agency offices of foreign commercial banks. This table does not reflect the foreign sovereign government's credit rating. The unsecured investment credit exposure presented in the table may not reflect the average or maximum exposure during the period as the table reflects only the balances at period end.

As of June 30, 2017	AA A		Α	ввв		Unrated		Total		
Domestic U.S.						•				
Interest-Bearing Deposits	\$	_	\$	750	\$	_	\$	_	\$	750
Fed Funds Sold		_		_		225		8		233
U.S. branches and agency offices of foreign commercial banks - Federal Funds sold:										
Australia		1,800		_		_		_		1,800
Canada		500		600		_		_		1,100
France		_		200		_		_		200
Japan		_		700		_		_		700
Netherlands		_		650		_		_		650
Norway		_		600		_		_		600
Sweden		1,900		500		_		_		2,400
Total unsecured credit exposure	\$	4,200	\$	4,000	\$	225	\$	8	\$	8,433

All \$8.4 billion of the unsecured credit exposure shown in the above table were overnight investments.

Managing Our Credit Risk Exposure Related to Derivative Agreements

See **Note 9 - Derivatives and Hedging Activities** to the financial statements for a discussion of how we manage our credit risk exposure related to derivative agreements. We have credit exposure on net asset positions where we have not received adequate collateral from our counterparties. We also have credit exposure on net liability positions where we have pledged collateral in excess of our liability to a counterparty.

The following table presents our derivative positions where we have such credit exposures. The rating used was the lowest rating among the three largest Nationally Recognized Statistical Rating Organizations. Non-cash collateral pledged consists of initial margin we posted through our FCMs, on behalf of the DCOs for cleared derivatives and is included in our derivative positions with credit exposure.

	Net Derivative Fair Value Before Collateral		Cash Collateral Pledged		Non-cash Collateral Pledged		Net Credit Exposure to Counterparties	
As of June 30, 2017								
Non-member counterparties -								
Overcollateralized liability positions -								
Bilateral derivatives -								
A rated	\$	(12)	\$	12	\$	_	\$	a
BBB		_		1		_		1
Cleared derivatives		(3)		<u> </u>	b	76		73
Non-member counterparties		(15)		13		76		74
Member institutions		1		_		_		1
Total	\$	(14)	\$	13	\$	76	\$	75
As of December 31, 2016								
Non-member counterparties -	_							
Overcollateralized liability positions -								
Bilateral derivatives -								
AA rated	\$	(60)	\$	60	\$	_	\$	_ a
A rated		(57)		60		_		3
Cleared derivatives		(206)		198 ^t	b	97		89
Non-member counterparties		(323)		318		97		92
Member institutions		2		_		_		2
Total	\$	(321)	\$	318	\$	97	\$	94

a Less than \$1 million.

Effective in January of 2017 we began accounting for variation margin payments made to or received by the DCOs through our FCMs as settlements to our derivative assets and derivative liabilities. Accordingly, we no longer include variation margin in the Cash Collateral Pledged column. See Note 1 - Background and Basis of Presentation, Note 2 - Summary of Significant Accounting Policies and Note 9 - Derivatives and Hedging Activities for further details.

Legislative and Regulatory Developments

Significant regulatory actions and developments are summarized below.

FHLB Capital Requirements

On July 3, 2017, the FHFA published a proposed rule to adopt, with amendments, the regulations of the Federal Housing Finance Board (predecessor to the FHFA) pertaining to the capital requirements for the FHLBs. The proposed rule would carry over most of the existing regulations without material change but would substantively revise the credit risk component of the risk-based capital requirement, as well as the limitations on extensions of unsecured credit. The main revisions would remove requirements that the FHLBs calculate credit risk capital charges and unsecured credit limits based on ratings issued by a nationally recognized statistical rating organization, and instead require that the FHLBs establish and use their own internal rating methodology. With respect to derivatives, the proposed rule would impose a new capital charge for cleared derivatives, which under the existing rule do not carry a capital charge, to align with the Dodd-Frank Act's clearing mandate. The proposed rule also would revise the percentages used in the regulation's tables to calculate credit risk capital charges for advances and for non-mortgage assets. The FHFA proposes to retain for now the percentages used in the tables to calculate capital charges for mortgage-related assets, and to address the methodology for residential mortgage assets at a later date. While a March 2009 regulatory directive pertaining to certain liquidity matters will continue to remain in place, the FHFA also proposes to rescind certain minimum regulatory liquidity requirements for the FHLBs and address these liquidity requirements in a separate rulemaking.

We are continuing to evaluate the proposed rule but do not expect this rule, if adopted in final form, to materially affect our financial condition or results of operations. Comments on the proposed rule are due by September 1, 2017.

FHLB Membership for Non-Federally-Insured Credit Unions

On June 5, 2017, the FHFA issued a final rule effective July 5, 2017 governing FHLB membership that would implement statutory amendments to the Federal Home Loan Bank Act authorizing FHLBs to accept applications for membership from state-chartered credit unions without federal share insurance, provided that certain prerequisites have been met. The new rule generally treats these credit unions the same as other depository institutions with an additional requirement that they obtain: (1) an affirmative statement from their state regulator that they meet the requirements for federal insurance as of the date of their application for FHLB membership; (2) a written statement from the state regulator that it cannot or will not make any determination regarding eligibility for federal insurance; or (3) if the regulator fails or refuses to respond to the credit union's request within six months, confirmation of the failure to receive a response.

We do not expect this rule to materially affect our financial condition or results of operations.

Minority and Women Inclusion

On July 25, 2017, the FHFA published a final rule, effective August 24, 2017, amending its Minority and Women Inclusion regulations to clarify the scope of the FHLBs' obligation to promote diversity and ensure inclusion. The final rule updates the existing FHFA regulations aimed at promoting diversity and the inclusion and use of minorities, women, and individuals with disabilities, and the businesses they own (MWDOB) in all FHLB business and activities, including management, employment, and contracting. The final rule will:

- require the FHLBs to develop stand-alone diversity and inclusion strategic plans or incorporate diversity and inclusion into their existing strategic planning processes and adopt strategies for promoting diversity and ensuring inclusion;
- encourage the FHLBs to expand contracting opportunities for minorities, women, and individuals with disabilities through subcontracting arrangements;
- require the FHLBs to amend their policies on equal opportunity in employment and contracting by adding sexual
 orientation, gender identity, and status as a parent to the list of protected classifications;
- require the FHLBs to develop policies that address reasonable accommodations for employees to observe their religious beliefs;
- require the FHLBs to provide information in their annual reports to the FHFA about their efforts to advance diversity and
 inclusion through financial transactions, identification of ways in which FHLBs might be able to improve business with
 the FHLB by enhancing customer access by MWDOB businesses, including through the FHLB's affordable housing and
 community investment programs and strategies for promoting the diversity of supervisors and managers; and
- require the FHLBs to classify and provide additional data in their annual reports about the number of, and amounts paid under, their contracts.

We do not expect this final rule to materially affect our financial condition or results of operations, but anticipate that it may result in increased compliance costs and substantially increase the amount of tracking, monitoring, and reporting that would be required of the Bank.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Our Asset/Liability Management Committee provides oversight of risk management practices and policies. This includes routine reporting to senior Bank management and the Board of Directors, as well as maintaining the Income and Market Value Risk Policy, which defines our interest rate risk limits. The table below reflects the change in market risk limits under the policy.

		June 30, 2017				December 31	, 201	16
Scenario as of	Change Value o	Change in Market Value of Equity Loss Limit		Change in Market Value of Equity		Loss Limit		
-200 bp	\$	179	\$	(370)	\$	192	\$	(370)
-100 bp		66		(155)		101		(155)
-50 bp		29		(60)		38		(60)
-25 bp		13		(30)		17		(30)
+25 bp		(14)		(30)		(17)		(30)
+50 bp		(30)		(60)		(36)		(60)
+100 bp		(68)		(155)		(76)		(155)
+200 bp		(157)		(370)		(167)		(370)

Measurement of Market Risk Exposure

To measure our exposure, we discount the cash flows generated from modeling the terms and conditions of all interest rate-sensitive securities using current interest rates to determine their fair values or spreads to the swap curve for securities where third party prices are used. This includes considering explicit and embedded options using a lattice model or Monte Carlo simulation. We estimate yield curve, option, and basis risk exposures by calculating the fair value change in relation to various parallel changes in interest rates, implied volatility, prepayment speeds, spreads to the swap curve and mortgage rates.

The table below summarizes our sensitivity to various interest rate risk exposures in terms of changes in market value.

		Option Risk			Basis Risk		
	Curve sk	Implied Volatility		yment eds	Spread to Swap Curve	Mortgage Spread	
As of June 30, 2017	\$ (1) \$	(1)	\$	(3)	(13)	\$	
As of December 31, 2016	(1)	(1)		(2)	(14)		

Yield curve risk – Change in market value for a one basis point parallel increase in the swap curve.

Option risk (implied volatility) – Change in market value for a one percent parallel increase in the swaption volatility.

Option risk (prepayment speeds) – Change in market value for a one percent increase in prepayment speeds.

Basis risk (spread to swap curve) – Change in market value for a one basis point parallel increase in the spread to the swap curve.

Basis risk (mortgage spread) – Change in market value for a one basis point increase in mortgage rates.

As of June 30, 2017, our sensitivity to changes in implied volatility was \$(1) million. At December 31, 2016, our sensitivity to changes in implied volatility was \$(1) million. These sensitivities are limited in that they do not incorporate other risks, including but not limited to, non-parallel changes in yield curves, prepayment speeds, and basis risk related to differences between the swap and the other curves. Option positions embedded in our mortgage assets and callable debt impact our yield curve risk profile, such that swap curve changes significantly greater than one basis point cannot be linearly interpolated from the table above.

Duration of equity is another measure to express interest rate sensitivity. We report the results of our duration of equity calculations to the FHFA each quarter. We measure duration of equity in a base case using the actual yield curve as of a specified date and then shock it with an instantaneous shift of the entire curve. The following table presents the duration of equity reported by us to the FHFA in accordance with the FHFA's guidance, which prescribes that down and up interest-rate shocks equal 200 basis points. The results are shown in years of duration equity.

		December 31, 2016				
Scenario as of	Down 200 bps	Base	Up 200 bps	Down 200 bps	Base	Up 200 bps
Duration of equity	2.4	1.0	1.7	2.3	1.3	1.8

As of June 30, 2017, on a U.S. GAAP basis, our fair value surplus (relative to book value) was \$379 million, and our market value of equity to book value of equity ratio was 108%, compared to \$388 million and 108% at December 31, 2016. Our market to book value of total capital for regulatory risk-based capital purposes differs from this GAAP calculation, as discussed in **Note 11 - Capital and Mandatorily Redeemable Capital Stock (MRCS)** to the financial statements.

Item 4. Controls and Procedures.

Disclosure Controls and Procedures

Under the supervision and with the participation of management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, as of the end of the period covered by this report (the Evaluation Date). Based on this evaluation, the principal executive officer and principal financial officer concluded as of the Evaluation Date that the disclosure controls and procedures were effective such that information relating to us that is required to be disclosed in reports filed with the SEC (i) is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms, and (ii) is accumulated and communicated to management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

For the most recent quarter presented in this Form 10-Q, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Consolidated Obligations

Our disclosure controls and procedures include controls and procedures for accumulating and communicating information relating to our joint and several liability for the consolidated obligations of other FHLBs. For further information, see **Item 9A. Controls and Procedures** on page 84 of our 2016 Form 10-K.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings.

For a discussion of the litigation relating to private-label MBS bonds purchased by the Bank, see Item 3. Legal Proceedings on page 31 of our 2016 Form 10-K.

The Bank may also be subject to various other legal proceedings arising in the normal course of business. After consultation with legal counsel, management is not aware of any other proceedings that might have a material effect on the Bank's financial condition or results of operations.

Item 1A. Risk Factors.

In addition to the information presented in this report, readers should carefully consider the factors set forth in the **Risk Factors** section on page 18 in our 2016 Form 10-K, which could materially affect our business, financial condition, or future results. These risks are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may also severely affect us.

Not applicable.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

None.

Item 6. Exhibits.

Glossary of Terms

Advances: Secured loans to members.

ABS: Asset-backed-securities.

AFS: Available-for-sale securities.

AOCI: Accumulated Other Comprehensive Income.

Capital Plan: The Second Amended and Restated Capital Plan of the Federal Home Loan Bank of Chicago, effective as of October 1, 2015.

CE Amount: A PFI's assumption of credit risk on conventional MPF Loan products held in an MPF Bank's portfolio that are funded by, or sold to, an MPF Bank by providing credit enhancement either through a direct liability to pay credit losses up to a specified amount or through a contractual obligation to provide SMI. Does not apply to the MPF Government, MPF Xtra, MPF Direct or MPF Government MBS product.

CE Fee: Credit enhancement fee. PFIs are paid a credit enhancement fee for managing credit risk and in some instances, all or a portion of the CE Fee may be performance based.

Consolidated Obligations (CO): FHLB debt instruments (bonds and discount notes) which are the joint and several liability of all FHLBs; issued by the Office of Finance.

Consolidated obligation bonds: Consolidated obligations that make periodic interest payments with a term generally over one year, although we have issued for terms of less than one year.

DCO: Derivatives Clearing Organization. A clearinghouse, clearing association, clearing corporation, or similar entity that enables each party to an agreement, contract, or transaction to substitute, through novation or otherwise, the credit of the DCO for the credit of the parties; arranges or provides, on a multilateral basis, for the settlement or netting of obligations; or otherwise provides clearing services or arrangements that mutualize or transfer credit risk among participants.

Discount notes: Consolidated obligations with a term of one year or less, which sell at less than their face amount and are redeemed at par value when they mature.

Dodd-Frank Act: Dodd-Frank Wall Street Reform and Consumer Protection Act, enacted July 21, 2010.

Excess capital stock: Capital stock held by members in excess of their minimum investment requirement.

Fannie Mae: Federal National Mortgage Association.

FASB: Financial Accounting Standards Board.

FCM: Futures Commission Merchant.

FFELP: Federal Family Education Loan Program.

FHFA: Federal Housing Finance Agency - The Housing and Economic Recovery Act of 2008 enacted on July 30, 2008 created the Federal Housing Finance Agency which became the regulator of the FHLBs.

FHLB Act: The Federal Home Loan Bank Act of 1932, as amended.

FHLBs: The 11 Federal Home Loan Banks or subset thereof.

FHLB System: The 11 FHLBs and the Office of Finance.

FHLBC: The Federal Home Loan Bank of Chicago.

FHLB Chicago: The Federal Home Loan Bank of Chicago.

FLA: First loss account is a memo account used to track the MPF Bank's exposure to losses until the CE Amount is available to cover losses.

Freddie Mac: Federal Home Loan Mortgage Corporation.

GAAP: Generally accepted accounting principles in the United States of America.

Ginnie Mae: Government National Mortgage Association.

Ginnie Mae MBS: Mortgage-backed securities guaranteed by Ginnie Mae.

Government Loans: Mortgage loans insured or guaranteed by the Federal Housing Administration (FHA), the Department of Housing and Urban Development (HUD), the Department of Veteran Affairs (VA) or Department of Agriculture Rural Housing Service (RHS).

GSE: Government sponsored enterprise.

HFS: Held for sale.

HTM: Held-to-maturity securities.

LIBOR: London Interbank Offered Rate.

Master Commitment (MC): Pool of MPF Loans purchased or funded by an MPF Bank.

MBS: Mortgage-backed securities.

Moody's: Moody's Investors Service.

MPF®: Mortgage Partnership Finance.

MPF Banks: FHLBs that participate in the MPF program.

MPF Direct product: The MPF Program product under which we acquire non-conforming (jumbo) MPF Loans from PFIs without any CE Amount and concurrently resell them to a third party investor.

MPF Government MBS product: The MPF Program product under which we aggregate Government Loans acquired from PFIs in order to issue securities guaranteed by the Ginnie Mae that are backed by such Government Loans.

MPF Guides: MPF Program Guide, MPF Selling Guide, and MPF Servicing Guide including the Selling and Servicing Guides and manuals for specific MPF Loan products.

MPF Loans: Conventional and government mortgage loans secured by one-to-four family residential properties with maturities from five to 30 years or participations in such mortgage loans that are acquired under the MPF Program.

MPF Program: A secondary mortgage market structure that provides liquidity to FHLB members that are PFIs through the purchase or funding by an FHLB of MPF Loans.

MPF Xtra® product: The MPF Program product under which we acquire MPF Loans from PFIs without any CE Amount and concurrently resell them to Fannie Mae.

MRCS: Mandatorily redeemable capital stock.

Office of Finance: A joint office of the FHLBs established by the Finance Board to facilitate issuing and servicing of consolidated obligations.

OTTI: Other-than-temporary impairment.

PFI: Participating Financial Institution. A PFI is a member (or eligible housing associate) of an MPF Bank that has applied to and been accepted to do business with its MPF Bank under the MPF Program.

PMI: Primary Mortgage Insurance.

PwC: PricewaterhouseCoopers LLP.

RCAP: Reduced Capitalization Advance Program.

Recorded Investment: Recorded investment in a loan is its amortized cost basis plus related accrued interest receivable, if any. Recorded investment is not net of an allowance for credit losses but is net of any direct charge-off on a loan. Amortized cost basis is defined as either the amount funded or the cost to purchase MPF Loans. Specifically, the amortized cost basis includes the initial fair value amount of the delivery commitment as of the purchase or settlement date, agent fees (i.e., market risk premiums or discounts paid to or received from PFIs), if any, subsequently adjusted, if applicable, for accretion, amortization, collection of cash, charge-offs, and cumulative basis adjustments related to fair value hedges.

Recoverable CE Fee: Under the MPF Program, the PFI may receive a contingent performance based credit enhancement fee whereby such fees are reduced up to the amount of the FLA by losses arising under the Master Commitment.

Regulatory capital: Regulatory capital stock plus retained earnings.

Regulatory capital stock: The sum of the paid-in value of capital stock and mandatorily redeemable capital stock.

REO: Real estate owned.

SEC: Securities and Exchange Commission.

SMI: Supplemental mortgage insurance.

System or FHLB System: The Federal Home Loan Bank System consisting of the 11 Federal Home Loan Banks and the Office of Finance.

UPB: Unpaid Principal Balance.

U.S.: United States
